The 15th May 1900.—Whereas an application has been made by Babu Pitamber Deb, proprietor of Killa Aul, in the district of Cuttack, for a survey and the preparation of a record of rights in respect of the lands situated in parganas Aul and Utibar within that Killa, of which he is the sole proprietor, and whereas the said proprietor has deposited Rs. 10,746 (*i e.*, Rs. 7,000 deposited by him and Rs. 3,746 by his late father, the former proprietor) towards ho cost of the operations, and has executed a security bond for the payment of all costs up to a total of Rs. 35,000 that may be incurred over and above that sum:

In exercise of the powers conferred by section 101 of the Bengal Tenancy Act, VIII of 1885, as amended by the Bengal Tenancy Amendment Act of 1898, the Lieutenant-Governor is pleased to direct that a survey shall be made and a record of rights prepared in respect of all lands situated within the limits of those two parganas, for which a record of rights has not already been prepared under Notification No. 4459L.R., dated 20th December 1892, published at page 1149 of the *Calcutta Gazette* of the 21st idem.

The particulars to be recorded in the survey and record of rights shall be the following:—

(*a*) The name of each tenant or occupant.

(*b*) The class to which each tenant belongs, that is to say, whether he is a tenure-holder, raiyat holding at fixed rates, settled raiyat, occupancy raiyat, non-occupancy raiyat or under-raiyat, and if he is a tenure-holder, whether he is a permanent tenure-holder or not, and whether his rent is liable to enhancement during the continuance or his tenure.

(*c*) The situation and quantity and one or more of the boundaries of the land held by each tenant or occupier.

(*d*) The name of each tenant's landlord.

(*e*) The rent payable at the time the record of rights is being prepared.

(*f*) The mode in which that rent has been fixed, whether by contract, by order of a Court, or otherwise.
(*g*) If the rent is a gradually increasing rent, the time at which, and the step by which, it increases.
(*h*) The special conditions and incidents, if any, of the tenancy.
(*i*) If the land is claimed to be held rent-free, whether or not rent is actually paid, and if not paid, whether or not the occupant is entitled to hold the land without payment of rent, and, if so entitled, under what authority.
(*j*) The name of each proprietor with the character and extent of his interest, and the situation, quantity and boundaries of the private lands held by the proprietors as defined in Chapter X of the Act.

This cancels Notification No. 1262L.R., dated 13th March 1900, published in the *Calcutta Gazette* of 14th March 1900, and also Notification No. 767L.R., dated 7th February 1894, published in the *Calcutta Gazette* of the 14th February 1894, and Notification No. 1855L.R., dated 17th April 1893, published in the *Calcutta Gazette* of 19th April 1893.

D. JOSCELYNE,
Secy. to the Govt. of Bengal.

MARINE DEPARTMENT.

The 15th May 1900.

No. 94Marine.—In exercise of the powers conferred on him by section 50A of the Inland Steam-vessels Act, VI of 1884, as amended by Act VII of 1899, and in supersession of this Department's Notification No. 51Marine, dated 20th March 1899, the Lieutenant-Governor proposes to make the following rules for the protection of inland vessels from collision. These rules will be taken into consideration on the expiry of a month from the date of their publication in the *Calcutta Gazette*, and the Lieutenant-Governor will be glad to consider any suggestions or observations that may be made by any person concerning them within that period.

D. B. HORN,
Offg. Secy. to the Govt. of Bengal.

These rules are applicable to, and shall be followed by, all inland steam-vessels and all other vessels hereinafter specified on all inland waters in Bengal on which steam-vessels ply.

Preliminary.

For the purposes of these rules,—

(*a*) a vessel shall be deemed to be "under way" when she is not at anchor or made fast to the shore or aground; and

(*b*) the word "visible" when applied to lights shall mean visible on a dark night with clear atmosphere.

Rules concerning lights, &c.

Article 1.—The rules concerning lights shall be complied with in all weathers from sunset to sunrise, and during such time no other lights which may be mistaken for the prescribed lights shall be exhibited.

Article 2 (*1*).—All steam-vessels when under way shall carry—

(*a*) in the forepart of the vessel above the awning roof a bright white light, so constructed as to show an unbroken light over an arc of the horizon of 20 points of the compass, so fixed as to throw the light 10 points on each side of the vessel, viz., from right ahead to 2 points abaft the beam on either side, and of such a character as to be visible at a distance of at least 2 miles;

(*b*) on the starboard side a green light so constructed as to show an unbroken light over an arc of the horizon of 10 points of the compass, so fixed as to throw the light from right ahead to two points abaft the beam on the starboard side, and of such a character as to be visible at a distance of at least 1 mile;

(c) on the port side a red light so constructed as to show an unbroken light over an arc of the horizon of 10 points of the compass, so fixed as to throw the light from right ahead to 2 points abaft the beam on the port side, and of such a character as to be visible at a distance of at least 1 mile.

(2) The said green and red side-lights shall be fitted with inboard screens projecting at least 3 feet forward from the light, so as to prevent these lights from being seen across the bow.

Article 3.—A steam-vessel, when towing other vessels which are lashed alongside, shall have the white masthead light and the red and green side-lights so placed that they will be visible as set forth in Article 2 (1).

Article 4.—All vessels under oars or sails, when under way, shall not be obliged to carry the lights mentioned in Article 2 (1) (a), (b) and (c); but if they do not carry them, they shall have ready at hand a lantern with a white light which shall be exhibited in time to prevent a collision.

Article 5.—A vessel, which is being overtaken by another, shall show from her stern to such last-mentioned vessel a white light.

Article 6.—Every vessel, when at anchor, shall carry, where it can best be seen, a white light in a lantern so constructed as to show a clear, uniform an unbroken light visible all round at a distance of at least one mile.

A vessel aground in or near a fairway shall carry the above light.

Sound-signals for Fog, etc.

Article 7.—All signals prescribed by this article for steam-vessels under way shall be given on the whistle or siren.

The words "prolonged blast" used in these rules shall mean a blast of from 4 to 6 seconds' duration.

A steam-vessel shall be provided with an efficient whistle or siren, sounded by steam or some substitute for steam, so placed that the sound may not be intercepted by any obstruction, and also with an efficient bell.

In fog, mist, or heavy rain-storms, whether by day or by night, the signals described in this article shall be used as follows, viz.:—

(a) A steam-vessel having way upon her shall sound, at intervals of not more than two minutes, a prolonged blast.

(b) A steam-vessel under way, but stopped and having no way upon her, shall sound, at intervals of not more than two minutes, two prolonged blasts, with an interval of about one second between them.

(c) A steam-vessel, when at anchor, shall, at intervals of not more than one minute, ring the bell rapidly for about five seconds.

One prolonged blast should be given to convey a warning in the following cases:—

(a) When a steam-vessel approaches her destination.

(b) To attract the attention of other vessels, especially native craft.

(c) On approaching a bend in the channel.

Speed of Ships to be moderate in Fog, &c.

Article 8.—Every steam-vessel shall, in a fog, mist, or heavy rain-storms, go at a moderate speed, having careful regard to the existing circumstances and condition.

A steam-vessel hearing, apparently forward of her beam, the fog-signal of any other vessel, the position of which is not ascertained, shall, so far as the circumstances of the case admit, stop her engines, and then navigate with caution until danger of collision is over.

STEERING AND SAILING RULES.

Preliminary—Risk of Collision.

Article 9.—When two steam-vessels are meeting end on, or nearly end on, so as to involve risk of collision, each shall alter her course to starboard, so that each may pass on the port side of the other.

This article only applies to cases where vessels are meeting end on, or nearly end on, in such a manner as to involve risk of collision, and does not apply to two vessels which must, if both keep on their respective courses, pass clear of each other.

The only cases to which it does apply are when each of the two vessels is end on, or nearly end on, to the other; and, by night, to cases in which each vessel is in such a position as to see both the side-lights of the other.

It does not apply, by day, to cases in which a vessel sees another ahead crossing her own course, or by night to cases where the red light of one vessel is opposed to the red light of the other, or where the green light of one vessel is opposed to the green light of the other, or where a red light without a green light, or a green light without a red light is seen ahead, or where both green and red lights are seen anywhere but ahead.

Article 10.—When two steam-vessels are crossing, so as to involve risk of collision, the vessel which has the other on her own starboard side shall keep out of the way of the other.

Article 11.—When a steam-vessel and sailing vessel are proceeding in such directions as to involve risk of collision, the steam-vessel shall keep out of the way of the sailing vessel.

Article 12.—Where by any of those rules one of two vessels is to keep out of the way, the other shall keep her course and speed:

Provided that when in consequence of thick weather or other cause, the vessel which should be given way to finds herself so close that collision cannot be avoided by the action of the giving-way vessel alone, she also shall take such action as well best aid to avert collision.

Article 13.—Every steam-vessel, which is directed by these rules to keep out of the way of another vessel, shall, if the circumstances of the case admit, avoid crossing ahead of the other.

Article 14.—Every steam-vessel, which is directed by these rules to keep out of the way of another vessel, shall on approaching her, if necessary, slacken her speed or stop or reverse.

Article 15.—Notwithstanding anything contained in these rules, every steam-vessel overtaking any other shall keep out of the way of the overtaken vessel.

Every steam-vessel coming up with another vessel from any direction more than two points abaft her beam, *i.e.*, in such a position with reference to the vessel which she is overtaking, that at night she would be unable to see either of that vessel's side-lights, shall be deemed to be an overtaking vessel; and no subsequent alteration of the bearing between the two vessels small make the overtaking vessel a crossing vessel within the meaning of these rules, or relieve her of the duty of keeping clear of the overtaken vessel until she is finally past and clear.

As by day the overtaking vessel cannot always know with certainty whether she is forward of or abaft this direction from the other vessel, she should, if in doubt, assume that she is an overtaking vessel and keep out of the way.

Article 16.—In narrow channels every steam-vessel shall, when it is safe and practicable, keep to that side of the fairway or mid-channel which lies on the starboard side of such vessel.

Article 17.—In obeying and construing these rules, due regard shall be had to all dangers of navigation and collision, and to any special circumstances which may render a departure from the above rules necessary in order to avoid immediate danger.

SOUND SIGNALS FOR VESSELS IN SIGHT OF ONE ANOTHER.

Article 18.—The words "short blast" used in these rules shall mean a blast of about one second's duration.

Every steam-vessel under way shall, when in sight of any other vessel in taking any course authorised or required by these rules, indicate that course by the following signals on her whistle or siren, viz.:—

One short blast to mean, "I am directing my course to starboard."
Two short blasts to mean, "I am directing my course to port."
Three short blasts to mean, "My engines are going full speed astern."

PROPER PRECAUTIONS TO BE TAKEN IN ALL CASES.

Article 19.—Nothing in these rules shall exonerate the owner, or master, or crew of any steam-vessel from the consequences of any neglect to carry lights or signals, or of any neglect to keep a proper look-out, or of the neglect of any precaution which may be required by the ordinary practice of seamen, or by the special circumstances of the case.

Article 20.—If two steam-vessels, with or without vessels in tow, meet in a narrow channel or rounding a point, or in a place where the presence of a third vessel makes it difficult to pass, the one going against the tide shall slacken her speed until the other has cleared the difficulty.

Article 21.—In rivers that are so narrow that they will not allow two steam-vessels meeting with flats in tow to pass each other without one of them making fast to the bank, the steamer going with the tide shall make fast to allow the one going against the stream to pass her.

Article 22.—No steam-vessel shall attempt to strive or race against another. When steam-vessels are proceeding in the same direction, but with unequal speed, the vessel which is steaming slowest shall, in the narrow reaches of a river, offer no obstruction whatever by crossing the channel or otherwise to the free passage of the faster vessel, and shall ease and, if necessary, stop the engines as soon as the faster vessel comes abreast in order to allow her to freely pass. The Master or Pilot of the faster vessel, if intending to pass, shall intimate such approach by a prolonged blast from his steam whistle. But no vessel will be justified in passing such vessel at any of the turning points or bends of a river, nor in a part of the channel so narrow that a third vessel could not with safety pass them.

Article 23.—Steam-vessels crossing from one side of the river to the other shall keep out of the way of vessels navigating up and down the river.

PENALTY FOR DISOBEDIENCE OF THE RULES.

Article 24.—Any person committing a breach of any of these rules shall, for each offence, be punished with imprisonment for a term which may extend to six months, or with fine which may extend to five hundred rupees, or with both.

EDUCATIONAL PROSPECTUS.

THE Calcutta Medical College Session, 1900-1901, will commence on the 15th June next. Students who may be desirous of commencing their studies are requested to apply to the Principal between the hours of 11 A.M. and 4 P.M. before 1st June.

Those students who may be selected are expected to enter formally and commence attendance at the College upon the 15th, and none will be admitted at any later date.

2. No person shall be enrolled as a matriculated student who has not previously passed the First Arts examination of the Calcutta or an Indian University, or a preliminary Arts examination of the United Kingdom recognised by the British General Medical Council.

3. All matriculated students of the College must pay Rs. 15 on entrance, Rs. 35 on the 1st June, and Rs. 35 on 1st November of each year. Rs. 6 extra will be required from each student for each course of dissections. Fees once paid cannot be refunded.

Muhammadan students are required to pay Rs 15 on entrance and half fee, *i.e.*, Rs. 17-8, per session. The remaining half fees are charged to the Mohsin Fund.

4 No free presentations will be awarded at the beginning of the session, but the fees shall be refunded to the 10 students who passed highest in all subjects at the end of their first year of study.

5. Any matriculated student of the College may, with the permission of the Principal and the Professor of the subject, attend courses of lectures or departments of hospital practice in addition to the full curriculum for the year, and shall be entitled to certificates of attendance at such extra lectures, if the Professor is satisfied that he or she has really studied the subject. The fees payable in advance for such additional courses are the following:—

	Rs.
For a single course of lectures on each subject in one year ...	40
For six months' attendance in each department of hospital practice ...	60

6. Any matriculated student who leaves the College before completing his University course, with the object of continuing his studies at a medical school in Europe, may receive certificates of attendance at lectures on payment of fees at the rate fixed in the foregoing rule, provided the Professor is satisfied that he or she has really studied the subject. But in calculating the sum to be so paid, the amount of the fees already paid by him as a regular student, or, in the case of a free student, the amount which would have been paid by him had he been a paying student, shall be deducted.

7. Any person not being a matriculated student of the College who wishes to attend any course of lectures, or any department of hospital practice, may do so with the permission of the Principal and Professor of the subject on payment, in advance, of fees at the rates fixed in paragraph 5. If he has passed the Entrance examination of the University, he shall receive certificates of attendance at lectures, provided the Professor is satisfied that he or she

has really studied the subject. If he has not passed the Entrance examination, he shall receive no class certificates.

8. At the end of their first year, students will be required to pass a college test examination in Anatomy, Chemistry, and Botany. Those who gain not less than 20 per cent. in two subjects, and not less than 15 per cent. in a third, will be eligible for promotion to the second-year class. Those who fail to gain the aforesaid percentage of marks will not be eligible for promotion, but will go through the first-year class again.

9. Students of the second year will be required to pass a College test examination in Anatomy, Physiology, and Materia Medica. Those who pass the examination with 20 per cent. in two subjects and 15 per cent. in a third will be entitled to go up in the following March or April for the Preliminary Scientific Examination of the Calcutta University, the subjects of which are Chemistry and Botany. Those who (after passing the College test) fail at the University examination will be entitled, equally with those who pass it, to join the third-year class, at the end of which the former will have to present themselves, as at present, for the combined Preliminary Scientific and 1st L.M.S. (or 1st M.B.) examination.

10. Those students who fail at the College test examination of the second year will not be debarred from going up for the Preliminary Scientific examination, but will be encouraged to do so in order to get that stage over; but whether they pass or fail at the University examination, they will be relegated for a further year to the second year-class, provided that those who pass the University examination will not be required to attend the courses in those subjects in which they have passed.

11. Students of the third year will present themselves for the 1st L.M.S. or 1st M.B. examination of the Calcutta University. Those who fail at this examination will be relegated for a further year to the third-year class.

12. Students of the first or second-year class who fail a second time, at the same stage, to gain promotion to the next higher class, will be removed from the College and will not be entitled to re-admission. Third-year students who fail a second time will be liable to removal from the College; but if they are specially recommended by the Principal, they may again be relegated to the third-year class, on payment of the fees laid down in Rule 16, and re-admitted to the 1st L.M.S. or 1st M.B. examination, and this concession may be allowed for any number of years at the discretion of the Principal.

13. Students of the fourth-year class will be required to pass a College test examination in Surgery, Medicine, Midwifery, and Medical Jurisprudence. Those who pass the examination with 20 per cent. of the marks in three subjects, and 15 per cent. in a fourth, will be eligible for promotion to the fifth-year class. Those who fail will be relegated to the fourth-year class for a further year. The examination in Surgery and Medicine will be both theoretical and clinical; but those students who can obtain from the Visiting Surgeon or Physician to whose wards they have been attached, a certificate that they have really profited by their instruction in either subject, will be excused the clinical examination in that subject.

14. Students who fail at the 2nd L.M.S. or 2nd M.B. examination will have to attend a further course of lectures in the subject or subjects in which they have failed, in accordance with the regulations of the University.

15. The Principal will determine the maximum number that may be admitted to the first-year class. Students who have failed at the test examination of the first year will have a prior claim to re-admission over new students.

16. Students re-admitted to a class after failure at the test examination will be required to pay half the regular fee for the session (Rs. 35), but extra fees as for dissection (Rs. 6) in full. The half fee must be paid at the commencement of the session in June. Those, however, who, after failing either at the preliminary Scientific Examination or at the final examination have to attend a further course of lectures in the subject or subjects in which they failed, shall be required to pay for such lectures a fee of Rs. 20 for one subject, Rs. 30 for two, and Rs. 35 for three. Exceptions to this latter rule may be made in special cases by Inspector-General of Civil Hospitals on the recommendation of the Principal

17. College prizes and certificates of honour are open for competition to matriculated students of the College, military medical pupils, and females certificate classes. College scholarships (*vide* paragraph 18) are awarded only to matriculated students of the College.

18. Junior scholarships of Rs. 8 per mensem and free tuition for one year are annually awarded to ten students of the second year, on the results of the Test and Honour examinations at the end of the first year.

Scholarships of the same value are awarded to ten students at the commencement of their third year, on the results of the Test and Honour examinations at the end of their second year, provided they have passed either the Preliminary Scientific L.M.S. or M.B. examination.

Ten senior scholarships of Rs. 12 per mensem and free tuition are awarded annually to students at the commencement of their fourth year, on the results of the Test and Honour examinations at the end of their third year, provided they have passed either the 1st L.M.S. or 1st M.B. examination. These scholarships are tenable for two years, provided the holder passes creditably the Test and Honour examinations at the end of his fourth year. In the event of any scholarship being forfeited under this condition, it may be awarded for one year to any student of the fifth year who has fulfilled the conditions and is not the holder of any scholarship. These scholarships shall not be awarded to students who have gained the Durga Charan Laha scholarship of Rs. 30 per mensum or any other scholarship.

Students who from any cause fail to pass their College Test and University examinations at their first chance are not eligible for any of these scholarships, either junior or senior.

19. The Goodeve scholarship of Rs. 12 per mensem, tenable for one year, is annually awarded to a matriculated student of the fifth year, on the result of the Midwifery test examination of the fourth year.

The F. C. Chatterjee scholarship of Rs. 15 per mensem, tenable for a year, is annually awarded to the best matriculated student of Native Indian extraction, and whose conduct is certified to be good, in Histology at the end of the fourth year. The examination takes place in June each year.

The Abdul Gunny scholarship of Rs. 22 per mensem, tenable for one year, is annually awarded at the end of the fourth year to the best matriculated student in all subjects at the class examinations of the first to fourth year inclusive. The award is made in May.

The Duke of Edinburgh's prize is awarded to the best in Surgery among the matriculated students at the end of the fourth and fifth years. The examination takes place in December or January.

The Bhola Nath Bose's prize of Rs. 35 is awarded to the fourth-year matriculated student who proves himself to be the most successful at bedside diagnosis of disease in Surgery and Medicine in alternate years. The award is made in January.

A gold medal and certificates of honour are awarded to the best students in each subject at the Test and Honour examinations.

The Goodeve and Macnamara silver medals are awarded to the best of the first-year native students in Anatomy and Chemistry, respectively, on the result of the Test and Honour examinations.

A prize in Clinical Medicine is awarded annually to the best clinical clerk of the fourth and fifth-year matriculated students. This examination takes place in February.

A prize in Clinical Surgery is awarded annually to the best clinical dresser of the fourth and fifth-year matriculated students. This examination will be held in February.

The Rivers Thompson silver medal is annually awarded to the best Muhammadan student who passes the final L.M.S. or M.B. examination of the Calcutta University.

The Lady Rivers Thomson prize of Rs 50 is awarded to the lady student who obtains the highest number of marks at the final examination.

No student shall be allowed to complete for a prize when attending a course in excess of the number prescribed in the College curriculum.

20. College scholars who receive less than Rs. 20 per mensem are not required to pay Rs. 85 per session. All other scholars shall pay fees as matriculated students These may pay their fees in advance, or have their scholarship money deducted till the full amount is received.

21. Any student holding a Medical College scholarship (paragraph 18) will be permitted to draw the stipends of that scholarship at any recognized medical school in the United Kingdom, provided he furnishes from the head of such school a certificate of good conduct and diligence. These College classes are recognized by all the medical schools in the United Kingdom.

30. RULES FOR THE CONDUCT OF PERIODICAL EXAMINATIONS.

(1) *Test* examinations at the end of the—

1st year.

(*a*) Military pupils who obtain less than 20 per cent. of marks in one subject to be "warned" and informed that failure in the same subject at the end of the second year will entail liability to removal from College.

(*b*) Pupils who fail as above in two subjects will lose 200 conduct marks for idleness and will be re-examined two weeks before the commencement of the next session. Failure then in obtaining 15 per cent. of marks in either of the subjects will entail liability to removal.

(*c*) Pupils who fail to get 10 per cent. as above in three subjects will be removed from the College as being unlikely to succeed eventually.

(2) *Pass* examinations at the end of the—

2nd year.

(*a*) Military pupils who obtain less than 20 per cent. of marks in one subject will, if practicable, attend lectures on this subject and be re-examined at the end of the next session. Failure again in the same subject will render pupils liable to removal.

(*b*) Pupils who fail in two subjects will lose 200 conduct marks for idleness, and will, if practicable, attend lectures on these subjects, and be re-examined at the end of the next session. Failure in either subject will entail liability to removal.

(*c*) Pupils who fail to attain the standard in three subjects will be removed from the College

(3) *Pass* and *Test* examinations at the end of the—

3rd year.

(*a*) Pupils who fail to obtain 20 per cent. of marks in either or both of the *final* subjects for the third year (viz., Hygiene and Pathology) will lose 200 conduct marks, and be re-examined at the end of the next session.

(*b*) Pupils who do not obtain 10 per cent. of marks in any of the *test* examinations (the other subjects) will lose 200 conduct marks for idleness for each subject in which they so fail.

(4) *Pass* examinations at the end of the—

4th year.

(*a*) Pupils who obtain less than 20 per cent. of marks in all subjects of their final examination will be liable to removal from the College. Such pupils will, however, be allowed to remain for a further period (to be fixed by the Principal in each case) in the College to continue their studies *at their own expense.*

31. FEMALE CERTIFICATE CLASS.

Lady students must be over 17 years of age before commencing their studies.

They must have passed the Entrance examination of the Calcutta University or an examination officially recognized by that University as equivalent to the Entrance examination. (The certificate of matriculation of the Melbourne University will be accepted.)

New students are expected, at latest, to enter formally and commence attendance at the College when the session opens on 15th June.

The duration of the course will be four years.

Tuition will be free.

32. Students, preferably native ladies, may reside in the Sornomoye Hostel. Applications for residence must be made to the Lady Superintendent of the Hostel, or to the Secretary to the Countess of Dufferin Fund, Bengal Branch, and not to the Principal of the Medical College.

33. The following is the curriculum:—

1st year.
Anatomy.
Materia Medica.
Dissections.
Chemistry (30 elementary lectures).
Compounding (six months).
Test examinations in Anatomy, Materia Medica, and Chemistry.

2nd year.
Anatomy.
Physiology (elementary).

Pass examinations in Pathology, Physiology, and Medical Jurisprudence.

4th year.
Medicine and Clinical Medicine.
Surgery and Clinical surgery.
Midwifery (including six labour cases).
Hospital practice (of which six months in the Medical and Surgical wards *minus* 15 attendances at the Dental Dispensary; and six months exclusively in the Midwifery wards, when the students are to take regular turns of duty, night and day, assisting in the regular work of the hospital).
Dentistry (optional).
Pass examinations in Medicine, Surgery, and Midwifery.

Students who are successful are entitled to receive the certificate of the College qualifying them to practise Medicine, Surgery, and Midwifery. A fee of Rs. 10 is charged for each certificate.

34. The following rules will be observed in regulating advancement from class to class:—

(1) *Test examination at the end of the first year.*—If a student obtains less than 10 per cent. of the marks in any two out of three subjects of examination, she shall not be allowed to continue in the College.

(2) *Pass examinations at the end of the second and third years.*—In order to pass, a student must gain 33 per cent. in each subject of examination. If a student fails in any two of the three subjects, or failing in one subject only, if she gains less than 25 per cent. in that subject, she shall be put back for one year. If she fails in one subject only, gaining 25

per cent. or more in that subject, she shall be promoted to the next class, but will be required to submit to re-examination in that subject in addition to the examination in the regular subjects, at the end of the following year. She will be permitted to attend lectures on the subject in which she has failed. Failure on re-examination will carry the same penalty as original failure.

(3) *Pass examination at the end of the fourth year.*—The same rules as apply to the previous pass examinations, with the exception that if a student, failing in one subject only, gains 25 per cent. in that subject, she will be referred back to her studies for a period of six months, at the expiration of which she will be entitled to re-examination, after furnishing proof of having attended hospital practice during that period.

MIDWIVES AND DAIS.

35. Women who have a fair knowledge of English, but who have not passed the Entrance or its equivalents, will be admitted into the Eden Hospital to learn Midwifery. The Government grants Rs. 20 per mensem towards the board, washing, &c., of each pupil, and gives them free quarters. After a year's tuition and bedside practice, if found proficient, they will obtain a certificate qualifying them to practise midwifery. The fee for each certificate is Rs. 5. They are expected to do general nursing in the wards as well as midwifery.

36. Women who have not passed the Entrance or its equivalents, but who can read and write Bengali, can be admitted into the Eden Hospital as pupil dais. The Government grants Rs. 6 each per mensem to eight pupils towards their board, washing, &c., and gives them free quarters. After 12 months' tuition and bedside practice, if found proficient, they will obtain a certificate qualifying them to practise midwifery. They are expected to do general nursing in the wards as well as midwifery.

37. Candidates (midwives and dais) should apply for admission to the Sister of the Eden Hospital.

MEDICAL COLLEGE OFFICE; G. BOMFORD, M.D., *Lt.-Col.*, I.M.S.,

"Book-keeping" by double and single entry, by W. Ingl's (Chambers' Educational Course).

The examination is held annually at the Civil Engineering College, Sibpur, on the 1st Monday in July. The examination will be conducted either at the College or by an Examiner, Public Works Accounts (including Railway and Telegraph), in Bengal, Assam and Burma only. The examination will be *ipso facto* vitiated if it be not held (begun and completed) on the dates fixed; but the officer who will conduct the examination may make his own arrangements in regard to the *place* and *hour* of examination with the candidates.

Candidates will not be examined in any of the Calcutta offices.

A candidate already in permanent Government employ* may be allowed to compete in the examination even if he is more than 25 years of age, and may be appointed to an accountantship if he passes it; but if he is not already in pensionable service, he will be eligible only for appointment to the non-pensionable establishment on State Railways.

* This term includes employment under Local Boards and foreign bodies if such is pensionable by the British Government.

2. The candidate should apply to an Examiner of Public Works Accounts not later than 30 days previous to the date fixed for the examination and obtain his consent to conduct the examination, if examination at the College is not convenient. The application must bear the address of the candidate, must be accompanied by a fee of Rs. 10 and the following certificates, and must be forwarded by him, not direct to the Principal, but through the Examiner.

Certificates may be submitted in original, or true copies attested by an officer of the Engineer or Accounts Branch, but none will be returned :—

(1) Certificate of good character signed by applicant's immediate official superior, or by the instructor under whom he has been educated, or by some other superior under whom he may have been brought up or employed, or to whom he may be well known. (This certificate must have special reference to the two years immediately preceding the application.)

(2) Certificate of age (baptismal or of birth not required if the candidate is already in permanent Government employ).

(3) Certificate that the application is in the candidate's hand-writing.

NOTE.—A candidate already in Government service should, in like manner, submit his application through his immediate official superior to an Examiner of Accounts qualified to hold the particular examination, and should state whether he desires to be examined at the office of the Examiner of Accounts concerned or at the College.

It will rest with the Examiner of Accounts, to whom the candidate submits his application, to decide, on a consideration of the certificates submitted, whether the candidate should be allowed to appear for the examination or whether his application should be rejected. The Examiner of Accounts will then forward to the Principal for registration the names of the accepted candidates. The names of these candidates should be entered in a statement showing their ages and their addresses, and also showing where each candidate is to be examined, whether at the College or at the office of the Examiner of Accounts. This statement, together with the fees, should be transmitted to the Principal not later than 15 days after the dates fixed in paragraph 2 for the submission of applications of candidates.

3. Examination papers that are issued for examination need not be returned.

4. Each examination is complete in itself. A candidate who has failed in an examination and presents himself for examination on a subsequent occasion must undergo the full examination and furnish fresh fee and certificates.

5. Passed candidates should apply, not to the Principal of the College, nor to the Accountant-General, Public Works Department, but direct to the Examiner of Public Works Accounts in the province or railway under whom they may desire to be employed.

6. It must be distinctly understood that the passing of this examination does not give any claim to an appointment, and that in making appointments preference will be given to qualified persons who are already employed in the Department.

7. The Civil Engineering College acts solely as an examining body in reference to admission to the fourth grade of Accountants, Public Works Department.

Notice under Rule 19, Section II.

NOTICE is hereby given that the lease of the land specified in the Schedule hereunto annexed, and of which the plan is open to inspection at the office of the Commissioner of the Sundarbans, has been applied for by Krishna Prosad Giri and others, and will be sold at 12 o'clock noon on the 4th August 1900, Saturday, the 20th Sraban 1307B.S., at the Sundarbans Commissioner's office at Alipur, unless meantime the sale is stopped or postponed in consequence of claims or objections under Act XXIII of 1863 (to provide for the adjudication of claims to waste lands), or owing to any other cause.

2. The lease of the land will be granted subject to the conditions which are specified below, as well as to the general terms annexed to the rules for the sale of leases of waste lands in the Sundarbans of the 24-Parganas, Khulna, and Backergunge, dated 12th November 1879:—

Conditions.

That the land shall be subject to all existing rights of way and water and other easements.

That the right of using all streams and channels in any way navigable shall be reserved to the public, as also the use of a towpath, not less than 25 feet in width, on each side of every such stream and channel.

That no charge will be made for wood and timber standing on the land at the time it is leased, nor for any wood which may be cut and burnt to effect clearances, or which may be used on the land; but for wood and timber exported for sale, a duty shall be levied at such rate and in such manner as may from time to time be prescribed by Government.

That the Government reserves to itself the right to all minerals on the land, together with such rights of way and other reasonable facilities as may be requisite for working, getting, and carrying away such minerals. It also retains its proprietary right in the land, and only confers on the lessee an occupancy right, which shall be hereditary and transferable.

H. WALMSLEY, Offg. Collector.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estate, situate in the district of Pabna, will be put up to sale at the Pabna Collectorate on the 28th June 1900, corresponding with 14th Ashar 1307 (B.S.)

The purchasers will be subject to the following conditions of sale :—

Conditions of Sale.

1st.—The estate to be sold to the highest bidder above the upset price, which will be fixed by the Collector at the time of sale. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him, subject to the revenue fixed in perpetuity.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the 15th day after the sale, reckoning the day of sale as one, or, if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

The Indian Law Reports.

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1889 the terms of subscription and sale will be as follows for current issues as well as for back numbers of the reports from 1876:—

Terms of subscription payable annually in advance.

Accountant-General, Bengal.

RESOLUTION ON THE REPORT ON THE WORKING OF THE LUNATIC ASYLUMS IN BENGAL FOR THE YEAR 1899.

MUNICIPAL DEPARTMENT.—MEDICAL.

Darjeeling, the 7th May 1900.

RESOLUTION—No. 448T.—M.

The Report on the Lunatic Asylums in Bengal for the year 1899.

The Report for the year 1898, and the Resolution recorded by Government upon it.

The number of patients in the five native asylums during the past two years and the main facts regarding them are shown in the following statement:—

		1898.	1899.

2. The total number of admissions was 202 against 144 in the previous year. The increase was common to all the asylums, except Patna, and was most marked at Dullunda and Berhampore. Of the 220 lunatics admitted and re-admitted during the year, 117 were criminals against 78 in 1898, the largest number on record during the last ten years. These figures seem to show that the orders of Government, directing the exercise of a wise discretion in sending harmless lunatics, whether criminal or non-criminal, to asylums, are not being fully complied with, and the attention of the local officers will again be drawn to them. The total number of criminal lunatics remaining in confinement on the 31st December 1899 was 476. Of these 181 had been tried and acquitted on the ground of insanity, 259 were detained as incapable of making a defence, and 36 had become insane while in jail. The numbers of these three classes in 1898 were 184, 260 and 33, respectively.

3. There was a very satisfactory increase in the number of recoveries from 71 last year to 110 this year. The percentage of recoveries on the daily average number of patients was considerably higher in all the asylums, except Dullunda.

4. No change was made in the capacity of the asylums during the year. There was a slight overcrowding at Dacca and Patna, which was promptly relieved by transferring some of the patients to other asylums.

5. Of the 220 admissions, 128 are classified under mania, 39 under melancholia, 11 under idiocy, and the remainder under various other types. Seventy-six cases are attributed to physical causes, 26 to moral causes, and in 118 cases the causes were unknown. Of the 76 cases attributed to physical causes, 44 are ascribed to ganja-smoking, 6 to spirit-drinking, 13 to heredity, 5 to epilepsy, 3 to fever, and 5 to other causes. It is reported that there has been no improvement in the preparation of the medical history sheets of the lunatics, and the attention of the local authorities will again be drawn to the necessity of preparing these documents carefully and transmitting them with the lunatics.

6. The Lieutenant-Governor is glad to notice a further reduction in the number of admissions to hospital, which fell from 620 to 576. The average daily number of sick shows a decrease from 104·83 to 86·21. The death-rate was, however, higher than the last year, being 9·63 against 7·91. The number of deaths was remarkably large in the Patna Asylum, and is attributed to the general unhealthiness of the town and district. The system of infirm gangs is said to have worked satisfactorily at Dullunda and Dacca, while in the Patna and Berhampore Asylums no special results have been achieved from it. Judging, however, from the results obtained at Dacca, the Lieutenant-Governor agrees in the opinion expressed by Colonel Hendley that the system serves to keep off serious diseases, and that it should be given a thorough trial in all the asylums.

7. The number of injuries and accidents rose from 17 to 24. Three of these ended fatally. In all these cases judicial enquiries were held, but none of the asylum staff were found to blame. There was also a case of suicide in the Cuttack Asylum where a lunatic hanged himself against the bar of a window in his cell. There were two escapes—one from Patna and the other from Berhampore. In both instances the lunatics were recaptured and the warders in fault punished.

8. The income and expenditure of the asylums for the past two years are shown below:—

9. The decrease of Rs. 4,486 in the total expenditure occurred chiefly under the heads of "Diet," "Rates and Taxes," and "Public Works Charges," and is attributed in the case of diet to lower price of food-grains; in that of rates and taxes to a reduction of Rs. 1,469, which occurred at Dullunda owing to there being no arrears to pay in 1899.

10. The gross cost of each lunatic in the different asylums for the past two years, and the cost per head of average strength, are given in the following table:—

11. The number of admissions to the European asylum at Bhawanipur increased from 13 to 17, while the re-admissions fell from 5 to 2. Including 35 patients who remained at the close of last year, the total number of inmates was 54 against 53 in 1898. Of those 5 were discharged cured, 7 made over to friends, 1 despatched to Europe, and 4 died, leaving 37 in confinement at the close of the year. Two of the persons admitted and one of those re-admitted were criminal lunatics. The daily average strength was 36·49 against 37 in the previous year, and the number of admissions to hospital was 6 against 5 in 1898. The rate of mortality on the daily average strength rose from 5·40 to 10·96. It is, however, said that two of the patients who died were over fifty years of age, and that one of them had been in the asylum for sixteen years. The total expenditure decreased from Rs. 20,884 to Rs. 20,452, while the receipts from paying patients rose from Rs. 12,446 to Rs. 14,585.

12. The question of establishing a Central Lunatic Asylum in Bengal, which has been under consideration for the last five years, has now been definitely settled. It has been decided that the asylum should be located at Berhampore, which is the best situation available in point of health and convenience, and that only the asylums at Dullunda, Patna and Berhampore should be combined, leaving those at Bhawanipur, Dacca and Cuttack where they are. The necessary alterations in the Berhampore Asylum will be commenced this year. Arrangements will also be made for training Civil Hospital Assistants recruited for Government service in the treatment of mental diseases. It is proposed to send those men immediately on recruitment to the asylums to undergo a training for two months in the treatment of insanity. The Hospital Assistants recruited from the Campbell Medical School at Sealdah and Temple Medical School at Patna will be sent to the Central Asylum at Berhampore, and those recruited from the Dacca and Cuttack Schools to the asylums at those places.

13. The thanks of the Lieutenant-Governor are due to Colonel Hendley for his interesting report and to the Superintendents for their efficient management of the asylums during the year.

By order of the Lieutenant-Governor of Bengal,

E. N. BAKER,

Secy. to the Govt. of Bengal.

FINAL REPORT ON THE OILSEED CROPS OF BENGAL, 1899-1900.

THE following is published for general information.

F. A. SLACK,

The 17th May 1900. *Offg. Secy. to the Govt. of Bengal.*

DEPARTMENT OF LAND RECORDS AND AGRICULTURE, BENGAL.

Final Report on the Oilseed Crops of Bengal, 1899-1900.

Explanatory.—This report furnishes estimates of the area and outturn of all oilseeds (*rabi* and *bhadoi*) grown in these provinces. The first statement appended to the report gives returns of the area and outturn, as received from District Officers, and the second furnishes an estimate of the gross outturn of all the oilseed crops taken together.

2. *Character of the season.*—The rainfall in September was general, except in Orissa and Chota Nagpur, where it was much in defect In October it was deficient everywhere, except in East Bengal and Orissa where it was excessive. In November and December there was little or no rain, excepting a few light showers in the Darjeeling hills, and in parts of the Chittagong Division. In January the fall was below the average everywhere, except in Bihar and Chota Nagpur, where it was much in excess, and was accompained by hail. In February there was general rain in Lower Bengal, but only a small fall in Bihar, Orissa, and Chota Nagpur. In March the rain was general and fairly well-distributed over the province.

From the above, it will be seen that the season was not favourable to the cultivation of oilseeds. Want of rain was felt in many districts at the time of sowing, while an excess about this time in others interfered with the proper germination of the seeds. The rain in January was found useful in a few districts, but was in others accompained by hail which did much damage.

3. *Area sown.*—The normal area under all kinds of oilseeds is estimated at 4,101,300 acres, the area sown this year at 3,636,000 acres, and the area sown last year at 4,091,900 acres. It will thus be seen that the area this year falls short of the normal, and of last year's area by about 11 per cent. The contraction in area, as remarked in the first

forecast, issued in February, is obviously due to the unfavourable character of the weather during the sowing season, and is especially noticeable in the districts of Hazaribagh and Ranchi.

4. *Character of the crop.*—The estimates of percentage outturn now received differ very slightly from those given in the preliminary forecast published by this Department in February last. The estimate then made for the Province need not therefore be revised. The outturn of all kinds of oilseeds for the year 1899-1900 stands at 83 per cent. of a normal crop against 95 per cent. the corresponding outturn for the previous year. Irregular and badly distributed rain generally throughout the Province, and hail in some districts, are the cause of the low outturn.

5. *Gross outturn.*—Assuming, as in previous years, 6 maunds per acre to be the average produce of linseed, mustard and rapeseed, and 4¼ maunds per acre as that of *til* and other oilseeds, the gross outturn of the oilseed crops in these provinces during the year under report amounts to 621,500 tons against 859,000 tons estimated to have been produced in the previous year. The falling of is chiefly under the heads of "rapeseed and mustard" and of "other oilseeds" which appear to have suffered more from the unfavourable climatic conditions of the year than either *til* or linseed.

N. N. BANERJEI,

Asst. Director of Land Records and Agriculture, Bengal.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o, overcast; t, thunder; d, drizzling rain; p, passing temporary showers; <, lightning; /, strong wind.

N.B.—In the column "Miles recorded" the movement of the wind from 8 A.M. of the day for which it is shown to 8 A.M. of the following day is given.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph and from observations made at 6h, 10h, 16h and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula +0·030.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

⌓, due; o, overcast; d, drizzling rain; p, passing temporary showers; t, thunder; <, lightning; /, strong wind

N.B.—In the column "Miles recorded" the movement of wind from 8 A.M. of the day for which it is shown to 8 A.M. of the following day is given.

EDUCATIONAL PROSPECTUS.

THE Calcutta Medical College Session, 1900-1901, will commence on the 15th June next. Students who may be desirous of commencing their studies are requested to apply to the Principal between the hours of 11 A.M. and 4 P.M. before 1st June.

Those students who may be selected are expected to enter formally and commence attendance at the College upon the 15th, and none will be admitted at any later date.

2. No person shall be enrolled as a matriculated student who has not previously passed the First Arts examination of the Calcutta or an Indian University, or a preliminary Arts examination of the United Kingdom recognised by the British General Medical Council.

3. All matriculated students of the College must pay Rs. 15 on entrance, Rs. 35 on the 1st June, and Rs. 35 on 1st November of each year. Rs. 6 extra will be required from each student for each course of dissections. Fees once paid cannot be refunded.

Muhammadan students are required to pay Rs. 15 on entrance and half fee, *i.e.*, Rs. 17-8, per session. The remaining half fees are charged to the Mohsin Fund.

4. No free presentations will be awarded at the beginning of the session, but the fees shall be refunded to the 10 students who passed highest in all subjects at the end of their first year of study.

5. Any matriculated student of the College may, with the permission of the Principal and the Professor of the subject, attend courses of lectures or departments of hospital practice in addition to the full curriculum for the year, and shall be entitled to certificates of attendance at such extra lectures, if the Professor is satisfied that he or she has really studied the subject. The fees payable in advance for such additional courses are the following:—

	Rs.
For a single course of lectures on each subject in one year ...	40
For six months' attendance in each department of hospital practice ...	60

6. Any matriculated student who leaves the College before completing his University course with the object of continuing his studies at a medical school in Europe, may receive certificates of attendance at lectures on payment of fees at the rate fixed in the foregoing rule, provided the Professor is satisfied that he or she has really studied the subject. But in calculating the sum to be so paid, the amount of the fees already paid by him as a regular student, or, in the case of a free student, the amount which would have been paid by him had he been a paying student, shall be deducted.

7. Any person not being a matriculated student of the College who wishes to attend any course of lectures, or any department of hospital practice, may do so with the permission of the Principal and Professor of the subject on payment, in advance, of fees at the rates fixed in paragraph 5. If he has passed the Entrance examination of the University, he shall receive certificates of attendance at lectures, provided the Professor is satisfied that he or she has really studied the subject. If he has not passed the Entrance examination, he shall receive no class certificates.

8. At the end of their first year, students will be required to pass a college test examination in Anatomy, Chemistry, and Botany. Those who gain not less than 20 per cent. in two subjects, and not less than 15 per cent. in a third, will be eligible for promotion to the second-year class. Those who fail to gain the aforesaid percentage of marks will not be eligible for promotion, but will go through the first-year class again.

9. Students of the second year will be required to pass a College test examination in Anatomy, Physiology, and Materia Medica. Those who pass the examination with 20 per cent. in two subjects and 15 per cent. in a third will be entitled to go up in the following March or April for the Preliminary Scientific Examination of the Calcutta University, the subjects of which are Chemistry and Botany. Those who (after passing the College test) fail at the University examination will be entitled, equally with those who pass it, to join the third-year class. at the end of which the former will have to present themselves, as at present, for the combined Preliminary Scientific and 1st L.M.S. (or 1st M.B.) examination.

10. Those students who fail at the College test examination of the second year will not be debarred from going up for the Preliminary Scientific examination, but will be encouraged to do so in order to get that stage over; but whether they pass or fail at the University examination, they will be relegated for a further year to the second year-class, provided that those who pass the University examination will not be required to attend the courses in those subjects in which they have passed.

11. Students of the third year will present themselves for the 1st L.M.S or 1st M.B. examination of the Calcutta University. Those who fail at this examination will be relegated for a further year to the third-year class.

12. Students of the first or second-year class who fail a second time, at the same stage, to gain promotion to the next higher class, will be removed from the College and will not be entitled to re-admission. Third-year students who fail a second time will be liable to removal from the College; but if they are specially recommended by the Principal, they may again be relegated to the third-year class, on payment of the fees laid down in Rule 16, and re-admitted to the 1st L.M.S. or 1st M.B. examination, and this concession may be allowed for any number of years at the discretion of the Principal.

13. Students of the fourth-year class will be required to pass a College test examination in Surgery, Medicine, Midwifery, and Medical Jurisprudence. Those who pass the examination with 20 per cent. of the marks in three subjects, and 15 per cent. in a fourth, will be eligible for promotion to the fifth-year class. Those who fail will be relegated to the fourth-year class for a further year. The examination in Surgery and Medicine will be both theoretical and clinical; but those students who can obtain from the Visiting Surgeon or Physician, to whose wards they have been attached, a certificate that they have really profited by their instruction in either subject, will be excused the clinical examination in that subject.

14. Students who fail at the 2nd L M.S. or 2nd M.B. examination will have to attend a further course of lectures in the subject or subjects in which they have failed, in accordance with the regulations of the University.

15. The Principal will determine the maximum number that may be admitted to the first-year class. Students who have failed at the test examination of the first year will have a prior claim to re-admission over new students.

16. Students re-admitted to a class after failure at the test examination will be required to pay half the regular fee for the session (Rs. 35), but extra fees as for dissection (Rs. 6) in full. The half fee must be paid at the commencement of the session in June. Those, however, who. after failing either at the preliminary Scientific Examination or at the final examination have to attend a further course of lectures in the subject or subjects in which they failed, shall be required to pay for such lectures a fee of Rs. 20 for one subject, Rs. 30 for two, and Rs. 35 for three. Exceptions to this latter rule may be made in special cases by Inspector-General of Civil Hospitals on the recommendation of the Principal

17. College prizes and certificates of honour are open for competition to matriculated students of the College, military medical pupils, and females certificate classes. College scholarships (*vide* paragraph 18) are awarded only to matriculated students of the College.

18. Junior scholarships of Rs. 8 per mensem and free tuition for one year are annually awarded to ten students of the second year, on the results of the Test and Honour examinations at the end of the first year.

Scholarships of the same value are awarded to ten students at the commencement of their third year, on the results of the Test and Honour examinations at the end of their second year, provided they have passed either the Preliminary Scientific L.M.S. or M.B. examination.

Ten senior scholarships of Rs. 12 per mensem and free tuition are awarded annually to students at the commencement of their fourth year, on the results of the Test and Honour examinations at the end of their third year, provided they have passed either the 1st L.M.S. or 1st M.B. examination. These scholarships are tenable for two years, provided the holder passes creditably the Test and Honour examinations at the end of his fourth year. In the event of any scholarship being forfeited under this condition, it may be awarded for one year to any student of the fifth year who has fulfilled the conditions and is not the holder of any scholarship. These scholarships shall not be awarded to students who have gained the Durga Charan Laha scholarship of Rs. 30 per mensum or any other scholarship.

Students who from any cause fail to pass their College Test and University examinations at their first chance are not eligible for any of these scholarships, either junior or senior.

19. The Goodeve scholarship of Rs. 12 per mensem, tenable for one year, is annually awarded to a matriculated student of the fifth year, on the result of the Midwifery test examination of the fourth year.

The F. C. Chatterjee scholarship of Rs. 15 per mensem, tenable for a year, is annually awarded to the best matriculated student of Native Indian extraction, and whose conduct is certified to be good, in Histology at the end of the fourth year. The examination takes place in June each year.

The Abdul Gunny scholarship of Rs. 22 per mensem, tenable for one year, is annually awarded at the end of the fourth year to the best matriculated student in all subjects at the class examinations of the first to fourth year inclusive. The award is made in May.

The Duke of Edinburgh's prize is awarded to the best in Surgery among the matriculated students at the end of the fourth and fifth years. The examination takes place in December or January.

The Bhola Nath Bose's prize of Rs. 35 is awarded to the fourth-year matriculated student who proves himself to be the most successful at bedside diagnosis of disease in Surgery and Medicine in alternate years. The award is made in January.

A gold medal and certificates of honour are awarded to the best students in each subject at the Test and Honour examinations.

The Goodeve and Macnamara silver medals are awarded to the best of the first-year native students in Anatomy and Chemistry, respectively, on the result of the Test and Honour examinations.

A prize in Clinical Medicine is awarded annually to the best clinical clerk of the fourth and fifth-year matriculated students. This examination takes place in February.

A prize in Clinical Surgery is awarded annually to the best clinical dresser of the fourth and fifth-year matriculated students. This examination will be held in February.

The Rivers Thompson silver medal is annually awarded to the best Muhammadam student who passes the final L.M.S. or M.B. examination of the Calcutta University.

The Lady Rivers Thomson prize of Rs 50 is awarded to the lady student who obtains the highest number of marks at the final examination.

No student shall be allowed to complete for a prize when attending a course in excess of the number prescribed in the College curriculum.

20. College scholars who receive less than Rs. 20 per mensem are not required to pay Rs. 35 per session. All other scholars shall pay fees as matriculated students These may pay their fees in advance, or have their scholarship money deducted till the full amount is received.

21. Any student holding a Medical College scholarship (paragraph 18) will be permitted to draw the stipends of that scholarship at any recognized medical school in the United Kingdom, provided he furnishes from the head of such school a certificate of good conduct and diligence. These College classes are recognized by all the medical schools in the United Kingdom.

30. RULES FOR THE CONDUCT OF PERIODICAL EXAMINATIONS.

(1) *Test* examinations at the end of the—

1st year.

(a) Military pupils who obtain less than 20 per cent. of marks in one subject to be "warned" and informed that failure in the same subject at the end of the second year will entail liability to removal from College.

(b) Pupils who fail as above in two subjects will lose 200 conduct marks for idleness and will be re-examined two weeks before the commencement of the next session. Failure then in obtaining 15 per cent. of marks in either of the subjects will entail liability to removal.

(c) Pupils who fail to get 10 per cent. as above in three subjects will be removed from the College as being unlikely to succeed eventually.

(2) *Pass* examinations at the end of the—

2nd year.

(a) Military pupils who obtain less than 20 per cent. of marks in one subject will, if practicable, attend lectures on this subject and be re-examined at the end of the next session. Failure again in the same subject will render pupils liable to removal.

(b) Pupils who fail in two subjects will lose 200 conduct marks for idleness, and will, if practicable, attend lectures on these subjects, and be re-examined at the end of the next session. Failure in either subject will entail liability to removal.

(c) Pupils who fail to attain the standard in three subjects will be removed from the College.

(3) *Pass* and *Test* examinations at the end of the—

3rd year.

(*a*) Pupils who fail to obtain 20 per cent. of marks in either or both of the *final* subjects for the third year (viz., Hygiene and Pathology) will lose 200 conduct marks, and be re-examined at the end of the next session.

(*b*) Pupils who do not obtain 10 per cent. of marks in any of the *test* examinations (the other subjects) will lose 200 conduct marks for idleness for each subject in which they so fail.

(4) *Pass* examinations at the end of the—

4th year.

(*a*) Pupils who obtain less than 20 per cent. of marks in all subjects of their final examination will be liable to removal from the College. Such pupils will, however, be allowed to remain for a further period (to be fixed by the Principal in each case) in the College to continue their studies *at their own expense.*

31. FEMALE CERTIFICATE CLASS.

Lady students must be over 17 years of age before commencing their studies.

They must have passed the Entrance examination of the Calcutta University or an examination officially recognized by that University as equivalent to the Entrance examination. (The certificate of matriculation of the Melbourne University will be accepted.)

New students are expected, at latest, to enter formally and commence attendance at the College when the session opens on 15th June.

The duration of the course will be four years.

Tuition will be free.

32. Students, preferably native ladies, may reside in the Sornomoye Hostel. Applications for residence must be made to the Lady Superintendent of the Hostel, or to the Secretary to the Countess of Dufferin Fund, Bengal Branch, and not to the Principal of the Medical College.

33. The following is the curriculum:—

1st year.

Anatomy.

Pass examinations in Pathology, Physiology, and Medical Jurisprudence.

4th year.

Medicine and Clinical Medicine.
Surgery and Clinical surgery.
Midwifery (including six labour cases).
Hospital practice (of which six months in the Medical and Surgical wards *minus* 15 attendances at the Dental Dispensary; and six months exclusively in the Midwifery wards, when the students are to take regular turns of duty, night and day, assisting in the regular work of the hospital).
Dentistry (optional).
Pass examinations in Medicine, Surgery, and Midwifery.

Students who are successful are entitled to receive the certificate of the College qualifying them to practise Medicine, Surgery, and Midwifery. A fee of Rs. 10 is charged for each certificate.

34. The following rules will be observed in regulating advancement from class to class:—

(1) *Test examination at the end of the first year.*—If a student obtains less than 10 per cent. of the marks in any two out of three subjects of examination, she shall not be allowed to continue in the College.

(2) *Pass examinations at the end of the second and third years.*—In order to pass, a student must gain 33 per cent. in each subject of examination. If a student fails in any two of the three subjects, or failing in one subject only, if she gains less than 25 per cent. in that subject, she shall be put back for one year. If she fails in one subject only, gaining 25 per cent. or more in that subject, she shall be promoted to the next class, but will be required to submit to re-examination in that subject in addition to the examination in the regular subjects, at the end of the following year. She will be permitted to attend lectures on the

subject in which she has failed. Failure on re-examination will carry the same penalty as original failure.

(3) *Pass examination at the end of the fourth year.*—The same rules as apply to the previous pass examinations, with the exception that if a student, failing in one subject only, gains 25 per cent. in that subject, she will be referred back to her studies for a period of six months, at the expiration of which she will be entitled to re-examination, after furnishing proof of having attended hospital practice during that period.

MIDWIVES AND DAIS.

35. Women who have a fair knowledge of English, but who have not passed the Entrance or its equivalents, will be admitted into the Eden Hospital to learn Midwifery. The Government grants Rs. 20 per mensem towards the board, washing, &c., of each pupil, and gives them free quarters. After a year's tuition and bedside practice, if found proficient, they will obtain a certificate qualifying them to practise midwifery. The fee for each certificate is Rs. 5. They are expected to do general nursing in the wards as well as midwifery.

36. Women who have not passed the Entrance or its equivalents, but who can read and write Bengali, can be admitted into the Eden Hospital as pupil dais. The Government grants Rs. 6 each per mensem to eight pupils towards their board, washing, &c., and gives them free quarters. After 12 months' tuition and bedside practice, if found proficient, they will obtain a certificate qualifying them to practise midwifery. They are expected to do general nursing in the wards as well as midwifery.

37. Candidates (midwives and dais) should apply for admission to the Sister of the Eden Hospital.

2. A monthly fee of Re. 1-8 is charged for each student. All scholarship-holders, however, receive free tuition, and some Government scholarships are awarded each year on the result of the first-year annual examination.

3. Candidates for admission must have passed the University Entrance Examination in English and Mathematics or Standard VII of the Code for European Schools.

4. The session commences in the beginning of July, and applications for admission are to be sent to the Principal, Dacca College, through the respective guardians of the candidates by the first week of June.

5. The following particulars must also be stated in the application:—

(*a*) Name, address and occupation of father or guardian.

(*b*) Race and religion.

(*c*) Age of the candidate.

6. Each candidate must produce a certificate of good moral character and a medical certificate of good and sound health at the time of admission.

7. Students are granted Amin's certificate on passing the first-year examination, Survey Final certificate on passing the second-year examination, and the Sub-Overseer certificate on passing the third-year final examination, after which they can join the third-year class, Sibpur College, Apprentice Department, without any further test, provided they are not disqualified on account of age.

8. Students have also the option of appearing in the Sub-Overseer examination at Sibpur College after two years' training here.

[Fourth Publication.]

Yearly examination of candidates for fourth grade of Accountants.

THE yearly examination of candidates for fourth grade of Accountants, Public Works Department, will be held at the Civil Engineering College, Sibpur, on Monday and Tuesday the 2nd and 3rd July 1900, at 10-30 A. M.

SUBJECTS.		Full marks.	Minimum pass marks.
Writing (neatness, clearness, and rapidity)	...	100	50
Dictation (spelling, punctuation, etc.) ...	...	100	50
Arithmetic (the whole)	...	240	160
Mensuration (a) the whole	...	60	30
Book-keeping (b) mercantile	...	100	50
Total	...	600	...

Minimum required in all papers collectively, 400.

(a) Todhunter's Mensuration for Beginners.
(b) "Book-keeping" by Ball and Hamilton.
"Book-keeping" by double and single entry, by W. Inglis (Chambers' Educational Course).

The examination is held annually at the Civil Engineering College, Sibpur, on the 1st Monday in July. The examination will be conducted either at the College or by an Examiner, Public Works Accounts (including Railway and Telegraph), in Bengal, Assam and Burma only. The examination will be *ipso facto* vitiated if it be not held (begun and completed) on the dates fixed; but the officer who will conduct the examination may make his own arrangements in regard to the *place* and *hour* of examination with the candidates.

Candidates will not be examined in any of the Calcutta offices.

A candidate already in permanent Government employ* may be allowed to compete in the examination even if he is more than 25 years of age, and may be appointed to an accountantship if he passes it; but if he is not already in pensionable service, he will be eligible only for appointment to the non-pensionable establishment on State Railways.

* This term includes employment under Local Boards and foreign bodies if such is pensionable by the British Government.

2. The candidate should apply to an Examiner of Public Works Accounts not later than 30 days previous to the date fixed for the examination and obtain his consent to conduct the examination, if examination at the College is not convenient. The application must bear the address of the candidate, must be accompanied by a fee of Rs. 10 and the following certificates, and must be forwarded by him, not direct to the Principal, but through the Examiner.

Certificates may be submitted in original, or true copies attested by an officer of the Engineer or Accounts Branch, but none will be returned :—

(1) Certificate of good character signed by applicant's immediate official superior, or by the instructor under whom he has been educated, or by some other superior under whom he may have been brought up or employed, or to whom he may be well known. (This certificate must have special reference to the two years immediately preceding the application.)

(2) Certificate of age (baptismal or of birth not required if the candidate is already in permanent Government employ).

(3) Certificate that the application is in the candidate's hand-writing.

NOTE.—A candidate already in Government service should, in like manner, submit his application through his immediate official superior to an Examiner of Accounts qualified to hold the particular examination, and should state whether he desires to be examined at the office of the Examiner of Accounts concerned or at the College.

It will rest with the Examiner of Accounts, to whom the candidate submits his application, to decide, on a consideration of the certificates submitted, whether the candidate should be allowed to appear for the examination or whether his application should be rejected. The Examiner of Accounts will then forward to the Principal for registration the names of the accepted candidates. The names of these candidates should be entered in a statement showing their ages and their addresses, and also showing where each candidate is to be examined, whether at the College or at the office of the Examiner of Accounts. This statement, together with the fees, should be transmitted to the Principal not later than 15 days after the dates fixed in paragraph 2 for the submission of applications of candidates.

3. Examination papers that are issued for examination need not be returned.

4. Each examination is complete in itself. A candidate who has failed in an examination and presents himself for examination on a subsequent occasion must undergo the full examination and furnish fresh fee and certificates.

5. Passed candidates should apply, not to the Principal of the College, nor to the Accountant-General, Public Works Department, but direct to the Examiner of Public Works Accounts in the province or railway under whom they may desire to be employed.

6. It must be distinctly understood that the passing of this examination does not give any claim to an appointment, and that in making appointments preference will be given to qualified persons who are already employed in the Department.

7. The Civil Engineering College acts solely as an examining body in reference to admission to the fourth grade of Accountants, Public Works Department.

Offg. Principal, Civil Engineering College.

Muzaffarpur Collectorate, the 12th May 1900. W. MAUDE, Collector.

Notice under Rule 19, Section II.

NOTICE is hereby given that the lease of the land specified in the Schedule hereunto annexed, and of which the plan is open to inspection at the office of the Commissioner of the Sundarbans, has been applied for by Krishna Prosad Giri and others, and will be sold at 12 o'clock noon on the 4th August 1900, Saturday, the 20th Sraban 1307B.S., at the Sundarbans Commissioner's office at Alipur, unless meantime the sale is stopped or postponed in consequence of claims or objections under Act XXIII of 1833 (to provide for the adjudication of claims to waste lands), or owing to any other cause.

2. The lease of the land will be granted subject to the conditions which are specified below, as well as to the general terms annexed to the rules for the sale of leases of waste lands in the Sundarbans of the 24-Parganas, Khulna, and Backergunge, dated 12th November 1879:—

Conditions.

That the land shall be subject to all existing rights of way and water and other easements.

That the right of using all streams and channels in any way navigable shall be reserved to the public, as also the use of a towpath, not less than 25 feet in width, on each side of every such stream and channel.

That no charge will be made for wood and timber standing on the land at the time it is leased, nor for any wood which may be cut and burnt to effect clearances, or which may be used on the land; but for wood and timber exported for sale, a duty shall be levied at such rate and in such manner as may from time to time be prescribed by Government.

That the Government reserves to itself the right to all minerals on the land, together with such rights of way and other reasonable facilities as may be requisite for working, getting, and carrying away such minerals. It also retains its proprietary right in the land, and only confers on the lessee an occupancy right, which shall be hereditary and transferable.

Schedule.

NOTICE TO MARINERS—No. 126.

[First Publication.]

INDIAN OCEAN—MALDIVE ISLANDS.

Malé approach—Amended particulars of sandbanks, &c.

THE British Admiralty has given notice (No. 214 of 1900) that information, dated 3rd March 1900, has been received from Captain J. G. M. Field, H.M.S. *Marathon*, respecting the descriptions of certain sandbanks in the approach to Malé:—

1. The sandbank to the north-westward of Fureenahfurhi has no bushes or any kind of vegetation on it; it is very small, and composed of white sand, which shows up well in the sun; it is only about one foot above high water, and has an encircling reef.

Approximate position, lat. 4° 15′ 30″ N., long. 73° 30′ 30″ E.

2. The shoal in approximately lat. 4° 13′ 15″ N., long. 73° 28′ 15″ E., is a small but densely wooded island.
3. The island in approximately lat. 4° 12′ N., long. 73° 28′ 30″ E., is not an island, but forms part of the reef, which is a complete circle entirely submerged.

This Notice affects the following Admiralty Chart:—Maldive islands, No. 66b: Also, West Coast Hindustan Pilot, 1898, page 332.

AFRICA, EAST COAST—PUNGUE RIVER ENTRANCE.

Buoyage, channels, &c.

THE British Admiralty has given notice (No. 216 of 1900) that the following information respecting the buoyage and channels, Pungue river entrance, is derived from a report, dated 24th February 1900, received from Captain W. S. Rees, H.M.S. *Thetis*:—

No. 5 buoy. This buoy was found to be then situated with the south extreme of Massique point bearing N. 29° W., distant 2¼ miles, and point Jea tower N. 45° E.

Approximate position, lat. 19° 55′ 30″ S., long. 34° 49′ 0″ E.

The Captain of the port of Beira has also given information, dated 10th February 1900, that on 1st June 1900 the buoyage will be changed to a uniform system as follows:—

Buoys on the starboard side of the channel in entering will be coloured *red*, and numbered from seaward Nos. 2, 6, 8; buoys on the port side of the channel will

be *black*, and numbered Nos. 1, 3, 4, 5, and 9. The colour only, not the shape or topmark, is the distinctive characteristic showing on which side the buoy should be passed.

In February 1900, there were, after passing No. 6 buoy, two navigable channels to the anchorage, the western of the two passing close to Massique point and the coast to the northward being the deeper and more intricate. The eastern channel which lies between Nos. 5 and 7 buoys was, however, the one generally used. In it the depth is about 20 feet at high water. The note on the Chart has, therefore, been amended.

CAUTION.—As the banks are liable to change, local knowledge is necessary before attempting to enter.

(*Variation 18° Westerly in 1900.*)

This Notice affects the following Admiralty Chart:—River Pungue, No. 1003: Also, Africa Pilot, part III, 1897, page 221.

AUSTRALIA—VICTORIA—PORT PHILLIP ENTRANCE.

Lonsdale point and Shortland Bluff lights—Intended alterations.

THE British Admiralty has given notice (No 219 of 1900) that on and after 1st February 1901, Lonsdale point light (green and red fixed) will be replaced by a *red* and *white occulting* light, elevated 117 feet above high water, and visible in clear weather from a distance of 16 miles, showing *white* from the bearing of N.-61° E., through north, to N. 51° W., and *red* inshore of those bearings.

It will be shown from a new lighthouse erected nearer the extremity of the point than the existing one.

Also, that the arcs of visibility of the white lights shown from both the high and low lights at Shortland bluff will be altered to be visible from seaward, clear of Lonsdale point only.

Approximate position, lat. 38° 16′ S., long. 144° 40′ E.

Further Notice will be given.

(*Variation 8° Easterly in 1900.*)

This Notice affects the following Admiralty Charts:—Bass strait, Nos. 1063, 1695b; port Philip, Nos. 1171a, 2747a: Also, List of Lights, part VI, 1900, Nos. 1109, 1110, 1111; and Australia, vol. I, 1897, pages 429, 434.

RESOLUTION ON THE SURVEY AND SETTLEMENT REPORTS FOR THE YEAR ENDING 30TH SEPTEMBER 1899.

The following is published for general information.

F. A. SLACK,
Offg. Secretary to the Government of Bengal.

REVENUE DEPARTMENT—LAND REVENUE.

Darjeeling, the 26th May 1900.

RESOLUTION—No. 581T.—R.

READ—

Letter No. 192A., dated the 19th February 1900, from the Board of Revenue, Lower Provinces, submitting the Report of the Superintendent of Settlement-Surveys on surveys, and of the Director of Land Records on the settlements, in Bengal, for the year ending 30th September 1899.

The reports. THE report of the Director of Land Records was received by the Board on the 19th January, and the joint reports were submitted to Government with the Board's review on the 22nd February 1900.

Charge and inspection. 2. Captain R. T. Crichton was in charge of the survey operations up to the 26th April 1899, when he went on furlough, and was succeeded by Captain C. W. H. Symonds. Mr. P. C. Lyon held the office of Director of Land Records throughout the year. It is not reported what time Captain Crichton spent on tour; his successor was out for 16 days between the 26th April and the 30th September 1899. Mr. Lyon spent 159 days on tour, compared with 147 days in the previous year.

3. The following table shows the general outturn and cost of survey and settlement work in the past and three previous years :—

Outturn and cost.

YEAR.	Traverse survey.	Skeleton boundary survey.	Topographical survey.	Cadastral survey.	Record-writing.	Cost of survey.	Cost of settlement.	Total cost.
1	2	3	4	5	6	7	8	9

1896-97	908	......	410	845	845	2,20,142	11,45,019	13,65,161
1897-98	661	......	35	1,302	1,302	2,73,994	9,66,924	12,40,918
1898-99	1,727	......	217*	1,298	1,321	2,82,051	8,72,718	11,54,299

NOTE.—The figures given above as to cadastral survey and record-writing in 1897-98 include 2 square miles of city survey in the Samastipur Municipality, and those for 1898-99 include 6 square miles of similar work in the Darbhanga and Chapra Municipalities.
* Includes 95 square miles on the 2 inches = 1 mile scale in the north-west corner of Champaran.

During the year under report the survey programme laid down was exceeded except in respect of topographical survey.

Cost-rates, traverse and topographical survey.

4. The cost-rates of the more important traverse and topographical surveys were as follows:—

Division.	District.	Traverse survey.	Topographical survey.
		Rs.	Rs.
Patna	Saran ...	36	13†
	Champaran ...	100	
	Darbhanga ...	34	...
Bhagalpur ...	Sonthal Parganas ...	45	...

† Of 56·83 square miles on the 16 inches to the mile scale in the Gogra, Ganges, and Gandak *diaras*.

Of these, the operations in Champaran consisted of the traverse and topographical survey of an area of 95 square miles in North Champaran, and the high rate of cost appears to be due to the small area dealt with and the unhealthiness of the climate.

In 1897-98 the cost of the traverse survey in Saran was Rs. 108·04 per square mile, but the area traversed was small, being only 51 square miles, as compared with 264 square miles in 1898-99, and, as the traverse section was employed in Saran at the commencement of the season, the cost of the move from the recess quarters and the pay of the establishment for October 1897 went to swell the cost of the operations in the season of 1897-98. The cost-rate of traverse survey in the Sonthal Parganas has been high, owing partly to the nature of the country, which is to a great extent covered with low-lying hills and ravines, with no actual village sites but hamlets scattered over the high lands, and to the fact that in Tappa Manihari the progress of the work was delayed considerably by the wanton destruction of the theodolite stations.

Cost-rates, cadastral survey, and record-writing.

5. The largest areas cadastrally surveyed were in the districts of Saran and Darbhanga, and while they were about equal to the areas dealt with in those districts in the previous year, the cost-rates, as shown in the table below, were on the whole substantially less than in 1897-98 :—

DISTRICT.	Areas dealt with.		COST-RATE.					
			Cadastral survey.		Record-writing.		Total.	
	1897-98.	1898-99	1897-98.	1898-99.	1897-98.	1898-99.	1897-98.	1898-99.
1	2	3	4	5	6	7	8	9
	Sq. m.	Sq. m.	Rs	Rs.	Rs.	Rs.	Rs.	Rs.
Saran ...	555	548	85·89	72	104·29	59	190·18	131
Darbhanga	733	684	74·86	64	78·32	84	153·18	148

In both seasons the average size of the field in Saran was the same, viz., ·3 of an acre. In Darbhanga the average size of the field was ·42 in 1897-98, while in 1898-99 it was ·38 of an acre. Including the municipal areas surveyed, the total area cadastrally surveyed in the year under report was 1,298 square miles, and the total cost of cadastral survey and record-writing was Rs. 2,02,292, giving an average cost rate of Rs. 156 per square mile. The corresponding cost-rate in 1897-98 worked out to Rs. 182 per square mile. The great divergence in the cost of record-writing in Saran and in Darbhanga deserves some explanation.

Changes in procedure, and attitude of the people.

6. No material alteration was made in the general procedure during the year under report. As regards minor details, it is reported that a new form of notice was introduced tentatively in North Bihar at the instance of Mr. T. W. Babonau, Sub-Assistant Superintendent of Survey, in order to improve the attendance of landlords and raiyats. It was appreciated by both raiyats and zamindars and reduced very considerably the number of those who did not attend. The Lieutenant-Governor agrees with the Board in thinking that the success of this arrangement, which should, as proposed, be adopted in all Bengal surveys in future, goes to show that the previous non-attendance of parties was frequently due to ignorance, rather than to wilful negligence; and that their attitude on the introduction of the new notice form was consistent with their eagerness to obtain their *parcha* slips and evinced the keen interest they are said to have taken in the work, both in Saran and Darbhanga, especially at the *khanapuri* stage.

It was frequently found that the zamindars attempted to have lands really cultivated by raiyats recorded as in their own cultivating possession. When there was reason to suspect that this was being done, Inspectors were ordered to have separately mapped all fields within blocks surrounded by main *ails* or boundaries in cases in which zamindars claimed the blocks as *khudkasht*. With the exception of the villages belonging to the Darbhanga Raj, it was found that several zamindars in the district of Darbhanga prevented their raiyats from coming forward to point out their lands which they then claimed should be entered as *zirat*. After the passing of the order above referred to and the imposition of a fine of Rs. 500 on one zamindar, little or no trouble was experienced.

Settlement of minor disputes by kanungos during *khanapuri*.

7. The system of having minor disputes settled by kanungos in the course of record-writing, which was introduced in 1897-98, was continued during the year under report. There were three kanungos with the survey camp in Saran and four with that in Darbhanga, who settled most of the very numerous interior disputes that arose during *khanapuri*. With a view to render more efficient the working of these kanungos with the survey establishment, certain rules have recently been framed by the Settlement Officer of North Bihar defining the powers of the former and their relations with the latter establishment, which, it is hoped, will prove of much benefit. The following extract is taken from the Settlement Officer's report on the operations in the district of Darbhanga:—

"With a view to testing the value and accuracy of the decision of internal disputes by khanapuri kanungos, a note of the orders objected to and revised at attestation was kept in each attestation camp. The figures are not given in tabular form, as the return was not prescribed until the middle of the season, and was not kept in a uniform manner by all the camps, but the following abstract has been carefully compiled and may be accepted as approximately accurate:—Out of 41,536 orders passed by khanapuri kanungos, only 3,982, or 9 per cent., were objected to at attestation; 2,252, or 5 per cent., were altered by the attestation officer, 1,902 as wrong in points of fact or law, and 350 on technical grounds. These results are, I think, highly satisfactory. It may at first sight appear somewhat remarkable that 56 per cent. of the orders objected to should require revision, but it must be remembered that they form only a very small proportion of the total number of orders passed, and that most of them were difficult cases in which there was large room for difference of opinion. All the cases in which the attestation officer thought it necessary to reverse the kanungo's decision were under the rules referred to me as Assistant Settlement Officer in charge for final orders, and in no case did I find that a kanungo was seriously to blame for a wrong decision, or that he had not some grounds for the conclusion at which he had arrived. The truth is that a very large number of the internal disputes filed at khanapuri, where there is

nothing to pay, are of a frivolous characte:, and will never reappear if they are decided promptly on the spot. We want a cheap agency to decide these cases, and this, I think, we have found in the institution of khanapuri kanungos. The more important disputes will of course crop up again at attestation and under section 103A, and it is not surprising that an attestation officer who can examine documentary evidence in his court at his leisure should often, in important and difficult cases, find it necessary to differ with the khanapuri kanungo, who passes orders summarily while standing in the field, though the latter method is no doubt the most suitable for deciding petty disputes of a comparatively unimportant nature. I am confident that as our kanungos gain more experience, it will be found that the proportion of their decisions which require revision at attestation will diminish, and this return which I propose to have kept this year in an amplified form will form a useful check on the work of each officer."

The opinion of the Survey Officers was, however, scarcely so satisfactory. It is very probable that with added experience these officers will improve.

Bihar survey.

(a) Include topographical survey.
(b) Including Saran.
(c) Includes 28 square miles of Majhauli Ward's estate, and excludes 11 square miles of river areas actually surveyed, but which, owing to the midstream boundary belong to the North-Western Provinces.
N. B.—The figures for Saran for the year 1898-99 do not include topographical survey of 61 *diara* villages, with an aggregate area of 56·83 square miles. The expenditure amounted to Rs. 719, or Rs. 13 per square mile.

During the year under report the survey of the entire district of Saran was brought to a close, the area of the district being found to be 2,620 square miles.

The survey of the districts of Muzaffarpur and Champaran had been completed previously, the work since done in the former district being revision or *diara* surveys of small areas; while in Champaran the work in progress is the topographical survey of a jungly tract in the north of the district which was excluded from the cadastral survey and about 80 miles of which remained to be surveyed at the close of the year.

Survey of private estates in the Sonthal Parganas.

9. In the Sonthal Parganas the professional Survey Department has been entrusted with the traverse survey only of the estates brought under settlement, the field survey being in the hands of the Settlement staff. The original proposal was to survey 1,855 villages comprising an aggregate area of 616 square miles, and the cost of the traverse survey was estimated by the Director of Land Records at Rs. 40 per square mile, or Rs. 25,000 in round numbers for the whole area. On an application made by this Government, the Government of India sanctioned the payment of the estimated cost from the Imperial revenues. Subsequently 56 more villages, with an aggregate area of 14·8 square miles, were notified by Government for survey and settlement. The report now before Government shows that the total area traversed is 726 square miles and the total cost Rs. 32,693, or Rs. 45 per square mile. But in compliance with an application made by this Government upon a revised estimate submitted through the Director of Land Records and the Board, the Government of India have sanctioned an allotment of only Rs. 18,921 to meet the cost of the traverse survey of these estates. The Lieutenant-Governor does not understand why, when the actual expenditure was Rs. 32,693, the amount shown in the revised estimate referred to was only Rs. 18,921, and will await an explanation in this matter.

Settlement.

10. The passing of the Bengal Tenancy Amendment Act, III (B.C.) of 1898, which came into force on the 2nd November 1898, effected a very important change in the settlement procedure. The Settlement Officer of North Bihar writes as follows on this subject:—

"Briefly put, it enables us to pass an entire thana or any given area through each stage of the work at one time. Under the old Act, we had to wait a month after attestation for applications for the settlement of fair rents to be filed. If none were filed, we proceeded to draft publish, but it often happened that applications were filed in half the villages in a camp and not in the other half. This meant that the whole area had to be kept pending until all the fair-rent cases were settled. Even after we had got all the villages draft published, a few scattered section 106 cases might delay final publication and prevent us from beginning recovery of costs. Thus under the old Act it invariably took us four years to complete operations, including recovery of costs, in any given area, and the work was very often spread over five seasons. Under the Amendment Act, however, as I shall explain, we ought in ordinary circumstances to complete all stages of the work in three seasons. We now draft publish within a few days of the completion of attestation, in itself no mean advantage, as our experience this year has shown us what a much keener interest is taken in draft publication carried out while the record is still fresh in the minds of the people, than when it is effected, as formerly, weeks and often months after the conclusion of attestation. We get all the objections under section 103A filed within a month of draft publication, and we can put a special set of officers on to deal with them. We can complete the records and finally publish them immediately after the objections are disposed of, and the whole area is then ready for recovery.

The following should now be our normal programme of work in any given area:—

First year—

Field season	...	Cadastral survey and preliminary record-writing.
Recess	...	Preparation of the draft record by the Survey Department.

Second year—

Field season	...	Attestation and draft publication.
Recess	...	Disposal of objections under section 103A, completion of the records, and final publication.

Third year—

	...	Recovery of costs and disposal of case-work under sections 105 and 106 after final publication.

Nor is the clear saving of a year which is thus effected the only gain. The work itself is more expeditiously and satisfactorily carried through. When an officer, for example, has only section 103A cases to dispose of, he can arrange his programme much better and get through his work much faster than formerly, when he had to try summary objections in one

village, settle fair rents in another, and decide disputes in a third, and there were necessarily days which he had to spend in travelling long distances or on which he found himself with little or no work to do. Much time is also saved in final publication, as the kanungo can now work steadily through his area instead of taking up isolated villages as the records are completed in office."

The experience so far obtained of the working of the remaining amendments of the Act has been small, and scarcely permits of a final appreciation of their effect.

The rules for record-writing and attestation in North Bihar were revised in the course of the year, so as to bring them into accord with the amending Act.

The following paragraphs show the progress made in settlement work.

11. The post of Settlement Officer of North Bihar was held by Mr. C. J. Stevenson-Moore, I.C.S., till the 12th July 1899, when, after completing the operations in the districts of Muzaffarpur and Champaran, and submitting his final reports thereon, he went on furlough, and was succeeded by Mr. J. H. Kerr, I.C.S., who had previously held subordinate charge of the operations in Champaran and Darbhanga.

Before the close of the year the settlement records of the districts of Muzaffarpur and Champaran were made over to the respective Collectorates. The settlement offices were finally closed, and the only work remaining to be done is the recovery of a portion of the costs. This is now in progress under the supervision of the Collectors concerned.

12. Mr. H. Coupland, I.C.S., was in subordinate charge of the operations in this district throughout the year, except for a month's privilege leave, during which Maulvi Ghulam Ghous carried on the current duties of the office. The attestation programme for the year was fully carried out. The boundary disputes instituted during the year numbered 434, of which all but 4 were disposed of. Only 35 appeals were preferred against the decisions of the Assistant Settlement Officers, and the orders of the lower court were maintained in all but one case. As usual the *diara* villages on the Gogra and Gandak rivers furnished the most difficult boundary disputes. The attestation work, which embraced nearly 12 lakhs of plots, appears to have been free from abnormal difficulties; but the absence of large zamindaris similar to the Hatwa Raj, and the consequent inability to utilise properly prepared accounts, caused no lack of minor worries. The estates of the Chainpur Babus presented typical difficulties inherent in the co-proprietary system, and in the failure to keep, or to produce, genuine accounts. Of the 199,678 holdings attested 2·5 per cent. were found to be held by proprietors, ·4 per cent. by raiyats at fixed rates, 78 per cent. by raiyats with occupancy rights, 3 per cent. by non-occupancy raiyats, and 9 per cent. by rent-free-holders. The objections under section 103A of the new Act were unusually numerous, the number filed during the year being 24,798 as compared with 9,031 (under section 105 of the Act of 1885) in the previous year. This is attributed to the provisions of the amending Act of 1898, under which draft publication takes place immediately after attestation, instead of, as under the old Act, after the disposal of fair-rent cases. The Director of Land Records observes:—

Saran.

"On the whole I think that the increase should be looked upon as satisfactory and indicating a greater interest in the proceedings on the part of the persons affected by them, and greater care in their scrutiny of our papers. The trial of these objections brings to light many inaccuracies in the record which might otherwise have escaped observation, and the proportion of frivolous cases filed is not so great as to seriously detract from that advantage."

There would, however, appear to be something in the opinion, quoted elsewhere in the report, that the shortening of the period within which objection can be taken to the record has multiplied these cases by leaving less to the influence of time in promoting reflection and negotiation and consequent mutual concession. Fifteen appeals were filed against the orders passed in these cases, of which 4 were decided, the decision of the Assistant Settlement Officer being upheld in 3 and modified in 1. For the settlement of fair rents only 31 cases were instituted during the year, and none of these referred to the area attested in 1898-99. The Director of Land Records observes that the small number of applications made by native landlords for a legal enhancement of the rents of their raiyats is as noticeable in Saran as it was in Muzaffarpur. It is stated that out of a total of 360 appeals instituted before the Special Judge against the decisions passed in fair-rent cases, 331 have been disposed of, the Assistant Settlement Officer's decisions being upheld in 102 cases, slightly modified in 147 cases, and reversed in 33 cases, 8 cases being compromised and the rest remanded for re-trial. Under section 106, 914 disputes were decided during year. The number of appeals to the Special Judge against these decisions instituted since the beginning of the operations, during which 1,240 cases in all have been disposed of by the settlement staff, was 94 only, 41 of which were decided, resulting in the Assistant Settlement Officer's decision being upheld in 28 cases and reversed in 8, while 3 cases were compromised and 2 returned for re-trial.

13. The settlement operations in Darbhanga were under the subordinate charge of Mr. J. H. Kerr, the present Settlement Officer of North Bihar, until March 1899, when he went on privilege leave, and was succeeded by Mr. W. S. Adie, I.C.S.; and the latter was succeeded in August 1899 by Mr. W. R. Gourlay, I.C.S., who remained in charge until the close of the year.

Darbhanga.

The programme of supervision of the initial record-writing and settlement of boundary disputes in 680 square miles was fully carried out. Only 10 out of 709 boundary disputes instituted during the year remained to be decided. In 113 cases appeals were preferred and decided, the decision of the Settlement

Officer being upheld in 76 cases, modified in 5 and reversed in 1. The remaining 31 cases were remanded for re-enquiry. The outturn of attestation work apparently fell short of the programme (746 square miles) by 28 square miles. Of the total number of holdings attested, 82 per cent. were found to be held by raiyats with occupancy rights, ·5 per cent. by non-occupancy raiyats, about 6 per cent. by proprietors and 3 per cent. by rent-free-holders. The area in which work was proceeding embraced part of the Darbhanga Raj estates, wherein the system of management has for many years been very thorough; and progress was thereby much facilitated. In the extensive zamindari of Rai Ganga Prasad however, not only was little help derived from estate papers, which were in great confusion, but even such as were produced were, it is regrettable to observe, not of a reliable character. From the report of the Settlement Officer it would appear that the raiyats of this proprietor and of Ganeshwar Singh, of Padri, have hitherto been treated with a degree of harshness which has amply justified the preparation of a record of their rights. As in Saran there were few enhancements of rent; the average size of fields was found to be very small (·38 of an acre); and the number of cases under section 103A enormously increased compared with the previous year. It would appear that as a whole the operations in this district were conducted with a very high measure of success.

Recovery of costs.

14. The recovery of costs of the operations was in progress in the districts of Muzaffarpur, Champaran, and Saran. As regard *Darbhanga, orders apportioning the costs were passed in May 1899. With regard to thanas Dalsingsarai, Samastipur and Warisnagar, the total cost was estimated at 9¾ annas per acre, of which 2½ annas will be paid by Government, and 4¼ annas will be recovered from the landlords, and 3 annas from the raiyats. Computation was begun in this district in July, 534 villages covering 296 square miles being completed before the end of September 1899, and the work of recovery, commenced since the close of the year, is now in progress.

The following table shows the results of the recovery work in the three other districts:—

Name of District.	Approximate total demand.	Demand computed up to the end of the year.	Recoveries.			Unrecovered balance of the computed demand.	Percentage of recoveries.	Percentage of cost of recovery to amount recovered.

* In Muzaffarpur and Champaran the work of recovery of costs was in the hands of the district staff, and apparently no separate expenditure was incurred on this account.

The heavy balance shown in the case of Champaran is almost entirely due from the proprietors of the Bettiah and Ramnagar Raj Estates. The Bettiah Raj has arranged to pay its dues in instalments, and certificates are being issued for the amounts due from the Ramnagar Raj and other landlords. As in previous years the realisations from the tenants were remarkably good, as much as 98·81 per cent. of the amount due by raiyats having been collected in Saran.

Maintenance of records.

15. The question how the Land Records Maintenance Act, III (B.C.) of 1895, has worked, and what steps, if any, should be taken for the maintenance of the settlement records in future, is separately under the consideration of Government.

Orissa. 16. Mr. S. L. Maddox, I.C.S., was in charge of the Orissa Settlement throughout the year.

The Bengal Tenancy Amendment Act, III (B.C.) of 1898, was extended to Orissa in November 1898; but the operations were too far advanced for its provisions to have much effect on the progress made in the temporarily-settled estates, although they enabled the Settlement Officer to wind up the work in the permanently-settled areas more expeditiously.

The following table exhibits the work done during the year:—

* (Includes figures for Puri temporarily-settled area.)

With the exception of the permanently-settled areas of Aul and Derabisi, the work in Orissa has been completed, some small items which remained over after 30th September 1899 having been done since the close of the year. The work in Aul and Derabisi has been undertaken by the Collector of Cuttack.

The result of the settlement of fair-rents in the temporarily-settled area during the year was to increase the rents of *kharida jamabandi* tenures by 48 per cent. of *nisfi* (half-rent) *baziafti* tenures by 190 per cent., of *kamil* (full rent) *baziafti* tenures by 63 per cent., and of *raiyati* holdings by 7 per cent.

The enhancement in each district from the beginning is shown in the table below:—

DISTRICT.	Number of tenants for whom fair rents have been settled.	Existing assets dealt with to end of 30th September 1899.	Settled assets down to 30th September 1899.	Increase obtained.	Percentage of increase over existing assets.

The assessment of revenue in the temporarily-settled area was completed and the new revenue brought into force. In a large number of cases the assessments still require the confirmation of higher revenue authorities; but in accordance with the terms of the engagements given by the proprietors, the new revenue is being realised subject to such modifications as may be made by the confirming authorities, and it is considered unlikely that the orders to be passed in the pending cases will result in any considerable alteration of the revenue assessed. The following table shows the results of the assessment:—

Of the total of 6,350 estates, *kabuliyats* by the close of the year had been taken for 6,284 estates. The Director of Land Records reports that only six estates are recusant, of which five are insignificant, and the only one of importance is the Kotdesh Estate in Puri, which has been bought by three different sets of purchasers, to all of whom the former proprietors were seriously indebted. It is stated that the new proprietors cannot come to any working agreement among themselves, and that as the estate is very large, the old revenue being Rs. 81,000 and the new Rs. 1,04,000, there seems no prospect of effecting a settlement. The Collector of the district has taken over the papers of the estate. With this exception the new assessment of revenue has practically been accepted in all cases, and this is a strong testimony to the consideration with which it has been made. The final report on the settlement will shortly be in the hands of Government.

Chittagong.

17. The settlement of Chittagong had practically been completed in March 1898, and nothing but office work and the computation and recovery of the costs of the operations in the permanently-settled estates remained to be done in the year under report. Good progress was made in the classification and copying of the settlement records, and it was expected that this work would be completed before the 31st March 1900. Final orders as to the apportionment of the costs have been issued; but no progress was made towards their recovery in the year under report.

Tippera.

18. All important work connected with the settlement of the estates of the Raja of Hill Tippera in the districts of Tippera and Noakhali was completed by the middle of July 1899, when the Settlement Officer, Mr. J. G. Cumming, I.C.S., reverted to general duty, and the Collector of the district took charge of what remained to be done. The general result of the settlement, so far as the Tippera Raj is concerned, is that the Raj has secured an increase in rental, amounting to Rs. 90,206, of which Rs. 31,781 have been obtained from the tenure-holders and Rs. 58,425 from the *khas* raiyats. The recovery of a share of the costs of the operations from the tenure-holders and raiyats was continued during the year. The total computed demand is Rs. 3,19,245, out of which Rs. 2,2[illegible],501, or about 71 per cent., were collected up to the close of the year. The progress made is satisfactory.

Private estates in the Sonthal Parganas.

19. The settlement of certain private estates in the Sonthal Parganas on the application and at the expense of the proprietors is being made by Mr. H. McPherson, I.C.S., who joined in November 1898. Mr. E. F. Berkeley, the officer in charge of the traverse survey, was appointed Assistant Settlement Officer, and placed in charge of the field survey, in addition to his own duties, under the direct control of the Settlement Officer. As it was considered desirable to employ residents of the district as amins, it was necessary first to train them. Accordingly a survey training school was opened, and besides 112 Sonthal amins, 80 non-Sonthal amins, and five kanungos, the five Assistant Settlement Officers went through a course of training there. Some of the amins, however, soon left their employment, and the work was greatly retarded, especially at the end of the season, by the absence of a sufficient number of trained men. Rules for the conduct of the survey and preliminary record-writing, and for the attestation of records and settlement of rents were drawn up. The area under settlement comprised 1,911 villages, of which 778 villages, covering 341 square miles, were cadastrally surveyed, and preliminary records for 742 villages were written. A very large number of internal disputes and 481 of the 512 boundary disputes instituted were decided; and the records of 12 villages were experimentally attested; but the last named work will probably have to be done over again under the rules as recently revised. The cost during the year, exclusive of traverse survey, amounted to Rs. 80,259. Considering the delay at the commencement of the operations, the introduction of a new system of survey and settlement, and the difficulties found in training a subordinate staff, the Lieutenant-Governor agrees with the Director of Land Records that the progress made is satisfactory.

Services of Officers.

20. The Lieutenant-Governor's thanks are due to the Board of Revenue for their careful supervision of the work of the Survey and Settlement Departments. Sir John Woodburn has on previous occasions expressed his appreciation of the excellent work done by Mr. Lyon, and he has much pleasure in endorsing the remarks of the Board in paragraph 32 of their present review. His Honour's acknowledgments are due also to Captain R. T. Crichton and Captain C. W. H. Symonds for their excellent administration of the Survey Department during the year.

The remarks of the Director of Land Records on the conduct of his subordinates, contained in paragraph 63 of his report, and those of the Superintendent of Settlement-Surveys in paragraph 60 of the Survey Report, have been read with pleasure by the Lieutenant-Governor. The former will be communicated to the Appointment Department, and the latter to the Deputy Surveyor-General in charge, Revenue Branch, Survey of India.

ORDER.—Ordered that this resolution be published in the *Calcutta Gazette*, and that a copy of it, with copies of the two reports, be submitted to the Government of India.

By order of the Lieutenant-Governor of Bengal,

F. A. SLACK,

Offg. Secretary to the Govt. of Bengal.

thriving. Cattle-disease continues. Scarcity of water throughout the district. Private labour available. Common rice selling at 12 seers in markets and 9 seers in Angul and Bisipara Stations.

Puri.—Rainfall at Sadar nil, Khurda 0·22. Weather occasionally cloudy. *Dalua* being harvested. Lands being ploughed for next *sarad* crop. *Beali* being sown. Cotton, sugarcane, and other miscellaneous crops growing well. Fodder and water sufficient. Test-works closed. Price of rice stationary.

Hazaribagh.—Rainfall at Sadar ·01, Giridih nil. Weather seasonable. Fields being ploughed for paddy crop. Fodder and water sufficient. Common rice sells at Sadar 11 seers and at Giridih 12 seers per rupee.

Ranchi.—Rainfall 0·56. Weather hot and cloudy. Sowing of *bhadoi* and winter paddy commenced in places. Rice sells in Ranchi 9½ seers and in the interior 9 seers 5 chittacks per rupee. Cattle-disease continues. Fodder and water sufficient. Test-works continue in 44 places. Number at work on the last day for which returns are available—men 1,730, women 871, children 474; total 3,075.

Palamau.—Report not received.

Manbhum.—Rainfall nil. Weather uncertain. Sugarcane plants thriving. Lands being prepared for *bhadoi* and winter crops. Cattle-disease reported from thanas Manbazar, Jhalda, Gobindapur, and Tundi. Fodder and water sufficient. Average price of common rice at Sadar 12 seers 8 chitaks and at Gobindapur 12 seers per rupee. Supply sufficient.

Singhbhum.—Rainfall 0·26. Weather hot. Sowing in progress throughout the district. Average price of rice is 12 seers per rupee.

General Summary.—There was fairly general rain during the week in all the districts of the Province, except Rajshahi, Patna, Gaya, Shahabad, Champaran, Muzaffarpur, Bhagalpur, and Manbhum. The fall was heavy in East Bengal and in the Siwan subdivision of the district of Saran. More rain is, however, wanted in Hooghly, Rajshahi, Purnea, and Malda. The sowing of paddy is still going on briskly. The harvesting of *boro* in Midnapore is finished, and its outturn is reported to be good. Mulberry is doing well in Murshidabad. The sugarcane crop is good all round. The prospects of indigo and *cheena* are good. Fodder is generally sufficient, but scarcity of water is still reported from Angul. Cases of cattle-disease are reported from some districts. The price of common rice has risen in 16 districts, fallen in 11, and is stationary in the rest. Test-works are going on in Ranchi. Number at work in Ranchi on the last day for which returns are available—men 1,730, women 871, children 474; total 3,075.

By order of the Lieutenant-Governor of Bengal,

F. A. SLACK,

Offg. Secretary to the Govt. of Bengal.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h, 10h, 16h and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula +0·030.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

SPECIAL SUPPLEMENT TO

The Calcutta Gazette.

WEDNESDAY, MAY 30, 1900.

Abstract of the Proceedings of the Council of the Lieutenant-Governor of Bengal assembled under the provisions of the Indian Councils Acts, 1861 and 1892.

The Council met in the Council Chamber on Saturday, the 31st March, 1900.

Present:

The Hon'ble SIR JOHN WOODBURN, K.C.S.I., Lieutenant-Governor of Bengal *presiding.*
The Hon'ble Mr. J. T. WOODROFFE, Officiating Advocate-General, Bengal.
The Hon'ble MR. W. B. OLDHAM, C.I.E.
The Hon'ble MR. J. A. BOURDILLON, C.S.I.
The Hon'ble MR. C. E. BUCKLAND, C.I.E.
The Hon'ble MR. F. A. SLACK.
The Hon'ble MR. E. N. BAKER.
The Hon'ble RAI DURGA GATI BANERJEA, BAHADUR, C.I.E.
The Hon'ble RAJA RANAJIT SINHA, BAHADUR, OF NASHIPUR.
The Hon'ble SAHIBZADA MAHOMED BAKHTYAR SHAH, C.I.E.
The Hon'ble MR. J. G. APCAR.
The Hon'ble DR. ASUTOSH MUKHOPADHYAYA, M.A., D.L., F.R.A.S., F.R.S.E.
The Hon'ble BABU BOIKANTA NATH SEN.
The Hon'ble BABU SURENDRANATH BANERJEE.
The Hon'ble MR. H. ELWORTHY.

NEW MEMBERS.

The Hon'ble MR. J. A. BOURDILLON and the Hon'ble Mr. H ELWORTHY took their seats in Council.

QUESTIONS AND ANSWERS.

THE DUM-DUM RIFLE RANGE.

The Hon'ble BABU SURENDRANATH BANERJEE asked :—

"Has the attention of the Government been called to the case of an accidental death of a lad who was hit by a stray bullet in the vicinity of the rifle range near the Dum-Dum Cantonment?

"In answer to a question which I asked in connection with a similar case of accidental death near the same rifle range, the Government was pleased to say that 'a proposal for the re-alignment of the range so as to guard against all possibility of danger to the villagers was already under the consideration of the Military Department, and the necessity for completing the works by an early date would be brought to the notice of that Department.'

"Will the Government be pleased to state whether the works referred to in the above reply of the Government have been completed? If not, when will they be completed? And, if they have been completed, whether the Government considers them as satisfactory in view of the accident to which I have referred."

The Hon'ble MR. BOURDILLON replied :—

"The attention of Government has been called to the case to which the Hon'ble Member is believed to refer. On the 24th January a lad named Sheikh Azad Ali was struck by a stray bullet while in the fields behind the Dum-Dum rifle range, and died almost immediately. The people of the neighbourhood had been warned by the police and by beat of drum not to go near the rifle range, as firing would take place on the date in question. The deceased with his father unfortunately disregarded this warning.

"As regards the second part of the question, the reply of the Government of India has not yet been received."

MR. LLOYD'S CASE.

The Hon'ble BABU SURENDRANATH BANERJEE asked :—

"Has the attention of the Government been called to a case of assault committed by a Sub-Deputy Magistrate of Chaibassa, Mr. Lloyd, upon a highly respectable pleader, Babu Rakhal Chandra Chatterjee, B.L.? Is it the case that Mr. Lloyd belaboured this gentleman with a stick, and that when he was called before the Deputy Commissioner he feigned madness? If so, will the Government be pleased to state what notice has been taken by the Government of this conduct on the part of Mr. Lloyd?"

The Hon'ble MR. BOURDILLON replied :—

"Mr. Lloyd did, under misapprehension, strike the pleader with his cane. An enquiry was held by the Deputy Commissioner, and the pleader desired that the matter should be carried no further. The desire was generous, and the Lieutenant-Governor considered no action necessary beyond the transfer of Mr. Lloyd from Chaibassa."

SPECIAL CONSTABLES AND PUNITIVE POLICE IN DINAPORE.

The Hon'ble BABU SURENDRANATH BANERJEE asked :—

"Is the Government aware that the establishment of a punitive police and the enlistment of special constables at Dinapore have excited much adverse criticism? Is it necessary to have both? Will the Government be pleased to state the circumstances under which it became necessary to adopt these measures?"

The Hon'ble Mr Baker replied :—

"The measures which form the subject of the question were rendered necessary by the riotous conduct of a large number of people in Dinapore, who, on the 27th February last, broke out into forcible resistance to the operations of the local officers, used violence towards the Cantonment Magistrate and police, and eventually burnt down both the segregation camps. The riot was of a serious character, and necessitated the calling out of the troops.

"Special constables were enrolled by the District Magistrate (who has power to do so without reference to higher authority), because some of the upper classes are believed to have practically instigated their proceedings.

"It is not now necessary to have both special constables and punitive police, and the former have now been withdrawn."

Proceedings of Mr. Maguire.

The Hon'ble Babu Surendranath Banerjee said :—

"I have the honour to ask whether the attention of the Government has been called to certain proceedings of Mr. Maguire, Deputy Commissioner of Manbhum, in connection with the mining lease in which some differences arose between Messrs. Bird and Company and the East India Coal Company?

"Is it the case that Mr. Maguire deliberately and illegally set aside, in his executive capacity, and not as a Court of appeal, the judicial finding of the Sub-divisional Officer, Mr. Garrett, that he described the order as unjustifiable, and that he subsequently procured the transfer of Mr. Garrett, on the ground that he did not seem to be able to control Mr. Smith, the Manager of the East India Coal Company, although that officer had done nothing but his duty?

"Is it the case that Mr. Maguire, as Manager of the Raja of Kathras, recorded a memorandum stating that, notwithstanding the judicial finding of the Sub-divisional Officer to the contrary, the East India Coal Company were not in any sort of legal possession, and directed that Messrs. Bird and Company should be put in possession, that a copy of this memorandum recorded by him as Manager was sent to himself as Magistrate, that as Magistrate he proceeded to give effect to his orders as Manager, and Police-officers were stationed to prevent the East India Coal Company from proceeding with their mining operations, that a complaint was subsequently made against the servants of the East India Coal Company for trespass, which was dismissed by the Sub-divisional Officer of Raniganj, to whom, owing to the proceedings of Mr. Maguire, the case had been transfered by the order of the High Court, and yet, subsequent to this order, Messrs. Bird and Company, acting under the direction of Mr. Maguire, entered upon the coal mines and took wrongful possession of them, although the Board of Revenue had expressed the strongest disapproval of the orders purporting to be passed by Mr. Maguire as Manager?

"Is it the case that the High Court severely censured Mr. Maguire for his proceedings in this case, in the following terms :—

'The arbitrary character of the orders passed in favour of Messrs. Bird and Company, and the abuse of his authority as District Magistrate by the Deputy Commissioner, Mr. Maguire, in persisting in his endeavours to give possession to his own lessees, Messrs. Bird and Company, regardless of the opposition on behalf of the East India Coal Company, who were judicially found to be in possession on the 20th March, are very lamentable, not only so far as they affect the Deputy Commissioner, Mr. Maguire, personally, but so far as they injuriously affect private rights, which, in this case, we are powerless to restore.'

"Will the Government be pleased to state whether it approves of the proceedings of Mr. Maguire referred to above? If not, will the Government kindly state, for the information of the Council and the public, what orders, if any, it has passed to mark its disapprobation of the proceedings of Mr. Maguire?"

The Hon'ble Mr. Bourdillon replied :—

"The attention of the Government has been called to these proceedings, and the Commissioner of Chota Nagpur has already been asked to report on the matter. The Hon'ble Member's questions will be answered when that report has been received and considered by the Lieutenant-Governor."

BENGAL FINANCIAL STATEMENT FOR 1900-1901.

The Hon'ble MR. BAKER laid on the table the Financial Statement for 1900-1901. He said:—

"In the ordinary course this Statement will come up for discussion at the next meeting of this Council on Saturday next. I will take this opportunity of asking that any Hon'ble Member who may wish to ask for any information or explanation or to raise any points of comment, will be good enough, if he possibly can, to give me notice not later than the morning of Wednesday next. It is impossible for me to carry a great mass of details in my head: and it will be convenient for me if I have sufficient time to get any information which Hon'ble Members may require."

EXPLANATORY NOTES ON THE BENGAL FINANCIAL STATEMENT FOR 1900-1901.

PART I.—General Review.

ACCOUNTS OF 1898-99.

IN the statement which was laid before the Council on the 8th April, 1899, it was assumed that the year 1898-99 had opened with a credit balance of Rs. 9,22,000, and had closed with a balance of Rs. 34,37,000; that the total amount available for expenditure during the year was Rs. 4,86,39,000 and that of this sum Rs. 4,52,02,000 had been spent. The actual result proves to have been worse than this estimate by Rs. 3,21,137. The amount actually available for expenditure was Rs. 4,85,63,523, and the amount actually expended during the year amounted to Rs. 4,54,47,660, thus leaving a closing balance of Rs. 31,15,863. This reduction in the balance was chiefly due to smaller collection of Land Revenue, and larger expenditure under Civil Works in charge of the Public Works Department especially owing to earthquake damages.

REVISED ESTIMATE, 1899-1900.

2. The budget estimate for 1899-1900, as passed by the Government of India, accepted Rs. 34,37,000 as the opening balance, and provided for receipts aggregating Rs. 4,64,08,000 and an expenditure of Rs. 4,79,08,000, so that the year should close with a balance of Rs. 19,37,000. The revised estimate now passed provides for a total revenue of Rs. 4,71,07,000, and an expenditure of Rs. 4,67,17,000, with an opening balance of Rs. 31,16,000. The net result is a surplus of Rs. 3,90,000 against a deficit of Rs. 15,00,000 anticipated last year, giving a net betterment of Rs. 18,90,000.

3. On the receipt side the revenue is expected to show an increase of Rs. 6,99,000, of which Rs. 3,37,000 is under Stamps and Rs. 2,50,000 under Excise, owing to general prosperity; Rs. 77,000 under Forests due partly to sleeper operations in the Tista and Buxa Divisions, and partly to the sale of larger quantities of firewood and charcoal from the Darjeeling Depôt; Rs. 60,000 under Jails due to larger issues of Jail manufactures; and Rs. 99,000 under Irrigation—Major Works, chiefly in the Sone Canals. Against these increases there are decreases of Rs. 32,000 under Provincial Rates, Rs. 55,000 under Registration, and Rs. 49,000 in Miscellaneous receipts of the Police Department.

4. The net decrease of expenditure is Rs. 11,91,000. Of this Rs. 99,000 occurred under Courts of Law, owing partly to savings under Salaries and Process-serving Establishments, partly to some of the Law Officers having received officiating instead of full pay for part of the year, and partly to two temporary vacancies in the High Court not having been filled up. Rupees 1,21,000 occurred under Jails, owing to smaller outlay on raw materials; Rs. 2,05,000 under Police, in consequence of large savings under Salaries of the Calcutta and District Police Forces; Rs. 45,000 under Marine chiefly for smaller outlay on stores, &c., Rs. 97,000 under Education, due to savings in salaries, in boarding and other charges of the Sibpur Engineering College, and the Eden Hostel, and in the establishments of net grant schools; and Rs. 2,04,000 under Irrigation—Minor Works and Navigat on, of which 53,000 is due to a write-back of capital expenditure in the Orissa Coast Canal, and $1\frac{1}{2}$ lakhs is due to smaller outlay on agricultural and

drainage works in consequence of the transfer of a corresponding sum to Civil Works for expenditure on the special repairs in Darjeeling occasioned by the cyclone. These total up to Rs. 7,71,000. The explanation of the remainder of the total decrease, which amounts to Rs. 4,20,000, is as follows. Just before the last budget was presented, the Government of India made a lump grant of 17 lakhs to the Local Government mainly in view of past and future expenditure on famine relief and plague. Of this, 3 lakhs were employed in raising the closing balance of the year towards the prescribed minimum of 20 lakhs; and the remainder, 14 lakhs (which was shown in the budget provisionally under 45—Civil Works by Civil Department), was distributed in the form of supplementary grants to different departments, as explained in paragraph 5 of last year's Financial Statement. These supplementary grants included items aggregating Rs. 7,60,000 for plague charges and grants to local authorities, and Rs. 4,50,000 to the Public Works Department. The expenditure on account of plague measures has fortunately fallen short of the provision made, and there is a saving of Rs. 2,20,000 on this account. The Public Works Department have not been able to utilize fully the total grants given to them and show a saving of about Rs. 1,20,000. Lastly, under the head of Contributions to Incorporated Local Funds, there has been a saving of Rs. 82,000. The provision under this head includes a reserve for unforeseen grants that may be required during the year, and cannot be forecasted exactly.

BUDGET ESTIMATE, 1900-1901.

5. The budget estimate for 1900-1901, as now passed adopts Rs. 35,06,000 as the opening balance, and provides for receipts aggregating Rs. 4,69,74,000 and expenditure of Rs. 4,79,82,000 including Rs. 4,40,000 on Famine Relief, leaving a closing balance of Rs. 24,98,000. Compared with the budget estimate for 1899-1900, the total receipts for 1900-1901, show an increase of Rs. 5,66,000, while, as compared with the revised estimate, there is a decrease of Rs. 1,33,000. The estimates for next year are based on the latest available actuals of the current year. Provision has been made for the normal expansion of revenue under the heads of Provincial Rates, Assessed Taxes and Registration. On the expenditure side the total grant is Rs. 4,79,82,000 against Rs. 4,79,08,000, the budget estimate for 1899-1900. The budget is explained more fully in the following paragraphs.

PART II.—Detailed remarks on the Budget for 1900-1901.

RECEIPTS.

6. *Land Revenue.*—The total collections under Land Revenue in 1898-99 amounted to Rs. 4,04,47,854, and the estimate for 1900-1901, as passed by the Government of India, based on the latest actuals is Rs. 4,09,00,000, which it also the revised estimate for 1899-1900. The estimate for 1900-1901 includes Rs. 3,75,000 for recoveries on account of the Bihar Survey and Settlemens charges, against Rs. 7,24,042, the actuals of 1898-1899, and Rs. 3,75,000 provided for in the revised estimate for 1899-1900.

7. The adjustments between Imperial and Provincial will probably result in a net transfer of Rs. 18,05,000 to Imperial, as shown below:—

	Rs.
Fixed contribution to Imperial Revenues under the terms of the Contract	14,19,000
Add—Payable to Imperial Revenues—	
For transfer of the South Lushai administration to Assam	3,75,000
Compensation for loss to the excise revenue of the North-Western Provinces and Oudh consequent on the importation of Shahjahanpur rum in bond to Bengal ...	6,000
Contribution for Dr. Stein's deputation for Archæological researches	5,000
Total sum to be transferred to Imperial ...	18,05,000

8. The estimated Provincial share of Land Revenue is arrived at as follows:—

	Rs.
Gross Land Revenue	4,09,00,000
Deduct 12 per cent. on collections from Government estates (Provincial)	5,89,000
Deduct recoveries of Bihar Survey and Settlement charges (Imperial)	3,75,000
Total deduction ...	9,64,000
Net amount divisible between Imperial and Provincial Funds	3,99,36,000
Provincial share of above (one-fourth)	99,84,000
Deduct on account of adjustments as shown above ...	—18,05,000
Net ...	81,79,000
Add 12 per cent. on collections from Government estates ...	5,89,000
Total Provincial share ...	87,68,000

9. *Stamps.*—The budget estimate of the total revenue from Stamps for 1899-1900 was passed by the Government of India for Rs. 1,77,50,000. The actuals in 1898-99 amounted to Rs. 1,73,81,080, and the latest returns from the Comptroller-General show that the receipts during the first ten months of 1899-1900 exceeded those of the corresponding period of the preceding year by Rs. 7,11,000. In view of these figures, both the revised estimate for 1899-1900 and the estimate for 1900-1901 have been placed at Rs. 1,82,00,000. The Provincial share is three-fourths of this sum, and amounts to Rs. 1,36,50,000.

10. *Excise.*—The budget estimate of the total revenue under this head for 1899-1900 was Rs. 1,35,00,000 against Rs. 1,34,27,055, the actuals of 1898-99. The Comptroller-General's latest statement shows that the receipts during the first ten months of 1899-1900 exceeded those of the corresponding period of the preceding year by Rs. 4,81,000. Assuming that the growth of this branch of the revenue may be checked in Chota Nagpur and Puri where the crops have been poor, the total receipts for the year will probably not fall short of Rs. 1,40,00,000 which has been adopted both as the revised estimate for 1899-1900, and the estimate for 1900-1901. The Provincial share (one-half) amounts to Rs. 70,00,000.

11. *Provincial Rates.*—The budget estimate of total receipts from Provincial Rates for 1899-1900 was Rs. 47,97,000. The actuals of 1898-99 under Public Works Cess amounted to Rs. 45,07,157, and under General Rate for management of private estates to Rs. 2,02,704, while the collections in the first ten months of 1898-99 show an increase of Rs. 77,000 under the former head and a decrease of Rs. 32,000 under the latter, as compared with the corresponding period of the preceding year. In view of these figures, the revised estimate for the total of Provincial Rates has been placed at Rs. 47,65,000 and the estimate for 1900-1901 at Rs. 48,00,000. An increase in Cess is expected in the districts of Dacca and Faridpur on the completion of revaluations in those districts.

12. *Assessed Taxes.*—The budget estimate of receipts from Income-tax for 1899-1900 was passed by the Government of India for Rs. 51,50,000. The actual collections in 1898-99 amounted to Rs. 50,90,916, and the latest returns from the Comptroller-General show that the receipts during the first ten months of 1898-99 exceeded those of the corresponding period of the preceding year by Rs. 97,000. The revised estimate for 1899-1900 has been passed for Rs. 52,00,000, and the estimate for 1900-1901 has been placed at Rs. 52,86,000. The Provincial share (one-half) is Rs. 26,43,000.

13. *Forests.*—The total receipts under this head for 1900-1901 are estimated at Rs. 10,49,000, against Rs. 11,15,000, the revised estimate for 1899-1900. The decrease is due to the transfer, with effect from the beginning of 1900-1901, of a portion of the Sonthal Parganas Protected Forests in the Saoria tract of the Rajmahal subdivision from the Forest Department to the Civil authorities, in consequence of which the revenue derived from this portion

of the forests will be credited under Land Revenue. The Provincial share (one-half) amounts to Rs. 5,24,000.

14. *Registration.*—The budget estimate under this head for 1899-1900 was Rs. 15,50,000 against Rs. 15,80,164, the actuals of 1897-98, and Rs. 14,75,009, the actuals of 1898-99. The receipts in 1897-98 were the highest on record, and were due to famine, which caused an abnormal increase in the number of registrations. The revised estimate for 1899-1900 has been placed at Rs. 14,40,000 and the estimate for 1900-1901 at Rs. 14,80,000. The Provincial share (one-half) amounts to Rs. 7,20,000 and Rs. 7,40,000 respectively.

15. *Interest.*—The estimate of loans for 1900-1901, as passed by the Government of India provides for a return of Rs. 3,96,000 under Interest, thus:—

Interest on—	Rs.
Advances to cultivators	56,000
Drainage and embankment advances	88,000
Loans to landholders	13,000
Loans to municipal and District Boards ...	1,75,000
Government securities of the Education Department	14,000
Miscellaneous accounts	50,000
Total ...	3,96,000

16. *Jails.*—The proceeds of Jail Manufactures showed a steady increase from 1893-94, but received a check in 1898-99. In view of the actual receipts of 1897-98 amounting to Rs. 10,26,570 the estimate for 1900-1901 has been passed for Rs. 10,23,000.

17. *Police.*—The estimate under this head is Rs. 2,11,000 against Rs. 2,19,000, the revised estimate for 1899-1900, and Rs. 2,43,006, the actuals of 1898-99. In 1898-99 there was a large demand for Police from Railway Companies.

18. *Marine.*—The budget estimate for 1899-1900 was Rs. 11,00,000, which has been raised to Rs. 11,10,000 in the revised estimate, with reference to the actuals of the first nine months of the year. The increase is mainly under Pilotage Receipts in Calcutta, which fluctuate with the tonnage of vessels visiting and leaving the port. The estimate for 1900-1901 is Rs. 11,32,000.

19. *Education.*—The estimate under this head amounts to Rs. 7,00,000, against Rs. 6,90,000, the revised estimate for 1899-1900, and Rs. 6,65,622, the actuals of 1898-99. The increase is due to larger receipts expected from the Eden Hindu Hostel.

20. *Medical.*—The estimate under this head is Rs. 2,01,000, against Rs. 2,02,000, the revised estimate for 1899-1900, and Rs. 1,61,733, the actuals of 1898-99. In 1898-99 the contribution of the Calcutta Municipality for the maintenance of the Campbell Hospital was not credited till after the close of the year, and the receipts from Lunatic Asylums were exceptionally low.

21. *Scientific and other Minor Departments.*—The total receipts for 1900-1901 are estimated at Rs. 2,04,000 against Rs. 1,96,000, the revised estimate for 1899-1900, and Rs. 2,00,990, the actuals of 1898-99. The increase is chiefly under Public Gardens and is expected to accrue from the sale of stone for building purposes from the Birch Hill Park in Darjeeling.

22. *Miscellaneous.*—The receipts under this head are essentially fluctuating. The estimate for 1900-1901, based on past actuals, has been placed at Rs. 7,04,000 against Rs. 6,87,000, the budget estimate for 1899-1900.

23. *Irrigation Major Works (Direct Receipts).*—The budget estimate for 1899-1900 was Rs. 17,01,000, and the revised estimate is taken at Rs. 18,00,000; the reason of the increase is that the receipts from the Midnapore and Sone Canals are expected to be better than the budget estimate. The actual receipts during 1898-99 were Rs. 18,53,877, of which Rs. 13,08,952 was from water rates only. The budget estimate for 1900-1901 is Rs. 17,18,000.

24. *Minor Works and Navigation, in charge of the Public Works Department.*—The estimate of receipts for 1900-1901 is Rs. 6,39,000 against Rs. 6,25,243, the actuals of 1898-99. An increase is expected in Nadia rivers.

25. *Civil Works.*—The estimate of receipts by the Public Works Department is Rs. 1,73,000 against Rs. 1,93,000, the budget estimate for 1899-1900. The falling off is due to an expected decrease in the profits from the

Darjeeling-Himalayan Railway, owing to the heavy damage done to the line by the cyclone of September last. The estimate of receipts by the Civil Department is Rs. 2,88,000 against Rs. 2,83,000, the budget estimate for 1899-1900. An increase is expected by the local officers from ferry settlements.

EXPENDITURE.

26. *Refunds and Drawbacks.*—The total Provincial expenditure in 1900-1901 is estimated at Rs. 1,83,000, against Rs. 1,78,000, the revised estimate for 1899-1900, and Rs. 1,87,937, the actuals of 1898-99. The actuals for 1898-99 included a special refund of Provincial Rates to the Narhan Estate in the district of Darbhanga in respect of the revenue-free lands belonging to it. The estimate for next year includes a special provision of Rs. 11,000 for refund of mesne profits on account of drift timber, to Rani Amriteswar Debi of Baikantopur Estate.

27. *Assignments and Compensations.*—The actual expenditure in 1898-99 amounted to Rs. 1,22,788 only and left large arrears to be paid. The estimate for 1900-1901 is Rs. 2,00,000 which provides for the payment of arrears.

28. *Land Revenue.*—The estimate of expenditure for 1900-1901 amounts to Rs. 40,06,000, against Rs. 39,28,000, the budget estimate for 1899-1900, and Rs. 40,56,000 the revised estimate for the current year, as shown below:—

	1899-1900.		Estimate, 1900-01.
	Budget.	Revised.	
	Rs.	Rs.	Rs.
(1) Charges of District Administration	30,27,000	31,00,000	31,68,000
(2) Management of Government estates	5,04,000	5,00,000	5,00,000
(3) Survey and Settlement ...	3,07,000	3,73,000	2,45,000
(4) Land Records and Agriculture ...	90,000	83,000	93,000
Total ...	39,28,000	40,56,000	40,06,000

The increase under (1) is due to larger provision made under salaries and establishment for the creation of an eighth grade of Deputy Magistrates and Deputy Collectors for a considerable increase in the higher grades of the Provincial Service, and for 73 Assistant Magistrates against 61 in 1899-1900. A provision of Rs. 25,000 has also been made for the reproduction of village maps of Orissa and Chittagong and for certain thanawari maps.

29. *Stamps.*—The estimate of expenditure for 1900-1901 amounts to Rs. 6,77,000, against Rs. 6,92,000, the budget estimate for 1899-1900. The decrease is chiefly under Stamp paper supplied from Central Stores, the estimate under which is Rs. 3,29,000 against Rs. 3,50,000, the budget estimate for 1899-1900. The Provincial share (three-fourths) is Rs. 5,08,000.

30. *Provincial Rates.*—The total grant for 1900-1901 is Rs. 1,52,000 against Rs. 1,31,000, the revised estimate for 1899-1900, and Rs. 43,762, the actuals of 1898-99. It has been decided that one-third of the actual cost of collecting both Road and Public Works Cesses, instead of a fixed sum as formerly, shall be paid from Provincial Revenues with effect from the 1st April, 1899, and this explains the increase in expenditure under this head.

31. *Forests.*—The budget grant for 1900-1901 is Rs. 5,89,000, against Rs. 5,60,000, the estimate for 1899-1900. The budget includes Rs. 11,000 for sleeper operations in the Buxa and Teesta Divisions: Rs. 19,000 for half the cost of a new steamer to replace S. S. *Cygnet* for the Sunderbuns Division, and Rs. 17,000 for a survey in the Singhbhum Division.

32. *Registration.*—The estimate for 1900-1901 is Rs. 9,09,000 against Rs. 9,28,000, the budget estimate for 1899-1900. The decrease is in proportion to the estimated decrease in receipts.

33. *General Administration.*—The total Provincial expenditure in 1899-1900 was originally estimated at Rs. 16,95,000, but in the revised estimate this has been raised to Rs. 17,25,000. The increase is distributed among several heads as shown in Appendix B. The estimate for 1900-1901 is Rs. 17,05,000, to provide for larger expenditure under Civil Offices of Account and Audit.

34. *Law and Justice.—Courts of Law.*—The budget estimate under this head for 1899-1900 was Rs. 90,74,000, but the revised estimate has been reduced to Rs. 89,75,000, for the reasons explained in paragraph 4 above. The estimate

for 1900-1901 has been passed for Rs. 91,70,000, which includes provision for the increased rates of pay sanctioned for the Judges of the High Court. Larger provision has also been made for the salaries of additional Assistant Magistrates and for the creation of an eighth grade of Deputy Magistrates and Deputy Collectors comprising 74 appointments. It should be explained that one-half of these charges are shown under "Land Revenue," and the remaining half under this head.

35. *Jails.*—The estimate under this head for 1899-1900 was Rs. 24,41,000, but the actuals of the first nine months indicate that the grant for the purchase of raw materials will not be fully utilised. The revised estimate has accordingly been placed at Rs. 23,20,000. The estimate for 1900-1901 is Rs. 23,69,000.

36. *Police.*—The following table compares the estimates of expenditure under this head:—

	Actuals, 1898-99.	1899-1900.		Estimate, 1900-1901.
		Budget.	Revised.	
1	2	3	4	5
	Rs.	Rs.	Rs.	Rs.
Presidency Police	7,75,384	8,19,000	7,65,000	8,26,600
Municipal Police	45,274	49,000	47,000	50,000
Superintendence	1,68,420	1,58,000	1,54,000	1,58,000
District Executive Force ...	47,23,637	48,12,000	46,90,000	48,48,690
Village Police	19,179	39,000	19,000	46,000
Special Police	1,50,502	1,44,500	1,43,000	1,46,000
Railway Police	1,36,078	1,37,000	1,37,000	1,54,500
Cattle-pounds	3,084	4,000	4,000	3,300
Refunds	1,072	2,500	1,000	1,000
Total ...	60,22,630	61,65,000	59,60,000	62,34,000

The actuals for the first nine months of 1899-1900 indicate that there wil be savings under Presidency Police owing to the sanction of the Secretary of State to the re-organisation of the Police Force having been received late in the year; and also under salary charges of District Executive Force which were over-estimated in the budget. The revised estimate of total expenditure has been passed for Rs. 59,60,000 against Rs. 61,65,000, the budget grant for 1899-1900. The estimate for 1900-1901 amounts to Rs. 62,34,000. Under Presidency Police provision has been made for the re-organisation of the police, as recently sanctioned by the Secretary of State, at a cost of Rs. 75,402.l Under District Executive Force provision has been made for the substitution of Sub-Inspectors for head-constables as investigating officers in accordance with the recommendation of the Police Commission. Under Railway Police the increased charges are due to additional police force sanctioned for new railways.

37. *Marine.*—The estimate for 1900-1901 is Rs. 9,61,000 against Rs. 9,66,000, the sanctioned estimate for 1899-1900. The decrease is under Repairs.

38. *Education.*—The total expenditure for 1900-1901 has been estimated at Rs. 29,80,000 against Rs. 29,47,000, the sanctioned grant for 1899-1900. Provision has been made for a new training college for teachers in connection with the Kurseong Boarding School and for a cooking class in the Kurseong Girls' School; for larger grants for the training of teachers and stipends to pupil-teachers; and for Engineering and Survey Schools; while the allotment for grants-in-aid has been raised from Rs. 6,10,000 to Rs. 6,40,000. On the other hand there is a reduction in salaries, and supplies and services, in Arts Colleges.

39. *Medical.*—The original budget grant for 1899-1900 was Rs. 19,65,000, but as explained in paragraph 39 of the last Financial Statement the budget was supplemented by an additional grant of Rs. 7,60,000 for preventive measures against plague and grants-in-aid of local fund expenditure on

plague measures, including the refund of the contributions paid by District Boards and Municipalities during the previous year. The grants-in-aid and refunds of contribution on account of the year 1898-99 aggregated Rs. 5,39,639 as shown below :—

	Rs.
(1) Grant to Calcutta Municipality for direct charges under Plague Regulations	2,50,000
(2) Grant to Howrah Municipality for local expenditure on plague	30,000
(3) Grant to District Funds for ditto ...	94,808
(4) Refund of contributions made by District Boards, &c., towards costs of plague camps	59,836
(5) Refund of contributions made by the Calcutta Municipality	82,641
(6) Refund of contributions made by Mufassal Municipalities	22,354
Total ...	5,39,639

Of these (1) and (2) aggregating Rs. 2,80,000 and all direct expenditure incurred by Government during 1899-1900 are adjustable under this head; while (3) and (4) amounting to Rs. 1,54,644 will be taken under "Contributions to Incorporated Local Funds"; and (5) and (6) under "Miscellaneous." The revised estimate for the year amounts to Rs. 23,24,000. The grant for 1900-1901, including a provision of Rs. 2,85,000 for plague measures, is Rs. 22,26,000.

40. *Scientific and other Minor Departments.*—There is an increase of Rs. 4,000 only as compared with the budget estimate for 1899-1900, which is due to larger grants for the Birch Hill Park and the Victoria Pleasance in Darjeeling. The details under Minor heads are shown in Appendix B.

41. *Superannuation.*—The charges under this head show a progressive increase year after year owing to the increase in the claims to pensions. The estimate for 1900-1901 is Rs. 23,00,000 against Rs. 22,30,000, the budget estimate for 1899-1900, and Rs. 21,44,088, the actuals of 1898-99.

42. *Stationery and Printing.*—The estimate for 1900-1901 is Rs. 12,45,000 against Rs. 11,46,000, the sanctioned estimate for 1899-1900, and Rs. 12,14,129, the actuals of 1898-99. A provision of Rs. 6,25,000 has been made for stationery supplied from central stores, against Rs. 5,60,000 provided in 1899-1900; and larger grants have been provided for the establishment of the Superintendent of Stationery and for supplies and services and contingencies of the Government Presses.

43. *Miscellaneous.*—The estimate under this head for 1900-1901 is Rs. 2,61,000 against Rs. 2,55,000, the budget estimate for 1899-1900, showing an increase of Rs. 6,000. A provision of Rs. 5,000 has been made to meet the charges of indigent pilgrims conveyed to their homes at Government expense.

44. *Famine Relief.*—A provision of Rs. 4,40,000 has been made as detailed below against Rs. 87,000 estimated to be spent in 1899-1900.

	1899-1900. Rs.	1900-1901. Rs.
For relief works and gratuitous relief, in the Chota Nagpur Division	27,000	4,00,000
For relief works and gratuitous relief, in the Orissa Division		1,00,000
Advances to grain-dealer	60,000	......
Total ...	87,000	5,00,000
Deduct—Recoveries from grain-dealers of advances made in 1899-1900 ...	......	60,000
Balance ...	87,000	4,40,000

45. *Irrigation—Major Works.*—Under the category of Major Works are included the Orissa Canals, the Midnapore Canal, the Hijili Tidal Canal, and the Sone Canals, the outlay for the construction and extension of which has for the most part been advanced from the Imperial Treasury. The Provincial

Government, which gets all the receipts from these works, is responsible for the maintenance of them and for the payment of interest on the capital invested in them. The total grant for working expenses for 1900-1901 is Rs. 13,31,000 against Rs. 13,80,000, the budget grant for 1900-1901, Rs. 13,76,000, the revised estimate for the year, and Rs. 13,43,316, the actuals of 1898-99 as shown below:—

Name of Canal.	Actuals, 1898-99.	1899-1900.		Estimate, 1900-1901.
		Budget.	Revised.	
1	2	3	4	5
	Rs.	Rs.	Rs	Rs.

Sone Canals	5,59,480	6,12,000	5,94,647	6,06,000
Total ...	13,43,316	13,80,000	13,76,000	13,31,000

46. *Irrigation—Minor Works in charge of the Public Works Department.*—The estimate for 1900-1901 is Rs. 15,03,000 against Rs. 14,84,000, the budget estimate for 1899-1900, and Rs. 13,89,470, the actuals of 1898-99. The grant for expenditure on Capital Account has been raised from Rs. 78,390 in 1899-1900 to Rs. 2,67,650 in 1900-1901, to provide for an outlay of Rs. 1,86,750 on the Calcutta and Eastern Canals, for the *bhil* route between the Kumar and Madhumati rivers; while the provision for agricultural works has been reduced from Rs. 8,61,510 in the estimate for 1899-1900 to Rs. 7,35,300 in 1900-1901.

47. *Civil Works.*—The expenditure in charge of the Public Works Department for 1900-1901 has been placed at Rs. 37,50,000 which is distributed thus:—

	Rs.
Original Works	11,68,751
Repairs	16,20,870
Establishment	9,30,379
Tools and plant	30,000
Total ...	37,50,000

The allotment includes the following grants for original works:—

	Rs.
Cuttack Commissioner's office	30,000
Double Munsifi at Naraingaj	13,500
Triple do. at Madaripur	27,300
Double do. at Bogra	12,200
Subdivisional Court at Thakurgaon	13,500
Ditto at Gumla	33,000
Subdivisional Residence at do.	11,800
Residences for Munsifs	15,000
Circuit-house at Motihari	20,000
Re-construction of distillery building at Monghyr... ...	20,000
New subsidiary jail at Gumla	10,000
Presidency General Hospital	2,00,000
Construction of feeder roads	1,46,800
Re-construction of roads damaged by cyclone in Darjeeling ...	2,71,200
Ditto of Municipal works damaged by cyclone in Darjeeling	1,30,000

48. *Civil Works in charge of the Civil Department.*—The estimate for 1899-1900 included a special lump grant of 14 lakhs sanctioned by the Government of India, which was distributed by the Local Government to several departments as explained in paragraph 5 of the last Financial Statement. Excluding

this, the grant for 1899-1900 was 1 lakh, which has been raised to Rs. 1,65,00 in the revised estimate which includes the following special grants:—

	Rs.
To Darjeeling Municipality for repairs of damages caused by landslips	25,000
For improvements of the Victoria Pleasance at Darjeeling ...	5,000
To Rangpur Municipality for re-excavating canal ...	5,000
" Bhagalpur ditto for sinking wells	10,000
" Khulna ditto for a dispensary	4,000
Total ...	49,000

The estimate for 1900-1901 is Rs. 1,46,000, which includes special provision for grants to municipalities for the construction of public works.

BILL TO AMEND BENGAL ACT I OF 1869 (CRUELTY TO ANIMALS).

The Hon'ble MR. SLACK moved that the Report of the Select Committee on the Bill to amend Bengal Act I of 1869 (*an Act for the prevention of cruelty to animals*) be taken into consideration, and that the clauses of the Bill be considered in the form recommended by the Select Committee. He said:—

"When introducing the Bill, I fully explained the necessity for legislation, and the very limited object for which it was resorted to. Since the publication of the Bill there has not been, so far as I am aware, any sign of opposition or hostile criticism to its provisions, which shows that, in the opinion of the public, it satisfies a long-felt want. The Report of the Select Committee, by whom the recommendations of the Society for the Prevention of Cruelty to Animals were most carefully considered, has been for some time in the hands of Hon'ble Members, and to the changes and additions therein proposed, which will, I think, make the amending Act of much greater benefit than it would have been in the form it was introduced, the sanction of the Government of India has been received. The reasons for these alterations and additions are fully set forth in the Report, and as I cannot add to them, it would be needlessly taking up the time of the Council for me to repeat them. I would now move that the clauses of the Bill be considered in the form recommended by the Select Committee."

The Hon'ble DR. ASUTOSH MUKHOPADHYAYA moved that in section 1, for the proposed definition of the word "animal," the following be substituted, namely:—

'In this Act, the word "animal" means any organised or living being other than man, either domestic or captured, and endowed with sensation and power of voluntary motion.'

He said:—"The definition which it is proposed to repeal runs as follows:—

'The word "animal" shall be taken to mean any domestic or tamed quadruped, or any domestic or tamed bird.'

"That is a definition in the proper sense of the term, that is to say, it tends to explain what is meant by the word 'animal' in the Act. This is intended to be supplanted by what is called a definition taken from Act XI of 1890. That definition stands thus—'In this Act the word *animal* means any domestic or captured animal.' This definition, if it can at all be called a definition, has this particular quality, that it does not at all define what an animal is. It purports to define it, but simply says that the term 'animal' means an animal, domestic or captured. It is pointed out in the Report of the Select Committee that there was a discussion on this definition in the well-known case of Tulsi Bewa or Soshi Bewa, where the question was raised whether a crab came within the definition of 'animal.' There the discussion arose, not on the Bengal Act which the Council is now amending, but on the Act of the Government of India from which we propose to draw our definition.

n that case the question was raised whether a crab was an animal at all. It was rgued elaborately that a crab was not an animal at all, because it was not proved o possess mind or intelligence. One of the learned Judges who heard the case ave a definition which I have adopted. I am bound to mention that it has been ointed out to me by the Hon'ble Member in charge of the Bill that the definition iven by the High Court was liable to objection on the ground that it was too wide, hat, in fact, it might be made applicable to dead animals, and therefore I am uite prepared to omit the words 'organised or' from the proposed definition. But, even to the definition so modified, my hon'ble friend may, perhaps, object hat it is too wide, and would include trifling cases of which I shall give one llustration. A man wants to fish; he takes a worm, hooks it and goes to fish; e may be brought up under the Act, but the answer is that even without this efinition he would be liable. If a worm is an animal, a captured worm would e an animal within the meaning of the Act. If the words 'organised or' are mitted, my definition will not be wider than that contained in the Bill. On the other hand this definition has the merit of being a real definition. Therefore I move with your permission that the words 'organised or' be mitted, and that the motion as thus amended be put."

The Hon'ble Mr. Slack said :—" I am unable to accept this definition. It must either be taken as a whole, or not at all. It is put forward with the uthority of a definition laid down by the Hon'ble the Judges of the High Court, but it seems to me inadvisable, even with the omission of the words organised or,' to introduce a definition so wide as this, as it would enable ases to be brought which possibly would place the members of the Society or the Prevention of Cruelty to Animals in an undesirable position. The efinition in the Bill may not be so good as it might be, but I am unable o give one that is more perfect."

The Hon'ble Babu Surendranath Banerjee said :—" This is more or less matter for lawyers, but still more or less it is one on which a person may have n opinion of his own. We have before us practically three definitions: first here is the definition of the Government of India Act which is embodied in the Bill; then there is the definition of the learned Judges of the High Court which my hon'ble friend, the mover of the amendment, has followed; then there s my friend's own definition, because he now modifies the definition of the High Court. We have therefore the definition of the Government of India Act which my friend objects is too wide, and we have the definition of the High Court which my friend wants us to accept, but which he modifies now. The question is whether we shall accept the definition of the High Court or the definition in the Government of India Act. With reference to the former I have this objection to offer. The High Court Judges say that the word animal' is not defined in the definition of the Government of India Act; in he definition given by the High Court, however, the word 'animal' is defined. My hon'ble friend, who is so thoroughly conversant with law and logic, must be acquainted with this fact, that there are things sometimes so absolutely simple as to defy the shrewdest efforts of definers. The word 'animal' is one of those. Then my friend says that the word 'animal,' according to the definition of the Government of India Act, does not include a crab, because the High Court Judges assumed that a crab had no mind. How could any body say that a crab has no mind? Some body may hold that a crab does possess a mind, although it may not give any outward manifestation of it. It certainly understands, it moves and acts under certain instincts. It is able to feel, and that is an outward manifestation of a sentient mind. The ground therefore upon which the definition of the High Court is based does not commend itself to my mind; and, even if we accept that definition, the ground is cut away from under our feet, because my hon'ble friend does not accept it in its entirety. Then are we to accept the definition of the Government of India? I am not always a follower of the Government of India, but in a matter like this, where no contentious principle is involved, and in which the Government of India must have consulted its expert advisers, I think we should be wise to accept the definition of the Government of India in preference to the very wide definition of my hon'ble friend. These are the grounds upon which I shall vote against the amendment."

The Hon'ble MR. WOODROFFE said:—"I think the amendment is one which ought not to receive the acceptance of the Council. It is I think desirable that the definition contained in the Act for the Prevention of Cruelty to Animals of the Government of India should be retained. It would, I fear, give rise to serious difficulty if we had a definition in our Act different from that in the Act of the Government of India, an Act which may at any moment be extended in all or some of its parts to these Provinces."

The Hon'ble DR. ASUTOSH MUKHOPADHYAYA in reply said:—"There seems to be some misconception in this matter. We legislate and the High Court interprets. The Government of India has given a definition of 'animal' in Act XI of 1890 and the High Court has interpreted it; therefore it cannot be said that the High Court have given a new definition. As long as that interpretation has not been set aside it must be accepted as good law. On the other hand if the interpretation of the High Court goes too far, then we are entitled to modify it. I understand the Hon'ble Member in charge of the Bill to say that it does go too far; therefore, I have asked permission to modify my amendment, and the definition proposed by me in its restricted form ought to prove acceptable to him."

The Hon'ble BABU BOIKANTA NATH SEN suggested the amending of the definition in the Bill by the substitution of the word "includes" for the word "means"; so that it will run:—the word "animal" *includes* any domestic or captured animal.

The Hon'ble MR. BAKER remarked that that would include other animals besides those that are domestic or captured. The object of the Act is to confine it to these two classes of animals only.

The Hon'ble DR. ASUTOSH MUKHOPADHYAYA's motion was then put without the words "organised or," and was lost.

The Hon'ble DR. ASUTOSH MUKHOPADHYAYA, by leave of the Council, withdrew the motion standing in his name that in section 2, after section 5B, the following section be inserted, namely:—

"5C. If any person kills any animal in an unnecessarily cruel manner, he shall be punished with fine which may extend to two hundred rupees, or with imprisonment for a term which may extend to six months, or with both:

Penalty for killing animals with unnecessary cruelty anywhere.

Provided that nothing in this Act shall render it an offence to kill any animal in a manner required by the religion or religious rites and usages of any race, sect, tribe or class."

The Hon'ble DR. ASUTOSH MUKHOPADHYAYA also, by leave of the Council, withdrew the motion standing in his name that in section 2, after section 5C, the following section be inserted, namely:—

"5D. (*1*) If a Magistrate of the first class, Subdivisional Magistrate, Commissioner of Police or District Superintendent of Police, upon information in writing and after such inquiry as he thinks necessary, has reason to believe that an offence against section 5, section 5A or section 5C is being or is about to be or has been committed in any place, he may either himself enter and search or by his warrant authorize any police officer above the rank of a constable (named in such warrant) to enter and search the place.

Search-warrants.

(*2*) The provisions of the Code of Criminal Procedure, 1898, relating to searches under that Code shall, so far as those provisions can be made applicable, apply to a search under sub-section (*1*)."

The Hon'ble DR. ASUTOSH MUKHOPADHYAYA moved that in section 2, after section 5D, the following section be inserted, namely:—

"5E. A prosecution for an offence against this Act shall not be instituted after the expiration of three months from the date of the commission of the offence."

Limitation of prosecutions.

He said:—

"This is taken from section 9 of Act XI of 1890 and the corresponding English Act, where the period of limitation is one month. I do not think such complaints ought to be brought into Court. Such things ought not to be allowed to hang over a man's head for months."

The Motion was put and agreed to.

The Hon'ble MR. SLACK moved that the Bill as amended be passed. He said:—

"I trust that under its provisions, which will now be made substantive law, the Society for the Prevention of Cruelty to Animals will be able to greatly ameliorate the sufferings of dumb animals."

The Motion was put and agreed to, and the Bill was then passed.

THE CALCUTTA MUNICIPAL BILL, 1900.

The Hon'ble MR. BAKER moved for leave to introduce a Bill to continue and validate the appointments of certain functionaries of the Corporation of Calcutta.

The Hon'ble BABU SURENDRANATH BANERJEE took a preliminary objection under Rule 32 of the Rules of the Council for the Conduct of Business which provided that no such motion shall be made until after a copy of the Statement of Objects and Reasons has been furnished to each Member. Any Member may object to the motion unless copies have been furnished to him at least seven days previously, and such objection shall prevail unless the President, in exercise of his discretion, allow the motion to be made. He had only that morning seen a copy of this Bill, and he had not had time to consider it, and having regard to the very important nature of the Act of which this Bill is an amendment, it appeared to him that it should not be brought before the Council in this hurried way.

The Hon'ble MR. BAKER said that under Rule 55 of the Rules the President for sufficient reasons, and whether upon the application of a Member or otherwise, may suspend any of the foregoing rules for a particular purpose.

The Hon'ble THE PRESIDENT asked whether after reading the Bill the Hon'ble Member thought there was any reasonable objection against proceeding with it?

The Hon'ble BABU SURENDRANATH BANERJEE said that it was a strain upon the constitution to proceed with the Bill now. He would like to have His Honour's ruling upon the objection which he had taken.

The Hon'ble THE PRESIDENT said:—"I am sorry that the Council has had to be troubled with the Bill which is unexpectedly before it. I was myself under the innocent belief—a belief which was shared by the Member in charge of the Bill which afterwards became the Calcutta Municipal Act—that matters of this kind were covered by the General Clauses Act which we passed last year. I was under the impression that one of the express reasons for which we passed the General Clauses Act was exactly to cover cases of this kind. In that belief we were supported by certain legal advisers at the time, and there is still a legal dispute whether the present Bill is or is not necessary. The final and decisive opinion in a legal matter of this kind is that which is furnished to us by our hon'ble colleague, the Advocate-General. By his opinion we must now be guided. But the Hon'ble Member who has made this protest is unable to say that the proposals made in this Bill are in any sense unreasonable. The Hon'ble Member is also aware that on no occasion at any time during the time I have had the honour of presiding in the Council have I hurried any measure of any kind whatever. The Bill we passed this morning is an instance that we have never hurried a measure. But this is legislation which is necessary to correct in the Calcutta Municipal Act—a mere technical

mistake, which took place innocently and is a mere legal informality. Under these circumstances, as it is necessary to give validity to the proceedings of the officers of the Calcutta Corporation, and in the absence of any reasonable objections on the part of the Hon'ble Member, I avail myself of the discretion given to me by the Rules, and declare that further notice is not necessary in this matter.

The Hon'ble Mr. Baker said:—"The Bill was circulated last night and is in the hands of Members. It is extremely brief, containing only two operative clauses, and is of a purely formal and technical character. It makes no change whatever in any substantive provision of the law, and its sole object is to overcome two technical legal difficulties which have within the last two or three days been brought to our notice.

"I will explain each of these separately. The first of them relates to the continuance of the appointments of the whole municipal establishment, from the Vice-Chairman downwards, who have been appointed under the old Act.

"In section 2 of the old Act of 1888, there is a clause which declares that among other things all appointments made under former Acts shall be deemed to have been made under the new Act. In section 2 of the Act passed last year there is a corresponding clause: but in that clause the words 'appointments made' are omitted. The reason for making this change was that by section 8 (*c*) of the Bengal General Clauses Act, passed last year, it was provided generally and once for all that the repeal of any enactment, unless a different intention appears, shall not 'affect any right, privilege, obligation or liability acquired, accrued or incurred under any enactment so repealed.' The Secretary of the Council, who is an expert draftsman, considered that this provision in the General Clauses Act saved all appointments made under the former Act, and that it was unnecessary (and therefore inexpedient) to refer to them in the special saving clause inserted in the new Municipal Act. He informs me that this view is consistently taken in the Acts of the Government of India, and that the practice is taken from the corresponding practice in England. This is manifestly a purely legal question, as to which non-lawyers are not qualified to express any opinion. The view was not challenged by any Member of the Select Committee or of the Council itself. It may be that the point was not noticed; but whatever the reason may be, the fact remains that no reference was made to the matter by any of the learned lawyers or unlearned laymen who took part in the discussions on the Bill.

"A few days ago, however,—last Monday in fact—my attention was called to an article in the *Reis and Rayyet*, in which, among other things, it was pointed out that the appointments of the municipal staff were not saved by the saving clause, and it was argued that their appointments would cease on the commencement of the new Act. It did not seem to me that there was much force in the arguments used, and the Secretary whom I consulted adhered to his former view that these appointments were saved by the General Clauses Act. To be on the safe side, however, I caused a reference to be made to the Advocate-General, and the Hon'ble Mr. Woodroffe gave it as his opinion that these appointments were not saved, that Government could appoint the Chairman and Deputy Chairman in advance of the new Act coming into force, but that as regards the Vice-Chairman and the rest of the Municipal officers and servants, the only way out of the difficulty was to pass a short Act to continue their appointments. I have the text of the opinion here, and will read it if desired; but that is the substance.

"As this was a very serious matter, Government thought it prudent to obtain a second legal opinion, and accordingly a reference was made to Sir Griffith Evans. That eminent lawyer concurred with the Advocate-General both as to the appointments not being saved and as to the remedy to be applied.

"In these circumstances, there was no course open to Government but to accept these opinions and to act on the advice given. The first operative section, section 2 of the Bill now before the Council, is designed to give effect to this view. It has been framed in consultation with the Advocate-General, and is in his opinion effective for the purpose.

"It is true that an Act of the Local Council has no validity until it is published with the consent of the Governor General, but the draft has been so framed that when the publication is made, it will take effect from the 1st April, *i.e.*, from the commencement of the new Act. And steps are being taken to apply for the Viceroy's assent as quickly as possible, so that the transition period may be of the shortest duration.

"I need hardly dwell on the necessity of the measure It is out of the question that the whole municipal machinery should be stopped, even for a day. It is impossible to stop the conservancy, the water-supply, the street lighting, and the watering and cleaning of the streets. The work must in any event go on as before, the establishments must remain at their posts and continue to work; and the present measure is intended to give them legal authority to do so.

"I now pass to the second of the two points with which the Bill deals. This relates to the appointments of Commissioners made by the Chamber of Commerce, the Trades Association, and the Port Trust. And in respect of this matter I must regretfully admit my personal responsibility; for the difficulty could have been got over without legislation if I had discovered it earlier. I only discovered it a few days ago, when I came to prepare the draft Notification gazetting these appointments of Commissioners, and it was then too late to remedy the omission, except by legislation I am ready to accept whatever measure of blame attaches to this omission.

"The difficulty is this: Section 8 (*3*) of the new Act provides that the Local Government shall make rules to regulate the appointment of Commissioners by these three bodies, section 58 (*1*) limits the operation of these rules merely to the manner of convening the meetings at which they are to be chosen, and section 25 of the General Clauses Act saves all rules made under the former Act.

"Now, as the Council are aware, it was our intention to make no change in respect of these Commissioners, and in fact we did make no change beyond designating them 'appointed' instead of 'elected.' And I took it for granted that the appointments would be made under the old rules which, as I have explained, are saved by the General Clauses Act.

"But when I came to draft the Gazette Notification, I found that no rules had ever been framed under the Act of 1888. When that Act was passed, the Government decided that it was not necessary to frame rules, and they contented themselves with issuing certain instructions to the three commercial bodies for the conduct of their elections; and the elections have been conducted under those instructions ever since. I may mention that these instructions correspond very closely to the provisions of section 58 (*1*) of the new Act, to which I have already referred.

"The effect of the absence of any existing rules was that no valid appointments could be made by the three commercial bodies, until fresh rules had been made under section 8 (*3*) of the new Act.

"Had I discovered this defect sooner, it would have been open to Government, by section 24 of the General Clauses Act, to frame such rules at once, and in that case it would not have been necessary to legislate. But the defect only came to my knowledge a few days ago, when it was too late to follow this course. I very greatly regret that this should have been the case.

"We cannot delay the validating of these appointments, because until the commercial representatives are appointed, it would be certainly inexpedient and probably illegal to proceed to constitute the General Committee, and as that is the executive authority of the Municipality, it must be brought into existence with the least possible delay.

"On this point also the Advocate-General has been consulted, and he concurs both in the necessity for legislation and in the form of the measure.

"These are the objects of the Bill and the reasons why I regard it as of pressing urgency."

The Hon'ble Babu Surendranath Banerjee said:—"After the remarks, which I have heard from the Hon'ble Member in charge of the Bill, I am bound to say that the tenour of those remarks disarms criticism and puts a complexion of a different character upon the matter, because the Hon'ble Member throws

himself into the breach and takes all the blame upon himself. But apart from the personal aspect of the question I think the introduction of such an amending measure, even before the Calcutta Municipal Bill has become the law of the land, is a striking instance of the hurry with which that Bill has been rushed through at the final stages of its consideration. I am well aware of the consideration which Your Honour extended to the suggestions we were allowed to make from our places here. But when a flaw has been now found in a Bill of such magnitude and importance as the Calcutta Municipal Bill which has been considered from day to day for over a fortnight and from 11 o'clock in the morning to 6 o'clock in the evening, I am bound to say that under such circumstances this legislation cannot be of a satisfactory character, and other flaws are bound to have crept in. I do not know how many more mistakes will appear when that Bill is put into the crucible of actual operation. I hope it will not fall to pieces like a house of cards, but all the same the fact that you are compelled at this early stage, before the Bill has become law, to introduce an amending measure shows that there were grave defects in the Bill, much graver than was anticipated, which will only be disclosed when the Bill comes into force. We are not prophets, but not even the most sagacious amongst us had the remotest idea that the anticipations we indulged in were likely to arise so soon. This is the first amending measure, and I am certain that other amending measures will be brought forward, and that they will increase in number and volume, until the Calcutta Municipal Bill of the last session of this Council is succeeded by a law which will bring back the municipal constitution of Calcutta to its old form. I have no objection to offer to this particular Bill, because I find that it is necessary to correct a flaw in the Bill which was recently passed by this Council; but the fact that this amending measure has been found necessary affords evidence of the hurry with which the Calcutta Municipal Bill has been passed."

The Hon'ble Mr. Oldham said:—"I for one cannot concur in the propriety or justice of the remarks which have been made so far as this instance is concerned. The Hon'ble Member spoke of it as an instance of the way in which the Calcutta Municipal Bill was hurried through the Council in its final stage. I remember perfectly well that this particular clause came before us in Select Committee so far back as in December, 1898. It was then explained to us by the Secretary, who was our expert adviser in legal matters, that having regard to the General Clauses Act, which had then been recently passed, the safeguard which was now sought to be provided could be dispensed with. If a period of fourteen months was not long enough to discover and rectify errors of this sort, I do not know what time my hon'ble friend would consider sufficient. I do not think the deduction he draws from this instance will apply."

The Hon'ble Mr. Apcar said:—"I do not know whether we are in order in speaking at the present stage of the Bill now before the Council. I understand that the motion is for leave to introduce a Bill and subsequently to move that the Bill be passed through all its stages at this meeting of the Council. If I am in order I desire to say a few words I had intended to speak in the second motion on the agenda in connection with this Bill, namely, on the motion that the Bill be taken into consideration. On a previous occasion my hon'ble friend to my right (Babu Surendranath Banerjee) was called sharply to order when he desired to discuss the Calcutta Municipal Bill when it was being introduced in Council. I think the Government is not in an enviable position in having to pass an amending Act before the original Act has come into force. But if the matter were not brought up now, and the flaw which is found to exist were not remedied at the present stage, the confusion which would ensue would be more chaotic than my imagination can picture. All the officers who might venture to go on the premises of the Municipal Office after to-day would be trespassers, and as the Hon'ble Member in charge of the Bill has said, the affairs of the Municipality would be brought to a deadlock. I confess that when my attention was drawn to the article in the periodical mentioned by the Hon'ble Member in charge of the Bill, it was the first intimation I had of this omission in the law. I then gave my attention to it, and the conclusion to which I have come

is, that the officers now in the employ of the Municipality would certainly cease to exist, as such municipal officers, with the expiry of the Act which comes to its end to-day. I thought that possibly this was the one change in the whole constitution which the Government had given to the Corporation with which I was in agreement. I thought that possibly the Government intended to make a clean sweep of all the executive officers of the Municipality and to give to the new Corporation a free hand to eradicate those whom they might think to be weak spots in the administration. I was buoyed up with that hope until this morning, and it is one more matter of regret to me to find that the new Corporation would not be starting under such happy auspices as I should like to see. But as the Government have no such intention I am glad we are saved the terrible confusion which would have arisen, because the confusion would not be counterbalanced by the advantage the new Corporation would have had if they were allowed to make free choice of their officers.

"My hon'ble friend the Member in charge of the Bill has made one reference which forces me to reply on what he has said. He has referred to this matter not having been touched upon by any of the lawyers in this Council who took part in the discussions on the Calcutta Municipal Bill. With regard to this I would remind the Hon'ble Member that we, the ordinary Members of the Council, are not here as the legal advisors of the Government, and I would remind the Council how I, on more than one occasion, ventured respectfully to suggest how undesirable it was that there was no Crown lawyer, no legal adviser of the Crown, in this Council. I feared then, by instinct as it were, the Council not being, as I thought, rightly constituted, in the absence of the law officer of the Crown, and I expressed my fear, that there would be necessity for fresh legislation before this Bill came into force. This was not a prophecy after the event, for His Honour will remember that I expressed this fear to him when the original Bill was before the Council, and my fear has been realised in an extraordinary way. And I may be permitted to say that I think we have been deprived of the services of a law officer of the Crown for too long a period, and I trust that in the interests of the public we will not suffer from the same disadvantage again. I think that it will be a great disadvantage if at any future time we have not that assistance which we expect from the learned Advocate-General as the law officer of the Crown.

"With reference to the point as to the assistance which the legal members in this Council may be expected to give, I would ask Your Honour and the Hon'ble Members to remember that I ventured respectfully to beg for some little time, since I had only very lately joined the Council, in order that I might be able to give such help as lay in my power by an examination of the changes which were proposed in the law, but I was not permitted to have the time which I desired. My offer was most cordially made with the desire to do what I could to assist the Council, but it was not accepted, and I was unable to give the assistance I would have been glad to give. Therefore, on my part, I would disclaim any responsibility, if any is supposed to be on Members of this Council who are not members of this Government. I came to the conclusion, after having my attention drawn to this particular matter, that it must have been in some measure intentional on the part of the Government, because in the original Bill which the Hon'ble Member in charge has since altered, this particular proviso was inserted. It dropped out, I am not aware how, for I do not find any explanation of it in the Select Committee's report. The matter as far as I was concerned was hurried on, and I was unable to make any suggestions independent of the general principles of the Bill; and in examining the subject it must be seen that the new law makes this vast difference in the constitution of the Corporation that the Chairman is exalted to the position of supreme power in the Corporation. He has united in himself the triune functions of three co-ordinate bodies, and the Vice-Chairman is placed in a position now in which he cannot be of the great service he has been in the past, and in every single particular, the constitution has been changed, and changed to such a degree, that it will be indeed a straining of the law to say that under the General Clauses Act the old officers can be continued under the new Act. I quite agree that the changes made are of a kind that should make us cautious in accepting that 'a contrary intention,' such as is contemplated

in the General Clauses Act, does not appear, and I must say I agree with Sir Griffith Evans in his opinion that, if the Corporation continued working with the same officers as they had before the passing of the Act, without proper action being taken for their continuance, they would be in a very awkward position in the event of an application in a Court of Law. In spite of what has fallen from the Hon'ble Mr. Oldham, I must endorse what was said by the Hon'ble Babu Surendranath Banerjee with regard to the Calcutta Municipal Bill having been rushed through the Council in its final stages. We were kept here, day after day, in the worst period of the year, without regard to our humble protests and of the disadvantages under which we were placed, but Your Honour, with a most self-sacrificing disposition, was willing to undergo every discomfort in the most trying season of the year, in order that the Bill might be passed into law on the earliest opportunity. I failed, at the time, to see the necessity for the great urgency on account of which the Bill was pressed on, and events have only shown that there was really no real urgency. As for the necessity for the new law, one reason given was that the Corporation were incapable of meeting an emergency. But if we look at what was done at the outbreak of the plague, and the time before the Corporation was deprived of the help of some of its most active and efficient members by the resignation of twenty-eight Commissioners in a body, they will see good reason to think otherwise. Those Commissioners did good work and I missed them more than I can say in that body, and the work of the Corporation, as much as lay in the power of Commissioners to do, was well done. The places vacated by those who have resigned have been filled almost entirely by the nominees of the Government and from the class they have said they most desire. If the work before done was inefficient and unsatisfactory, in the present crisis of the plague I would have expected to see increased activity and a marked improvement, but as a matter of fact no steps are being taken to cope with the emergency. As far as the work of the Corporation is concerned, I cannot see what there was to induce the Government to hurry the Council to get this new Act passed.

"For my part I have always been most willing to give such help as I could before the event. In legislation, as I have said before, there are no rewards or punishments; there are consequences, and I do not think it wise not to readily accept any help in this Council that may be offered. I would much rather be of help before a Bill is passed than be in the position of a critic after a Bill is passed. With these observations I support the Bill."

The Motion was then put and agreed to.

The Hon'ble Mr. Baker applied to the President to suspend the Rules of business to admit of the Bill being passed at the present sitting.

The Hon'ble the President having declared the Rules suspended—

The Hon'ble Mr. Baker introduced the Bill and moved that it be read in Council.

The Hon'ble the President said:—"As the Hon'ble Member in charge of the Bill has said nothing in regard to one matter to which the Hon'ble Mr. Apcar referred, I desire on the part of the Government to explain to the Hon'ble Member that I am quite certain the Hon'ble Member in charge of the Bill had no intention whatever of deprecating offers of assistance from legal members of the Council in the discussion of the Calcutta Municipal Bill. On the contrary he, as well as I myself, appreciate to the full the very cordial assistance and the very valuable assistance we received from those Hon'ble Members. The only object the Hon'ble Mr. Baker, as well as I myself, had in referring to the absence of the detection of this flaw was to show that it furnishes some justification to the Government that even acute, intelligent legal gentlemen who gave their cordial assistance in this matter had failed to detect the flaw which has now been remedied."

The Motion was put and agreed to and the Bill was read accordingly.

The Hon'ble Mr. Baker also moved that the Bill be taken into consideration.

The Hon'ble Mr. Woodroffe said:—I desire to say a very few words on this motion, and it occurs to me that this is the proper time to make them. The Hon'ble Member in charge of the Bill seems to me to take too much blame to himself. The matter is one which might well have escaped attention, and I am consequently unable to appreciate the observation of the Hon'ble Member who spoke of the unenviable position of the Government. The Government of Bengal like any other Government in the world, is not infallible. I am glad to hear that the opinion which I ventured to give has been corroborated by a member of my profession whose valuable advice no man rates higher than I do, and I will only venture to observe, with reference to what fell from the Hon'ble Member in charge of the Bill in respect of the advice given by the Secretary, that the opinion I gave does not involve any criticism on the General Clauses Act. In considering the General Clauses Act, it is always necessary to remember that every one of the definitions given in that Act are subject to the qualification 'unless there be something repugnant in the subject or context,' and here there is that repugnancy in the subject and context. It appears to me that the Corporation which is now constituted is different from that which existed before. If it was the intention of the Government that matters should not be brought to a deadlock, that there was to be continuity of administration under the new constitution, then certainly in the case of the majority of officers, the only manner in which that result is attainable, is by the introduction and passing of this Bill. Furthermore it is to be observed that clause 25 of the General Clauses Act only speaks of Notifications issued under a repealed enactment, and I venture to think that by that is meant not Notifications that the appointments have been made by the Municipality, but Notifications operative *per se*. If they are operative by virtue of the Notification then they are well within the meaning of the General Clauses Act. It would I think be a very great misfortune if, owing to any mistaken view of the law, there should be brought about such a state of chaos as to some Members seem a matter of but little moment, and I can only express my satisfaction that the Government has seen fit to prevent its occurrence."

The Motion was put and agreed to.

The Hon'ble Mr. Baker also moved that the Bill be passed. He said:—

"After what has been said, especially by the learned Advocate-General, it is unnecessary for me to take up the time of the Council with any further remarks."

The Hon'ble Mr. Oldham said:—"I shall take up only three minutes in reminding the Council of an instance very pertinent to the present matter, of how a legal flaw may remain undetected until the last moment. In the first Calcutta Municipal Act, and in the Act which superseded it, it was provided that the affairs of the town should be managed by a body called the Town Council and now called the General Committee. But it was only in September last that it was discovered that no provision existed enabling the Commissioners to fill up vacancies in that body as they occurred. By the recent resignation of 28 Commissioners the General Committee lost more than half its members and became almost paralyzed from the difficulty of obtaining a quorum. For that reason alone there was urgent necessity for amending the Municipal Act. I think this is an instance in point."

The Hon'ble Mr. Apcar observed that what the Hon'ble Mr. Oldham had just mentioned as a flaw in the old Calcutta Municipal Act was discovered many years ago. The resignations of the members who left the General Committee were sent in some time after the decision was arrived at to proceed with the Bill so urgently.

The Motion was put and agreed to.

The Council was then adjourned to Saturday, the 7th April, 1900.

QUESTIONS AND ANSWERS.

Proceedings of the Deputy Commissioner of Jalpaiguri.

The Hon'ble Babu Surendranath Banerjee asked :—

"Has the attention of the Government been drawn to the proceedings of the Deputy Commissioner of Jalpaiguri, which have been published in the newspapers in connection with the enquiry into certain cases of bad livelihood under section 110 of the Criminal Procedure Code?

"Is it the case that the Deputy Commissioner made over to Mr. Foster, Joint-Magistrate, several cases of bad livelihood, although the latter was not legally empowered by the Government to try those cases, and although there were two Deputy Magistrates at Jalpaiguri, who were empowered to try such cases?

"Is it the case that, having made over these cases to the Joint-Magistrate, the Deputy Commissioner applied to the Government to vest the Joint-Magistrate with power to try such cases, and although the Government refused to vest the officer with this power, the cases were kept on the file of the Joint-Magistrate, who passed orders thereon, some of the prisoners being sent to jail on failing to find security; and that subsequently, when appeals were preferred against the order of the Joint-Magistrate, the Deputy Commissioner rejected the appeals, although he must have known that the orders of the Joint-Magistrate were illegal and passed without jurisdiction?

"Is it the case that, as regards one of the prisoners who was too ill to appear in Court and was detained in *hajat*, the evidence was taken by the Joint-Magistrate, in his absence, and the order was passed against him in jail, that he appealed to the Deputy Commissioner against this order, that the appeal was rejected and the man died in jail?

"Is it the case that the Judge called for the records in these cases, and that, subsequent thereto, the Deputy Commissioner drew up proceedings under section 124, Criminal Procedure Code, regarding the prisoners as no longer dangerous to the community, and that he released them, although only a short time ago he had rejected the appeals preferred by these prisoners.

"If these proceedings have been brought to the notice of the Government, will the Government be pleased to state what orders, if any, the Government has passed to mark its disapproval of such proceedings?"

The Hon'ble Mr. Bourdillon replied :—

"The attention of the Lieutenant-Governor has been drawn to this matter, and the Commissioner has been asked for a report. When this has been received and considered by the Lieutenant-Governor the questions of the Hon'ble Member will be answered."

Filling up of vacancy in the Calcutta Court of Small Causes.

The Hon'ble Babu Boikanta Nath Sen said :—

"A vacancy having occurred in the Calcutta Court of Small Causes by the elevation of Mr. Handley to the High Court, will the Government be pleased to take into consideration the recognised claims of the Provincial Judicial Service, for filling up the vacancy: and will the Government consider it proper and necessary to consult the High Court, before making the appointment."

The Hon'ble Mr. Bourdillon replied :—

"The Lieutenant-Governor is aware that members of the Subordinate Judicial Service are eligible for a seat in the Calcutta Court of Small Causes, and that they have been appointed to that Court from time to time. Their claims have not been forgotten on the present occasion, but the Lieutenant-Governor has decided to appoint a member of the Calcutta Bar who has already officiated several times in the Court."

BURNING OF PLAGUE-INFECTED CLOTHING.

The Hon'ble RAJA RANAJIT SINHA BAHADUR, OF NASHIPUR, said:—

"Is it a fact that the clothes of persons who die of plague or other infectious diseases in Calcutta are burnt in or near the street by kerosine oil, which becomes a nuisance to passers-by and creates panic in the minds of the public, and, if so, will the Government be pleased to order to stop the practice and to make other arrangements for burning the clothes in a secluded place?"

The Hon'ble MR. BAKER replied:—

"The effects of persons who have died of, or been infected by, plague are burnt when of no value, and the burning is ordinarily done on the spot, or as near it as a suitable place can be found. But if the articles are to be carried away to a distance to be burnt, there is a two-fold risk: that they may spread infection on the way, and also that, as has happened in more than one instance, they may be stolen and become the centres of new outbreaks.

"The Health Officer has been instructed to make every possible effort to have such articles burnt in the least public manner possible; but if the public are to be protected from very real dangers, it is most inexpedient that such articles should be taken to any considerable distance."

BENGAL FINANCIAL STATEMENT FOR 1900-1901.

The Hon'ble MR. BAKER moved for the discussion of the Bengal Financial Statement for 1900-1901.

The Hon'ble RAJA SHASHI SHAKHARESWAR ROY BAHADUR, OF TAHIRPUR, said:—"Only a few words I have got to say and that is in connection with the increment which has been made in the provision for primary education. Considering the resources now available to the Government for encouraging primary education, the increased provision made in the Financial Statement is not an unfair one, and although we are thankful for it, I think the need of the country in this direction requires a far larger outlay to produce any tangible effect upon the vast illiterate agricultural population.

"Belonging as I do to a class the first and foremost duty of which consists in providing their tenants with elementary education, I feel myself a little embarrassed when I ask the Government to discharge a duty which is incumbent upon them to do. But Sir, when the physicians' case is worse than their patients, they cannot but look to a higher party for remedy. In this matter of spreading primary education as the Government is always fully alive and more interested than any of us could pretend to be, it is not at all necessary for me here to say much in its support. What I beg to lay before Your Honor is that any attempt made by the Government in the matter of affording cheap and practical education suited to the requirements of the great agricultural population will always be gratefully acknowledged not only by the poor and helpless ryots themselves, but also by the large body of zemindars who are fully aware that their prosperity is closely blended with that of their ryots.

"The means to achieve this end, it is true, it is very difficult to suggest, as neither the expense on higher education could be curtailed nor the creation of any new source of income by the imposition of any fresh direct taxes upon the people is possible under the present state of circumstances. But I think, Sir, it is possible to make perceptable progress not only in the matter of primary education of the people, but also in the matter of village sanitation by securing the active co-operation and help of the zemindars and the village people, and this could be done, in my humble opinion, by reviving in some modified form the old village panchayet system of this country."

The Hon'ble RAJA RANAJIT SINHA BAHADUR, OF NASHIPUR, said:—"Your Honour,—Last year at the time of discussion of the Financial Statement I expressed a hope that the year would end favourably, and I am glad to

find that my expectation has been realised to a certain extent, though not in full. We all know how the famine is causing havoc in other parts of the Empire, so we are fortunate in that respect, though there may be scarcity in some parts of Chota Nagpur and Orissa Divisions. Plague, Sir, I am sorry to say, has not left us as yet; so in face of its existence and of the scarcity in some parts of the Province, the budget as prepared by my hon'ble friend the Financial Secretary cannot but be considered satisfactory, and he is to be congratulated for the same. No doubt there has been an encroachment on our opening balance to meet the deficit of Rs. 1,00,800, but it is not disappointing when we find that it was done, not to meet any recurrent expenditure, but to meet extraordinary expenses on account of plague, famine and cyclone. I should take this opportunity of expressing our heartfelt thanks to Your Honour for the Circular published in the last week's Gazette regarding bifurcation of studies in high schools, which aims at commercial, industrial and practical education in Bengal, and which opens new fields for our countrymen to earn their livelihood.

"Sir, there are technical schools scattered hither and thither in some parts of Bengal, but for want of sufficient funds and encouragement, they are lying useless. The indigenous arts and industries of our country are gradually becoming extinct, and they cannot flourish, specially in this country, without State encouragement. I am fully alive to the fact that Your Honour takes a special interest in technical education, and so I beg that some grants-in-aid be sanctioned for such technical schools which, after necessary enquiries, are considered to be deserving of such aid from Your Honour's Government.

"Turning towards the head Police, I am glad to notice that provision has been made to give effect to the recommendations of the Police Commission by substituting Sub-Inspectors for head constables in investigating crimes. Sir, may I be permitted to suggest one improvement in the matter of conducting prosecutions of police cases in subordinate criminal courts? At present the Sub-Inspectors are employed to conduct such prosecutions, and get special extra allowances in addition to their pay for the same. As far as my experience goes, I think these men seldom possess sufficient knowledge in criminal law, and specially in the Evidence Act, and the result is that many guilty persons escape punishment. If the local pleaders or mukhtears be appointed for the purpose, the cases will be better conducted, and at the same time there will be no additional expenditure on that account, as in that case no extra allowance need be paid to Court Sub-Inspectors.

"Then, Sir, I find the income of our Law Courts is steadily increasing. If the actual collections in 1898-99 be compared with the figure put down in the revised estimate for 1899-1900, it will be found that there was an increase of Rs. 6,59,033 in the sale of court-fees alone; so in my humble opinion some improvement in the working machinery of our Civil Courts should be made. There is one universal complaint against the present system of process-serving in the Civil Court. The parties are put to much harassment and unnecessary expense by having the summonses served through the peons, who generally do not bear a very good reputation. It would be more convenient and at the same time less expensive if summonses could be served through the Post Office, and if this system be given a trial in some districts, I am sure it will prove successful.

"Then, Sir, the question of proper adjustment of the collection charges for Public Works and Road Cesses between the Government and the local bodies was a matter of criticism long since; and though, as a matter of equity, one-half of the charges should have been borne by Provincial revenues; we are, however, thankful to Your Honour for deciding to pay one-third of the actual cost of collecting both the cesses instead of the fixed sum hitherto paid. May I be permitted to suggest that the District Boards should be instructed to set apart the savings thus effected exclusively for the purpose of water-supply in addition to their annual grant for the same? It has already been brought to Your Honour's notice how intense becomes the sufferings of the people, specially those living in the interior, on account of the scarcity of water during the hot season. We are grateful to Your Honour for the kind assurance given by the Hon'ble Mr. Baker on your behalf, in reply to my question of 20th December last, that Your Honour has entire sympathy with

our desire that a pure supply of drinking water should be provided throughout the country, and we find that Rs. 10,000 was granted last year to the Bhagalpur Municipality for sinking wells, and so I am sure that the day is not very far distant when our cherished hopes will be realised and the long-felt want of the people removed.

"Then, Sir, turning towards the head 'Public Works,' I find Rs. 15,000 has been provided for building Munsifs' quarters, and if something be done every year in that direction, I am sure in the course of a few years the grievances of Munsifs in that respect will be completely removed. Sir, with Your Honour's permission I should like to bring one matter to Your Honour's notice for favourable consideration. The Honorary Magistrates are doing useful service, but very little attention is paid to their legitimate comforts. Generally, where a Bench is situated at a subdivision or any outlying place, the worst part in the whole building is set apart for the Bench Court, and even then no proper accommodation is made. Sir, formerly no Honorary Magistrate used to be vested with a higher power than a Magistrate of the third class, and none was ever allowed to sit singly, and so they used to sit together as a Bench to try petty cases only, and had not to attend more than once a month, but now-a-days the case is different. There are very few Benches where some of the members are not authorised to sit singly or vested with first class or second class powers, and so they have to attend oftener and work like Stipendiary Magistrates, and so they feel much inconvenience for want of proper accommodation. I appeal to Your Honour on their behalf in this matter.

"The question of giving increments to the ministerial officers of the Government has been a matter of discussion long since. The two Financial Secretaries to the Government admitted the necessity of increasing their pay by 12½ per cent., but unfortunately nothing can be done as yet in that direction. To-day with Your Honour's permission I should add another class of Government servants to that list—I mean the ungraded officers of the Education Department. These men have to work for years together, and sometimes even for their whole life, on the same pay, without any prospect of promotion or increment; so after a few years' service they become disheartened and disappointed, and I am afraid the education of the beginners suffers at their hands. They are generally left unnoticed whenever there occurs any vacancy in any graded appointment; men from outside are generally recruited to it, and their claims are very seldom considered; so I hope this matter will receive favourable consideration at Your Honour's hands."

The Hon'ble Dr. Asutosh Mukhopadhyaya said:—"Sir, I have no desire to detain the Council with a minute or exhaustive criticism of the Financial Statement which has been laid before us. It may be conceded that the resources of the Financial Secretary are taxed to the utmost when he is called upon to find ways and means in a year of exceptional difficulty, in which we have to face the effects of the appalling catastrophe which befell Darjeeling in September last, the effect of the terrible pestilence which has now unfortunately spread through various districts of the Province and perhaps also the effects of a famine which may prove an unwelcome visitor in spite of all that human prudence and human foresight can do. That under circumstances like these, the Hon'ble Member has found it possible to present so satisfactory a statement, is a matter for congratulation; and I shall content myself with offering a few remarks upon one or two heads of the Budget which deal with subjects in which I take a special interest, I mean the heads of *Education* and *Law* and *Justice*.

"First, as regards Education, I take the liberty to invite the attention of Your Honour's Government to the fact that in recent years, there has been a steady and marked decrease in the amount annually devoted to the maintenance of Government Arts Colleges. Neglecting fractions of a thousand, the amount spent in the official year 1896-97 upon Government Arts Colleges was five lacs twenty-four thousand rupees. In 1897-98 the amount was five lacs twelve thousand, in the year following it was four lacs ninety-four thousand, and in the year which has just closed it came down to four lacs seventy-five thousand. It is instructive to examine in detail the figures for the year which

has just closed and the year which is just beginning. For the year 1899-1900 the Budget estimate was five lacs twenty-eight thousand, being six thousand in excess of the Budget estimate and forty-eight thousand in excess of the revised estimate for the preceding year. It was explained last year that this increase was intended to provide for the purchase of instruments for the astronomical observatory at the Presidency College. A reference to the present Financial Statement, however, shows that the revised estimate for the year which has just closed is less than the Budget estimate by fifty-three thousand rupees and is less than the revised estimate for the preceding year by five thousand rupees. It is manifest, therefore, that the increase in expenditure, which was contemplated last year as rendered necessary by the astronomical Observatory at the Presidency College, has not been incurred. If the Observatory has not yet been fitted up, it would be important to know why no provision has been made for it in the present Budget. If it has already been equipped, this could only have been done by substantial reduction elsewhere, and I have grave doubts if this could have been possible without a corresponding reduction in efficiency. Again if we take the estimate for the official year which has just begun, we find that the amount set apart for the maintenance of Government Arts Colleges, is five lacs thirty thousand, which exceeds by two thousand, the estimated amount for the preceding year; but as the figure for the present year includes a sum of forty-six thousand rupees for the maintenance of the Eden Hindu, and the Elliott Madrassa Hostels which in previous years was included under a separate heading called 'Miscellaneous,' it is clear that the estimated amount for the present year is less than the estimated amount for the preceding year by fully Rs. 44,000. It is explained that a reduction of Rs. 28,000 will be made under the heading of 'Salaries and Supplies' of Arts Colleges. It is not explained, however, in what manner the further reduction of Rs. 16,000 will operate. But if this steady decrease in the amount annually spent for the maintenance of Government Arts Colleges is somewhat startling, it is a matter for surprise that the income derivable from fees in those Colleges, has, during these very years, steadily increased. In 1896-97 the increase from fees was Rs. 1,67,000, in 1897-98 the amount was Rs. 1,78,000, in the year following, it was Rs. 1,88,000, while the year which has just closed shows an income of Rs. 2,13,000, and if the estimate for the year which has just begun can be relied upon, it is expected that the figure will be fully maintained.

"I hope I have made it abundantly clear to you by an examination of the figures for the last five years that the income derivable from fees in Government Arts Colleges has steadily increased, while the amount spent for their maintenance has been steadily diminished. I should grievously fail in my duty if I had any desire to conceal the fact that this circumstance has been the source of the deepest regret to me as also to every educated Indian who has learnt to value and appreciate the advantages of high education. I am no prophet, but I can almost anticipate the answer of my hon'ble friend the Education Secretary. It will be pointed out that the Government has been steadily encouraging primary and secondary education and that the people have in a great measure, taken the cause of high education, as they ought to do, in their own hands. As to the first point, I may say at once that I yield to none in my appreciation of the duty of the Government to educate the masses, but I cannot overlook that it is equally the duty of the Government to offer all possible facilities for the high education of such portions of the community as may be qualified to receive its advantages. The position which I venture to take up is, I need hardly point out, amply sustained by the great Education Despatch of 1854. As regards the second point, I have heard a great deal in recent years about the establishment of Colleges throughout the country, by private munificence and under private management. I rejoice to think that these institutions have unquestionably popularised high education throughout these provinces, and I yield to none in my admiration for the wealthy and educated gentlemen who have taken part in this great movement. Their enterprise and self-sacrifice have been justly extolled both by Government and by the public, but no amount of rhetoric will blind me to the fact that their resources are necessarily limited. The foremost amongst the aristocracy of these provinces have held aloof from this movement, and I am not aware of a single

private institution whose permanence is assured or which can boast of an endowment in any way comparable to what the Colleges of Oxford and Cambridge can show. It would be idle, indeed it would be unfair, to compare our private institutions, either from the point of view of their efficiency or of their stability, with an institution which the Government, if it chooses, may easily maintain. Indeed in order that these institutions might be supplied with a thoroughly efficient staff, we must have at least one model College, where education is imparted at the highest possible standard by the best available men. I cannot admit that the time has come when the Government can safely weaken the cause of high education, and I have, therefore, noticed with the deepest concern this policy of retrenchment; retrenchment necessarily implies the employment of inferior agency or of competent persons upon inadequate salary; in either event, the result must be unsatisfactory. I speak so strongly upon the subject because I feel strongly upon it. In education if nowhere else, we must avail ourselves of the services of the very best men. My views may be called unpatriotic, they may even be condemned as heretical, but I make no secret whatever that if I had to appoint a Professor in any of our Colleges, I would without hesitation take the ablest man, be he Native or European, and give him an adequate remuneration. But if you make your other departments more attractive than the Education Department, if you hold out better prospects in the Judicial and Executive branches of your service, you cannot expect to have the best talent in the Education Department. I trust, therefore, that the time has come when this policy of retrenchment will be carried no further—I am not asking for a reversal of the policy and that there will be at least one College in the province which will be maintained at the highest attainable standard without any attempt made to cripple it by reductions under the head of 'Salaries and Supplies.'

"But, Sir, if I have ventured to criticise without reserve this policy of retrenchment in the matter of high education, I must discharge another duty of a more pleasing character; it would be ingratitude on my part not to thank Your Honour for the establishment of post-graduate scholarships for the encouragement of original research by the graduates of my University. It is a source of gratification to me that the University had, at my instance, taken steps in a similar direction when it made the Studentship founded by the munificence of Mr. Premchand Raychand of Bombay, tenable only upon condition of continued devotion to original research. The success of the scheme then adopted by the Senate has been now assured by the establishment of the scholarships to which I have just referred, and I trust the time is not far distant when, with an increasing number of workers in the field of original research, similar scholarships will be endowed by my wealthy countrymen in the manner so clearly indicated by the Government of Bengal.

"I have detained you too long with a discussion of matters educational and my intended observations upon the head of 'Law and Justice' must be necessarily brief. Indeed I shall confine myself to one point, reserving for another occasion the question of the salary of Judicial Officers and their house accommodation. The only point I wish to deal with relates to what is described as the Pleadership Examination. I find that the receipts for this examination are very much in excess of the charges incurred. If you take the Budget estimate for the present year you find that the receipts expected are Rs. 53,000 and the charges only Rs. 16,000, If you take the actuals for the three preceding years you will find that the net profit to Government from this item alone has been Rs. 82,000. I confess that I cannot reconcile myself to the idea that it is dignified for the Government of Bengal to make a profit out of these examinations. The candidates who appear at these examinations come mostly from the middle classes of the community, and many of them are poor; the fees charged are, as appears from the figures I have just quoted, needlessly and perhaps often oppressively high; a reduction seems to be possible, and I trust the matter will receive the consideration of the Government."

The Hon'ble Babu Boikanta Nath Sen said:—"A Financial Statement which has been prepared by able and experienced experts is one which ought and does command our respect. The Budget estimate for 1900-1901 which starts

with an opening balance of 35 lakhs and which shows receipts to the amount of Rs. 4,70,00,000, and an expenditure of Rs. 4,80,00,000, leaving a closing balance of about 25 lakhs, no doubt is a very satisfactory statement. It shows a statement which is both satisfactory and popular. The Government has not to struggle to find funds to meet the cost of the administration; there is no necessity for the imposition of any new tax; no attempt has been made to curtail any expenses which are considered necessary for the good administration of the province; and in this respect the Government has to be congratulated on its financial position. On an occasion like this when there is an invitation to discuss the Budget estimate, I would fail in my duty if I did not take advantage of the opportunity to make suggestions which I think it necessary to make and which ought to be considered by the Government and which might eventually lead the Government to prepare revised estimates.

"First, then, with regard to Stamps, I find the revenue from this source estimated to amount to Rs. 46,75,000, three-fourths of which goes to the Provincial Revenues as receipts from non-judicial stamps. The new Stamp Act of 1899 has come into operation from July last. Under this Act stamps on leases are ten times higher than what they were under the Act previously in force. The stamp for a lease by which a rent of Rs. 100 is reserved used to be Re. 1, but now stamp fee of Rs. 10 has to be paid, an increase of tenfold; therefore I venture to think that the revenue under the head of 'Stamps' has been under-estimated.

"With regard to the revenue derivable from Excise I find that 140 lakhs have been estimated from the sale of liquor, of which one-half is the Provincial share. An increase in the revenue is anticipated, and from an explanatory note I find that the increase is said to be due 'to better settlement.' If the principle of raising a maximum of revenue from a minimum of consumption is to be considered the correct principle to be followed in raising revenue from the sale of intoxicating drugs and alcohol, I respectfully submit that that principle has not been followed. In the last Resolution of the Government in respect of the Excise Administration for 1898 exact figures have been given, and from them you will find a consumption of 530,000 gallons in 1898-99 as compared with 442,000 gallons in 1897-98, and showing an increase of about 20 per cent. in the consumption. This is certainly to be deprecated. The Government does not desire a larger consumption of liquor, not only from a moral point of view, but for other considerations as well; therefore you should make as much revenue as is practicable by as little consumption of alcohol as is possible. The explanatory remark that the increase is due to better settlement is an inducement to the officers who have to administer the law in the mufassal districts, to increase the revenue. I therefore cannot approve of that remark, nor do I think any increase of revenue ought to be taken into account under this head.

"Then under the head of 'Provincial Rates,' up to this time a certain sum was paid from Provincial Revenues towards the cost of collection of both the Road and Public Works Cesses. We feel thankful to the Government for having now decided to pay in future one-third of the actual cost of collection; we feel thankful, but we are not satisfied, for there is no reason why it should not be one-half instead of one-third. The matter was taken into consideration by the Members of the Board of Revenue, but they did not go far enough. Half and half would have given satisfaction; still we are thankful to the Government for what has been done. With regard to this also I think the statement in the Budget that an increase in Cess is expected in the districts of Dacca and Faridpur on the completion of re-valutions in those districts is objectionable, for it will operate as an inducement to the officers to increase the assessments. They will consider themselves bound to give effect to that expectation: they will look upon it as a sort of order.

"Then, with regard to the Income-tax there is an explanatory note that there is a progressive increase in these receipts, and therefore an increased amount is taken into consideration, and the Collectors and Deputy Collectors in charge will consider themselves bound to show such progressive increase. I submit that the existing revenue ought to have been taken into account, and an increase ought not to be shown in the estimates.

"I have a few remarks to make with regard to Jails. The receipts from Jail manufactures are shown as amounting to Rs. 10,23,000 and the cost of raw materials as Rs. 7,55,000, leaving a net profit of Rs. 2,58,000; or in other words the value of the prisoners' labour and skill amounts to Rs. 2,58,000. If this revenue is obtained from the labour of the prisoners I think a little more money may be given for their diet. Fish in Bengal is a sort of staple food; and as I have the honour of being a visitor of the Jail in my district, I take considerable interest in the welfare of the prisoners, and I think the food given to the prisoners is not sufficient. I do not complain of the quantity of rice and dâl being insufficient, but a little fish ought to be given, and this might conveniently be given out of the profits derived by the Government from the labour of the prisoners, which this year amounts to Rs 2,58,000.

"On the subject of Education my hon'ble friend Dr. Asutosh Mukhopadhyaya has made certain observations which we all value. Retrenchment in regard to high education we cannot agree to. For primary and secondary education as much money as can be allotted should certainly be given. I do not consider it necessary to repeat the observations which have already been made, and therefore I shall say no more on this point.

"Under the head of 'Law and Justice' sufficient details are not given with regard to the charges on account of the Civil and Sessions Courts, and we are therefore placed at a disadvantage. I think a little more money ought to be allotted for strengthening the ministerial establishment of the Munsifs, especially when they are attached to mufassal *chowkies*. In a mufassal *chowky* ordinarily there are not less than some 3,000 original suits and as many execution of decree, cases. It is not possible for the few officers now in the establishment to work off all these 6,000 cases in a year. These officers work in the morning until 9 o'clock; then they take a hasty meal and attend Court and return from Court in the evening, and they work again from evening until 9 or 10 at night. They are interdicted from carrying records to their homes, but I fear the rule is violated, and they are obliged to take papers home to assist them in writing out the processes. In some cases the muharrirs of pleaders are called upon to write out papers, and they do it to expedite business. But notwithstanding this the ministerial officers work very hard, and their case ought to be taken into consideration. The addition of one muharrir to each *chowky* would be sufficient for the present.

"Under the head of 'Civil Works' there is a grant of Rs. 15,000 for the residences of Munsifs. This matter has been referred to by the Hon'ble the Raja of Nashipur, who thinks the allotment sufficient. But I am not satisfied with it. If for the improvement of the General Hospital and to make good the damages which occurred from what is known as the Darjeeling disaster four lakhs can be afforded, I think a little more money might be given for the residences of Munsifs, who have in many instances to live in common huts. Those who have been to the places inhabited by some Munsifs know what hardships they have to endure. In a few places habitable houses are procurable, but in most places no houses can be got. I submit that more money, say Rs. 50,000, should be allotted for building habitations for Munsifs wherever they are most needed.

"Lastly, with regard to Provincial Navigation Works—the works in connection with the Nadia rivers, which include three rivers, one of which is the Bhagirathi.

"The other day I had the honour of asking a question regarding the improvement of the entrance to the Bhagirathi: the answer given to me on that occasion was a hopeful one, and I expected that some provision would be made this year for the improvement of the entrance to this river and for making the channel navigable throughout the year. In the answer the deterioration of the Nadia rivers was admitted; also that the Government was fully aware of the deterioration of these rivers, and that it had been attracting the attention of the Government for years. I was also given to understand that the Government was fully alive to the necessity of keeping the Bhagirathi navigable throughout the year, and it was also recognised by the Government that on sanitary grounds it was desirable to have as large a discharge as possible in these rivers during the dry months. A statement was also laid on the table showing the revenue derived from the tolls on these rivers for the last ten years,

and the expenditure incurred upon them during the same period. The statement showed that during the last four years the expenditure exceeded the receipts, but taking the ten years' revenue and expenditure there was a surplus of about three lakhs. I expected, after having received that answer on behalf of the Government, that some provision would be made for improving the entrance to the Bhagirathi river and for improving its channel. Your Honour has seen this river from its entrance to the place where it is called the Hooghly, a distance of over a hundred miles. There are villages on both banks of the river the inhabitants of which use the water for drinking and domestic purposes. I do not wish to introduce sentimental considerations and the sacred aspect of the case in this discussion: that might be looked upon as the purely religious aspect of the matter. But purely on administrative grounds I lay the case before Your Honour. For over a length of four miles from the entrance there are only three inches of water. Large shoals have come into existence within the last four years. The very fact of a diminution of revenue shows that the channel has become less and less navigable. It might be said that the revenue has been affected by the railways; but I venture to submit that the traffic has not been taken away by the railways to such an extent as to materially decrease the revenue. But, apart from the merely commercial view of the matter, I appeal to Your Honour's Government from a purely administrative point of view. The Government has always shown considerable anxiety in securing good drinking-water for village populations and to improve the sanitation of villages. From the way in which the Bhagirathi is silting up, I think it will silt up to a very large extent within the next few years. There will be no continuous stream; no depth of water for a hundred miles together; already aquatic plants are springing up in the bed of the river; the soil will become marshy and become a nursery for malarial diseases and pestilences of some sort or other. The health of the people will become affected; they will not have any drinking water, and the port of Calcutta itself will be affected. If there be no proper discharge in the Bhagirathi in the dry season the port of Calcutta must become seriously affected: it cannot remain as it is. It was only the other day that the water-works of Berhampore were opened, but they will soon be of no utility. Owing to want of sufficient quantity of water brought about by the deterioration of the river, the suction-pipe had to be extended. There was a sufficient supply this year, but in a few years there will not be any supply at all if the present state of things goes on. There being a diminution in the volume as well as the velocity of the stream, the shoals become greater and greater, and in a short time a much larger amount of silt must accumulate, and when the pestilence appears the Government will have to spend lakhs and lakhs of rupees to deal with it. Is it not therefore desirable that this state of things, which is sure to occur very shortly, should be prevented? Is it not preventible? I submit it is. It is a practical problem. Your Honour's Government stated the other day by the mouth of the Hon'ble Mr. Buckley that a large dredger was expected by the Port Commissioners, and that that dredger might be used to clear the silt which has accumulated, no doubt at a heavy cost. Suppose even a lakh has to be spent for working the dredger for three months—September, October and November—when the river commences to fall after the rainy season. Is not that desirable? Is it not necessary that the Government should spend that amount and take proper measures to prevent the occurrence of such a disaster. If the river becomes navigable throughout the year and the improvement be effected from a commercial point of view, the revenue will increase proportionately. But independently of that consideration I submit that, having regard to the sanitation of the districts of Murshidabad, Nadia, Burdwan and Hooghly, and the providing of a sufficient supply of good drinking water, there is absolute necessity to take effective measures, after such consultation with the expert advisers of the Government as may be necessary to prevent the silting up of the channel There has been a suggestion recently made by an Engineer to cut out a new channel. I am not an expert and do not pretend to form any opinion on such matters, but I would respectfully suggest the use of the dredger in the first instance. I fully appreciate the force of the observation which has been made that the changes which are taking place in the deltaic tracts will soon result in the silting up of the channel, if not in ten years, in twenty, thirty or fifty

years, or it may be in a century. Men must die some day, but is that any reason why medicine should not be taken when the necessity arises? I earnestly submit that the Government should take such measures as they might think proper in order to prevent as far as practicable the silting up of this channel."

The Hon'ble BABU SURENDRANATH BANERJEE said:—"I am sure the attention of Hon'ble Members has been called to a remarkable article which appeared in the *Pioneer* in the course of this week. The writer has evidently been impressed by the unique demonstrations of loyalty which the Boer War has elicited among all classes of the community in all parts of India, and impressed by these demonstrations, he formulates the policy, born of Imperialistic ideas, which ought to guide the Government of India in its relations with the people of this country. The writer says with great force and truth that the difficulties of Indian administration can only be minimized by conciliating the people and conciliating public opinion in regard to its various administrative measures. The invitation of the Government of this Province to discuss the Budget from a popular point of view is an open attempt to focus the expression of public opinion on the various items in the Budget, with a view to action in the future. No doubt the Budget which is laid before us has already been settled by the Government of India, and anything we might say is not likely to lead to any modification, for it was in that view I suggested on a former occasion that the Budget should be laid before this Council before it was submitted to the Government of India. But there were difficulties in the way, and the suggestion was not accepted. All the same, I am not prepared to admit that our discussions are purely of an academic character. Our suggestions might prove of use in framing future Budgets, and whatever we may say may fructify for good in regard to the future.

"We have before us in this Budget the accounts of three years. We have the actuals of 1898-99, the revised estimates of 1899-1900, and we have the budget estimates of 1900-1901. With regard to the first of these the cash balance is less by two lakhs, and this was due to shorter collections under the head of Land Revenue and larger expenditure on Public Works. I hope the Hon'ble Member in charge of the Financial Department will tell us what was the amount of short collections of Land Revenue, and that he will also give us some explanation as to the details of the expenditure on Public Works. With regard to the revised estimates for 1899-1900, the financial position shows a betterment by 19 lakhs of rupees. This is due partly to increase of revenue and partly to reduction of expenditure. The two most noticeable heads of increase are Excise and Stamps. My hon'ble friend Babu Boikanta Nath Sen has referred to these important questions. We have been furnished with an explanation under the head of Excise. While the Executive Government view with satisfaction any increase in the Excise Revenue, all public men in India view with suspicion any great expansion of Revenue from Excise. My hon'ble friend the Financial Secretary says that the growth of the Excise Revenue is due to the growing prosperity of the people; that has been the invariable answer which has been given by Chancellors of the Exchequer in all parts of the world to account for the expansion of the Excise Revenue. Well, Sir, we are told there is a growth of prosperity among he people. I am one of the people; I live among the people; I rejoice in their joys; I sympathise with their sorrows. The middle-class man is truly in a bad way with the prevalence of plague and malaria. What with his fixed income, the rise in the cost of provisions and labour, he is hardly far removed from bankruptcy, and if he has a number of daughters to get married, then only the intervention of the Divine Providence can save him from irretrievable ruin. I do not see any trace of prosperity. I do not wish to enter into the larger consideration whether under British rule there has been an accession or a diminution of prosperity among the people. That is not relevant to the issues before us. All the same, I say most distinctly—and I am sure my hon'ble friends of the middle classes who are here, as well as those of the nobility who are present, will agree with me—that there are no traces of prosperity among the middle classes who constitute the backbone of the community. If we are not prepared to accept the view of my hon'ble friend, his figures disclose a mournful situation. There has been an increase

in the consumption of liquor, but no increase in the prosperity of the people. I do not know what the answer of the Hon'ble Member will be to the disclosures which have been made by the Hon'ble Babu Boikanta Nath Sen. Possibly he will say that there has been an increase in the population, but surely there cannot have been such an increase of population in one year as to justify an increased consumption to the extent of one-third? There has been a sensible increase in the revenue from distilleries and outstills. The figures in page 13 show an increase of 13 lakhs of rupees from the revenue under this head. I hope the Hon'ble Member will be able to give us the assurance that there has been no increase in the number of distilleries and outstills. And I venture to suggest whether it will not be desirable to open a new column to show the number of outstills licensed from year to year and the fees derived from them.

"The next point to which I desire to call attention is with reference to the receipt side of the revised estimates of 1899-1900, namely, the fees realised from the sale of Stamps. My hon'ble friend Babu Boikanta Nath Sen has already referred to this matter. There has been a large increase; what does that mean? It means an increase of litigation. Litigation may enrich the Government, but it impoverishes the people. I cannot think of any section or class of the people whom litigation can benefit, save that distinguished profession which is so largely represented in this Council,—all the same, litigation is morally and financially disastrous to the people of these Provinces. It is one of those things which we have learned from English influences. It is repugnant to our own instincts. Arbitration was the ancient mode of settling disputes. It is as old as the hills and is graven deep on the instincts of the people. I was surprised at the omission of my hon'ble friend, the Raja of Tahirpur, to refer to this important matter. I thought he was an enthusiast in this matter, and I wish he would bring to bear on this subject the zeal which he so conspicuously displays in connection with his pet scheme of the Rajkumar College. This matter was referred to by the Hon'ble Mr. Toynbee in the recent debates in the Imperial Legislative Council. He said it would be the duty of Government to foster a system of settlement of disputes, the effect of which would be to put an end to litigation and to create Arbitration Courts. My friend, Mr. N. K. Bose, when he was Magistrate of Noakhali, started Arbitration Courts with admirable results; they were the subjects of praise from the Government. There was a talk the other day of establishing a Sub-Divisional Court in Barrackpore, where I live. I discussed the matter with the Hon'ble Mr. Bolton and set my face strenuously against it. It would benefit no one but the pleaders; the people should be left to their own unaided instincts to settle their disputes with the help of the leading members of their community. It would be a good thing if, before laying down the reins of your great office, Your Honour did some thing to establish these Arbitration Courts which would enable the poorer sections of the community to avoid resorting to expensive and harassing litigation, and to settle their disputes among themselves.

"There is one other matter with regard to the revised estimates of 1899-1900 to which I wish to refer,—I mean Jail manufactures, which show a steady tendency to increase. I hope these manufactures do not stand in competition with private enterprise. And I join my hon'ble friend Babu Boikanta Nath Sen in his appeal for a little fish to be given to the prisoners. My own conviction is—I hope I may be wrong—that the prisoners do not get all that is paid for; that they get only a percentage of it, and that being so, it would be well to give them a little fish in addition to the prescribed dietary which they do not fully receive. European prisoners get their meat; why should not Bengalis get their fish? It is a staple article of food in these Provinces, and the deprivation of it is much felt.

"Coming to the Budget estimates of 1900-1901, I desire to refer to the increase in the land revenue of 4½ lakhs mentioned in page 12. I want to ask whether the increase is due to the over-assessment of land? We in Bengal enjoy the inestimable blessing of a permanent settlement of the land revenue, and I hope that the Government of India in its wisdom may see its way to extend the benefits of the permanent settlement in a modified form to other Provinces. I ask whether the increase of land revenue to the extent of 4½

lakhs represents the result of re-assessments and over-assessments which have been made?

"Then under the head of Assessed Taxes my hon'ble friend Babu Boikanta Nath Sen has already made certain suggestions. I desire to call attention to the item of penalties. The actuals for 1898-99 were Rs. 22,836; and in the revised estimates of 1899-1900 and the Budget estimates of 1900-1901 it is increased to Rs. 25,000. When the estimates for penalties are increased there is always a desire on the part of the departments concerned to work up to them by inflicting heavier fines. Too exorbitant penalties should not be inflicted in cases of this sort: there ought to be no incentive to do so. Then with regard to the collection of the Income-Tax, a considerable increase has been estimated for. Have you any data for raising the receipts so high notwithstanding the present state of the country?

"Then I come to interest on loans to municipal and other bodies. That shows an increase from Rs. 1,42,000 to Rs. 1,75,000. Have you provided for the grant of larger loans to Municipalities and District Boards? I hope the Hon'ble the Financial Secretary will be able to give me an answer in the affirmative. I ventured to suggest on a former occasion that steps should be taken to provide the riparian municipalities with effective drainage It will not be in the power of these Municipalities to take steps in that direction without considerable assistance from the Government, and if my hon'ble friend will give the assurance that larger loans are to be given to local bodies, and among others to the riparian municipalities as I have suggested, I shall be satisfied.

"Then I turn to the receipts from the Midnapore Canal, where there is a falling off in the estimate from Rs. 2,33,000, the actuals for 1898-99, to Rs. 2,02,000, the Budget estimate for this year, but there is no explanation given. In the case of the Orissa Coast Canal we have the same thing; there is a falling off from Rs. 75,000, the actuals of 1898-99, to Rs. 50,000, the Budget estimate for this year, a falling off of several thousands.

"Now I come to the expenditure side of the Budget. Land Revenue is the first item to which I shall refer. Under the head of 'Charges of District Administration' the explanation as to the increase is that it is for larger provision under 'Salaries and Establishments' which are specified. That will explain the increase in the year 1900-1901, namely, from Rs. 30,49,000, the actuals of 1898-99, and Rs. 30,27,000, the Budget estimate of 1899-1900, to Rs. 31,68,000 in 1900-1901; but it will not explain the increase from Rs. 31,00,000, the revised estimate for 1899-1900, to Rs. 31,68,000, the Budget estimate for 1900-1901, and I solicit an explanation. Then under the head of 'Management of Government Estates' we have an increase of expenditure from Rs. 4,70,000 to Rs. 5,00,000, but there is no explanation given. Under the head of 'Land Records and Agriculture' the revised estimate of 1899-1900 is Rs. 83,000 and the Budget estimate of 1900-1901 is Rs. 93,000. The explanation is that there were savings under salaries in 1898-99. That would explain the figure Rs. 83,000, but it will not explain the increase to Rs. 93,000.

"Then I come to Stamps. There is increase from Rs. 78,000, the actuals for 1898-99, to Rs. 83,000, the revised estimate of 1899-1900, and to Rs. 86,000, the Budget estimate for 1900-1901, and it is explained that the increase is partly for increments in the salary of the Superintendent. Under the head of 'Charges for the sale of general stamps,' it is stated that there has been a shrinkage in the sale of general stamps, but yet the charges have increased. This requires explanation.

"Under the head of Customs, the Collector's establishment has increased, the Appraising establishment has increased, the Preventive establishment has increased. In fact the whole of the Collector's establishments show an increase, and the same observation applies to salaries under the head of Forests. Whenever there is an increase in salaries, I submit careful explanations are necessary; but unfortunately in most cases explanations are not given.

"Then coming to General Administration, there is an increase under the head of Civil Secretariats, and the explanation is that it is an increase in the grant for Contingencies, but there is no further explanation given.

"Then I come to Law and Justice. I shall not take up the time of the Council with many remarks on this head, because a great deal has already been said with regard to this part of the Budget. As for the grant of Rs. 15,000 for

the residences of Munsifs, I should like to know whether any houses have been erected during the year which has just expired. On previous occasions Budget estimates were framed under this head, but they were not given effect to. Under the head of Jails, the charge for superintendence has increased. Then again no explanation is given with regard to the increased estimate for contingent charges under this head, which has risen from Rs. 36,000, the actuals for 1898-99, to Rs. 41,000, the revised estimate of 1899-1900, and to Rs. 42,000, the Budget estimate for 1900-1901. I desire to remark that contingencies cover a multitude of sins; it is therefore necessary to give details, and it is dangerous to budget a large sum under a vague and indefinite head like this. It used to be done in the Calcutta Corporation when I was a member of that body, but the Commissioners would insist upon details. I think it is a matter which calls for reform.

"Under Police you have under the head of District Executive Force this explanation—'Provision made for the gradual substitution of Sub-Inspectors for Head Constables in accordance with the recommendation of the Police Commission.' I desire to ask a question or two in connection with this matter The Police Commission made their recommendations, and suggested the improvement of the status and emoluments of Head Constables, Sub-Inspectors, and Inspectors. Sir Charles Elliott's Government did not accept the whole of these recommendations, although the Commission was an exceptionally strong one, and was presided over by a very experienced officer, Mr. Beames. After a most exhaustive enquiry they made certain recommendations the effect of which would have been to improve the status of Head Constables, Sub-Inspectors, and Inspectors. Sir Charles Elliott modified those proposals very considerably; he would on no account consent to improve the status of the Inspectors which he thought sufficiently good. I ask, Sir, whether in the exercise of your discretion Your Honour's Government are prepared to accept the recommendations of the Police Commission so far as the pay and position of Inspectors and Sub-Inspectors are concerned. Public opinion would strongly support Your Honour's Government if you accepted the recommendations of the Police Commission. If you want to improve the efficiency of the police it is not necessary to improve the position of the constable. If you increase the pay of the constable by one rupee, he will make a proportionate addition to the fee which he formerly used to extort. But the improvement of the pay and position of Inspectors is necessary. Unless honest and competent men are appointed Inspectors the status of the police will remain as it is. Look at the dakaities which so frequently occur in the 24-Parganas. Three dakaities recently took place in Barrackpore in the houses of the Civil Surgeon, the Assistant Surgeon, and another medical man Dakaits seem to favour Doctors. None of these dakaits have been caught, but if there was a police worth the name things of this kind could not occur. You have no proper agency for the detection of crime, and unless you improve the position of your expert agency, viz., the Inspectors, there will be no improvement. I therefore make an earnest appeal to Your Honour to carry out the recommendations of the Police Commission in this matter.

"Now I come to the question of Education. My hon'ble friend Dr. Asutosh Mukhopadhyaya has referred at some length to this subject, and I will not repeat what he has said. The allotment for grants-in-aid has been increased owing to a suggestion which was made on the last occasion. I quite agree with my hon'ble friend that the time has not yet come when the Government can withdraw with safety from the field of higher education. Private colleges are still in an infant state. I speak with a full sense of my responsibility as the proprietor of a great private college, and I do not think the Government can, consistently with the public interests, withdraw from its support to high education or impair the efficiency of the Presidency College. That College ought to be preserved as a model college, and it is so in many respects. It is strong in the department of science, and its efficiency ought to be maintained.

"Having made these observations on the general question of Education, I now desire to raise a note of dissent with regard to the proposed scheme of the bifurcation of studies which has been recommended in a recently published Resolution of the Government. I am in strong sympathy with the desire of the Government to solve the problem of all problems, viz., the bread-problem.

Here are our graduates who are glad to take up any work for the small pittance of Rs. 20 or Rs. 25 a month. The object of this Resolution is to put bread into their mouths, and from that point of view I am strongly in sympathy with the proposal of the Government, but my fears lie in another direction, for the effect might be to impair the interest of high education. A scheme such as this was formulated some years ago and was laid before the Syndicate of the University, but after mature consideration it was abandoned. Your Honour has practically revived that scheme. The only apprehension I have, as I have said before, is that it may have the effect of injuring the interests of high education which I am certain Your Honour's Government is anxious to promote. The position of the Government and of the educated community in this country is this—we want high education, but we also want technical education: the one should not trench upon the other; each should minister to the wants of the other, and they should co-operate each to promote the interest of the other. That I take to be the attitude of the Government and of enlightened public opinion with regard to public education. It is because I am apprehensive that the proposed system of bifurcation of studies may have the effect of injuriously affecting the interests of high education that I now refer to the matter. I hope that my anticipations may not be realised. I have a suggestion to make in this connection, and I hope my hon'ble friend, the Secretary in the Educational Department, will accept it. I would strongly suggest that shorthand ought to be included in the B Course. We know how dreadfully we are reported in this Council; those who make speeches have to pay a penalty for making them. During the passing of the Calcutta Municipal Bill we sat for fifteen days; I should gladly have sat for another fifteen days, if the duty of correcting the proofs had been withdrawn from me. It is a matter of the first importance that we should be provided with an efficient body of shorthand writers. In Madras and in Bombay you have most efficient shorthand writers. But in Calcutta we suffer from this want. I appeal to my hon'ble friend to consider this suggestion. In this connection I cannot but deplore the curtailment of the prospects of employment for our countrymen in the higher branches of the Engineering Department. Roorkee is closed against us; the Sibpur Engineering College passes two Indian apprentice engineers in three years. It does not even supply a single recruit every year, and now a ruling has just been issued by the Secretary of State the effect of which is to limit the supply from Cooper's Hill to two Indians, no matter how many might qualify. The Government of Bengal may do its best; but when the avenues to distinction are closed, you will not be able to attract the best men in the country to the technical studies. When the Medical College was started, what was done? The Indian who first dissected a dead body was made a hero. His portrait adorns the theatre of the Medical College. You do not present to us these opportunities of distinction, and therefore you cannot expect our best men to join the technical schools. It is not in human nature to do so. I have made these remarks in the hope that you may do something in that direction—that the higher appointments in the Engineering Department may still be open to us.

"There are one or two other matters to which I shall call attention in a hurried manner. First as to Stationery and Printing. The expenditure on account of Government presses is steadily increasing, and then as to printing at private presses, are tenders called for before any work is given out? It is a matter of the first importance that tenders should be called for, and that the public should have an opportunity of competing and submitting tenders. Then as to 'Miscellaneous and unforeseen charges,' there is a sort of logical contradiction in providing for charges which are unforeseen. How can you provide for charges which you cannot and do not foresee? What is the basis on which this provision is made? One word more as to Civil Works in charge of the Public Works Department. The establishment charges under this head have largely increased, but there is no explanation for the increase.

"These are all the remarks I have to make on the Budget, and in conclusion I have to congratulate the Hon'ble Member in charge of the Financial Department on the prosperity budget which he has presented to the Council, and which embodies a policy of sympathy and friendliness towards the people of this country."

The Hon'ble MR. BOURDILLON said :—"I have a few remarks to make in answer to the observations which have been made by Hon'ble Members in connection with the departments of the Secretariat which are under my control, and I shall give as far as in me lies the information which has been sought by the questions which have been asked. These departments fall under four heads of the Budget, namely, Registration, Law and Justice, Police, and Jails. I first propose to deal with the requisitions for information on particular points, especially with regard to some which do not explain themselves and with regard to which some more detailed information seems necessary. First then as to Registration. The Hon'ble Babu Surendranath Banerjee observed that no explanation has been given of an increase of Rs. 40,000 in the revised estimate of 1899-1900 and in the budget estimate of the current year. The answer is a very simple one, and it is that the increase represents the probable ordinary development of registration which is gradually being better appreciated and more largely used year by year. The increase of Rs. 40,000 in an estimate of Rs. 14,40,000 represents only 2·7 per cent.

"The Hon'ble the Raja of Nashipur has referred to the question of ministerial establishments, and both he and another Hon'ble Member expressed the hope that the estimate would be increased and the pay of ministerial officers be raised. This, as Your Honour is aware, and as many Hon'ble Members are aware, is a very old question, and it has been referred to from time to time in this Council. The Lieutenant-Governor has admitted that it is a serious question, and that nothing but a want of funds has prevented its being taken up hitherto; there is no doubt that before many years are passed it will have to be faced, and some concessions made, not only in the direction of increased establishments, but also in the direction of higher pay, regard being had to the increased cost of living and the general advance in the standard of comfort.

"The next suggestion which has been made is that Civil Court processes should be served through the post. This is not the first time that this suggestion has been made. In the time of Sir Charles Elliott the High Court was approached on the question of the service of civil processes through the post office, but they were unable to accept that suggestion. The Court stated several weighty reasons why effect could not be given to the proposal, and amongst them they pointed out that in the case of the service of processes by post it would be most difficult for a dâk peon to discover the whereabouts of the addressee; whereas under the present system the parties or their agents give effectual assistance to the court peons in serving process, but that assistance would be wanting if the service is to be made by the ordinary dâk peon. For the present, therefore, this matter has been finally settled, and there is little prospect of its being brought forward again.

"More than one Hon'ble Member referred to the question of the accommodation provided for the Benches of Honorary Magistrates. It is universally admitted that gentlemen who give their time and labour to the service of the State deserve every reasonable consideration in the matter of accommodation. But either the experience of the Members who referred to the subject has been unfortunate, or mine has been exceptionally fortunate. I have not found that Benches of Honorary Magistrates have been thrust away into the worst rooms of an office building. On the contrary, I have found, in that part of the Province with which I have been chiefly connected, that the Magistrate of the district himself usually puts his Court at the disposal of the Bench. At any rate the Hon'ble Member who has made the complaint may rest assured that the matter will receive every consideration at the hands of the Government.

"On the subject of Arbitration Courts, it had been my intention to speak, but the Hon'ble Mr. Oldham, who has taken considerable interest in the matter and is fully conversant with the subject, has undertaken to reply to the remarks which have been made about them.

"Attention has also been drawn to the question of Jail manufactures, and the hope was expressed that they do not enter into competition with private enterprise. The standing orders of the Government of India are very clear and decided in this matter, and as far as possible manufactures in Jails are in no way allowed to compete with private trade; three-fourths of articles manufactured in Jails are in fact made for the purposes of the Government and are intended to supply the wants of some of its spending departments. Tents,

blankets and articles of clothing for the military, chaukidars and police form a large proportion of Jail manufactures. And so far from the sum which has been set down as profits from Jail labour being net receipts, I am able to state that taking the value of each convict's labour in the year and the amount of expenditure incurred in feeding, housing and watching him, the Government steadily loses Rs. 12-5 upon every convict during the year. The costs of manufacture are also very large, and when you add to that all other charges and costs, the profits dwindle to a very small sum.

"The question of prisoners' diet has also been referred to with much pathos by one or two of the speakers. This question has long engaged the attention of the Jail authorities, and many years ago it was settled what should be the proper diet of prisoners, a rate and standard which have stood the test of long experience. Moreover, it is well known that as a rule prisoners, far from losing weight in Jail, actually increase in weight. No doubt during the first month or two incarceration has very often a bad effect, but in the case of long-term prisoners their weight usually goes up, and they go out of Jail in better health than when they entered it. It was at one time thought that there was perhaps some relation between the health of a Jail and the cost of diet in it, but it has now been found that this is not so, and orders were issued not long ago that the statement prepared annually to show the facts should be abandoned as useless and misleading. There is also no relation between the cost of diet and the profits of Jail manufactures. It is impossible to urge that because a Jail has worked with profit in one year the diet of the prisoners should be increased in the next. The argument is altogether fallacious, and cannot be pressed to a conclusion.

"Lastly, some remarks have been made with reference to the head of Law and Justice: questions were asked as to the disposal of the surplus receipts from fees for Pleadership examinations, and it was suggested that the Government should surrender some of the handsome receipts from this source. It is hardly necessary for me to repeat that no department of the Government can be treated in this way; that receipts and expenditure cannot be ear-marked; and that the receipts from each separate department must be thrown into one general pool to meet the general expenditure. Moreover, I did not gather from any Hon'ble Member that he thought there are too few pleaders in Bengal and that the fees should be reduced to an extent which would enable the poorer classes to enter themselves for examination. If that were done, the number of persons who would compete would certainly be larger, and the result would be failure to pass and great disappointment to many of them, or if they did pass they would share the fate of those who are Pleaders in name alone and would swell the numbers of those who fail to make a living by their practice.

"The last question to which I need refer deals with the recommendations of the Police Commission. I was told before I entered the Council room this morning that I should be asked to state what had been done to carry out the recommendations of that Commission. I received that announcement with consternation, for to answer it in full would have taken up much time: it was with much relief that I found that the enquiry really was only whether some thing cannot be done to improve the status of Police Inspectors. The total extra cost of the measures adopted by the Government in carrying out such of the recommendations of the Police Commission as it determined to adopt amounts to Rs. 7,72,000, spread over a period of ten years, and the tenth year (1902-1903) will see all those measures carried out. When that has been done and we have the funds, I have no doubt that Your Honour will again take up the remaining suggestions, and give the question of improving the pay and position of Police Inspectors due consideration. Many of the existing Inspectors are men of high character and attainment, and it will be a great advantage to the country if anything can be done to raise their position and emoluments so as to attract an even better class of men to these responsible appointments."

The Hon'ble MR. SLACK said:—"The departments in my charge are those of Education, Land Revenue, and Forests, and I propose as far as it is in my power to supply the information which has been asked for and to discuss the suggestions which have been made in respect of those subjects. Every one will admit that the grant for primary education is not as much as we should like

it to be, but I understand that the Hon'ble the Raja of Tahirpur does not suggest that the Government is in a position to do all that is desirable in this direction. The Hon'ble Member, however, proposes a means for the attainment of that object, viz., that the old panchayet system should be revived. I am not in a position at present to discuss how that system can be revived, or how, if it can be done, it will assist the Hon'ble Raja in attaining his object. If he will be good enough to draw up a scheme embodying his ideas, it will, I have no doubt, be most carefully considered by Government.

"With regard to the subject of technical schools, to which the Hon'ble the Raja of Nashipur has alluded, the present policy is that the bulk of the necessary cost should be provided by the local body at whose instance a technical school is established, though in some instances small grants have been made by the Government to schools supported by allotments made by District Boards and other local bodies.

"The Hon'ble the Raja of Nashipur has said a great deal with respect to the prospects of the ungraded officers of the Education Department, whom he describes as being in a very hopeless state. I find that yearly lists are supplied to the Director of Public Instruction by his subordinate officers showing which of these officers are entitled to promotion to the graded service, and the bulk of the lowest grade of that service is filled up from the officers in the ungraded list, so that to say that the state of these officers is hopeless is not according to the actual state of facts.

"Then we have had a very startling picture drawn by the Hon'ble Dr. Asutosh Mukhopadhyaya, who condemns the steady retrenchment which he says has been going on from year to year with reference to education in Arts Colleges.

"What I understood him to say is that he considers the policy of retrenchment interferes with the efficiency of the Government Arts Colleges. That is a contention which I am sorry I cannot admit, because almost in the same breath he draws attention to the great increase in the fees received at these Colleges. If the policy of the retrenchment of which the Hon'ble Member complains is causing the Government Arts Colleges to become inefficient, it can hardly be expected that the parents of students would continue to send their children to the Government Colleges and not to one or other of the several excellent private colleges that now exist. Instead of there having been any real retrenchment, it will be seen that in the year 1900-1901 the number of Professors will be greater than in the year which has passed. The decrease in expenditure, to which the Hon'ble Member adverts, is not of a nature to affect the efficiency of the Government Colleges. It is caused partly by the substitution of officers of the Provincial for those of the Imperial service. Occasionally in some years there is another cause that influences expenditure, viz., the absence on leave or for other causes of officers on high pay, their places being temporarily filled by officers drawing much lower salaries. An instance in point is that of Mr. Rowe, whose absence on leave resulted in a monthly saving of Rs. 1,350.

"As to the proposed system of the bifurcation of studies the Hon'ble Babu Surendranath Banerjee seemed to think that it will interfere with the progress of high education. If the Hon'ble Member meant that in the future the number of B.A's. and M.A's. will not be so great as it now is, owing to the existence of causes not merely literary, he is no doubt correct, but how this will adversely affect high education I am at a loss to understand. In spite, however, of his fear, the Hon'ble Member proposes that shorthand should be taught. That is a proposal which has already been discussed by Government, by whom it was not considered essential; but should it be considered advisable hereafter to introduce shorthand classes among the other practical subjects of study prescribed, I have no doubt it will be done. These are all the remarks which I think it necessary to refer to on the subject of education.

"Then the same Hon'ble Member asked why in 1898-99 the collection of land revenue fell below the estimate. The deficiency is due partly to remissions made on account of the damages done by the cyclone which visited the district of Chittagong, and partly, so I consider, to the probability that in certain Collectorates large amounts were not brought into account until after the

year had closed, and therefore did not appear in the accounts for that year. If future enquiries show that I am not correct in what I have stated, I will inform the Hon'ble Member later on.

"The Hon'ble Member also wanted to know how much was due to over-assessments and how much to revision of settlements. With regard to the former I can supply no information, as none is forthcoming. Concerning the latter I may mention that of the 4½ lakhs increase of revenue, Rs. 3,65,000 was due to revision of assessments in Orissa, and the rest to various Government estates which were revised.

"Concerning the small increase of Rs. 10,000 in salaries and land records, to which allusion has been made, I can only say that there is always a variation in this item which depends on the number of officers appointed to carry out land registration.

"The same Hon'ble Member drew attention to an increase of expenditure under the head of Forests. I may explain that last year several of the higher paid officers were either on deputation or on leave, and their places were filled by others on smaller pay, and it was decided by Government that the Budget under discussion should provide, not merely for the normal establishment, but also for the addition which lately has been asked for owing to the increase that has taken place in the work due to the expansion of the area under the Forest Department."

The Hon'ble Mr. BAKER said:—"Before replying to the various remarks that have been made on the Financial Statement, I desire to acknowledge the fair and courteous manner in which Hon'ble Members have dealt with it. The discussions have been as discursive as usual, and range over almost the whole field of Provincial administration. The suggestions and comments that have been made have been varied and numerous, and leave scarcely any department of the Government untouched. These suggestions are not all equally valuable or practical. That is only what might have been expected. But there is, I think, one characteristic which is common to them all. I mean the evident desire of every Hon'ble Member who has spoken to do his duty by the Government and the public, to offer to the Government the utmost assistance in his power by drawing attention to matters that may require further clearing up, by indicating points in which the Provincial revenues are in need of further development, or are developing along dangerous lines, and by suggesting directions in which a more liberal scale of expenditure is called for in the public interest. Among all the suggestions and comments that have been made to-day, there is not one which is marked by a desire to carp or cavil, to embarass the Government, or to criticise merely for the sake of finding fault. All without exception are helpful, friendly, and well intentioned. This characteristic is no new thing. It is in strict accordance with the past traditions of this Council; and it goes far to justify the foresight of those Statesmen who decided eight years ago that the Provincial Budget should be subjected to discussion in the Legislative Council.

"I will give one illustration of the advantages which may be expected from these discussions. It arises out of a suggestion made by an Hon'ble Member on the present occasion. The Hon'ble Babu Surendranath Banerjee intimated to me that he desired an explanation of the difference between the revised estimate and the budget estimate of the year which has just expired under the head of General Administration, and also with reference to some sub-heads under the head of Law and Justice, Civil and Sessions Courts, and, I think, Criminal Courts. When I came to prepare the explanations wanted, I found that the information in my office, although it gives in a general way the substance of what is required, does not give it in complete detail. The Accountant-General, upon whom the responsibility rests for preparing the revised estimate, furnishes us with the details of the minor heads, but does not give us the particulars which go lower down. It is therefore not always possible to give explanations of increases or decreases as between the revised estimate and the budget estimate of the year. I think that is not wholly satisfactory, and I am arranging to get from the Accountant-General in future the details of the revised estimates to enable us to answer enquiries of this kind on future occasions. Not only will this enable us to answer questions that may be put on

occasions like the present, but it will give us a clear knowledge of the exact position of Provincial affairs when we are preparing the Budget of the coming year.

"I shall now refer to some of the points which have been raised by Hon'ble Members, excluding those which have been dealt with by the Chief Secretary and the Hon'ble Mr. Slack.

"The Hon'ble the Raja of Nashipur has referred once more to the importance of improving the water-supply in the mufassal, and has urged Government to assist the District Boards for that purpose. This question is a hardy annual; it comes up every year in the course of the Budget debate. This may be partly due to the fact that the Budget is presented at the beginning of the hot weather, when the necessity for good water is most felt—just as complaints in the papers about the defects of the Calcutta supply are more common at that time than at any other, though the supply is as good then as at any other time. The Hon'ble Raja is aware that the Government fully sympathises with his desire to see every village provided with a proper supply of wells and tanks. Orders were issued in 1896 that every District Board should spend at least Rs. 5,000 a year on water-supply, and I have from time to time given figures to show what has been done. In 1898-99 District Boards excavated 83 tanks and 388 wells at a cost of Rs. 76,000, and improved 1,214 old ones at a cost of Rs 55,000, the total expenditure being Rs. 1,31,000. This was exclusive of large sums expended annually by municipalities in the construction and maintenance of regular water-works and the sinking and excavation and improvement of wells and tanks. But the notion that the Government can by any action on its part provide the people with an adequate supply of good water is an absolute chimera. Nothing can be done except by the people themselves. Last year I pointed out that almost every village in Bengal possessed one or more suitable tanks or wells which, if properly looked after, would provide all that is required. In 1896 it was pointed out that in 1882 Government gave a grant of one lakh for water-supply in Nadia, yet it produced no material effect. What is wanted is that the zamindars and the villagers themselves should re-excavate and maintain existing tanks. A doctrine of self-help is usually distasteful; but in this vitally important matter there is no other possible remedy.

"Another point referred to by the Hon'ble the Raja of Nashipur is as to the provision of residences for Munsifs, and I think the same point was taken by the Hon'ble Babu Boikanta Nath Sen, who is dissatisfied with the provision of Rs. 15,0C0 which we have been able to make for this purpose. It was also referred to by the Hon'ble Babu Surendranath Banerjee, who wanted to know what had been done with a similar provision of Rs. 15,000 made in last year's Budget. This is an old question which is not free from difficulty. On a former occasion a good deal of hesitation was felt as to whether Munsifs would really like to live in houses built for them for which they would have to pay rent. They cannot be expected to pay more than Rs. 20 or Rs. 25 a month by way of rent, which would restrict the capital cost of building residences for them to some Rs. 3,000 or Rs. 4,000, and it is exceedingly difficult to provide a suitable house at so small a cost. Something has been done in this direction, but very little. Last year it was proposed to build five of these residences—one at Satkania, two at Patuakhali, one at Jamalpur, and one at Bhola. At the first of these places difficulties arose about a site which it took a whole year to settle, and nothing was done beyond collecting materials. I hope the difficulties which have arisen about these residences will be overcome and that they will be completed without further delay. At Jamalpur the District Judge suggested a project, but the matter is still under consideration. At Bhola the arrangement proposed was to construct a new double munsifi, and to make over the old one to the Munsifs as their residence. The Munsifs, however, are opposed to this, and nothing has been done except the collection of materials, and some of the money has been given to the District Board. We have Rs. 15,000 this year for the same purpose, and we propose to construct one residence at Gumla, a new sub-division in the Ranchi district. The remainder of the money, some Rs. 10,000 or Rs. 11,000, will be spent in constructing other residences for Munsifs at places to be settled by the Judicial Department. I can hold out no hope that the grant for this purpose will be raised to Rs. 50,000, as the

Hon'ble Babu Surendranath Banerjee desires it should be. I admit that Rs. 15,000 is a small sum for such a purpose; but with our reduced grant for Public Works there is little chance of an increased allotment.

"The Hon'ble Babu Boikanta Nath Sen, referring to the proceeds from Stamps, suggested that the revenue from non-judicial stamps was under-estimated. This is a matter of opinion. I hope the Hon'ble Member may prove to be right, but all I can say is that the estimate has been based on the figures of the past. I will explain our reasons for the estimate. The actual figures for each year since 1894-95 were as follows:—

'In 1894-95, Rs. 44,92,000; in 1895-96, Rs 45,43,000; in 1896-97, Rs. 51,03,000; in 1897-98, Rs. 50,13,000; and in 1898-99, Rs. 44,70,000. For 1899-1900 the revised estimate is Rs. 46,75,000, and for 1900-1901 the estimate is Rs. 46,75,000.'

"Now it will be seen that there was a large and sudden rise in 1896-97 and 1897-98. These were the famine years, when people had to sell and mortgage their property to an unhappily large extent, and that always leads to an increase of revenue from non-judicial stamps. When the effects of famine cease, the Stamp Revenue drops. These years were followed by two years of prosperity—1898-99 and 1899-1900; and in the first of these years the whole of the abnormal increase was swept away, and the general Stamp Receipts fell even below those of 1894-95. For next year we have taken the Budget at the same figure as the revised estimate for the past year. This may be too cautious, but it is a wise caution. Even allowing for the effect of the Stamp Law of last year, it will not be prudent to take a higher estimate; but if the Hon'ble Member proves right, I shall be the first to rejoice.

"The same Hon'ble Member referred to the subject of the Excise Revenue, and so also did the Hon'ble Babu Surendranath Banerjee. Both these Hon'ble Members noticed the increase under the head of Excise of 2¼ lakhs in the revised estimate of 1899-1900, and the Hon'ble Babu Surendranath Banerjee expressed a very strong doubt whether the increase was really due to the greater prosperity of the people,—in fact he denied that it was so. The Hon'ble Babu Boikanta Nath Sen referred to some figures of consumption and compared the figures for 1898-99 with the previous year, and said there was an increase in the total consumption of 19 per cent. I am not sure whether the Hon'ble Member referred to the figures for distilleries only, or to distilleries and outstills together. The figures of the latter are of no value, because we have no knowledge of the consumption at outstills; they are obtained from the *abkar's* accounts, which are utterly unreliable. [The Hon'ble Babu Boikanta Nath Sen said:—"I did not refer to outstills. I referred to distilleries only."] In that case I may say that the figures in connection with distilleries alone are perfectly correct. In 1898-99 there was an increase of 19 per cent. as compared with the consumption of the previous year. He suggested in anticipation that I might attribute the increased consumption to increased population, and he doubted whether I could show an increase in the population to the extent of 19 per cent. I am not going to say anything of the kind. The sole reason for the increase in 1898-99 as compared with the previous year is that the year 1897-98 was the year of the great famine, when the Excise Revenue suffered more than any other branch of the revenue. If the Hon'ble Member will recollect, I said last year that, as compared with the previous year, there was a falling off of 6¼ lakhs under Excise, wholly due to the famine. The Excise Commissioner in his last report said that the full effect of the famine resulted in a loss of 17¾ lakhs, spread over three years. According to Mr. Gupta's calculation the revenue in the ensuing year ought to have amounted to 149¾ lakhs, whereas according to the estimate now made it is only 140 lakhs. If the calculation of Mr. Gupta, who is a most experienced and capable Excise Officer, is correct, the revenue this year is 9¾ lakhs less than it would have been but for the famine. The Hon'ble Member also asked for information as to the number of distilleries and outstills, and he expressed the hope that there has been no increase in the numbers. The number of distilleries is 30, and it has been the same for some years past. But what I think he means is the number of distillery shops. The numbers for the years he has asked for were—in 1897-98, 1,193; in 1898-99, 1,186; in 1899-1900, 1,18‥; and in 1900-1901, 1,066, which shows that there has been a steady decrease in the number. One thousand and

sixty-six represents the number of shops settled for the current year; it does not represent the total number sanctioned for the current year. The number of outstills also shows no signs of increase. In 1897-98 the number was 2,018; in 1898-99, 2,076; in 1899-1900, 2,046; and in the current year it is to be 1,918. I may mention that the total number of outstills and distillery shops in Bengal taken together is about one-half of the corresponding number in the North-Western Provinces.

"The Hon'ble Babu Boikanta Nath Sen referred to the estimates of receipts under the heads of Excise, Provincial Rates, and Assessed Taxes, and he expressed a doubt whether it is justifiable to show an increase under these heads, because it would afford an inducement to the officers engaged in those departments to work up to those figures. The same remark was made with regard to the estimate of penalties under Assessed Taxes. On these points I may say that we framed these estimates in a distinctly cautious manner. In the estimate of Excise Revenue we took exactly the figures of the revised estimate of 1899-1900. The revised estimate of the past year was 140 lakhs. We shall possibly get an increase, but we have not taken credit for it. Under the head of Provincial Rates the increase is only Rs. 6,500 under Public Works Cess. Under Assessed Taxes an increase of Rs. 86,000 is provided for, of which half a lakh represents the normal rate of increase, and Rs. 36,000 is a special item owing to the transfer to Calcutta of the Bengal-Nagpur Railway. If it is admitted that these estimates have been cautiously framed and that we may really expect to receive the sums shown in our estimate, does the Hon'ble Member really suggest that we should enter lower figures in order to discourage officers from doing their best to realise the revenues? When the Hon'ble Member frames his own municipal budget, he estimates the amount he expects to realise irrespective of the effect his estimates may have on the municipal establishments.

"The same Hon'ble Member addressed a very impassioned appeal to Your Honour to make a larger grant on account of the Nadia rivers, and he contended that the Government ought to provide funds for making the channel navigable throughout the year. I am not an Engineer, and I find it rather difficult to reply to the Hon'ble Member, but I have obtained some information from Mr. Horn. He points out in the first place that a part of the reduction in the expenditure is due to reduction in the establishments. Rupees 23,000 less has been estimated on this account than last year. Mr. Horn considers that any greater expenditure will be a mere waste of money under present conditions, and he advises that we should wait until we see what the working power of the large dredger ordered out by the Port Commissioners proves to be. If it is found likely to be successful, it is possible that it might be transferred to the Bhagirathi, and the *chur* which extends to a distance of four miles from the mouth of the river may be cleared away. The Hon'ble Member says the clearing away of the *chur* is urgently wanted on sanitary grounds, and that the Government ought not to grudge the money; that it might affect the success of the Berhampore water-works, and might even ultimately affect the Port of Calcutta. I can assure the Hon'ble Member that if there is any danger of such disastrous results, the Government will not grudge any money that may be found necessary to prevent such a catastrophe, even if it extended to many lakhs of rupees; but for the present we must be guided by our expert advisers.

"There is one point with reference to the head of Excise to which I have omitted to refer. The Hon'ble Babu Surendranath Banerjee asked that a column might be inserted showing the number of outstills and the receipts from them, distinguishing outstill liquor from distillery liquor. I may inform the Hon'ble Member that they are shown under the first minor head 'License and Distillery fees and duties,' which includes both. They are lumped together in this statement. With reference to the request of the Hon'ble Member to have these shown separately, I may say that we are not at liberty to alter any minor heads in the Budget; these are settled by the Government of India, and it is contrary to rule to make any changes. But the information the Hon'ble Member wants may reasonably be furnished, and I will undertake to introduce a separate entry distinguishing distillery liquor from outstill liquor.

"The Hon'ble Dr. Asutosh Mukhopadhyaya referred to the fees and charges in connection with Pleadership examinations, and showed that the amount of fees received largely exceeded the expenditure. This point has been dealt with by my hon'ble friend the Chief Secretary. The course followed here is the same as that which is adopted in England. Fees to admit to examinations are, as a general rule, put high, so as to deter people from entering their names unless they have a real desire to pass the examination. If it were not so, the number of unsuccessful candidates would enormously increase, and useless work would be multiplied many times over. It is certainly desirable to keep out from the examination all those who have really no chance of passing.

"The Hon'ble Babu Surendranath Banerjee referred to the decrease under the head of 'Wharf rents.' This is a small matter. The total receipts this year are estimated at Rs. 9,000, while last year's estimate amounted to Rs. 12,000. I cannot say whether there will be a decrease. We framed this estimate on the basis of the average receipts of the previous three or four years.

"The Hon'ble Member also said that there was an increase in salaries in the Customs Department. There is no real increase. There is an increase under the head of 'Preventive Service' and also a large increase under the head of 'Allowances.' The increase in the Preventive establishment is due to Exchange Compensation, which was not formerly allowed to members of this establishment. Only last year final orders were passed by the Government of India admitting a certain number of these officers to the benefit of Exchange Compensation, which under the old rules the bulk of them did not get. This accounts for an increase of some Rs. 6,000. The increase under the head of 'Allowances' is due to our showing in the accounts the fees received for passing goods through the Custom House after office hours and on holidays. There has been no change in these; but until last year these receipts and the corresponding payments were not shown in the accounts at all.

"Then under the head of 'Interest' the Hon'ble Member wished to know whether we are making provision for larger loans to Municipalities. In the original draft of the Budget we did provide for a large increase on account of loans to Municipalities and District Boards. But we propose and the Government of India dispose. The demands on the Government of India were so great that they are obliged to reduce our estimates from 6 lakhs to Rs. 2,75,000. We give 1½ lakhs to Darjeeling, Rs. 50,000 to Patna, Rs. 50,000 to Monghyr, and Rs. 25,000 to Bhagalpur.

"Then the Hon'ble Member referred to the receipts from Canals. The explanation I have obtained from the Public Works Department is that the receipts from both the Orissa and Midnapore Canals have been affected by the opening of the East Coast Railway, and that some falling off may be expected to occur.

"Another point which has been referred to is the increase in salaries under the head of 'Stamps.' The explanation is that the Superintendent of Stamps and Stationery receives an incremental salary, rising from Rs. 1,000 to Rs. 1,500 per mensem. He will receive one increment next year.

"The whole increase of Rs. 2,000 in the Civil Secretariat is due to contingencies, mainly on account of telegrams. We are continually getting telegrams, and have to issue telegrams continually in connection with the plague.

"I think this covers all the points which have been raised by Hon'ble Members. But there is one matter which I am surprised to find no Hon'ble Member has referred to to-day and with regard to which I should like to say a few words. I refer to the provision which has been made on account of plague. Last year we were able to give to District Boards and Municipalities, who spent money on account of the plague, the sum of Rs. 5,60,000, being partly a refund of contributions made towards the maintenance of inspection camps, and partly in recoupment of expenditure they had incurred on local measures. Plague unfortunately is still with us, and not only have inspection camps which have been established to be maintained, but in consequence of the spread of plague throughout parts of the Patna district, and in the district of Monghyr, Municipalities and District Boards have had to incur larger expenditure than before. Last year in Your Honour's speech in this Council you explained why it was wise and expedient that local bodies should bear their share of the cost, and you pointed out that if this was not done those local

bodies would not make provision for the rainy day which must come, and that when it did come, they would spend their money with the magnificent disdain of economy which always characterises those who put their fingers in some body else's pockets. They have hitherto discharged their duties in this matter with fairness and discretion. Patna has spent a large sum of money. The number of deaths there is represented by the large total of 15,000; establishments have been multiplied on an extensive scale, and the charges of the District Board have been extremely heavy. And so also, but in a less degree, it has been in the district of Saran, and to some extent also in Monghyr. We hope that there are some signs now of the plague decreasing, and that in another year it may pass away. On the other hand, in the rains there may be a recrudescence of plague; therefore we must be prepared to assist local bodies who may have incurred expenditure to prevent their resources being crippled. A sum of Rs. 2,85,000 has been provided under the head of 'Medical' on account of plague, Rs. 70,000 of which must go to meet charges which the Government will bear in any case on account of the pilgrim camp, on special plague establishment, and on the protection of the Port of Calcutta. That will leave the sum of about two lakhs available, which may either be devoted to remitting charges on account of inspection camps, or may be given as grants-in-aid to those local bodies which have suffered most. We have come to the conclusion that it is best not to distribute the money available to the several local bodies in the form of a refund of their contributions towards the Camps; and that it will be best utilized in giving assistance at the end of the year to those District Boards and Municipalities which have suffered most. We last year gave a grant of Rs. 30,000 to the Saran Municipality, and it is probable that we may have this year to give a grant to the District Board of Patna.

"In conclusion, I have to express my acknowledgments to Hon'ble Members who have given me and my fellow-Secretaries some notice of the points about which they intended to speak."

The HON'BLE MR. OLDHAM said:—"As mentioned by the Hon'ble the Chief Secretary I undertook to reply about arbitration because of the way in which the question has been raised, and because I have had some special experience of the subject. It will be remembered that last year my hon'ble friend Raja Shashi Shakhareswar Roy read an extract from a report which, as Commissioner of Chittagong, I had written in 1893, describing the plan followed by Mr. N. K. Bose, who was then Magistrate of Noakhali, for utilising panchayats; and the Hon'ble Raja asked if the panchayati system of Bengal could not be restored in some such fashion. If he had continued the extract and read my criticisms on Mr. Bose's scheme some discussion might have been saved, for I pointed out that it had no intrinsic vitality, but altogether depended for its working on Mr. Bose himself. It was not a system of arbitration as that word is generally understood, but panchayats were used for sifting criminal complaints before they were formally entertained by the Courts, and thus the stipendiary Courts were saved a great deal of labour. But Mr. Bose thought that from this plan a fuller panchayati system might be developed and made use of throughout the Province. I knew that he might be safely left to work his scheme because he was my friend and trusted colleague, but when the very same year he was promoted from Noakhali, the truth of my anticipations regarding its character was proved sooner than I thought, for he was succeeded by another Statutory Civilian who, though just as full of interest and energy, took a different view about this matter, and Mr. Bose's plan speedily fell into complete disuse. Apart from this, the general answer given on the subject by Mr. Bolton last year still seems to be in every way effective. He acknowledged that the principle of arbitration was most attractive, as was the word itself, but he pointed to the practical difficulties in the way of any enforced general resort to it. There were mechanical difficulties connected with buildings and furniture and stationery— difficulties about establishments and the serving of processes; and about records, and the preservation of the principle of *res judicata* and the prevention of matters which had been decided being re-opened. I think he referred too to what may be called the invidious aspects of the case—the

difficulty of finding disinterested persons in the villages to act as arbitrators, and the still greater difficulty of finding persons who were qualified to laboriously enter into an intricate case instead of acting on impressions, and able to write a judgment. Though the Hon'ble Raja remembers these arguments and has not revived his proposals, my hon'ble friend Babu Surendranath Banerjee, who has reproached him for not doing so, appears to have forgotten them. The question has now been revived here, because of my hon'ble colleague Mr. Toynbee's reference to it in the Imperial Council. But Mr. Toynbee did not propose any detailed scheme or use the word panchayat. He drew attention to the great drain upon the resources of the people of which the large amounts yielded by Court-fees were evidence, and hoped, as we all hope, that some means might be found, by affording facilities for arbitration or otherwise, for saving the people from some part of this drain. But as regards the establishment of panchayats for arbitration, if Mr. Bolton's arguments seem too abstract and academic to my hon'ble friend who so often expresses his preference for concrete instances, let me give him two concrete instances. You will remember, Sir, that in the year 878 agrarian disturbances broke out in the Deccan which were so serious and protracted as to require the appointment of a Special Commission to enquire into their causes, and thereafter the enactment of special legislation for the protection and relief of the peasantry. Prominent among these measures were provisions for arbitration, and when in 1894, their working came to be reviewed, when Your Honour was in Council, it was found that they had been altogether inoperative, so much so that they have been allowed to drop out of the amended legislation on the subject. My second instance is much nearer home. In 1855 there was a bloody agrarian rebellion in Bengal, in the very heart and centre of the territories under the Lieutenant-Governor. For months it convulsed the extensive region which is the subject of Sir William Hunter's well-known book, 'The Annals of Rural Bengal,' and it was only put down by the use of a very large military force and after a heavy loss of life. It was then that Lord Dalhousie laid his masterful hands upon the area of disturbance. He pronounced that the causes were in civilised measures having been applied far too fast, and his remedy was to resort to one of these exceedingly reactionary measures against which my hon'ble friend so constantly protests; and in order to carry it out he had passed a short law which saved the peasantry of this region from the operation of the ordinary laws, and left them otherwise to be governed by rules framed by Government. One of these rules was to exclude the intervention of all pleaders and lawyers and another was to provide for arbitration. In 1896, after over forty years working of them, the results of these arbitration provisions were enquired into, and they were found to have absolutely failed because the people would not resort to them, and they could only be called successful when the arbitrators sat within the shadow of the Courts, and under the control of the Courts. Is that the kind of arbitration which is desired? To any one who reflects, the reasons for these failures and disappointments are not far to seek. Why should the people who in any case have to pay, be left to the decisions of interested fellow-villagers when they can obtain the judgments of more or less expert professional Judges, who are paid for giving them justice?

"The other questions referring to matters under my administration have been answered by Mr. Baker, but I wish to amplify the reply given as regards Excise in one respect. The brief explanation we noted for estimating our increased Excise revenue was the greater prosperity of the people, and my hon'ble friend, Babu Surendranath Banerjee, referring to this said 'I am one of the people, and I deny that their prosperity is increasing. On the contrary.' My hon'ble friend will acquit me of any desire to be sarcastic at his expense, but I seize on his words as a vivid illustration of a theme which I have often harped upon in the debates in this Council, and as shewing how narrow, how partial, how absolutely exclusive and how intensely aristocratic is the section or circle which is represented by those who claim to be Indian representatives. Who are the people? We were speaking of the millions of Bengal, my friend was speaking only of his own people. We admit and we deplore the increasing poverty of the middle classes, but when we speak of the people we do not mean only the high and cultured Aryans whose ancestors came to

Bengal, whether as conquerors or missionaries, it is immaterial now to discuss, but also of the horny-handed sons of the soil who earn their living by the labour of their hands. These are not my hon'ble friend's people but they are the people of the country of his birth, and infinitely more in numbers. It is their prosperity which we count on as increasing, and it is increasing quite apart from the absence of famine. My hon'ble friend sought for corroboration from me in another point drawn from my experience of the Corporation, and I now am able to draw on the same source for evidence of what I say. He will remember that last year, before he and his 26 friends deserted us, we had in the Corporation to raise the pay of the carters and other menials, not because more pay was needed for their wants, but because they demanded it and were so well off that they would not serve unless they got it. This is a sample of the kind of increased prosperity on which our estimate is based, and also indicates who are the people whom we have in view."

THE HON'BLE THE PRESIDENT said:—"I have listened with interest to the very varied and many-sided discussion which has taken place to-day. As I listened, certain remarks which I made last year came back to my memory. In all this animated variety of suggestion, I have not once, except perhaps from my hon'ble friend, Babu Surendranath Banerjee, heard the still small voice of economy. That was a welcome voice for which I opened my ears last year. It was in vain, and I fear that it is not in Council that this voice will often be heard. Nevertheless, it has to be sought and found, and I know of no method so effective for the purpose as that of the decentralisation, upon which the Supreme Government has adjusted its relations with the Local Governments. To this I will presently refer; but meanwhile I have to acknowledge the manifold suggestions for higher expenditure, which have been presented to my Government in the debate of to-day. Sometimes the suggestions reiterate proposals that have been answered before. The memories of official answers are as short as the course of official researches is long. More often, perhaps, an Hon'ble Member hopes, like the importunate widow, to gain his end by much protesting. But for most of the recommendations I will frankly admit that there is much to be said, and if the Local Government had an indefinite balance, it would have the cheerful duty of an indefinite expenditure.

"Unfortunately, as Hon'ble Members know, that is just what the position of the Government is not. Its balances were swept away by famine. Famine had not been surmounted when there befell the worst earthquake of modern times. The earthquake reconstructions and repairs had not been finished, when there came plague. Plague has gravely increased and we have in addition to meet the heavy expenses entailed by the landslips of last autumn in the Darjeeling district. Not in my time will the Lieutenant-Governor have those ample balances which were the happy privilege of former times. The resources of the Province must be husbanded and expended with the greatest circumspection.

"As I said, many of the suggestions made by my hon'ble colleagues would be excellent suggestions if we had the money. We have not, and we must limit our expenditure to the most absolutely necessary items on our list. These, according to our judgment, have been stated to you in the Budget, and I have not observed that any suggestion has been made that one of the newer proposals is more important than and should have precedence of the Budget proposals.

"I said last year that I regarded feeder roads as of the first importance for the development of the Province, and as the complement of the railway lines which are rapidly spreading over it. To this policy we steadily adhere. Plague, threatenings of distress, and landslips have stopped the way, but if the provision which caution requires under these heads should prove to be in excess of requirements, the road schemes are ready to which the funds can be immediately diverted.

"In the construction of these I trust to receive effective help from some of the District Boards. Their finances have received substantial assistance by the aids to which the Financial Secretary has referred—the grant for plague expenditure and the adjustment of the expenses of cess collections. But I am ready to admit that the finances of some of them are straitened, and reconsideration of the Provincial Assignments is needed. To ensure a just reconsideration, you must know definitely what are the calls upon them, and how far

they have fulfilled the duty of faithfully raising the full income which the law gives them. These details take longer to ascertain than I was prepared to believe, but when they are ready, the reconsideration of which I have spoken will be carefully given.

"I spoke of the virtues of decentralisation as an aid to economy. This is quite clearly the direction in which we must move in Bengal. Whether it is a local board or the head of a department that propounds a project, it makes a singular difference whether the propounder is trying to get all he dares from a central authority, or is making the most of what he has already got. These are the directions in which we have begun to proceed. If it were possible to apply the principle to this Council, I am not sure that many of the suggestions we have heard might not vanish unexpressed, and we should lose the interest of many eloquent addresses. The Council, however, serves a different purpose. It gives the valuable opportunity of the public statement of the desires of communities, big or small, and if the Government have larger claims on them, for which these must stand aside, they may rest assured that these representations are not unnoticed or unappreciated. I have to express, as the Hon'ble Mr. Baker did, my pleasure at the extreme courtesy and consideration with which this Budget has been discussed. The Council is adjourned *sine die*."

The Council was then adjourned *sine die*.

BIHAR SCHOOL OF ENGINEERING.

Prospectus for Admission.

THIS School is under the management of the Principal of the Patna College, assisted by a Board of Visitors: it owes its origin to a fund raised by residents of Bihar to commemorate the visit to India of His Royal Highness the Prince of Wales. The object of the fund was the promotion of technical instruction in Bihar. The School was formally opened on 11th July 1896 by His Honour the Lieutenant-Governor of Bengal.

2. The number of students admitted to the first-year class of each year will be limited to 60, of whom only 15 can be other than Beharis by race (viz., natives of the North-Western Provinces, Central Provinces, or Bengalis domiciled in Bihar); but should the number of suitable applicants who are Biharis by race be insufficient to fill up the 45 vacancies, then the vacancies thus occurring can be given to those applicants who are natives of the North-Western Provinces, Central Provinces, or Bengalis domiciled in Bihar, in that order.

3. The School, as at present constituted, is chiefly engaged in training students for appoinment as Sub-Overseers and Overseers.

The curriculum includes—

(1) A sound study of Elementary Mathematics.
(2) Careful training in Survey work.
(3) Drawing, both Freehand and Engineering.
(4) Elements of road-making and the construction of simple buildings.
(5) Workshop practice with hand tools and with machinery.

Students are prepared for the Overseer certificate of the Public Works Department. The necessary additional buildings are in process of construction; and Government has agreed to reserve one appointment annually for a qualified student from this School, who must be a Bihari by race.

4. The next session will commence on 2nd July 1900.

5. In the Overseer Department, which corresponds to the Apprentice Department of the Sibpur College, the monthly fee is Re. 1-8. All scholarship-holders, however, receive free tuition. Government scholarships of the value of Rs. 7 a month, tenable for one year, are awarded each year on the results of the annual examinations, *eight* being tenable in the second-year class, *six* in the third-year class, and *six* in the fourth-year class. Of the scholarships attached to the school, 75 per cent. of them are to be reserved for those students who are Biharis by race. The teaching is in English.

6. Candidates for admission to the Overseer Department must be under 20 years of age, must be Biharis by race or domicile, or natives of the North-Western Provinces or Central Provinces, and must have passed one of the tests mentioned below :—

(1) The Entrance Examination of an Indian University in English and Mathematics.
(2) Standard VII of the Code of European Schools.
(3) Students who have not passed either of these tests and who are otherwise eligible will have to pass an examination in English and Mathematics (of about the same standard as the Entrance Examination of the Calcutta University in these subjects) to be held by the Principal of the Patna College on the 6th and 7th July respectively (from 6 A.M. to 9 A.M. each day).

7. Candidates for admission must apply to the Principal not later than the 30th June. Their application must give the following particulars:—

(a) Name, address and occupation of father or guardian.
(b) Race and religion, and *evidence to show that he is either a Bihari or a native of the North-Western Provinces or Central Provinces or a domiciled Bengali.*
(c) A certificate of good moral character.
(d) An attested certificate of age (showing that he is under 20 years of age).
(e) A medical certificate showing him to be fit for employment in the public service.
(f) A certificate of having passed either of the first two of the three tests mentioned above, failing which the application will be kept pending till a certificate showing that the candidate has passed the third test is given to the Principal.

8. There is also an Amin class, admission to which may be obtained by students who do not know English. In the Amin class the course of study is for one year, and the monthly fee is Re 1. An Amin student is taught Elementary Surveying with a corresponding amount of Mathematics and of Geometrical Drawing. He will not be admitted to the Workshop. A student in the first-year class of the Overseer Department, who fails to pass the examination for promotion to the second-year class, but who has shown an adequate knowledge of Elementary Surveying and the other subjects taught in the Amin class, may at his option leave the school with an Amin certificate.

9. Except in very special cases, a student will not be admitted to the Amin class for the session that commences 2nd July 1900, unless application for admission is made before 30th June 1900.

10. Every candidate for admission to the School must bring a certificate of good character from the Head of the Institution from which he has come.

11. All candidates for admission to the School should present themselves personally at the School on the 1st July.

C. R. WILSON,
Principal, Patna College.

BANKIPORE, *the 15th March 1900.*

[Third Publication.]

EDUCATIONAL PROSPECTUS.

THE Calcutta Medical College Session, 1900-1901, will commence on the 15th June next. Students who may be desirous of commencing their studies are requested to apply to the Principal between the hours of 11 A.M. and 4 P.M. before 1st June.

Those students who may be selected are expected to enter formally and commence attendance at the College upon the 15th, and none will be admitted at any later date.

2. No person shall be enrolled as a matriculated student who has not previously passed the First Arts examination of the Calcutta or an Indian University, or a preliminary Arts examination of the United Kingdom recognised by the British General Medical Council.

3. All matriculated students of the College must pay Rs. 15 on entrance, Rs. 35 on the 1st June, and Rs. 35 on 1st November of each year. Rs. 6 extra will be required from each student for each course of dissections. Fees once paid cannot be refunded.

Muhammadan students are required to pay Rs. 15 on entrance and half fee, *i.e.*, Rs. 17-8, per session. The remaining half fees are charged to the Mohsin Fund.

4. No free presentations will be awarded at the beginning of the session, but the fees shall be refunded to the 10 students who passed highest in all subjects at the end of their first year of study.

5. Any matriculated student of the College may, with the permission of the Principal and the Professor of the subject, attend courses of lectures or departments of hospital practice in addition to the full curriculum for the year, and shall be entitled to certificates of attendance at such extra lectures, if the Professor is satisfied that he or she has really studied the subject. The fees payable in advance for such additional courses are the following:—

	Rs.
For a single course of lectures on each subject in one year ...	40
For six months' attendance in each department of hospital practice ...	60

6. Any matriculated student who leaves the College before completing his University course, with the object of continuing his studies at a medical school in Europe, may receive certificates of attendance at lectures on payment of fees at the rate fixed in the foregoing rule, provided the Professor is satisfied that he or she has really studied the subject. But in calculating the sum to be so paid, the amount of the fees already paid by him as a regular student, or, in the case of a free student, the amount which would have been paid by him had he been a paying student, shall be deducted.

7. Any person not being a matriculated student of the College who wishes to attend any course of lectures, or any department of hospital practice, may do so with the permission of the Principal and Professor of the subject on payment, in advance, of fees at the rates fixed in paragraph 5. If he has passed the Entrance examination of the University, he shall receive certificates of attendance at lectures, provided the Professor is satisfied that he or she has really studied the subject. If he has not passed the Entrance examination, he shall receive no class certificates.

8. At the end of their first year, students will be required to pass a college test examination in Anatomy, Chemistry, and Botany. Those who gain not less than 20 per cent. in two subjects, and not less than 15 per cent. in a third, will be eligible for promotion to the second-year class. Those who fail to gain the aforesaid percentage of marks will not be eligible for promotion, but will go through the first-year class again.

9. Students of the second year will be required to pass a College test examination in Anatomy, Physiology, and Materia Medica. Those who pass the examination with 20 per cent. in two subjects and 15 per cent. in a third will be entitled to go up in the following March or April for the Preliminary Scientific Examination of the Calcutta University, the subjects of which are Chemistry and Botany. Those who (after passing the College test) fail at the University examination will be entitled, equally with those who pass it, to join the third-year class, at the end of which the former will have to present themselves, as at present, for the combined Preliminary Scientific and 1st L.M.S. (or 1st M.B.) examination.

10. Those students who fail at the College test examination of the second year will not be debarred from going up for the Preliminary Scientific examination, but will be encouraged to do so in order to get that stage over; but whether they pass or fail at the University examination, they will be relegated for a further year to the second year-class, provided that those who pass the University examination will not be required to attend the courses in those subjects in which they have passed.

11. Students of the third year will present themselves for the 1st L.M.S. or 1st M.B. examination of the Calcutta University. Those who fail at this examination will be relegated for a further year to the third-year class.

12. Students of the first or second-year class who fail a second time, at the same stage, to gain promotion to the next higher class, will be removed from the College and will not be entitled to re-admission. Third-year students who fail a second time will be liable to removal from the College; but if they are specially recommended by the Principal, they may again be relegated to the third-year class, on payment of the fees laid down in Rule 16, and re-admitted to the 1st L.M.S. or 1st M.B. examination, and this concession may be allowed for any number of years at the discretion of the Principal.

13. Students of the fourth-year class will be required to pass a College test examination in Surgery, Medicine, Midwifery, and Medical Jurisprudence. Those who pass the examination with 20 per cent. of the marks in three subjects, and 15 per cent in a fourth, will be eligible for promotion to the fifth-year class. Those who fail will be relegated to the fourth-year class for a further year. The examination in Surgery and Medicine will be both theoretical and clinical; but those students who can obtain from the Visiting Surgeon or Physician, to whose wards they have been attached, a certificate that they have really profited by their instruction in either subject, will be excused the clinical examination in that subject.

14. Students who fail at the 2nd L M.S. or 2nd M B. examination will have to attend a further course of lectures in the subject or subjects in which they have failed, in accordance with the regulations of the University.

15. The Principal will determine the maximum number that may be admitted to the first-year class. Students who have failed at the test examination of the first year will have a prior claim to re-admission over new students.

16. Students re-admitted to a class after failure at the test examination will be required to pay half the regular fee for the session (Rs. 35), but extra fees as for dissection (Rs. 6) in full. The half fee must be paid at the commencement of the session in June. Those, however, who, after failing either at the preliminary Scientific Examination or at the final examination have to attend a further course of lectures in the subject or subjects in which they failed, shall be required to pay for such lectures a fee of Rs. 20 for one subject, Rs. 30 for two, and Rs. 35 for three. Exceptions to this latter rule may be made in special cases by Inspector-General of Civil Hospitals on the recommendation of the Principal.

17. College prizes and certificates of honour are open for competition to matriculated students of the College, military medical pupils, and females certificate classes. College scholarships (*vide* paragraph 18) are awarded only to matriculated students of the College.

18. Junior scholarships of Rs. 8 per mensem and free tuition for one year are annually awarded to ten students of the second year, on the results of the Test and Honour examinations at the end of the first year.

Scholarships of the same value are awarded to ten students at the commencement of their third year, on the results of the Test and Honour examinations at the end of their second year, provided they have passed either the Preliminary Scientific L.M.S. or M.B. examination.

Ten senior scholarships of Rs. 12 per mensem and free tuition are awarded annually to students at the commencement of their fourth year, on the results of the Test and Honour examinations at the end of their third year, provided they have passed either the 1st L.M.S. or 1st M.B. examination. These scholarships are tenable for two years, provided the holder passes creditably the Test and Honour examinations at the end of his fourth year. In the event of any scholarship being forfeited under this condition, it may be awarded for one year to any student of the fifth year who has fulfilled the conditions and is not the holder of any scholarship. These scholarships shall not be awarded to students who have gained the Durga Charan Laha scholarship of Rs. 30 per mensum or any other scholarship.

Students who from any cause fail to pass their College Test and University examinations at their first chance are not eligible for any of these scholarships, either junior or senior.

19. The Goodeve scholarship of Rs. 12 per mensem, tenable for one year, is annually awarded to a matriculated student of the fifth year, on the result of the Midwifery test examination of the fourth year.

The F. C. Chatterjee scholarship of Rs. 15 per mensem, tenable for a year, is annually awarded to the best matriculated student of Native Indian extraction, and whose conduct is certified to be good, in Histology at the end of the fourth year. The examination takes place in June each year.

The Abdul Gunny scholarship of Rs. 22 per mensem, tenable for one year, is annually awarded at the end of the fourth year to the best matriculated student in all subjects at the class examinations of the first to fourth year inclusive. The award is made in May.

The Duke of Edinburgh's prize is awarded to the best in Surgery among the matriculated students at the end of the fourth and fifth years. The examination takes place in December or January.

The Bhola Nath Bose's prize of Rs. 35 is awarded to the fourth-year matriculated student who proves himself to be the most successful at bedside diagnosis of disease in Surgery and Medicine in alternate years. The award is made in January.

A gold medal and certificates of honour are awarded to the best students in each subject at the Test and Honour examinations.

The Goodeve and Macnamara silver medals are awarded to the best of the first-year native students in Anatomy and Chemistry, respectively, on the result of the Test and Honour examinations.

A prize in Clinical Medicine is awarded annually to the best clinical clerk of the fourth and fifth-year matriculated students. This examination takes place in February.

A prize in Clinical Surgery is awarded annually to the best clinical dresser of the fourth and fifth-year matriculated students. This examination will be held in February.

The Rivers Thompson silver medal is annually awarded to the best Muhammadan student who passes the final L.M.S. or M.B. examination of the Calcutta University.

The Lady Rivers Thomson prize of Rs. 50 is awarded to the lady student who obtains the highest number of marks at the final examination.

No student shall be allowed to complete for a prize when attending a course in excess of the number prescribed in the College curriculum.

20. College scholars who receive less than Rs. 20 per mensem are not required to pay Rs. 35 per session. All other scholars shall pay fees as matriculated students These may pay their fees in advance, or have their scholarship money deducted till the full amount is received

21. Any student holding a Medical College scholarship (paragraph 18) will be permitted to draw the stipends of that scholarship at any recognized medical school in the United Kingdom, provided he furnishes from the head of such school a certificate of good conduct and diligence. These College classes are recognized by all the medical schools in the United Kingdom.

22. The class assistants to the Professors of Pathology and Comparative Anatomy will each receive a salary of Rs. 10 monthly.

30. RULES FOR THE CONDUCT OF PERIODICAL EXAMINATIONS.

(1) *Test* examinations at the end of the—

1st year.

(*a*) Military pupils who obtain less than 20 per cent. of marks in one subject to be "warned" and informed that failure in the same subject at the end of the second year will entail liability to removal from College.

(*b*) Pupils who fail as above in two subjects will lose 200 conduct marks for idleness and will be re-examined two weeks before the commencement of the next session. Failure then in obtaining 15 per cent. of marks in either of the subjects will entail liability to removal.

(*c*) Pupils who fail to get 10 per cent. as above in three subjects will be removed from the College as being unlikely to succeed eventually.

(2) *Pass* examinations at the end of the—

2nd year.

(*a*) Military pupils who obtain less than 20 per cent. of marks in one subject will, if practicable, attend lectures on this subject and be re-examined at the end of the next session. Failure again in the same subject will render pupils liable to removal.

(*b*) Pupils who fail in two subjects will lose 200 conduct marks for idleness, and will, if practicable, attend lectures on these subjects, and be re-examined at the end of the next session. Failure in either subject will entail liability to removal.

(*c*) Pupils who fail to attain the standard in three subjects will be removed from the College.

(3) *Pass* and *Test* examinations at the end of the—

3rd year.

(*a*) Pupils who fail to obtain 20 per cent. of marks in either or both of the *final* subjects for the third year (viz., Hygiene and Pathology) will lose 200 conduct marks, and be re-examined at the end of the next session.

(*b*) Pupils who do not obtain 10 per cent. of marks in any of the *test* examinations (the other subjects) will lose 200 conduct marks for idleness for each subject in which they so fail.

(4) *Pass* examinations at the end of the—

4th year.

(*a*) Pupils who obtain less than 20 per cent. of marks in all subjects of their final examination will be liable to removal from the College. Such pupils will, however, be allowed to remain for a further period (to be fixed by the Principal in each case) in the College to continue their studies *at their own expense.*

FEMALE CERTIFICATE CLASS.

31. Lady students must be over 17 years of age before commencing their studies.

They must have passed the Entrance examination of the Calcutta University or an examination officially recognized by that University as equivalent to the Entrance examination. (The certificate of matriculation of the Melbourne University will be accepted.)

New students are expected, at latest, to enter formally and commence attendance at the College when the session opens on 15th June.

The duration of the course will be four years.

Tuition will be free.

32. Students, preferably native ladies, may reside in the Sornomoye Hostel. Applications for residence must be made to the Lady Superintendent of the Hostel, or to the Secretary to the Countess of Dufferin Fund, Bengal Branch, and not to the Principal of the Medical College.

Pass examinations in Medicine, Surgery, and Midwifery.

Students who are successful are entitled to receive the certificate of the College qualifying them to practise Medicine, Surgery, and Midwifery. A fee of Rs. 10 is charged for each certificate.

34. The following rules will be observed in regulating advancement from class to class:—

(1) *Test examination at the end of the first year.*—If a student obtains less than 10 per cent. of the marks in any two out of three subjects of examination, she shall not be allowed to continue in the College.

(2) *Pass examinations at the end of the second and third years.*—In order to pass, a student must gain 33 per cent. in each subject of examination. If a student fails in any two of the three subjects, or failing in one subject only, if she gains less than 25 per cent. in that subject, she shall be put back for one year. If she fails in one subject only, gaining 25 per cent. or more in that subject, she shall be promoted to the next class, but will be required to submit to re-examination in that subject in addition to the examination in the regular subjects, at the end of the following year. She will be permitted to attend lectures on the

subject in which she has failed. Failure on re-examination will carry the same penalty as original failure.

(3) *Pass examination at the end of the fourth year.*—The same rules as apply to the previous pass examinations, with the exception that if a student, failing in one subject only, gains 25 per cent. in that subject, she will be referred back to her studies for a period of six months, at the expiration of which she will be entitled to re-examination, after furnishing proof of having attended hospital practice during that period.

MIDWIVES AND DAIS.

35. Women who have a fair knowledge of English, but who have not passed the Entrance or its equivalents, will be admitted into the Eden Hospital to learn Midwifery. The Government grants Rs. 20 per mensem towards the board, washing, &c., of each pupil, and gives them free quarters. CIVIL ENGINEERING COLLEGE, SIBPUR.

AGRICULTURAL DEPARTMENT.

Session 1900-1901.

UPPER CLASS.

FOR admission to this class, an applicant must have one of the following qualifications:—

(*i*) He must have passed the F.E. examination of the Calcutta University and be under 23 years of age, but no student will be allowed to join the Agricultural class after the expiration of five years from admission into the Engineering College.

(*ii*) He must have passed the B.A. examination of the Calcutta University by the B Course, or possess other sufficient educational qualifications, be under 23 years of age, and in addition have received a nomination from the Bengal Government.

(*iii*) He must have had a general education qualifying him to follow the instruction in the Upper Agricultural class, and must also receive a nomination from Government for admission as a special student. To be eligible for a nomination under this rule, a candidate must either have landed property of his own, or be recommended by some influential landholder who desires to train him to take part in the management of his estate, or he must otherwise satisfy Government that he intends to make practical use of his agricultural training. Students entering under this rule will be termed Special Agricultural students. They will not be subject to any maximum limit of age, but will not be entitled to the privileges conferred on the passed students under rules 11 and 12, even though they should obtain fully signed diplomas in due course after passing the necessary examinations.

Every candidate for admission to this Department must apply in writing to the Principal not later than the 14th July. The form of application is given in Appendix A. In the event of the form not being properly filled up and accompanied by the necessary certificates, no notice will be taken of the application.

The number to be nominated each year will depend on the accommodation available.

Every applicant, not already a student of the College, must undergo a medical examination by the College Surgeon before admission to this Department. If this officer's report is unsatisfactory, the applicant will not be admitted.

The session begins on the 5th November. The course of instruction in the Upper Agricultural class will extend over two years.

Senior scholarships held by students when passing the F.E. examination are tenable in the Agricultural Department.

One graduate scholarship of Rs. 30 a month, tenable for one year, will be awarded on the result of the examination held at the end of the first academic year.

Two appointments annually are assigned to students holding a fully signed diploma: one in the Provincial Executive Service and one in the Subordinate Executive Service. The right of selection for this appointment will rest with Government, and the students who gained the highest marks at the examination for diplomas will not necessarily be selected.

Holders of fully signed Agricultural diplomas, who do not get the guaranteed appointments referred to in rule 11, but who wish to compete for the examination for admission to the Provincial, Subordinate Executive and Opium Services, may submit their names through the Principal to Government for nominations. These applications for nominations will be considered, provided the applicants appear to His Honour the Lieutenant-Governor to be otherwise suitable for admission to these services.

Each student in the Upper Agricultural Department will be required to pay an admission fee of Rs. 10.

F.E.'s who elect to join the Agricultural Department immediately after passing the F.E. examination are exempted from the payment of this fee, as their names are already borne on the College books.

For the present no tuition fees will be charged to students in the Agricultural Department, except in the case of those joining as special students under rule 3 (*iii*). The tuition fees for these students will be Rs. 8 a month.

Nominations.

Applicants for admission who require nominations under rule 3 (*ii*) and (*iii*) will apply for nominations through the Principal. The form of application for nomination is given in Appendix C.

Further particulars will be supplied on application to the Principal.

NOTIFICATIONS.

Simla, the 31st May 1900.

No. 1007-G.—Mr. R. Buller Hughes, of the Indian Civil Service, a Political Assistant of the 1st (officiating Political Agent of the 4th) class, is posted, on return from privilege leave, as Assistant Secretary to the Government of India in the Foreign Department, with effect from the 25th May 1900.

The 1st June 1900.

IN THE MATTER OF THE INDIAN PEOPLE'S FAMINE TRUST.

No. 2385-I.A.—Whereas application has been made to the Governor-General in Council by His Highness Saramad-i-Rajaha-i-Hindustan Raj Rajindra Sri Maharajadhiraj Sawai Sir Madho Singh Bahadur, G.C.S.I., G.C.I.E., Maharaja of Jaipur, the donor of the proposed Endowment Fund, that promissory notes of the Government of India to the amount of Rs. 15,00,000 be vested in the Treasurer of Charitable Endowments appointed under the Charitable Endowments Act, 1890 (VI of 1890), for the territories subject to the Lieutenant-Governor of Bengal (hereinafter referred to as "the Treasurer"), and that the income arising from the same be applied for the purposes of charitable relief in seasons of general distress, upon the terms specified in the following scheme of administration, notice is hereby given that an order is proposed to be made by the Governor-General in Council, vesting the said property in the said Treasurer, and settling the scheme for the administration of the same.

Any objection to the proposed order or suggestions thereon should be transmitted in writing to the Secretary to the Government of India in the Foreign Department by the 2nd day of July 1900, on which date the proposed scheme will be taken into further consideration.

Draft of a scheme for the administration of the proposed Trust.

1. The Trust shall be known as the Indian People's Famine Trust.

2. The purpose of the Trust shall be the alleviation by grants of money or otherwise of general distress caused by failure or destruction of the crops or by any calamity of like nature either in British India or in any Native States.

3. The income of the securities so as aforesaid vested in the Treasurer and of such other securities (if any) as may at any time hereafter be in like manner so vested for the purpose of the Trust shall be administered by a Board of Management (hereinafter referred to as "the Board") consisting of the following persons:—

(*a*) Five persons appointed by the Governor-General in Council, of whom three shall be in the executive service of the Government.

(*b*) Five persons appointed, respectively, by the Local Governments of Madras, Bombay, Bengal, the North-Western Provinces and Oudh, and the Punjab.

(*c*) Two persons appointed, respectively, by the Agents to the Governor-General in Rajputana and Central India.

(*d*) One person appointed by His Highness the Maharaja of Jaipur for the time being.

(*e*) Any persons becoming life-members under clause 14.

The Governor-General in Council shall also appoint the Chairman of the Board from among the members.

4. Each appointed member of the Board shall hold office during the pleasure of the authority by whom he has been appointed.

Provided that a member who is absent from India for a period exceeding eight months shall cease to be a member of the Board, but may, notwithstanding, be re-appointed thereto on a vacancy hereafter occurring. Provided also that any member may resign his place at the Board by notice in writing addressed to the Chairman.

5. During any vacancy in the Board the continuing members may act as if no vacancy had occurred.

6. The Chairman may convene meetings of the Board at such times and places as he may consider necessary and convenient for the transaction of business, and at all meetings four members shall form a quorum.

7. The Board shall frame bye-laws for the regulations of its proceedings, the maintenance of accounts, and the like.

8. No grant for the relief of distress shall, at any time, be made by the Board unless and until the existence of general and severe privation over a considerable area has been notified to it by the Governor-General in Council.

9. When the existence of distress has been so notified to the Board, the Board, after considering all the information regarding it which may have been transmitted by the

Governor-General in Council or by the Local Government or Native State in which the distress exists, may, if it think fit, make a grant for relief.

10. Before paying over the amount of any such grant, the Board shall satisfy itself that the money granted will be expended in one or more of the following ways, namely:—

Firstly.—In supplementing the subsistence ration of the Famine Codes by the addition of small comforts, whether of food or of clothing, for the aged or infirm, for patients in hospitals, for children and the like.

Secondly.—In providing for the maintenance of orphans.

Thirdly.—In relieving *pardah nashin* women and persons in distressed circumstances who by social or caste conditions are debarred from applying for State relief and from submitting to the ordinary tests of distress prescribed in the Famine Codes.

Fourthly.—In helping to re-establish impoverished agriculturists and others who have lost substantially the whole of their capital in the period of distress, and thereby giving them a fresh start in life.

Fifthly.—In providing for any object specially recommended to the Board by the Governor-General in Council.

11. When a grant is made for relief by the Board, the Board shall, unless otherwise authorised by the Governor-General in Council, pay over the grant for expenditure as follows:—

(1) To a Central Relief Committee, if a General Relief Committee shall have been established for the time being to administer Famine Charitable Relief funds in all parts of India.

(2) To a Relief Committee established in the Province in which distress prevails, should no Central Relief Committee have been established.

(3) If neither a Central Relief Committee nor a Provincial Relief Committee shall have been established, then to such person or persons as the Board may appoint in the locality where the distress prevails, the Board having first satisfied itself that proper arrangements for the distribution of relief through trustworthy agents have been made.

12. (1) Subject to any general or special orders which the Governor-General in Council may issue in this behalf, the Board may at its discretion invest any monies in its possession, and not being immediately required for expenditure on relief, in or upon the securities specified in section 4 (3) of the Charitable Endowments Act, 1890, and may vary and realise such investments.

(2) Any monies so invested shall be invested in the joint names of not less than two of the members of the Board.

(3) Provided that the Board may at any time apply to the Governor-General in Council that any securities for money so held may be vested in the Treasurer on the same trusts as the original Endowment Fund and as part of the endowment.

13 The Board may accept for the purpose of addition to the original Endowment Fund any securities for money of the kinds specified in section 4 (3) of the Charitable Endowments Act, 1890, not being of smaller amount in each case than Rs. 10,000 in face value, that may be so offered to it for acceptance by any person or persons. The Board shall notify each such donation to the Governor-General in Council, and shall jointly with the donor apply that the said securities be vested in the Treasurer on the same trusts as the original Endowment Fund and as part of the endowment.

14. Any person who thus subscribes a sum of not less than Rs. 5,00,000 shall become a life member of the Board.

15. (1) The Board may accept from a Central or Provincial Charitable Relief Committee the unexpended balances of any monies at the Committee's disposal which the Committee on terminating its operations may wish to make over to the Board for expenditure hereafter on the relief of distress. Such monies shall not be added to the original Endowment Fund, but shall be retained by the Board in current account or temporarily invested in the manner specified in sub-clauses (1) and (2) of clause 12.

(2) Subject to any general or special orders which the Governor-General in Council may issue in this behalf, the Board may similarly accept and dispose of any sums of money of less amount than Rs. 10,000 that may be presented to it from any other source.

16. The Board shall at all times conform to, and abide by, any rules relating to the administration of endowments under the Charitable Endowments Act, 1890, which the Governor-General in Council, in exercise of the powers conferred by section 13 of that Act, may from time to time see fit to make: and in particular the Board shall submit abstracts of its accounts and reports on the administration of the money entrusted to it to such public servant, in such form and at such times as the Governor-General in Council may by such rules prescribe; and shall, when called upon by any public servant appointed by the Governor-General in Council to be auditor of its accounts, produce any books, papers, vouchers and documents which may appear to him to be necessary for purposes of audit.

MUNICIPAL AND LOCAL.

NOTIFICATION.

No. 608T.M.—The 28th May 1900.—It is hereby notified for general information that, under the provisions of clause (*d*) of section 9 of the Bengal Municipal Act, III of 1884, as amended up to 1st November 1896, and on the recommendation of the Commissioners of the South Suburban Municipality, made at a meeting, the Lieutenant-Governor intends, unless good reasons are shown to the contrary within six weeks from the date of the publication of this notification within the area affected by it, to subdivide the said Municipality into two Municipalities, the line of division being Tolly's Nala. The two Municipalities will be called respectively the "South Suburban Municipality" and the "Tollygunge Municipality," and their boundaries will be as follows:—

I.—Boundaries of the South Suburban Municipality.

The northern boundary—Commences from Tolly's Nala to Tollygunge Circular Road, Shahapur Road, Goragacha Road, Taratula Road, up to the point opposite which Sonai 3rd Lane commences.

The eastern boundary.—Tolly's Nala.

The southern boundary—Commences at the northern border of Joka, where it is cut by the Bukrahat Road, thence eastward till it meets the Diamond Harbour Road at Thakurpukur outpost, thence eastward to Kalagachia along the northern edge of that road, till it meets the south-western limit of the Thakrun Chuck, thence northward along the western border of the Thakrun Chuck, Chuck Banbun, Kalupur and Sodepur, thence eastward along the northern border of Sodepur and the Sodepur Lane, till it meets the Haridaspur Lane, thence southward and along the western edge of Kowrapukur Road up to the culvert across the Thakurpukur and Kowrapukur Roads, a little to the south of Kowrapukur outpost building, thence northward along the western bank of Kowrapukur khal, till it meets Tolly's Nala.

The western boundary—Commences at the point in the Taratollah Road opposite which the Sonai 3rd Lane commences, thence a little to the north-west, and then turning southward through Bhalchana along the Jenjirpool khal, crossing the Budge-Budge Road, and thence along Bagir khal, till it meets Gangarampur Road, then turning westward along the southern edge of Gangarampur Road, meets the Shibrampore Road, thence turning south along the Shibrampore Road, thence turning east along the Kastdanga Road, then turning southward along the Kastdanga branch road, and the eastern borders of villages Bagpatha and Kalagachia.

II.—Boundaries of the Tollgunge Municipality.

The northern boundary—Commences at the north-eastern corner of Tangra Road at Hatgachia, thence westward along the southern edge of the said Tangra Road, then southward along the eastern edge of Tangra Road to its junction with Topsi Road, thence westward along Teeljalla Road up to the point where it meets the Eastern Bengal State Railway, southern section, thence southward along the eastern edge of the said Railway to its junction with the Port Commissioners' Railway (to Budge-Budge), thence westward along the south of the said Railway to the point where it crosses Russa Road, thence southward along the eastern edge of the Russa Road to its junction with Tollygunge Bridge Road, thence westward, till it meets Tolly's Nala.

The eastern boundary—Commences at the western border of Gariffa, thence northward along the western border of Haltoo Luskkar Ghat, Nonadanga, Choubaga, Dhallenda Bynchtolla and Hatgacha.

The southern boundary—Commences from Tolly's Nala, thence eastward along the northern boundaries of villages Sibpur, Roipur, Bajeh Roypur and Ibrahimpur, thence again to the south, commencing at the north-western corner of Garia and passing southward along the Garia Hât Road, till it meets the Russa Road, thence westward, till it meets Tolly's Nala, thence southward along Tolly's Nala and Gunga Nala, thence eastward to the south-eastern extremity of Barhash.

The western boundary.—Tolly's Nala.

INDIAN OCEAN—MALDIVE ISLANDS.

Malé approach—Amended particulars of sandbanks, &c.

THE British Admiralty has given notice (No. 214 of 1900) that information, dated 3rd March 1900, has been received from Captain J. G. M. Field, H.M.S. *Marathon*, respecting the descriptions of certain sandbanks in the approach to Malé:—

1. The sandbank to the north-westward of Fureenahfurhi has no bushes or any kind of vegetation on it; it is very small, and composed of white sand, which shows up well in the sun; it is only about one foot above high water, and has an encircling reef.

Approximate position, lat. 4° 15′ 30″ N., long. 73° 30′ 30″ E.

2. The shoal in approximately lat. 4° 13′ 15″ N., long. 73° 28′ 15″ E., is a small but densely wooded island.
3. The island in approximately lat. 4° 12′ N., long. 73° 28′ 30″ E., is not an island, but forms part of the reef, which is a complete circle entirely submerged.

AFRICA, EAST COAST—PUNGUE RIVER ENTRANCE.

Buoyage, channels, &c.

THE British Admiralty has given notice (No. 216 of 1900) that the following information respecting the buoyage and channels, Pungue river entrance, is derived from a report, dated 24th February 1900, received from Captain W. S. Rees, H.M.S. *Thetis* :—

No. 5 buoy. This buoy was found to be then situated with the south extreme of Massique point bearing N. 29° W., distant 2¼ miles, and point Jea tower N. 45° E.

Approximate position, lat. 19° 55′ 30″ S., long. 34° 49′ 0″ E.

The Captain of the port of Beira has also given information, dated 10th February 1900 that on 1st June 1900 the buoyage will be changed to a uniform system as follows:—

Buoys on the starboard side of the channel in entering will be coloured *red*, and numbered from seaward Nos. 2, 6, 8 ; buoys on the port side of the channel will be *black*, and numbered Nos. 1, 3, 4, 5, and 9. The colour only, not the shape or topmark, is the distinctive characteristic showing on which side the buoy should be passed.

In February 1900, there were, after passing No. 6 buoy, two navigable channels to the anchorage, the western of the two passing close to Massique point and the coast to the northward being the deeper and more intricate. The eastern channel which lies between Nos. 5 and 7 buoys was, however, the one generally used. In it the depth is about 20 feet at high water. The note on the Chart has, therefore, been amended.

CAUTION.—As the banks are liable to change, local knowledge is necessary before attempting to enter.

RESULT OF THE EXAMINATION FOR ADMISSION TO THE EXECUTIVE BRANCH OF THE PROVINCIAL CIVIL SERVICE AND THE SUBORDINATE CIVIL SERVICE HELD IN APRIL 1900.

RESOLUTION—No. 815A.—D.

APPOINTMENT.

Dated Darjeeling, the 1st June 1900.

READ—

The Resolution of the 16th June 1899, reviewing the result of the examination held in that year, and appointing candidates to be probationers in the Executive Branch of the Provincial and Subordinate Civil Service.

The Notification of the 19th December 1899, publishing rules for the examination of 1900 for admission to the Executive Branch of the Provincial and Subordinate Civil Service.

The Reports of the Examiners at the examination held on the 2nd, 3rd, 4th and 5th April 1900.

Of the three Probationary Deputy Collectors and four Probationary Sub-Deputy Collectors appointed on the result of the examination held in 1899, two Probationary Deputy Collectors and all the Probationary Sub-Deputy Collectors have been absorbed into officiating or substantive *pro tempore* appointments.

2. In December last it was notified that at the examination to be held this year two candidates would be selected for Probationary Deputy Collectorships on a subsistence allowance of Rs. 50 a month, and two for Probationary Sub-Deputy Collectorships on a subsistence allowance of Rs. 30 a month. It

was announced that one of the Probationary Deputy Collectorships would be given to the first candidate on the list in order of merit, that for the second a candidate would be selected by the Lieutenant-Governor from those who had obtained not less than one-third of the total marks, and that a similar selection would be made for the Sub-Deputy Collectorships.

3. The examination was held on the 2nd April and the three days following. Sixty-three applicants obtained permission to compete, and 58 actually appeared and sent in papers, of whom 12 were Muhammadans and 6 Bihari Hindus. The total number of candidates who obtained one-third marks and above was 54.

4. The following candidate, who stood first in order of merit, is entitled to, and will receive, an appointment as a Probationary Deputy Collector:—

	Number of marks.
Babu Ramani Mohon Mitra, M.A., B.L.	610

The Lieutenant-Governor selects Babu Lalbihari Das, B.L., for the second appointment, and Mr. Samuel Chandra, B.A., for an extra appointment.

These probationary officers will receive a subsistence allowance of Rs. 50 per mensem, and if the report from the districts in which they are stationed is favourable, they will, after such period of probation as may seem advisable, be appointed to be Officiating Deputy Magistrates and Deputy Collectors, as vacancies occur. They will not be vested with magisterial powers until they are so appointed. Separate orders will be passed posting these officers to districts.

5. The following are the two candidates selected by the Lieutenant-Governor to be Probationary Sub-Deputy Collectors—

Maulvi Abdul Bari, B.A.
Babu Baij Nath Sahai, B A.

These probationary officers will receive a subsistence allowance of Rs. 30 per mensem at present, and, if they are satisfactorily reported on, will be gradually absorbed into the fourth grade of the Sub-Deputy Collectors as vacancies occur. Separate orders will be passed posting them to districts.

6. The above appointments are subject to the condition that the candidate in each case must obtain the medical certificate of fitness required by paragraph 5 of the Notification No. 6055A., dated 19th December 1899.

ORDER.—Ordered that a copy of the above Resolution be published in the *Calcutta Gazette*.

By order of the Lieutenant-Governor of Bengal,

J. A. BOURDILLON,

Offg. Chief Secretary to the Govt. of Bengal.

REPORT ON THE STATE OF THE SALT MARKET FOR THE FOURTH QUARTER OF 1899-1900.

No. 435B., dated Calcutta, the 25th May 1900.

From—H. J. McIntosh, Esq., Secretary to the Board of Revenue, L.P.,
To—The Secretary to the Government of Bengal, Financial Department.

The Hon'ble Mr. W. B. Oldham, c.i.e.

I am directed to submit the following report on the state of the salt market for the fourth quarter of 1899-1900, comprising the months of January, February, and March 1900.

2. The quantity of salt of every description cleared during the quarter amounted to 27,21,461 maunds, as compared with 25,52,009 maunds in the previous quarter and 25,63,412 maunds in the corresponding quarter of the previous year; and the nett amount of duty levied thereon was Rs. 64,46,391, as against Rs. 59,82,021 in the previous quarter and Rs. 60,73,882 in the corresponding quarter of the previous year.

3. The quantity of locally-made salt removed from the *golas* in Orissa during the quarter and the quantity which remained in store at its close are shown in table (I) below:—

Total	..	13 586

The total sales of locally-made salt during the quarter amounted to 13,586 maunds, as compared with 14,048 maunds in the previous quarter and 15,616 maunds in the corresponding quarter of the previous year. Duty was paid on the full quantity sold. The Member in charge visited these golas in March. In view of the slowness of deliveries, the great accumulation still remaining, and the high cost of establishment and maintenance, it has become a question if this salt should not be given away (subject to duty) as has been done in Madras, to save the cost of destroying it or, if this course is not practicable, should not be destroyed. The sales of it are rapidly decreasing.

4. The subjoined table (II) shows in detail the importations into the port of Calcutta and the total clearances of sea-imported salt during the quarter,

as compared with the figures of the corresponding quarters of the last two years:—

RESOLUTION ON THE ADMINISTRATION REPORT OF THE JAIL DEPARTMENT FOR THE YEAR 1899.

RESOLUTION—No. 438P.—D.

JAILS.

Darjeeling, the 2nd June 1900.

READ—

The Report on the Administration of the Jail Department for the year 1899.

Read also—

The Reports for the years 1897 and 1898, and the Resolutions of Government recorded thereon.

THE Department was under the charge of Lieutenant-Colonel Mair, I.M.S., throughout the year, Lieutenant-Colonel Comins, the permanent incumbent of the post of Inspector-General of Jails, being absent on furlough.

2. The report, which was due on the 15th April, was not received until the 3rd May. It is understood that this was due to delay on the part of the Superintendent of Government Printing in submission of figures regarding the outturn of work at the Presidency Jail Press. He should see that such delay does not recur.

3. Statement VI appended to the Report has been prepared in accordance with the orders of the Government of India contained in the Home Department Resolution of the 16th February 1899.

4. *Jail population.*—The following statement shows the total number of prisoners of all classes in the jails and subsidiary jails in the Province during the year 1899 and the ten years preceding:—

* Including 8 convicts of the Dum-Dum Subsidiary Jail and Rajmahal Magistrate's hajat converted into a Subsidiary Jail in 1891.
† Including 15 convicts of the Deoghur Magistrate's hajat converted into a Subsidiary Jail in 1892.

5. The total number of prisoners of all classes remaining on the 1st January 1899 was 18,743, showing a decrease of 704 as compared with the total (19,447) on the first day of the preceding year. By the end of the year, however, the population had grown to 19,653, this figure being higher than that for any of the 20 years preceding. The daily average population was 129 in excess of that for the previous year, but did not reach the high figure attained in 1897, the famine year.

6. *Admissions of convicts.*—The total number of convicts admitted direct from the courts during the year was 35,600, and this figure is lower than that for any of the three years preceding. The average of admissions per mille of the entire population of the Province was, however, practically the same as in the preceding year, being ·500 as against ·506 in 1898. The districts which show the highest ratio of convictions to population are Calcutta, Angul, Singhbhum, Darjeeling, and the 24-Parganas.

7. The following table shows the districts which furnished the highest ratio of convicts per mille of population.—

* Including 9 moribund prisoners who were released under Rule 488 of the Jail Code.
† Including 4 ditto ditto 504 (a) ditto.

9. The number of prisoners released on appeal was smaller than in any of the other years included in the statement, the ratio of such releases to total admissions being 3·94 as compared with 4·54 in the previous year. The jail showing the largest percentage of releases on appeal in the preceding year was Noakhali, where the ratio was 14·6. This year the largest percentage is 12·22, this being the proportion of convicts released on appeal from the Bankipore District Jail. The number of transportations shows a considerable increase, and this is due to the orders of the Government of India directing that the deportation to the Andamans of prisoners sentenced to transportation for a term of years should be resumed. Under the orders of that Government the sentences of all male-convicts who have an unexpired sentence of six years' transportation and are otherwise suitable will in future be served out at Port Blair; and the attention of the courts has been invited to section 59 of the Indian Penal Code, under which transportation may in certain cases be substituted for imprisonment.

10. *Classification of convicts*.—Of 35,600 convicts admitted direct from the Courts, 19,887 or 55 85 per cent. were Hindus, 13,502 or 37·94 per cent. were Muhammadans, 368 or 1·03 per cent. Christians, 80 or ·22 per cent. Buddhists.

Convicts of all other religions numbered 1,763 or 4·96 per cent. The ratio per mille of Hindu convicts to the total Hindu population was ·439 as compared with ·436 in the previous year: in the case of Muhammadans it was ·576 against ·602 in 1898. It is satisfactory to note a further decrease in the percentage of juveniles admitted to the jails of the Province, the percentage of convicts under 16 years of age falling from 1·04 in 1898 to ·86 in the year under review. A corresponding decrease is also found in the number of admissions to the Reformatories at Alipore and Hazaribagh, the number of inmates at the end of the year being 419 against 468 at the end of 1898. These results are no doubt due, in part at any rate, to the provisions of the Reformatory Schools Act, VIII of 1897, under which a Court, instead of sentencing a youthful offender to imprisonment or transportation, or detention in a Reformatory School, can order that the offender shall be either discharged after due admonition, or be given over to a parent or relative on an undertaking of responsibility for the juvenile's good behaviour for a period not exceeding twelve months. The number of women admitted was 1,303, which is slightly less than the figure (1,366) for the preceding year. The cultivating classes supplied 57·23 of the total admissions as against 60·25 in the preceding year. The percentage of illiterate convicts was 89·43 as compared with 88·98 in the preceding year.

11. *Nature of imprisonment and length of sentence.*—The following table gives the kind of imprisonment to which convicts admitted during the year were sentenced as compared with those admitted during the two previous years:—

Nature of imprisonment of those admitted, as explained at foot.*	Not exceeding one month.	Above one month and not exceeding three months.	Above three months and not exceeding six months. * (A) Prisoners sentenced to simple imprisonment.
(B) Ditto ditto to rigorous ditto.
(C) Ditto ditto to ditto ditto with solitary confinement.
(D) Ditto ditto to ditto ditto with whipping.

12. It is remarkable that while the total number of admissions has diminished, the number of those sentenced to simple imprisonment has increased from 2,345 to 2,616, and the Lieutenant-Governor fears that the courts are not always careful to impose a sentence of the latter kind only in cases where a term of imprisonment with hard labour would be unsuitable or illegal. The Inspector-General comments on the small number of cases in which the courts include a period of solitary confinement in the terms of imprisonment awarded. Solitary confinement was ordered only in 85 cases in 1899, and in 79 cases in the preceding year. He compares these figures with those in the North-Western Provinces, where solitary confinement formed part of the sentence in no less than 6,035 cases in 1897 and in 3,148 cases in 1898. The Government of India have from time to time expressed their approval of a system under which cellular confinement forms a part of the punishment undergone in jail, and it is to be regretted that the courts do not use their discretion in awarding this form of punishment more freely. It is possible that they have to some extent been deterred by the belief that the provision for giving effect to such sentences is inadequate in the existing jails, but, exclusive of subsidiary jails, there are 638 cells in the various district and central jails in the Province,

and it is clear, therefore, that the existing opportunities have not been utilised to the fullest extent possible. The Lower Provinces are far behind the rest of India in this matter, and the Lieutenant-Governor trusts that attention will be given to the above suggestions during the current year.

13. Special arrangements for the separation of juvenile female prisoners from adults have for some time been under consideration, and orders were issued at the end of the year for the establishment at the Bhagalpur Central Jail of a depôt for the reception of all girl criminals sentenced to terms of imprisonment upwards of three months. Girls sent to the depôt will be re-transferred to the jails of the districts to which they belong about a week before their release, and suitable arrangements will be made for their escort.

14. *Identification of habitual offenders.*—The following statement shows the total admissions in each of the last five years of persons identified as having been previously convicted, and the proportion of such persons in each year to the total number of admissions :—

1895	...	...	...	3,843	11·55
1896	...	...	...	4,436	13·10
1897	...	...	...	5,247	11·97
1898	...	...	...	4,344	12 06
1899	...	...	...	4,579	12·86

In paragraph 21 of his report the Inspector-General of Jails has incorporated the statement required by the orders of the Government of India in paragraph 3 of the Home Department Resolution No. 4 Judicial—254-264, dated the 25th February 1885, regarding the identification of habitual offenders, and the figures given are for habitual offenders as defined by the Home Department Resolution No. 27—1804-1814, dated the 14th December 1886. The principal object of such identification is to ensure that suitable sentences shall be passed by the courts on reconviction, and it seems, therefore, to the Lieutenant-Governor that the prescribed statement should include neither all habitual criminals as defined in the abovementioned Resolution, nor all reconvicted prisoners, but only certain of the latter class who on reconviction have become liable to a special sentence. Provision for such special sentences has been made by the legislature in section 75 of the Indian Penal Code, in the Whipping Act, and also in certain other Acts, *e.g.*, the Excise, Gambling, Salt, Metal Tokens and Fisheries Acts. The Police administration is little concerned with reconvictions under the special Acts mentioned, and the Lieutenant-Governor is of opinion that the statement might with advantage be modified so as to indicate progress in the identification only of those prisoners who on reconviction have become liable to a special punishment either under the Penal Code or under the Whipping Act. A separate letter has been addressed to the Government of India advocating the adoption of this change in future reports.

15. *Under-trial Prisoners.*—The total number of under-trial prisoners on the first day of the year was 1,500; the corresponding figure for the last day of the year was 1,918; while the daily average for the year was 1,782 as compared with 1,744 in the preceding year. Of the total number of 35,552 under-trial prisoners confined during the year, 17,316, or 48·7 per cent., were convicted. The corresponding percentage for the preceding year was 50·4. The average period of detention of under-trial prisoners was 49·93 days in sessions trials, and 14·82 in trials before the Magistrates. The former figure shows some small improvement as compared with the average period of detention during the preceding year, which was 53·35 days. The exceptionally high figure reached in 1898 led the Lieutenant-Governor to address the High Court on the subject, requesting the Hon'ble Judges to consider the causes of the continuous increase since 1894, and to favour him with their views as to any measures which might be taken to secure an improvement. The final reply of the High Court has not yet been received. The Lieutenant-Governor had hoped to find a similar decrease in the period of detention before Magistrates, and is disappointed to find instead that the average period has again increased.

16. The following table shows the districts in which the period of detention in the Magistrates' Courts exceeded 15 days:—

District.	Period of detention.	District.	Period of detention.
Mymensingh	33·60	Hazaribagh	18·12
Faridpur	25·56	Rangpur	17·88
Noakhali	20·84	Daltonganj	16·42
Chapra	20·24	Dacca	16·06
Burdwan	19·30	Dinajpur	16·05
Ranchi	18·94	Monghyr	15·85
Bhagalpur	18·40	Chittagong	15·69
Bogra	18·20	Jessore	15·26
Pabna	15·14		

An improvement has been made in the districts of Dacca and the 24-Parganas, which headed the list of 1898 with averages of 25·11 and 22·97 days respectively. The district of Mymensingh, however, has attained an even higher figure than that shown for Dacca in 1898, while Faridpur, which was third in last year's list, with an average detention of 21·63 days is second in the present year with a higher figure. An explanation will be called for in the case of those districts in which the average period of detention exceeded 20 days.

17. *Civil and State Prisoners.*—The daily average number of civil prisoners rose from 48·97 in 1898 to 57·64 in the year under review. This figure closely approximates to that for 1896. The total number of such prisoners admitted during the year was 834, against 800 in the preceding year. The number of State prisoners confined in the jails of Bengal at the beginning of the year was 11. During the year one Moplah prisoner was retransferred to Madras on account of ill-health, while one other was sent to Bengal from that Presidency. The number at the end of the year remained, therefore, the same.

18. *Jail Buildings.*—The total expenditure on jail buildings during the year was Rs. 1,98,177, of which Rs. 1,61,885 were expended by the Public Works Department and Rs. 36,292 by the Jail Department, the corresponding expenditure of each department in the previous year being Rs. 1,71,713 and Rs. 25,097 respectively. Further extensive repairs had to be carried out at Mymensingh, at Rangpur and at Bogra as the result of the earthquake of 1897. The other principal works undertaken during the year were the reconstruction of the hospital ward for males at Rampur Boalia, the construction of an experimental septic tank latrine at the Presidency Jail, the connection of the Mymensingh Jail with the filtered water supply of the Nasirabad Municipality, and the addition of a verandah to the main barrack at Rangpur. Three new subsidiary jails were also constructed at a cost of a little under a quarter of a lakh of rupees. No new cells or cubicles were constructed during the year. The Inspector-General of Jails was, however, requested to submit proposals for the extension of the cubicle system throughout the Province in accordance with the orders of the Government of India. His suggestions have been received and are under consideration.

19. *Jail Guards.*—The state of the jail warder service has for some time past been highly unsatisfactory. It is recruited from the same races which supply the army and the police, and the better pay in these services has for some years rendered the jail service less attractive, and has created discontent among the men employed in it. The grant of compensation for the dearness of food during the famine of 1896-97 to some extent helped in obtaining suitable recruits and in retaining those already in the service, but it has been found that since the withdrawal of this concession, the number of resignations, desertions and dismissals has been detrimental to the efficiency of the Department and far in excess of that in the police force, and it has been clearly shown that it is necessary to improve the prospects of the service as a whole. The matter has been under the consideration of the Government for some time past, and proposals are now about to be submitted to the Government of India. The scheme formulated provides for a redistribution of the numbers in the various grades of the service, certain concessions in the matter of clothing allowances, and the abolition of the present class of apprentice warders, those now so styled being treated as warders of the lowest grade from beginning of their service, and drawing pay accordingly. The estimated cost of the reorganization is Rs. 15,000. The present report shows that the number of resignations in the service during the year 1898 was no less than 111, while 10 more deserted and 47 were dismissed, making a total of 9·1 per cent. of the whole force.

20. While the number of criminal offences committed by warders decreased from 47 in the previous year to 38 in that under review, the total number of offences of all kinds committed by them rose from 1,764 to 1,797. The Lieutenant-Governor is glad to observe that less frequent resort was had to fining as a means of punishment, and that extra drill was in some cases awarded instead. The number of fines, however, still remains large, and His Honour trusts that every Superintendent of a Jail will look to it that this form of punishment is used as little as possible.

21. *Escapes.*—The number of escapes was only half that for 1898, being 14 against 28 in the preceding year. Two were from Central Jails, 10 from District Jails, and 2 from Subsidiary Jails. Ten were from within the jail walls, while the remaining 4 were made from outside. The most notable escape was that of three Burmese life-convicts from the Berhampore Jail: it is not creditable to the police that none of these has been recaptured. Of the remaining escaped prisoners 7 were recaptured within the year.

22. *Prison Discipline.*—The following table classifies offences committed by convicts during the year according to the nature of the offence and the punishment awarded :—

23. The total number of offences punished exceeds that for the previous year by 1,045, and the increase is more than proportionate to the increase in the daily average of the population. The advance is mainly under the head of offences relating to work and to assaults, &c., by convicts, and the Inspector-General explains that the increase may be attributed to the introduction and extension of more irksome forms of labour, and the enforcement of a stricter discipline, in accordance with the orders of the Government on the subject. This explanation is doubtless correct, but care and tact are required, and will do much to avoid the necessity of resort to unusual punitive measures. The enforcement of proper tasks gave rise to special trouble in the Gaya Jail, and of the 86 offences punished by the Criminal Courts, no fewer than 33 were committed in that jail. A similar combination to do short work was found among the convicts in the Gaya Jail during the previous year also, and it is to be hoped that the measures taken will have the effect of preventing the recurrence of any further insubordination.

24. Out of 6,344 prisoners who were eligible to gain remission of sentence by earning good-conduct marks, 25 only failed to gain some remission. No appreciable increase in the number of marks earned is, however, yet apparent as the result of the pains which have been taken to inform the prisoners of the working of the system, and the benefit which they may derive from it. The majority of the Superintendents of Jails are nevertheless in favour of the system, being of opinion that it is of value in stimulating industry and good behaviour, and they consider that the forfeiture of marks is a suitable and effectual punishment for minor offences. Most prisoners, it is stated, are more or less indifferent about their marks during the earlier stage of their imprisonment, but attach more and more importance to the remission earned as the date of their release draws nearer; while the system is more valued by long-term than by short-term prisoners, and by prisoners convicted for the first time than by habitual offenders. These results are natural, and such as might have been anticipated.

25. *Expenditure.*—The gross expenditure on jails and subsidiary jails during the year as compared with 1898 is shown in the following statement:—

26. The principal cause of the total decrease, and of the diminution in the average cost per prisoner, is to be found in the smaller expenditure on diet, which cost over a lakh less than in the preceding year, the average cost per head in central and district jails being Rs. 26-9-7 against Rs. 32-12 in 1898. This again is doubtless due to the greater cheapness of food. The average cash earnings per head of average strength amounted to Rs. 23-14 as compared with Rs. 19-15 in the year preceding, and the average net cost per head of average strength amounted to Rs. 48-8 as against Rs. 58-3 in 1898.

28. The decrease in the average cost of diet per head is common to all the jails of the Province, with the exception of Purnea, Puri, Muzaffarpur, and Darbhanga. It is not clear whether the large expenditure on the provision of animal food throughout the year in the first named district was justifiable.

29. *Hospital Charges*—The total expenditure under this head showed a decrease from Rs. 92,868 in 1898 to Rs. 90,770 in 1899, while the expenditure per head of average strength decreased from Rs. 4-14-9 to Rs 4-12-6, and the expenditure per head of average sick from Rs. 145-2-8 to Rs. 139 7-9 In the last two reviews by the Government of India of the Provincial Jail Reports, remark has been made on the fact that hospital charges in Bengal exceed those in other Provinces. The average hospital expenses of a sick prisoner in Bengal during the last five years have been as follows :—

	Rs.	A.	P.
1894	94	4	7
1895	116	14	7
1896	139	14	2
1897	137	10	4
1898	145	2	8
1899	139	7	9

The steady increase up to the end of 1898 is very marked. The head "Hospital charges" includes four sub-heads, viz, (*a*) "Sick diet and extras for patients," (*b*) "Extras or special diet for weakly prisoners not in hospital," (*c*) "Medicines, hospital bedding and clothing," and (*d*) "Proportion of dairy charges." Under each of these items expenditure is higher in Bengal than in other Provinces. Under the first two heads the Medical Officers of the Jails must to a great extent be allowed a free hand. Under head (*c*) the charge for prophylactics is exceptionally heavy in the malarious districts of Bengal, while the money spent under the last head is well laid out if a good milk-supply ensures comparative immunity from cholera epidemics. Although the expenditure on hospital charges has been large, the result has certainly been satisfactory, as evidenced by the remarkably low death-rate recorded during the last few years The expenditure should nevertheless be carefully watched.

30. *Employment of prisoners.*—The average number of prisoners under sentence of labour on working days was 16,925. Of these the average number employed on manufactures was 7,1?0 as compared with 6,968 in 1898, the ratio of convicts so employed being 42·25 as compared with 41·05 and 38 43 per cent., respectively, in 1898 and 1897 The ratio of convicts employed as prison officers was 6 as compared with 5·77 in 1898, and of those employed as prison servants 11·70 as against 11·96 in that year. The large number of convicts sentenced to rigorous imprisonment and employed on such duties as involve little or no real toil was commented on in the Resolution on the report for 1898. It is explained that the adoption of special precautions necessitated by the plague in connection with the segregation of new admissions, led to the employment of a large number of convict officers, and it is understood that the same reason applies also in a great measure in the case of jail servants such as sweepers and others. The Lieutenant-Governor hopes that during the current year every endeavour will be made to reduce to the lowest possible figure the proportion of convicts employed on such work. The number employed in gardening was reduced from 1,114 to 882, and this is satisfactory: it is possible, however, that a still further reduction may be made in this direction also.

31. *Profits of manufactures.*—The total cash profits of the year amounted to Rs. 4,55,933 as compared with Rs. 3,78,320 in the preceding year, the average earnings per convict sentenced to labour being Rs. 26-15 as compared with Rs. 22-5 in 1898. These figures are taken from the prescribed statement No. XII, and show the cash transactions of the year. In a separate statement headed XIIA, however, the Inspector-General has given figures, an examination of which shows that the past year has been an exceptionally favourable one from the point of view of cash transactions. During the year 1897 a large stock of manufactured articles had accumulated, but large demands by the Commissariat Department for the field forces in South Africa gave a special impetus to sales, and the stocks in hand at the end of the previous year were disposed of and paid for during 1899. Again, the stock of raw materials paid for and still in

hand at the end of 1898 was largely in excess of that at the end of the year under review. Both these circumstances have tended unduly to magnify the apparent success of the manufacturing department in the year under review as compared with the preceding year. Judged indeed by the figures in Statement XIIA, the department appears to have had less success than in 1898, the average earnings per convict sentenced to labour amounting to Rs. 29-7 as compared with Rs. 32 in 1898. The following table compares the working of the manufacturing department of each of the Central Jails (1) according to cash profits as shown in Statement XII, and (2) according to profits shown in Statement XIIA :—

32. In the report under review the system adopted in previous years of calculating the profits of the Presidency Jail Press has been altered. The matter has recently formed the subject of correspondence with the Government of India. As already explained in a letter addressed to the Home Department, the practice hitherto observed has been that the Jail Department has taken credit, in respect of printing work executed for the various departments of the Government, at the rates at which those departments were debited for the printing done for them, the rates of charge being on a scale closely approximating to market rates. The final orders of the Government of India are contained in their Resolution of the 22nd September 1899, and therein the system adopted in this province, as above explained, was accepted as correct. It was added, however, that where, as at Allahabad and Madras, the Press is not managed by the Jail Department, but only the labour hired out to a separate Press management, credit should only be taken for the wages of the labour thus supplied. In the report under review, it is observed that the Presidency Jail Press has been treated as a Press of this kind, and the profits have been reduced accordingly. It is not clear, however, that the Presidency Jail Press is on the same footing as those at Madras and Allahabad, or that the orders contained in the third paragraph of the Resolution above cited are applicable to it, and the Inspector-General of Jails is requested to consider whether the system adopted by the Superintendent of Government Printing in the present report is correct.

33. *Subsidiary Jails.*—The subsidiary jails were 84 in number as in the preceding year. In the case of 11 of these the Superintendents failed to make the prescribed number of visits, and in the case of three of these similar failure occurred in the preceding year also. An explanation will be called for from the officers responsible for this neglect. The average population of convicts was 342 during the year, and of under-trial prisoners 657. The number of deaths among convicts was 10 and among under-trial prisoners 7. The average period of detention of under-trial prisoners was 14·29 days as compared with 13·46 in the preceding year. This increase is unsatisfactory, and the Commissioners of the respective divisions are requested to enquire into the circumstances which led to the prolonged detention of under-trial prisoners at Sirajganj, Pirojpur, Diamond Harbour, Atia, Manikganj and Godda. Excluding the cost of Public Works, the average cost per head was Rs. 111-15-6 as compared with Rs. 114-7-5 in 1898. The average profit per head of convicts employed on manufactures was Rs. 23-13 as compared with Rs. 23-15 in the previous year.

34. *Accommodation in Jails.*—At the end of 1899, the jails of the Province provided accommodation for a total of 23,311 prisoners of all classes, as compared with 23,070 at the end of 1898. The average population in each year was 19,114 and 18,979 respectively. The jails at Mymensingh, Purulia,

and Chaibassa had an average population in excess of the number for which they contain accommodation. The Inspector-General should consider whether additional accommodation should be provided in these jails, or whether in future arrangements can be made by which any excess in the number of prisoners can be transferred to other jails. No fewer than 13 District or Central Jails had an average population of under-trial prisoners in excess of that for which accommodation is provided, and these also call for the Inspector-General's special attention.

35. *Medical and Sanitary arrangements.*—Improvements were effected in connection with the water-supply in the jails at Buxar, Mymensingh and in the Presidency Jail. Five Pasteur-Chamberland filters have been installed in various jails, and are on the whole well reported on: two more filters of this kind are about to be set up. No changes were made in the authorised diet scales during the year: animal food was freely given all the year round in certain jails, and in a larger number of jails at certain periods of year. The fortnightly weighments of prisoners were continued: of 39,242 prisoners discharged during the year, 60·79 gained weight, 15·67 lost weight, and 23·54 were of the same weight as on admission. At the instance of the Inspector-General the entertainment of a second Civil Hospital Assistant has been sanctioned in the Central Jails at Dacca and Buxar respectively: similar help had previously been given at Alipore and Bhagalpur.

36. *Sickness and mortality.*—The following table gives the mortality among prisoners of all classes for the past five years and the preceding decade:—

Year.	Daily average number of prisoners.	Daily average sick.	Ratio per mille of daily sick.	Number of deaths.			Death-rate per mille of average strength.

37. The death-rate for the year, though slightly higher than that for the year preceding, is lower than that for any other year in the past fifteen. The year was unhealthy, as is shown by the fact that the reported death-rate among the

free population of the Province rose from 26·52 per mille in 1898 to 31·21 in the year under review, and it is satisfactory, therefore, to note that the mortality in the jails of the Province increased in a considerably lower ratio than that among the free population. The jail population enjoyed extraordinary immunity from cholera both in 1898 and 1899, and it is satisfactory to find that the average annual mortality from this cause was 34·8 for the five years ending with 1899 against an annual mortality of 73·9 in the previous decade. The jails which showed the largest proportion of admissions to hospital in 1899, were those at Baraset, Khulna, Buxar, Bankura, Chaibassa, Darbhanga, Presidency and Jalpaiguri.

38. *Principal diseases causing sickness and death.*—The following table shows the principal diseases from which prisoners suffered during the past two years:—

		1899.		1898.	
		Admissions.	Deaths.	Admissions.	Deaths.
1.	Cholera	5	3	4	3
2.	Dysentery	3,832	103	3,444	90
3.	Malarial fevers	5,490	36	5,724	43
4.	Tubercle of the lungs, &c. ...	237	82	197	54
5.	Anæmia and debility	187	15	249	12
6.	Other general diseases	2,713	23	3,201	27
7.	Pneumonia	253	50	306	69

9.	Diarrhœa	1,576	20	1,443	20
10.	Abscesses, boils and ulcers of all kinds	860	5	815	4
11.	All other diseases	2,283	44	2,060	60
	Total ...	18,118	398*	18,137	392

* Excluding deaths from suicide (3) and from valvular disease of the heart out of hospital (2).

39. As already observed, the small number of deaths from cholera in the last two years is a matter for congratulation. The number of deaths from dysentery, however, shows some increase, while deaths from tubercle of the lungs rose from 54 to 82. Pneumonia proved less fatal during the year under review, the number of deaths due to it being 50 against 69 in 1898. In 1898 the four jails of Dacca, Faridpur, Midnapore and Jessore returned no fewer than 28 deaths from this cause, and it is satisfactory that the number during the year under review was less by 8.

40. *Mortality in Central Jails.*—All the Central Jails show a very moderate death-rate, the lowest being that of 15·1 per mille at Hazaribagh and the highest that of 29·3 at Midnapore. Of the 27 deaths in the latter jail, no fewer than 16 occurred in the case of prisoners who had been transferred from the Chaibassa Jail. Attention having been drawn to the fact that the climate of the Midnapore Jail did not appear to suit natives of the Singhbhum district, arrangements were made during the latter part of the year for the transfer of such prisoners to Hazaribagh instead of Midnapore, and this plan was attended by the best results, no death occurring among the prisoners thus sent to Hazaribagh.

41. *Jails with the highest mortality.*—The following table shows the jails in which the highest mortality among convicts occurred:—

	Death-rates of all causes per mille.		Death-rates exclusive of cholera per mille.	
	1899.	1898.	1899.	1898.
Barisal ...	62·0	45·8	62·3	43·5
Purnea ...	61·1	63 6	61·1	63·6
Faridpur ...	56·4	36·3	56·4	36·3
Suri ...	55 2	43·0	51·5	43·0
Hooghly ...	54·9	36·3	52·1	36·3
Daltonganj ...	48·6	49·2	48·6	49·2
Pabna ...	47·4	7·0	47·4	7·0
Chaibassa ...	45·1	55·2	45·1	55·2

42. Of the 27 deaths at Barisal, 11 were from dysentery: it is explained, however, that 22 out of the 27 who died were admitted in an indifferent state of health. It is proposed to improve the arrangements for the supply of drinking and bathing water, and it may be hoped that this will have a good effect on the

health of the inmates. This jail has suffered under the further disadvantage that there have been frequent changes of Superintendents in the last two years, with the result that none of them have been able to acquire any local experience. For many years the Chapra District Jail figured in each annual report among those showing an excessive rate of mortality. So recently as 1897 the death-rate for this prison stood at 84·6 per mille, and on the advice of two Committees, which were successively appointed to enquire into the causes of this mortality, it was decided to build a new jail on a more healthy site and on more sanitary principles. The comparatively low death-rate of the last two years (20·6 in 1898 and 19·4 in 1899) reflects the greatest credit on the jail authorities, and has led to the abandonment of the scheme, which was estimated to cost over four lakhs of rupees. The jails which show the lowest death-rate are those at Cuttack, Burdwan, Comilla, Arrah and Noakhali. All these have recorded death-rates of less than 10 per mille.

43. *Inspections.*—Seventeen jails were visited by the Lieutenant-Governor. The Inspector-General of Jails visited all the Central Jails and all the District Jails of the Province, except five, viz., those of the Orissa Division, and that at Kishnaghar. He also visited seven subsidiary jails. The number of visits paid by Commissioners of Divisions and by District and Sessions Judges was fewer than in the preceding year, while on the other hand those paid by District Magistrates and by non-official visitors were more numerous than in 1898.

44. *Officers of the Department.*—The medical officers working under the Department who are specially mentioned by the Inspector-General of Jails are Lieutenant-Colonel Macrae, Major Green, Lieutenant-Colonel ffrench-Mullen, Major Jordan, Major Maynard, Major Buchanan, Captain Deare, Captain Waters, Dr. Waller, Major Vaughan, Major Drury, Captain Anderson, Captain Maddox, Captain Blaker, Dr. Hedley Wood, and Assistant Surgeon Barada Kanta Ray. During the year the Jail Department lost the services of Mr. Donaldson, who had for long been Superintendent of the Presidency Jail, and who obtained an appointment in another part of India. Mr. Leonard held the post of Superintendent of the Alipore Central Jail and *ex-officio* Deputy Inspector-General of Jails. The Inspector-General makes special mention of his valuable assistance.

45. The thanks of the Lieutenant-Governor are due to Lieutenant-Colonel Mair for his most careful administration of the Department, and for the close regard he ensured to the two matters in jail management to which his attention was specially directed—the system of marks and the character of convict employment.

ORDER.—Ordered that a copy of this Resolution be forwarded to the Inspector-General of Jails for information and guidance.

Ordered also that a copy of this Resolution and a copy of the Report be submitted to the Government of India in the Home Department.

Ordered also that a copy of this Resolution be published in the *Calcutta Gazette.*

Cattle-disease reported from thanas Purulia, Manbazar, Jhalda, Gobindpur, and Tundi. Fodder and water sufficient. Average price of common rice at Sadar 12 seers 14 chitaks and at Gobindpur 12 seers per rupee. Supply sufficient.

Singhbhum.—Rainfall 0·76. Weather hot. Sowing going on. Rice sells at 11 seers at Chaibasa. Average price of rice is 12 seers per rupee in the district.

General Summary.—There was rain in all parts of the Province during the week—the heaviest fall being in North and East Bengal. The rainfall in Bihar, which was light, has facilitated the work of ploughing and benefited the *bhadoi* paddy. In Angul more rain is urgently needed. The sowing of paddy is still going on, and seedlings are out at places. Jute and *aus* plants are thriving and in some places they are being weeded. In Saran prospect of indigo is good, and *cheena* is being cut. Sugarcane is growing well. Fodder and water are generally sufficient except in the Chuadanga subdivision of Nadia, and scarcity of water is still reported from the district of Angul. Cattle are generally in good condition, but cases of disease are reported from a few districts. The price of common rice has risen in 29 districts, fallen in 3 and is stationary elsewhere. Famine has been declared in thanas Chainpur, Khunti, and Sisai of the district of Ranchi. The average daily attendance in Palamau on relief works—men 136, women 106, children 38 (total 280); convalescent gang—men 53, women 87, children 15 (total 155); test works—men 131, women 154, children 24 (total 309).

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h., 10h., 16h., and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o, overcast; p, passing temporary showers; t, thunder; <, lightning; /, stormy wind; g, gloomy; d, drizzling rain.

N.B.—In the column "Miles recorded" the movement of wind from 8 A.M. of the day for which it is shown to 8 A.M. of the following day is given.

NOTIFICATION—No. 1207A.D.

The 9th June 1900.—The following Rule and Appendix, which have been sanctioned by the Government of India, are substituted for Rule 18 of the Rules for the Departmental Examination of Assistant Magistrates and others, dated the 28th May 1895, and for Appendix III to the Rules:—

Rule 18.—In accounts there will be two standards of examination. The text-books will be the same in both, namely, those detailed in Appendix III. The examination will be partly with, and partly without, the aid of books as indicated in that Appendix. The questions will be set by the Accountant-General in communication with the Central Examination Committee. They will be of a simple and practical character. For the lower standard their scope will be somewhat elementary, but at the higher standard candidates will be expected to exhibit a more intimate acquaintance with the Codes and Rules prescribed.

Appendix III—

(*a*) Civil Account Code, Chapters 1 to 6, 10, 15, 17 to 20, 29, 30, and Appendix K.
(*b*) The Subdivisional Treasury Rules.
(*c*) The Rules of account for Judicial Officers prescribed by the High Court.
(*d*) The Bengal Treasury Manual.
(*e*) The Local Fund Rules.

Candidates will be required to answer the questions on the Civil Account Code without the aid of that book. Reference to the remaining books will be permitted during the examination.

NOTIFICATION—By the Government of India, Home Department.

THE Governor-General in Council is pleased to direct that the following be substituted for Rule VII (1) of Part I of the Ecclesiastical Rules published with Home Department Notification No. 178, dated the 21st May 1897:—

Rule VII (1).—Ministers of all denominations have a right to conduct the service of burial over the body of any deceased member of their respective congregations who may be buried in any fitting portion of the ground set apart for the denomination to which the deceased belonged. At least six hours' previous notice of the burial should be given by the

Chaplain or Minister of the denomination to which the deceased belonged, or, in his absence from the station, by the friends of the deceased, to the Chaplain in charge of the burial ground, or, in the absence of the Chaplain, to the officer who may be in current charge. The Chaplain or officer in current charge of the cemetery should, on receipt of the notice, give the conducting Chaplain or Minister, or, in his absence, the friends of the deceased, a certificate as to the hour when the funeral may take place. The period herein prescribed may, for special reasons, be shortened, with the permission of the Chaplain or officer in charge of the cemetery. Such Chaplain or officer will, if he thinks the circumstances of the case demand it, bring the facts to the notice of the local Magisterial authorities in time to admit of an order stopping the burial being passed, if necessary.

Note.—The provisions laid down in this rule apply only to Civil funerals. Military funerals are regulated by the order laid down in Army Form A 27.

The 9th June 1900. } *Director of Public Instruction.*

[Fourth Publication.]

EDUCATIONAL PROSPECTUS.

THE Calcutta Medical College Session, 1900-1901, will commence on the 15th June next. Students who may be desirous of commencing their studies are requested to apply to the Principal between the hours of 11 A.M. and 4 P.M. before 1st June.

Those students who may be selected are expected to enter formally and commence attendance at the College upon the 15th, and none will be admitted at any later date.

2. No person shall be enrolled as a matriculated student who has not previously passed the First Arts examination of the Calcutta or an Indian University, or a preliminary Arts examination of the United Kingdom recognised by the British General Medical Council.

3. All matriculated students of the College must pay Rs. 15 on entrance, Rs. 35 on the 1st June, and Rs. 35 on 1st November of each year. Rs. 6 extra will be required from each student for each course of dissections. Fees once paid cannot be refunded.

Muhammadan students are required to pay Rs. 15 on entrance and half fee, *i.e.*, Rs. 17-8, per session. The remaining half fees are charged to the Mohsin Fund.

4. No free presentations will be awarded at the beginning of the session, but the fees shall be refunded to the 10 students who passed highest in all subjects at the end of their first year of study.

5. Any matriculated student of the College may, with the permission of the Principal and the Professor of the subject, attend courses of lectures or departments of hospital practice in addition to the full curriculum for the year, and shall be entitled to certificates of attendance at such extra lectures, if the Professor is satisfied that he or she has really studied the subject. The fees payable in advance for such additional courses are the following:—

	Rs.
For a single course of lectures on each subject in one year ...	40
For six months' attendance in each department of hospital practice ...	60

6. Any matriculated student who leaves the College before completing his University course, with the object of continuing his studies at a medical school in Europe, may receive certificates of attendance at lectures on payment of fees at the rate fixed in the foregoing rule, provided the Professor is satisfied that he or she has really studied the subject. But in calculating the sum to be so paid, the amount of the fees already paid by him as a regular student, or, in the case of a free student, the amount which would have been paid by him had he been a paying student, shall be deducted.

7. Any person not being a matriculated student of the College who wishes to attend any course of lectures, or any department of hospital practice, may do so with the permission of the Principal and Professor of the subject on payment, in advance, of fees at the rates fixed in paragraph 5. If he has passed the Entrance examination of the University, he shall receive certificates of attendance at lectures, provided the Professor is satisfied that he or she has really studied the subject. If he has not passed the Entrance examination, he shall receive no class certificates.

8. At the end of their first year, students will be required to pass a college test examination in Anatomy, Chemistry, and Botany. Those who gain not less than 20 per cent. in two subjects, and not less than 15 per cent. in a third, will be eligible for promotion to the second-year class. Those who fail to gain the aforesaid percentage of marks will not be eligible for promotion, but will go through the first-year class again.

9. Students of the second year will be required to pass a College test examination in Anatomy, Physiology, and Materia Medica. Those who pass the examination with 20 per cent. in two subjects and 15 per cent. in a third will be entitled to go up in the following March or April for the Preliminary Scientific Examination of the Calcutta University, the subjects of which are Chemistry and Botany. Those who (after passing the College test) fail at the University examination will be entitled, equally with those who pass it, to join the third-year class, at the end of which the former will have to present themselves, as at present, for the combined Preliminary Scientific and 1st L.M.S. (or 1st M.B.) examination.

10. Those students who fail at the College test examination of the second year will not be debarred from going up for the Preliminary Scientific examination, but will be encouraged to do so in order to get that stage over; but whether they pass or fail at the University examination, they will be relegated for a further year to the second year-class, provided that those who pass the University examination will not be required to attend the courses in those subjects in which they have passed.

11. Students of the third year will present themselves for the 1st L.M.S. or 1st M.B. examination of the Calcutta University. Those who fail at this examination will be relegated for a further year to the third-year class.

12. Students of the first or second-year class who fail a second time, at the same stage, to gain promotion to the next higher class, will be removed from the College and will not be entitled to re-admission. Third-year students who fail a second time will be liable to removal from the College; but if they are specially recommended by the Principal, they may again be relegated to the third-year class, on payment of the fees laid down in Rule 16, and re-admitted to the 1st L.M.S. or 1st M.B. examination, and this concession may be allowed for any number of years at the discretion of the Principal.

13. Students of the fourth-year class will be required to pass a College test examination in Surgery, Medicine, Midwifery, and Medical Jurisprudence. Those who pass the examination with 20 per cent. of the marks in three subjects, and 15 per cent. in a fourth, will be eligible for promotion to the fifth-year class. Those who fail will be relegated to the fourth-year class for a further year. The examination in Surgery and Medicine will be both theoretical and clinical; but those students who can obtain from the Visiting Surgeon or Physician, to whose wards they have been attached, a certificate that they have really profited by their instruction in either subject, will be excused the clinical examination in that subject.

14. Students who fail at the 2nd L.M.S. or 2nd M.B. examination will have to attend a further course of lectures in the subject or subjects in which they have failed, in accordance with the regulations of the University.

15. The Principal will determine the maximum number that may be admitted to the first-year class. Students who have failed at the test examination of the first year will have a prior claim to re-admission over new students.

16. Students re-admitted to a class after failure at the test examination will be required to pay half the regular fee for the session (Rs. 35), but extra fees as for dissection (Rs. 6) in full. The half fee must be paid at the commencement of the session in June. Those, however, who, after failing either at the preliminary Scientific Examination or at the final examination have to attend a further course of lectures in the subject or subjects in which they failed, shall be required to pay for such lectures a fee of Rs. 20 for one subject, Rs. 30 for two, and Rs. 35 for three. Exceptions to this latter rule may be made in special cases by Inspector-General of Civil Hospitals on the recommendation of the Principal.

17. College prizes and certificates of honour are open for competition to matriculated students of the College, military medical pupils, and females certificate classes. College scholarships (*vide* paragraph 18) are awarded only to matriculated students of the College.

18. Junior scholarships of Rs. 8 per mensem and free tuition for one year are annually awarded to ten students of the second year, on the results of the Test and Honour examinations at the end of the first year.

Scholarships of the same value are awarded to ten students at the commencement of their third year, on the results of the Test and Honour examinations at the end of their second year, provided they have passed either the Preliminary Scientific L.M.S. or M.B. examination.

Ten senior scholarships of Rs. 12 per mensem and free tuition are awarded annually to students at the commencement of their fourth year, on the results of the Test and Honour examinations at the end of their third year, provided they have passed either the 1st L.M.S. or 1st M.B. examination. These scholarships are tenable for two years, provided the holder passes creditably the Test and Honour examinations at the end of his fourth year. In the event of any scholarship being forfeited under this condition, it may be awarded for one year to any student of the fifth year who has fulfilled the conditions and is not the holder of any scholarship. These scholarships shall not be awarded to students who have gained the Durga Charan Laha scholarship of Rs. 30 per mensum or any other scholarship.

Students who from any cause fail to pass their College Test and University examinations at their first chance are not eligible for any of these scholarships, either junior or senior.

19. The Goodeve scholarship of Rs. 12 per mensem, tenable for one year, is annually awarded to a matriculated student of the fifth year, on the result of the Midwifery test examination of the fourth year.

The F. C. Chatterjee scholarship of Rs. 15 per mensom, tenable for a year, is annually awarded to the best matriculated student of Native Indian extraction, and whose conduct is certified to be good, in Histology at the end of the fourth year. The examination takes place in June each year.

The Abdul Gunny scholarship of Rs. 22 per mensem, tenable for one year, is annually awarded at the end of the fourth year to the best matriculated student in all subjects at the class examinations of the first to fourth year inclusive. The award is made in May.

The Duke of Edinburgh's prize is awarded to the best in Surgery among the matriculated students at the end of the fourth and fifth years. The examination takes place in December or January.

The Bhola Nath Bose's prize of Rs. 35 is awarded to the fourth-year matriculated student who proves himself to be the most successful at bedside diagnosis of disease in Surgery and Medicine in alternate years. The award is made in January.

A gold medal and certificates of honour are awarded to the best students in each subject at the Test and Honour examinations.

The Goodeve and Macnamara silver meda's are awarded to the best of the first-year native students in Anatomy and Chemistry, respectively, on the result of the Test and Honour examinations.

A prize in Clinical Medicine is awarded annually to the best clinical clerk of the fourth and fifth-year matriculated students. This examination takes place in February.

A prize in Clinical Surgery is awarded annually to the best clinical dresser of the fourth and fifth-year matriculated students. This examination will be held in February.

The Rivers Thompson silver medal is annually awarded to the best Muhammadam student who passes the final L.M.S. or M.B. examination of the Calcutta University.

The Lady Rivers Thomson prize of Rs. 50 is awarded to the lady student who obtains the highest number of marks at the final examination.

No student shall be allowed to complete for a prize when attending a course in excess of the number prescribed in the College curriculum.

20. College scholars who receive less than Rs. 20 per mensem are not required to pay Rs. 35 per session. All other scholars shall pay fees as matriculated students These may pay their fees in advance, or have their scholarship money deducted till the full amount is received.

21. Any student holding a Medical College scholarship (paragraph 18) will be permitted to draw the stipends of that scholarship at any recognized medical school in the United Kingdom, provided he furnishes from the head of such school a certificate of good conduct and diligence. These College classes are recognized by all the medical schools in the United Kingdom.

22. The class assistants to the Professors of Pathology and Comparative Anatomy will each receive a salary of Rs. 10 monthly.

30. RULES FOR THE CONDUCT OF PERIODICAL EXAMINATIONS.

(1) *Test* examinations at the end of the—

1st year.

(*a*) Military pupils who obtain less than 20 per cent. of marks in one subject to be "warned" and informed that failure in the same subject at the end of the second year will entail liability to removal from College.

(*b*) Pupils who fail as above in two subjects will lose 200 conduct marks for idleness and will be re-examined two weeks before the commencement of the next session. Failure then in obtaining 15 per cent. of marks in either of the subjects will entail liability to removal.

(*c*) Pupils who fail to get 10 per cent. as above in three subjects will be removed from the College as being unlikely to succeed eventually.

(2) *Pass* examinations at the end of the—

2nd year.

(*a*) Military pupils who obtain less than 20 per cent. of marks in one subject will, if practicable, attend lectures on this subject and be re-examined at the end of the next session. Failure again in the same subject will render pupils liable to removal.

(*b*) Pupils who fail in two subjects will lose 200 conduct marks for idleness, and will, if practicable, attend lectures on these subjects, and be re-examined at the end of the next session. Failure in either subject will entail liability to removal.

(*c*) Pupils who fail to attain the standard in three subjects will be removed from the College.

(3) *Pass* and *Test* examinations at the end of the—

3rd year.

(*a*) Pupils who fail to obtain 20 per cent. of marks in either or both of the *final* subjects for the third year (viz., Hygiene and Pathology) will lose 200 conduct marks, and be re-examined at the end of the next session.

(*b*) Pupils who do not obtain 10 per cent. of marks in any of the *test* examinations (the other subjects) will lose 200 conduct marks for idleness for each subject in which they so fail.

(4) *Pass* examinations at the end of the—

4th year.

(*a*) Pupils who obtain less than 20 per cent. of marks in all subjects of their final examination will be liable to removal from the College. Such pupils will, however, be allowed to remain for a further period (to be fixed by the Principal in each case) in the College to continue their studies *at their own expense.*

31. FEMALE CERTIFICATE CLASS.

Lady students must be over 17 years of age before commencing their studies.

They must have passed the Entrance examination of the Calcutta University or an examination officially recognized by that University as equivalent to the Entrance examination. (The certificate of matriculation of the Melbourne University will be accepted.)

New students are expected, at latest, to enter formally and commence attendance at the College when the session opens on 15th June.

The duration of the course will be four years.

Tuition will be free.

32. Students, preferably native ladies, may reside in the Sornomoye Hostel. Applications for residence must be made to the Lady Superintendent of the Hostel, or to the Secretary to the Countess of Dufferin Fund, Bengal Branch, and not to the Principal of the Medical College.

33. The following is the curriculum :—

1st year.

Anatomy.
Materia Medica.
Dissections.
Chemistry (30 elementary lectures).
Compounding (six months).
Test examinations in Anatomy, Materia Medica, and Chemistry.

2nd year.

Anatomy.
Physiology (elementary).
Materia Medica.
Chemistry (full course).
Dissections.
Attendance at six *post-mortem* examinations.
Hospital attendance (including outdoor departments)—twelve months.
Pass examinations in Anatomy, Materia Medica, and Chemistry.

3rd year.

Medicine and Clinical Medicine.
Surgery and Clinical Surgery
Medical Jurisprudence (demonstrations).
Midwifery (with attendance at three labour cases).
Pathology (with attendance at six *post-mortems*).
Physiology.
Hospital attendance (of which three months in the Opthalmic wards).
Pass examinations in Pathology, Physiology, and Medical Jurisprudence.

4th year.

Medicine and Clinical Medicine.
Surgery and Clinical surgery.
Midwifery (including six labour cases).
Hospital practice (of which six months in the Medical and Surgical wards *minus* 15 attendances at the Dental Dispensary; and six months exclusively in the Midwifery wards, when the students are to take regular turns of duty, night and day, assisting in the regular work of the hospital).
Dentistry (optional).
Pass examinations in Medicine, Surgery, and Midwifery.

Students who are successful are entitled to receive the certificate of the College qualifying them to practise Medicine, Surgery, and Midwifery. A fee of Rs. 10 is charged for each certificate.

34. The following rules will be observed in regulating advancement from class to class:—

(1) *Test examination at the end of the first year.*—If a student obtains less than 10 per cent. of the marks in any two out of three subjects of examination, she shall not be allowed to continue in the College.

(2) *Pass examinations at the end of the second and third years.*—In order to pass, a student must gain 33 per cent. in each subject of examination. If a student fails in any two of the three subjects, or failing in one subject only, if she gains less than 25 per cent. in that subject, she shall be put-back for one year. If she fails in one subject only, gaining 25 per cent. or more in that subject, she shall be promoted to the next class, but will be required to submit to re-examination in that subject in addition to the examination in the regular subjects, at the end of the following year. She will be permitted to attend lectures on the subject in which she has failed. Failure on re-examination will carry the same penalty as original failure.

(3) *Pass examination at the end of the fourth year.*—The same rules as apply to the previous pass examinations, with the exception that if a student, failing in one subject only, gains 25 per cent. in that subject, she will be referred back to her studies for a period of six months, at the expiration of which she will be entitled to re-examination, after furnishing proof of having attended hospital practice during that period.

MIDWIVES AND DAIS.

35. Women who have a fair knowledge of English, but who have not passed the Entrance or its equivalents, will be admitted into the Eden Hospital to learn Midwifery. The Government grants Rs. 20 per mensem towards the board, washing, &c., of each pupil, and gives them free quarters. After a year's tuition and bedside practice, if found proficient, they will obtain a certificate qualifying them to practise midwifery. The fee for each certificate is Rs. 5. They are expected to do general nursing in the wards as well as midwifery.

36. Women who have not passed the Entrance or its equivalents, but who can read and write Bengali, can be admitted into the Eden Hospital as pupil dais. The Government grants Rs. 6 each per mensem to eight pupils towards their board, washing, &c., and gives them free quarters. After 12 months' tuition and bedside practice, if found proficient, they will obtain a certificate qualifying them to practise midwifery. They are expected to do general nursing in the wards as well as midwifery.

37. Candidates (midwives and dais) should apply for admission to the Sister of the Eden Hospital.

BIHAR SCHOOL OF ENGINEERING.

Prospectus for Admission.

THIS School is under the management of the Principal of the Patna College, assisted by a Board of Visitors: it owes its origin to a fund raised by residents of Bihar to commemorate the visit to India of His Royal Highness the Prince of Wales. The object of the fund was the promotion of technical instruction in Bihar. The School was formally opened on 11th July 1896 by His Honour the Lieutenant-Governor of Bengal.

2. The number of students admitted to the first-year class of each year will be limited to 60, of whom only 15 can be other than Beharis by race (viz., natives of the North-Western Provinces, Central Provinces, or Bengalis domiciled in Bihar); but should the number of suitable applicants who are Biharis by race be insufficient to fill up the 45 vacancies, then the vacancies thus occurring can be given to those applicants who are natives of the North-Western Provinces, Central Provinces, or Bengalis domiciled in Bihar, in that order.

3. The School, as at present constituted, is chiefly engaged in training students for appoinment as Sub-Overseers and Overseers.

The curriculum includes—

(1) A sound study of Elementary Mathematics.
(2) Careful training in Survey work.
(3) Drawing, both Freehand and Engineering.
(4) Elements of road-making and the construction of simple buildings.
(5) Workshop practice with hand tools and with machinery.

Students are prepared for the Overseer certificate of the Public Works Department. The necessary additional buildings are in process of construction; and Government has

agreed to reserve one appointment annually for a qualified student from this School, who must be a Bihari by race.

4. The next session will commence on 2nd July 1900.

5. In the Overseer Department, which corresponds to the Apprentice Department of the Sibpur College, the monthly fee is Re. 1-8. All scholarship-holders, however, receive free tuition. Government scholarships of the value of Rs. 7 a month, tenable for one year, are awarded each year on the results of the annual examinations, *eight* being tenable in the second-year class, *six* in the third-year class, and *six* in the fourth-year class. Of the scholarships attached to the school, 75 per cent. of them are to be reserved for those students who are Biharis by race. The teaching is in English.

6. Candidates for admission to the Overseer Department must be under 20 years of age, must be Biharis by race or domicile, or natives of the North-Western Provinces or Central Provinces, and must have passed one of the tests mentioned below :—

(1) The Entrance Examination of an Indian University in English and Mathematics.
(2) Standard VII of the Code of European Schools.
(3) Students who have not passed either of these tests and who are otherwise eligible will have to pass an examination in English and Mathematics (of about the same standard as the Entrance Examination of the Calcutta University in these subjects) to be held by the Principal of the Patna College on the 6th and 7th July respectively (from 6 A.M. to 9 A.M. each day).

7. Candidates for admission must apply to the Principal not later than the 30th June. Their application must give the following particulars :—

(a) Name, address and occupation of father or guardian.
(b) Race and religion, and *evidence to show that he is either a Bihari or a native of the North-Western Provinces or Central Provinces or a domiciled Bengali.*
(c) A certificate of good moral character.
(d) An attested certificate of age (showing that he is under 20 years of age).
(e) A medical certificate showing him to be fit for employment in the public service.
(f) A certificate of having passed either of the first two of the three tests mentioned above, failing which the application will be kept pending till a certificate showing that the candidate has passed the third test is given to the Principal.

8. There is also an Amin class, admission to which may be obtained by students who do not know English. In the Amin class the course of study is for one year, and the monthly fee is Re. 1. An Amin student is taught Elementary Surveying with a corresponding amount of Mathematics and of Geometrical Drawing. He will not be admitted to the Workshop. A student in the first-year class of the Overseer Department, who fails to pass the examination for promotion to the second-year class, but who has shown an adequate knowledge of Elementary Surveying and the other subjects taught in the Amin class, may at his option leave the school with an Amin certificate.

9. Except in very special cases, a student will not be admitted to the Amin class for the session that commences 2nd July 1900, unless application for admission is made before 30th June 1900.

10. Every candidate for admission to the School must bring a certificate of good character from the Head of the Institution from which he has come.

11. All candidates for admission to the School should present themselves personally at the School on the 1st July.

FINANCE AND COMMERCE DEPARTMENT.

NOTIFICATION.

ACCOUNTS AND FINANCE.
PUBLIC DEBT.

No. 2666.

Simla, the 6th June, 1900.

THREE-AND-A-HALF PER CENT LOAN OF 1900-1.

His Excellency the Right Honourable the Governor General in Council has resolved to borrow three hundred lakhs of rupees for the public service in the following manner :

2. Promissory Notes will be issued for the said amount, bearing interest at the rate of *Three-and-a-half Per Centum Per Annum*, payable half-yearly on the 30th day of June and the 31st day of December. The notes will be in the form annexed to this Notification, and they will not be discharged before the 31st day of December 1920, nor until the expiration of three months after notice of payment to be published in the *Government Gazette.*

Tenders.

3. Tenders for the whole or any part of the said amount of Rs. 3,00,00,000 will be received by the Comptroller General from this date to noon of Wednesday, the 4th July next. Tenders must be for sums of 100 Rupees or 500 Rupees or multiples of those sums.

4. Each tender must be addressed, in the form annexed to this Notification, to the Comptroller General, Calcutta, and enclosed in a closed cover, superscribed "*Tender for the Three-and-a-half Per Cent Loan.*" If the tenderer is not resident in India, he

must name an agent resident in India to whom an allotment-certificate may be issued, if any part of the loan is allotted to such tenderer.

NOTE.—Tenders made in accordance with these instructions will also be received by the Accountants General at Madras, Bombay, Allahabad, and Lahore, on account of the Comptroller General, Calcutta, on the 3rd July and up to the local time corresponding to 12 o'clock in Calcutta on the 4th July; provided that—

(a) they are delivered personally or by clerk or messenger at the Accountant General's Office (where a receipt will be given for them);

(b) they are made on printed forms, to be obtained at the same office or at the local Presidency Bank;

(c) each tender is for not less than Rs. 10,000;

(d) the deposit is either a promissory note or a Treasury Receipt from the local office of the Presidency Bank, or a cheque on a local Bank in favour of the Accountant General;

(e) the amount of the tender is made payable either in Calcutta, Madras, Bombay, Allahabad, or Lahore;

and the Accountant General will return deposits on non-accepted tenders, and will issue allotment-certificates so far as the tenders are payable in Madras, Bombay, Allahabad, or Lahore.

5. The rate at which each tender is made must be specified in rupees or rupees and annas: a tender in which no rate is thus specified, but a subscription is offered in some other terms—as, for example, at the recorded minimum, or at some specified percentage in addition to the recorded minimum, or at the average of the accepted tenders—will be rejected as null and void.

6. The rate at which a tender is made must not contain a fraction of an anna: if a rate containing a fraction of an anna is inserted in any tender, such fraction will be struck out and the tender treated as if the rate did not contain such fraction of an anna.

Deposits.

7. Each tender must be accompanied by a deposit of not less than one-hundredth, or, if the tender be for less than five lakhs of rupees, then for not less than one-fiftieth part of the tender. The deposit must be in one of the following forms: (*a*) a receipt for the amount from the Head Office of the Bank of Bengal, or Madras, or Bombay, or one of their Branches, or from an officer in charge of some Public Treasury, or (*b*) a cheque drawn in favour of the Comptroller General on a Bank in Calcutta, Madras, Bombay, Allahabad, or Lahore, or (*c*) Government Promissory Notes[1] standing in the name of, or endorsed to, the tenderer or the person making the deposit.

[1] *It is particularly requested that such Promissory Notes may NOT be endorsed to the Comptroller General.*

8. (*a*) Deposits, not being promissory notes, will, in the case of accepted tenders, be credited proportionately in part payment of the allotment-certificates issued in respect of the tender, and will bear interest for the purpose of clause 16 below from the date of the opening of tenders. When a tender is not accepted in full, the deposits, when they are not in the form of promissory notes, will be credited as far as possible proportionately in even tens of rupees in part payment of the allotment-certificates issued in respect of it. If any allotment-certificate is not fully taken up, the deposit credited in respect of it will be forfeited.

(*b*) Promissory notes deposited in respect of any accepted tender will be held until all the allotment-certificates issued in respect of the tender are paid up, and will, if the allotment-certificates are not fully taken up, be appropriated by the Government and cancelled.

Opening of Tenders.

9. The Governor-General in Council reserves the right to declare, on or before the 27th June, the minimum rate at which tenders will be accepted. If not so declared, the said minimum rate will be recorded under the signature of the Comptroller General, and, before the tenders are opened, placed upon the table in a sealed envelope, but will not be declared unless some tender is rejected only because it is below the recorded minimum.

10. Tenders will be opened publicly by the Comptroller General at the Treasury Buildings, Calcutta, at noon (Calcutta time), on Wednesday, the 4th July next, and those received under the terms of the note under clause 4 will be similarly opened by the Accountants General at Madras, Bombay, Allahabad, and Lahore at the local time corresponding to noon, Calcutta time, on the same day; but the contents of the tenders will not be disclosed otherwise than as provided in clause 12.

11. Tenders at rates not below the minimum rate will be accepted in the order of the rates tendered, beginning with the highest rate. The amount allotted at the

lowest rate at which tenders are accepted will be divided amongst those who have tendered at this rate in proportion, as nearly as may be found convenient, to the amounts of their tenders; provided that no allotment will be issued if the amount distributable on any tender is less than Rs. 100: preference will however be given to small tenders, not exceeding Rs. 2,000, at the lowest rate, such tenders receiving allotments in full as far as possible.

Allotment-Certificates.

12. To each tenderer (or to his agent) whose tender is accepted in whole or in part such number of allotment-certificates as may be necessary to make up the aggregate amount allotted to him will be issued by the Comptroller General[1] as soon as possible after the 4th July; and an alphabetical list of the names of those to whom such allotment-certificates are issued will be posted for general information at the Head Offices of the Banks of Bengal, Madras and Bombay.

[1] For tenders received by the Accountant General at Madras, Bombay, Allahabad, or Lahore, and payable at those places, the Accountant General will issue the allotment-certificates.

13. If the allotment made on any tender is less than Rs. 3,000, then the whole of the allotment-certificates (after credit of the deposit under clause 8 (*a*) will be made payable upon the 20th August.

Otherwise the whole amount of each allotment will be divided into three instalments as follows:

Instalment I.—As near as convenient to 35 per cent, but not exceeding 35 per cent, payable upon the 20th July:

Instalment II.—As near as convenient to 35 per cent, but not exceeding 35 per cent, payable upon the 20th August:

Instalment III.—The balance payable upon the 12th September:

and allotment-certificates will be issued for each instalment separately.

But the whole or any part of any accepted tender may be paid at any time after receipt of the allotment-certificates.

The words "as near as convenient" refer to the necessity for making each instalment an exact multiple of Rs. 100.

14. Any allotment-certificate will, on application to the Comptroller General, be exchanged for an equivalent amount of allotment-certificates of smaller denominations; provided that if any payment (beyond the deposit) is recorded upon the cancelled certificate, it can be taken against, and recorded upon, only one of the certificates issued in exchange.

15. Payment of any allotment-certificate may be made to the account of the Government in the Head Office of the Bank of Bengal or Madras or Bombay, or in any Branch of these Banks, or into any Public Treasury or Treasuries in India which may be named in the tender in respect of which it was issued. Receipts for such payments will be given by the banks of Bengal, Madras, and Bombay, or their Branches, or by the officers in charge of the Government Treasuries at which payment is made, by enfacement upon the relative certificate.

Issue of Promissory Notes.

16. (*a*) When any allotment-certificate is fully paid up, the holder will, on presenting it duly receipted at the place where it was paid, obtain from the Public Debt Office, Calcutta, promissory notes of such values as he may desire (each note being in even hundreds and not less than Rs. 100), bearing interest from 31st December 1900, and he will also receive interest at $3\frac{1}{2}$ per cent per annum from the dates on which he may have made payment till the 30th of December 1900.

(*b*) Or he may, at his option, by paying interest at the said rate from 30th June 1900 to the dates on which he may have made payment, obtain promissory notes as above, bearing interest from 30th June 1900.

FORM OF PROMISSORY NOTE (see Clause 2).

Fort William, the

Promissory Note *Government Rupees* *at 3½ per cent.*

No. *of 1900-1.*

The Governor General of India in Council does hereby acknowledge to have received from
the sum of Government Rupees One Hundred only as a loan to the Secretary of State in Council for India, and does hereby promise, for and on behalf of the said Secretary of State in Council, to repay the said loan, by paying the said sum of Government Rupees One Hundred only to the said
his Executors, or Administrators, or his or their Order, on demand, at the General Treasury, at Fort William, after the expiration of Three Months' Notice of Payment, to be given by the Governor General of India in Council, in the *Government Gazette*, and to pay the interest accruing on the said sum of Government Rupees One Hundred only from the
at the rate of three-and-a-half per cent per annum, by half-yearly payments, at the General Treasury at Fort William, to the said , his Executors, or Administrators, or his or their Order, until the expiration of three months after such notice of payment as aforesaid, when the amount of interest due will be payable with the principal, and (such notice being considered as equivalent to a tender of payment at the period appointed for the discharge of this note) all further interest shall cease.

The Governor General in Council hereby further engages that Notice of Payment as aforesaid shall not be given before the Thirtieth day of September 1920, and that this Note shall not be discharged before the Thirty-first day of December 1920.

FORM OF TENDER (see Clause 4).

I, *A. B.*, hereby tender for Rupees (*X*) of *The Three-and-a-half Per Cent Loan* advertised in the Notification published in the *Gazette of India, Extraordinary*, dated the 6th June 1900, and agree to pay for the same, subject to the conditions notified, at the rate of Rupees (*Y*) Annas (*Z*) for every hundred rupees allotted to me.

I enclose a *deposit receipt* *.for Rupees (*XX*), and engage, if my offer be accepted, to pay to the account of the Government at the *Bank of* † (*or at the* † *Branch of the Bank of* † *; or into the Public Treasury at* † *as the case may be*)—

* Or Cheque or Government Promissory Note.
† Here enter the name of Bank, Branch Bank or Treasury.

The first instalment, as near as convenient to 35 per cent, but not exceeding 35 per cent, on or before 20th July 1900.

The second instalment, as near as convenient to 35 per cent, but not exceeding 35 per cent, on or before 20th August 1900.

The balance on or before 12th September 1900.

Or, if the amount allotted to me be less than Rs. 3,000, then the whole amount on or before 20th August 1900.

Any allotment made to me may be communicated to *C.D.* at ‡

‡ Here insert *C.D.'s* address which must be in India. This paragraph should only be inserted if *A.B.* does not reside in India, or, if residing in India, he wishes the allotment communicated to an agent, or desires to pay the instalments elsewhere than at the place where the tender is submitted, and wishes the allotment-certificates to be given to an agent at that place.

NOTE—(1) *A separate tender must be made at each rate tendered. The rate tendered should be the whole amount per centum, not the premium or discount ; thus "One hundred and two" or "One hundred" or "Ninety-nine"; not "Two per cent. premium" or "Par" or "One per cent. discount."*

By order of the Governor General in Council,

J. F. FINLAY,

Secretary to the Government of India.

NOTIFICATION BY THE COMPTROLLER GENERAL.

The Comptroller General requests the attention of tenderers to the following arrangements:

Filling up tenders.

(1) They are requested to use only the printed forms of tender, which will be available at his Office and at the Currency Office on application to the Darwan on duty, at all the Provincial Account Offices, and at the Banks of Bengal, Madras, and Bombay, and will also be supplied to the Principal Treasuries.

(2) If the deposit is in the form of Promissory Notes, or of Currency Notes, their number should be quoted in detail in the tender.

Presentation of Tenders.

(3) For all tenders presented to him in his office upon the last fixed day, or the two days preceding it, he will give the bearer a receipt bearing a number and initialled by himself or an assistant specially deputed for the purpose. The Accountants General at Madras, Bombay, Allahabad and Lahore will do likewise in respect of tenders presented to them under the note to clause 4 of the Government Notification.

Return of Deposit in case of Non-acceptance.

(4) The reverse of this receipt is a form in which, in the event of the tender not being accepted, the tenderer may give to the Comptroller General or Accountant General a receipt for the deposit accompanying it. This form should on the third day after the opening of the tenders be filled up, signed with the same signature as the tender, and be presented at the Office of the Comptroller General or Accountant General. The deposit will then be returned to the bearer in exchange for the receipt.

(5) Deposit upon tenders presented personally, as described in No. (3) above, will be returned only in this way, and will not be sent by post or otherwise. Deposits upon other unsuccessful tenders will be returned by post or by the hands of a clerk.

Accepted Tenders.

(6) The Comptroller General and the Accountant General at Madras, Bombay, Allahabad, or Lahore (in the case of tenders received by such Accountant General and payable in Madras, Bombay, Allahabad, or Lahore), will issue allotment certificates to successful tenderers. These certificates will be for the following amounts :—Rs. 100, Rs. 300, Rs. 500, Rs. 1,000, Rs. 2,000, Rs. 5,000, Rs. 10,000, Rs. 20,000, Rs. 50,000, Rs. 1,00,000, making up the full value accepted; and the deposit on the tender will be divided among them; they will be substantially of the following form:

This is to certify that, in accordance with the terms of Notification No. 2666, dated 6th June 1900 (Gazette of India, Extraordinary, *dated 6th June 1900*), *the abovenamed tenderer has engaged to take up Rs. 2,000 of the 3½ Per Cent. Loan of 1900-1, at the rate abovementioned on or before ; and that on the said payment being completed, he is entitled on endorsing and delivering up this certificate to receive a promissory note or notes of the Government of India for Rs. 2,000 bearing interest from*

Midnapore Collectorate, Arrear Collection Department, the 16th May 1900. H. F. SAMMAN, Offg. Collector.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in conditions of sale below, to the undermentioned estate situate in the district of Nadia will be put up to sale at the Nadia Collectorate on Wednesday, the 27th June 1900, corresponding with 13th Ashar 1307 B.S.

The purchaser will be subject to the following conditions of sale:—

Conditions of Sale.

1st.—The estate to be sold to the highest bidder above the upset price, which will be fixed by the Collector at the time of sale. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him subject to the revenue fixed in perpetuity.

2nd.—The sale to be subject to the existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or, if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

The Indian Law Reports.

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1889 the terms of subscription and sale will be as follows for current issues as well as for back numbers of the reports from 1876:—

Alteration in sectors of lights.

THE British Admiralty has given notice (No. 263 of 1900) that the following alterations would be made in the arcs of the undermentioned lights on 15th March 1900:—

1. KAMIMATE JIMA LIGHT will exhibit in future a *fixed red sector* between the bearings S. 50° W. and S. 56° W. (6°) over Osone reef.

   Approximate position, lat. 32° 15′ 50″ N., long. 130° 8′ 50″ E.

   (*Variation 4° Westerly in 1900.*)

2. TOBASESHIMA LIGHT will exhibit a *fixed red sector* between the bearings S. 60° E. and S. 22° E. (38°) over Amitori shoal.

   Approximate position, lat. 32° 34′ 35″ N., long. 130° 29′ 0″ E.

   (*Variation 4° Westerly in 1900.*)

3. KOSAKI (KOO SAKI) LIGHT.—The *fixed red sector* shown from this light has been extended to show between the bearings of East and S. 63° E. (27°) over Tsuzusaki sunken rock and Komatsu shoal.

   Approximate position, lat 34° 5′ 15″ N., long. 129° 12′ 15″ E.

   (*Variation 4° Westerly in 1900.*)

4. SAKIBARU LIGHT, LIU KIU ISLANDS.—The *flashing green sector* shown from this light has been extended to show between the bearings of S. 10° E. and S. 29° W. (39°) over Monnanse, Kannose, and Inannsonega dangers.

   Approximate position, lat. 26° 12′ 25″ N., long. 127° 39° 40″ E.

INDIAN OCEAN—MALDIVE ISLANDS.

Malé approach—Amended particulars of sandbanks, &c.

THE British Admiralty has given notice (No. 214 of 1900) that information, dated 3rd March 1900, has been received from Captain J. G. M. Field, H.M.S. *Marathon*, respecting the descriptions of certain sandbanks in the approach to Malé:—

1. The sandbank to the north-westward of Fureenahfurhi has no bushes or any kind of vegetation on it; it is very small, and composed of white sand, which shows up well in the sun; it is only about one foot above high water, and has an encircling reef.

Approximate position, lat. 4° 15′ 30″ N., long. 73° 30′ 30″ E.

2. The shoal in approximately lat. 4° 13′ 15″ N., long. 73° 28′ 15″ E., is a small but densely wooded island.
3. The island in approximately lat. 4° 12′ N., long. 73° 28′ 30″ E., is not an island, but forms part of the reef, which is a complete circle entirely submerged.

AFRICA, EAST COAST—Pungue river entrance.

Buoyage, channels, &c.

The British Admiralty has given notice (No. 216 of 1900) that the following information respecting the buoyage and channels, Pungue river entrance, is derived from a report, dated 24th February 1900, received from Captain W. S. Rees, H.M S. *Thetis* :—

No. 5 buoy. This buoy was found to be then situated with the south extreme of Massique point bearing N. 29° W., distant 2¼ miles, and point Jea tower N. 45° E.

Approximate position, lat. 19° 55′ 30″ S., long. 34° 49′ 0″ E.

The Captain of the port of Beira has also given information, dated 10th February 1900 that on 1st June 1900 the buoyage will be changed to a uniform system as follows :—

Buoys on the starboard side of the channel in entering will be coloured *red*, and numbered from seaward Nos. 2, 6, 8 ; buoys on the port side of the channel will be *black*, and numbered Nos. 1, 3, 4, 5, and 9. The colour only, not the shape or topmark, is the distinctive characteristic showing on which side the buoy should be passed.

In February 1900, there were, after passing No. 6 buoy, two navigable channels to the anchorage, the western of the two passing close to Massique point and the coast to the northward being the deeper and more intricate. The eastern channel which lies between Nos. 5 and 7 buoys was, however, the one generally used. In it the depth is about 20 feet at high water. The note on the Chart has, therefore, been amended.

Caution.—As the banks are liable to change, local knowledge is necessary before attempting to enter.

General Summary.—The rainfall during the week was generally light, but in parts of East Bengal it was rather heavy. More rain is, however, badly wanted for cultivation in Birbhum, Khulna, Dinajpur, Jalpaiguri, Bogra, Pabna, Mymensingh, Faridpur, Tippera, Saran, Champaran, Bhagalpur, and Hazaribagh. The ploughing of land and the sowing of *aus* and *aman* paddy still continue. The weeding of *aus* and jute is going on. Sugarcane is generally doing well, but it is being withered in Patna owing to intense heat. The prospects of *til* and mulberry are said to be good in Murshidabad. Fodder is generally sufficient except in the Chuadanga subdivision of Nadia and in one thana in the Sadar subdivision of Murshidabad. Scarcity of water is reported from Angul, the Chuadanga subdivision of Nadia, and the Magura subdivision of Jessore. Cases of cattle-disease are still reported from some districts. The price of common rice has risen in 17 districts, fallen in 7, and is stationary in the rest. Famine has been declared in thanas Karra, Toto and Bishunpur of the district of Ranchi. Test-works are opened in 58 places in Ranchi. Number at work in Ranchi on the last day for which returns are available—men 3,230, women 2,060, children 1,312; total 6,602. The average daily attendance in Palamau on relief-works—men 151, women 97, children 59 (total 307); convalescent gang—men 46, women 99, children 15 (total 160); test-works—men 187, women 219, children 98 (total 504).

By order of the Lieutenant-Governor of Bengal,

F. A. SLACKE,

Offg. Secretary to the Govt. of Bengal.

The results of observations at the Alipore Observatory are not rigorously comparable with the registers of past years (at the Park Street Observatory). The barometer is about 3 feet higher at Alipore, and, other things being equal, reads therefore ·003 lower. The diurnal range of temperature is also greater at Alipore, and the mean temperature apparently about 0·5 higher; and finally, the thermometer which furnished the record of temperature at the Surveyor-General's Office during 20 years and upwards is found to read 0·6 higher than the Kew Standard thermometer, which is the standard of reference at the present Observatory.

* The anemograph under repair.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h., 10h., 16h., and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The mouth of the rain-gauge is one foot above the ground.

N.B.—In the column "Miles recorded" the movement of wind from 8 A.M. of the day for which it is shown to 8 A.M. of the following day is given.

NOTIFICATION—No. 1164J.—D.

The 4th June 1900.—The following draft Rules (12, 12A, 13 and 32), which it is proposed to insert in place of the existing Rules 12, 13 and 32 of the Rules for the manufacture, possession, and sale of explosives, published with the Notification of this Government, No. 4971J., dated the 23rd October 1897, as well as the draft amendment of Condition 5 of the Form E attached to the aforesaid Rules, are published as required by section 18 of the Indian Explosives Act (IV of 1884), and the Government of India, Home Department Notification No. 1964, dated the 2nd September 1887, for the information of persons likely to be affected thereby, and notice is hereby given that the drafts will be taken into consideration by the Lieutenant-Governor after the 2nd day of August 1900. Any objection or suggestion which may be received from any person with respect to the drafts before that date will be considered by the Lieutenant-Governor:—

Draft Rules.

12. Licenses to manufacture explosives other than those referred to in Rule VIII shall be granted by the Governor-General in Council on payment of such fees, in such form, and subject to such conditions as the Governor-General in Council may in each case prescribe.

12A. The Local Government may, from time to time, renew, on payment of the original fee and on the same or on altered conditions, any license for the manufacture of explosives granted by the Governor-General in Council:

Provided, first, that such renewal does not admit of the manufacture of any explosive other than that specified in the original license,

Provided, secondly, that every such renewal is first approved by an Inspector of Explosives, and

Provided, thirdly, that every such renewal is for a period not exceeding one year.

13. Whoever commits a breach of any condition subject to which a license is granted under Rule 12 or renewed under Rule 12A shall be punishable with fine which may extend to three thousand rupees.

32. All licenses, by whomsoever granted or renewed, shall expire on the 31st December of the year for which they are granted; but, subject to the provisions of Rule 12A in the case of licenses granted under Rule 12, the currency of a license may, unless the circumstances have so changed that the grant of a new license would either not be authorised under the Act and Rules, or is deemed objectionable by the licensing authorities, on application previous to its expiration, be renewed on payment of the original fee.

Draft amendment of Condition 5 of Form E.

The magazine shall have attached thereto a sufficient lightning-conductor which shall be tested at least once during the currency of a license.

BIHAR SCHOOL OF ENGINEERING.

Prospectus for Admission.

THIS School is under the management of the Principal of the Patna College, assisted by a Board of Visitors: it owes its origin to a fund raised by residents of Bihar to commemorate the visit to India of His Royal Highness the Prince of Wales. The object of the fund was the promotion of technical instruction in Bihar. The School was formally opened on 11th July 1896 by His Honour the Lieutenant-Governor of Bengal.

2. The number of students admitted to the first-year class of each year will be limited to 60, of whom only 15 can be other than Beharis by race (viz., natives of the North-Western Provinces, Central Provinces, or Bengalis domiciled in Bihar); but should the number of suitable applicants who are Biharis by race be insufficient to fill up the 45 vacancies, then the vacancies thus occurring can be given to those applicants who are natives of the North-Western Provinces, Central Provinces, or Bengalis domiciled in Bihar, in that order.

3. The School, as at present constituted, is chiefly engaged in training students for appointment as Sub-Overseers and Overseers.

The curriculum includes—

(1) A sound study of Elementary Mathematics.
(2) Careful training in Survey work.
(3) Drawing, both Freehand and Engineering.
(4) Elements of road-making and the construction of simple buildings.
(5) Workshop practice with hand tools and with machinery.

Students are prepared for the Overseer certificate of the Public Works Department. The necessary additional buildings are in process of construction; and Government has agreed to reserve one appointment annually for a qualified student from this School, who must be a Bihari by race.

4. The next session will commence on 2nd July 1900.

5. In the Overseer Department, which corresponds to the Apprentice Department of the Sibpur College, the monthly fee is Re. 1-8. All scholarship-holders, however, receive free tuition. Government scholarships of the value of Rs. 7 a month, tenable for one year, are awarded each year on the results of the annual examinations, *eight* being tenable in the second-year class, *six* in the third-year class, and *six* in the fourth-year class. Of the scholarships attached to the school, 75 per cent. of them are to be reserved for those students who are Biharis by race. The teaching is in English.

6. Candidates for admission to the Overseer Department must be under 20 years of age, must be Biharis by race or domicile, or natives of the North-Western Provinces or Central Provinces, and must have passed one of the tests mentioned below:—

(1) The Entrance Examination of an Indian University in English and Mathematics.
(2) Standard VII of the Code of European Schools.
(3) Students who have not passed either of these tests and who are otherwise eligible will have to pass an examination in English and Mathematics (of about the same standard as the Entrance Examination of the Calcutta University in those subjects) to be held by the Principal of the Patna College on the 6th and 7th July respectively (from 6 A.M. to 9 A.M. each day).

7. Candidates for admission must apply to the Principal not later than the 30th June. Their application must give the following particulars:—

(a) Name, address and occupation of father or guardian.
(b) Race and religion, and *evidence to show that he is either a Bihari or a native of the North-Western Provinces or Central Provinces or a domiciled Bengali.*
(c) A certificate of good moral character.

CIVIL ENGINEERING COLLEGE, SIBPUR.

AGRICULTURAL DEPARTMENT.

Session 1900-1901,

UPPER CLASS.

FOR admission to this class, an applicant must have one of the following qualifications:—

(i) He must have passed the F.E. examination of the Calcutta University and be under 23 years of age, but no student will be allowed to join the Agricultural class after the expiration of five years from admission into the Engineering College.

(*ii*) He must have passed the B.A. examination of the Calcutta University by the B Course, or possess other sufficient educational qualifications, be under 23 years of age, and in addition have received a nomination from the Bengal Government.

(*iii*) He must have had a general education qualifying him to follow the instruction in the Upper Agricultural class, and must also receive a nomination from Government for admission as a special student. To be eligible for a nomination under this rule, a candidate must either have landed property of his own, or be recommended by some influential landholder who desires to train him to take part in the management of his estate, or he must otherwise satisfy Government that he intends to make practical use of his agricultural training. Students entering under this rule will be termed Special Agricultural students. They will not be subject to any maximum limit of age, but will not be entitled to the privileges conferred on the passed students under rules 11 and 12, even though they should obtain fully signed diplomas in due course after passing the necessary examinations.

Every candidate for admission to this Department must apply in writing to the Principal not later than the 14th July. The form of application is given in Appendix A. In the event of the form not being properly filled up and accompanied by the necessary certificates, no notice will be taken of the application.

The number to be nominated each year will depend on the accommodation available.

Every applicant, not already a student of the College, must undergo a medical examination by the College Surgeon before admission to this Department. If this officer's report is unsatisfactory, the applicant will not be admitted.

The session begins on the 5th November. The course of instruction in the Upper Agricultural class will extend over two years.

Senior scholarships held by students when passing the F.E. examination are tenable in the Agricultural Department.

One graduate scholarship of Rs. 30 a month, tenable for one year, will be awarded on the result of the examination held at the end of the first academic year.

Two appointments annually are assigned to students holding a fully signed diploma: one in the Provincial Executive Service and one in the Subordinate Executive Service. The right of selection for this appointment will rest with Government, and the students who gained the highest marks at the examination for diplomas will not necessarily be selected.

Holders of fully signed Agricultural diplomas, who do not get the guaranteed appointments referred to in rule 11, but who wish to compete for the examination for admission to the Provincial, Subordinate Executive and Opium Services, may submit their names through the Principal to Government for nominations. These applications for nominations will be considered, provided the applicants appear to His Honour the Lieutenant-Governor to be otherwise suitable for admission to these services.

Each student in the Upper Agricultural Department will be required to pay an admission fee of Rs. 10.

F.E.'s who elect to join the Agricultural Department immediately after passing the F.E. examination are exempted from the payment of this fee, as their names are already borne on the College books.

For the present no tuition fees will be charged to students in the Agricultural Department, except in the case of those joining as special students under rule 3 (*iii*). The tuition fees for these students will be Rs. 8 a month.

Nominations.

Applicants for admission who require nominations under rule 3 (*ii*) and (*iii*) will apply for nominations through the Principal. The form of application for nomination is given in Appendix C.

Further particulars will be supplied on application to the Principal.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in conditions of sale below, to the undermentioned estate situate in the district of Nadia will be put up to sale at the Nadia Collectorate on Wednesday, the 27th June 1900, corresponding with 13th Ashar 1307 B.S.

The purchaser will be subject to the following conditions of sale:—

Conditions of Sale.

1st.—The estate to be sold to the highest bidder above the upset price, which will be fixed by the Collector at the time of sale. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him subject to the revenue fixed in perpetuity.

2nd.—The sale to be subject to the existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or, if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

Approach to Port Adelaide.

WITH reference to Notice to Mariners No. 177, dated 16th September 1899, issued by this office, the President, Marine Board, Port Adelaide, has given further notice (No. 2 of 1900) informing Masters of vessels and others that the erection of the new Lighthouse on Wonga Shoal, Port Adelaide, will be commenced at an early date, and that during the continuance of the work a temporary riding light will be exhibited between sunset and sunrise from the works in progress on that shoal. It is expected that the new Lighthouse will be completed about January 1901.

For a period of about one month before the new light is exhibited from Wonga Shoal, the existing Port Adelaide illuminating apparatus will be removed from its present position at the entrance to the River. During its transfer to the Wonga Shoal Tower a Light of the third order, revolving every thirty seconds (as at present), visible for about fifteen (15) miles, will be exhibited from a temporary tower erected on the position now occupied by the Port Adelaide Lighthouse.

Further notices as to the precise dates of exhibition of the Riding Light at Wonga Shoal, the removal of the existing Port Adelaide Light, the exhibition of the temporary light in lieu thereof, and the first exhibition of the permanent light on Wonga Shoal, will be given in due course.

NOTE.—*This affects Admiralty Plans Nos. 1750 and 1752.*

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE MONTH OF MAY 1900.

THE chief features of weather in Bengal during May were (1) the almost continual high pressure over the northern districts and to a smaller extent over Lower Bengal; (2) the frequent occurrence of showery weather in all parts of the Province, with the exception of Bihar, where it was less frequent; (3) the relatively low temperature due to the frequent occurrence of local storms—a peculiarity which was most noticeable in the south-western districts, where in May it is usually dry with high temperature.

Any divergence from normal conditions in May is usually due, as in the earlier months of the hot season, to shallow depressions, which move slowly over the Province either from west to east, or the reverse. In the early months of the year such depressions invariably move from west to east, and are no doubt connected with the prevailing westerly air current; but towards the south-west monsoon season it becomes more common for such depressions to move from east to west, accompanied or followed by the showery weather which by that time has become a permanent feature in the eastern districts.

Occasionally as in May 1899 cyclonic storms commence over the Bay, and, moving northwards over the Province, cause for several days at a time south-west monsoon weather, or, as more frequently happens, cyclonic storms of small extent originate in the Andaman Sea and move north-eastward into Burma. Of the former class there was no case in the month just past; and of the latter only a very small disturbance, which moved from the Andaman Sea into the Gulf of Martaban on the 5th, and thence into Burma, where it caused general rain. As will be seen later, it was probably the cause of disturbed weather accompanying a shallow depression which entered the Province from Assam about the 7th and 8th and followed the usual westerly course over the Province.

The numerous showers were, no doubt, due to the frequent oscillations of pressure, and it may be noted that they were most frequent when pressure was above the normal; whereas the period when rainfall was least common was on the only occasion when pressure was low over the Province, and a steeper pressure gradient than usual obtained over the Bay. A possible explanation of this peculiarity may be that the high pressure in the north caused a displacement of the air more towards the west than usual, and the rainfall which would otherwise have occurred in the eastern districts was diffused over the central and western districts. This contention receives support from the peculiar distribution of the rainfall for the month as a whole. It was deficient in both the eastern and western districts, and in fact over almost the whole Province, but over a comparatively narrow belt running north and south from the north-west angle of the Bay towards North Bengal it was considerably in excess, as if the heavier rainfall of May in the eastern districts had been displaced westward to the loss of those eastern districts.

Though rainfall was of so frequent occurrence throughout the month, and the number of rainy days was in excess of the average, the circumstance that the total rainfall for the month was below the normal is accounted for by the fact that no cyclonic storm visited Bengal—not an uncommon occurrence towards the end of the month in other years. At such times heavy continuous rain falls, it may be for several days at a time; and the normal falls for May are thereby largely increased above what they would be if, as in the present year, only thunder showers fell.

Of the shallow depressions which can be traced in the somewhat confusing but frequent pressure oscillations, two appeared to pass westward—one at the end of the first week, the other towards the end of the month; and a third from west to east about the middle of the month. The local storms with rain at other times were probably due to the moderately large pressure oscillations and the shifting winds which accompanied them.

At the beginning of the month the peculiarity noticed above in the pressure distribution was well marked. Barometric readings were more than ·1 inch above the normal in North Bengal and Assam. From there excess diminished towards the south of the Bay, and the gradient was less steep than usual, except over the north of the Province. Easterly or north-easterly winds prevailed, except in Chota Nagpur and Orissa, and temperature was below the normal, except in Bihar. During the early days pressure fell somewhat, and the high temperature extended to North Bengal, but there was little change till the 5th, when the small cyclonic storm moved from the Andaman Sea into Burma. On that date a general fall of pressure occurred over the north of the Bay and in Bengal, the fall at inland stations being greatest in the west of Bihar. Along with this fall numerous showers fell, and temperature was as much as 5° below the normal in the central districts.

Considerable changes of pressure and temperature took place on the 6th, with the result that the general atmospheric conditions appeared to have become normal in very respect, but on the 7th a slight fall of pressure began in North Bengal and Assam, and a shallow

depression moving westward across the Province caused general rainfall on that and scattered showers on subsequent days. As it moved rapidly westward, it appears to be not improbable that this was the after-effect of the small cyclonic storm which had entered Burma on the 5th, and, passing over the Assam hills, was diverted westward with the general air current due to the Himalayan range.

A rapid increase of pressure followed on the 9th, and an exceptionally steep gradient was shown over Assam, and probably Burma, which supports the probability that the slight disturbance had passed over that area, and was connected with the cyclonic storm from the Bay.

During the week following, that is up to the 16th, pressure remained high over the Province, and after the rainfall caused by the previous slight disturbance ceased, comparatively dry weather prevailed, at first with low temperature in the west, which gradually disappeared.

On the 15th pressure began to fall, and the change became more rapid on the 16th. There was the appearance of a slight depression passing eastward and filling up on the 17th. To whatever cause it was due, general rain fell over almost the whole Province about that time, and showers continued, though daily becoming more scattered till the 20th, when they were confined to North Bengal and part of East Bengal. The rainfall caused a general reduction of temperature most marked in the west of the Province.

The high pressure which had been so important a feature of the atmospheric condition up to the 20th began to give way briskly on that date. The change continued with but little variation for several days, and from being in large excess, pressure became relatively low in the north of the Province. It was still high in the south of the Bay, so that the gradient was steeper than usual and much steeper than it had been at any other time during the month. Winds strengthened considerably at the head of the Bay, and the westerly winds in the western districts extended as far as Central Bengal Fine dry weather then prevailed with high temperature and an almost entire absence of rainfall.

About the 23rd or 24th a change commenced in Assam. Pressure began to rise, and with the rise of pressure more or less heavy rainfall became general in the east. The change spread westward and southward over the Province, a rapid fall of temperature accompanying the rainfall. On the 25th a marked contrast was shown in the temperature conditions in the east and west. In Assam and the adjacent part of Bengal temperature was 5° to 8° below the normal, while in Chota Nagpur and Orissa it was as much above On the 26th these large variations from the normal had to a large extent disappeared, temperature having risen in Assam and fallen in Chota Nagpur and Orissa, to which the rainfall area had extended.

During the remaining days of the month a fall of pressure, which began in Assam, was passing slowly westward over the Province; and as the change progressed, showers continued in most districts, though not of daily occurrence.

Pressure as shown above was, except for a few days at the beginning of the fourth week, almost without interruption above the normal, and at times by rather large amounts.

The greatest excess was ·2 inch in the extreme north. As there was no low pressure to neutralise this large excess, the means for the month are above the normal over the whole area, including the Province and the Bay, by amounts varying from ·08 inch in the northern districts to ·04 inch in the south of Burma. In consequence of the high pressure in the north the gradient on an average for the month was not so steep as usual, and comparatively calm weather obtained.

Temperature at times varied largely from the normal, the variation being generally largest in the west of the province, though on one occasion referred to above excess was large in the west and defect large in the east. Because of that reversal the means for the month do not show any great variation from the normal.

For maximum readings the mean difference from the normal varies from excess of 2° in the east to defect of about 1° in the west. In minimum readings defect of 1° or 2° is general, except in Bihar, where there is a small excess.

The average variations from the normal in the large divisions of the Province were small, except in Chota Nagpur and South-West Bengal, where there was defect of 1°, and in North Bengal, where there was excess of less than 1°.

Rainfall was more general than usual in the central and western districts; but as the falls were due to local storms and were rarely heavy, the total fall for the month is on an average for the divisions everywhere below the normal. The defect in East Bengal is 3·85 inches, in North Bengal 2 inches, and in the others half an inch or a little more. The only districts in which rainfall was in excess of the normal form roughly a narrow belt of country running north from the north-west angle of the Bay to the east of Nepal and the Darjeeling Hills. The excess in these districts is generally about 1 inch. To the west of this area a

small defect is generally shown, while towards the east defect increases rapidly, and is about 6 inches in the extreme eastern districts.

The heaviest actual falls vary from 10 to 15 inches in Cooch Behar and Jalpaiguri. Over a great part of North Bengal, the eastern fringe of East Bengal and in South-West Bengal falls were generally between 5 and 7 inches. In the central districts they were between 2 and 4 inches and further west between 1 and 3 inches.

The following table gives full data for comparison of the actual and normal rainfall of the month of May for all districts of the province. The figures are derived from the average and actual rainfall of the rain-reporting stations in each district, due allowance being made for the area which each station represents. This gives a more accurate average than the arithmetical means given in the monthly tables. The first column gives the normal or average district rainfall as determined from the observations of the past 25 years. The second column gives the actual district rainfall as determined from the weighted actual rainfall of the month at the reporting stations in each district. The third column expresses the ratio of the actual district rainfall of the past month to the normal rainfall as a percentage. The fourth column gives the same information as the third in a slightly different form, stating as a percentage how much the district rainfall of the month varied in excess or defect from the normal:—

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h., 10h., 16h., and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o, overcast; d, drizzling rain; p, passing temporary showers; g, gloomy.

N.B.—In the column "Miles recorded" the movement of wind from 8 A.M. of the day for which it is shown to 8 A.M. of the following day is given.

NOTIFICATION—No. 2946A.

The 26th June 1900.—An examination of candidates for recruiting the staff of the Superior Police Officers in Bengal and Assam will be held in Calcutta in November 1900 on dates to be notified hereafter.

2. At this examination only such European candidates as have been nominated by the Lieutenant-Governor of Bengal will be permitted to present themselves.

3. The candidate should submit a copy of his baptismal certificate, in the absence of which sufficient evidence as to age should be forwarded with the application for admission to the examination. His age must not be less than 19 or more than 24 years on the 30th September 1900. A medical certificate in the form annexed will be required from each selected candidate after he has passed the competitive examination and before he is appointed to the service. The certificate will be granted by a Presidency Surgeon, viz., the Professor of Midwifery, Medical College, on the requisition of the Under-Secretary to Government, to whom applications should be made. In the event of the opinion of the medical officer being unfavourable to the candidate, an appeal will lie to the Medical Board, and the decision of the Board will be final.

4. A certificate that the candidate is able to ride and is of active habits, signed by a District Magistrate or by the Commissioner of Police, Calcutta, must also be submitted.

5. Applications, accompanied by the necessary certificates, except medical certificate, must be sent to the Private Secretary to His Honour the Lieutenant-Governor not later than two months before the examination is held. Such applicants as are granted nominations will receive an intimation to that effect.

6. The subjects of examination and the number of marks to be allotted will be as follows:—

	Marks.
Writing and composition: *Impromptu* essay upon some given subject	150
Arithmetic (no special text-book) and Euclid, Books I to IV and VI; also easy Deductions ... ... Algebra up to and including the Binomial Theorem (text-book—Todhunter's Algebra) .. .. Plane Trigonometry up to and including the Solution of Triangles and Mensuration (text-book—Todhunter's Plane Trigonometry)	300
Not more than *two* of the following languages:—	
Latin, Greek, Sanskrit, Arabic, French, German, Persian or *one* of the vernacular* languages of the Province, *i.e.*, either Hindi (Kaithi character) or Bengali ...	200 each.
English History and Literature and Indian History (Elementary)	200
Geography: Asia (especially India) and Europe ...	150
Total ...	1,200

7. Candidates who have been permitted to appear at the examination must intimate to the Under-Secretary to the Government of Bengal in the Appointment Department, at least one month before the examination is held, which are the two languages in which they desire to be examined. They must at the same time remit a fee of Rs. 20, and, unless this fee is paid, will not be allowed to appear at the examination.

8. Two candidates will be selected at the next examination. The candidates who obtain the highest marks will, on their producing the required medical certificate and subject to such further examination in riding as the Lieutenant-Governor may prescribe, be appointed as Probationary Assistant Superintendents of Police. No candidate will be admitted to the department who obtains less than 500 marks in all.

9. A candidate is not allowed to compete at the examination for admission to the Police Department more than twice.

J. A. BOURDILLON,
Offg. Chief Secy. to the Govt. of Bengal.

* NOTE.—The vernacular standard will be a high one, involving a thorough knowledge of the language and ability to write and read the written character with facility.

NOTIFICATION—No 747T.F.

The 23rd June 1900.—In exercise of the powers conferred by section 7 of the Inland Bonded Warehouse Act, VIII of 1896, and with the previous sanction of the Governor-General in Council, the Lieutenant-Governor is pleased to make the following rules to regulate the transit of salt under time-bond through Bengal to Assam.

E. N. BAKER,
Secy. to the Govt. of Bengal.

Rule 1.—On receipt of an application for the conveyance of salt under a time-bond to Assam, accompanied by the requisite permit issued by the Chief Commissioner of that Province, after the due execution of the bond and on deposit of security in Government Promissory notes to the full value of the duty payable on the salt covered by the bond, the Collector of Customs shall cause the salt to be weighed and loaded under the regulations in force in the Port of Calcutta or of Chittagong, as the case may be, during its discharge from shipboard or from a warehouse licensed or appointed under the Sea Customs Act, 1878, for the purpose of being conveyed to Assam.

Rule 2.—Such salt shall during transit be at the sole risk and charge of the obligor under the bond, who shall be bound to convey it by the method and route specified in the pass in the form annexed. It shall also be protected by a wholesale rowana, and shall, during its transit through salt law limits, be subjected to the same rules and regulations as are applicable to duty-paid salt.

Rule 3.—When the salt is conveyed in bulk, whether by boat, flat, steamer or rail, it shall be stamped all over with the Government adul

If the obligor, moreover, requests it, the hatches of the flat or steamer and the doors of the railway wagons shall be sealed in presence of a Preventive officer, whether the salt is conveyed in bulk or in bags.

NOTIFICATION—No. 392T.P.

The 21st June 1900.—The following papers are published for general information.

E. N. BAKER,
Secy. to the Govt. of Bengal.

No. 67T.—Plague, dated Darjeeling, the 28th April 1900.

From—E. N. BAKER, ESQ., Secy. to the Govt. of Bengal, Municipal Dept.,
To—The Chairman of the Corporation of Calcutta.

I AM desired to draw your attention to the enclosed statement* which has been prepared from the daily plague returns furnished by you to Government and which shows very clearly the progress of the disease in the Coolootolah Ward (No. 8), now one of the most affected wards of the town. The statement brings out in a striking manner a very noticeable feature in the spread of the disease, viz., that it does not work right through a street, but fixes on particular houses, its ravages being almost entirely confined to those houses, while the rest of the street remains free from infection. You will observe that in Machua Bazar Street there have been since 1st March 151 cases in all. Of these 12 have occurred in No. 1, 14 in No. 1-1, 21 in No. 1-H, 49 in No. 14 and 26 in No. 22, while the rest of the street has been practically free from plague. Again, in Phear's Lane, out of a total of 91 houses, only 8 numbers were affected, and 4 of these had only 1 case each, while there were 11 cases in No. 80 alone. The same result will appear from an analysis of the figures for Lower Chitpur Road and Kasi Nath Mullick's Lane given in the margin. It would therefore seem that in the affected wards of Calcutta there are certain well-defined centres of plague, comparatively few in number, and that if the disease could be thoroughly eradicated from these, there would be some hope of stamping it out of the town as a whole. In Calcutta disinfection has been employed as the most efficacious method of dealing with the plague, and Government has been assured that, except in cases of previous incubation, no fresh case of plague has appeared in a house that has once been disinfected. It is therefore assumed that the numbers referred to above are not single houses, but either bastis or tenements in which many families live. If this is so, then these figures show the imperative necessity of the disinfection of the entire tenement in which a case of plague has occurred and of the whole of a basti that has once been infected. I am therefore directed to draw your special attention to the numbers in the streets quoted above, and to request you to be good enough to obtain from the Special Health Officer information as to what has been done to check the recurrence of the disease in these particular localities. In Sir John Woodburn's opinion these figures strengthen the conviction, which he has held for some time past, that it is absolutely necessary to be prepared with wider measures of disinfection—measures which these very experiences must show to the people to be essential to their preservation.

A full report should be submitted at an early date.

* To be returned.

No. P/828, dated Calcutta, the 29th May 1900.

From—W. R. BRIGHT, Esq., Chairman of the Corporation of Calcutta,
To—The Secretary to the Government of Bengal, Municipal Department.

I HAVE the honour to acknowledge receipt of your No. 67T.—Plague, dated the 28th April 1900, calling attention to the existence of plague in certain well-defined localities and calling for report.

In reply I beg to return the statement as requested, and to forward copy of a report by Major Deane, together with maps* in original, which I beg you to return after they are no longer required.

It will be noticed that your letter now under reply deals with three localities—

(a) Machua Bazar Street, | (b) Phear's Lane, | (c) Lower Chitpur Road,

while the report now submitted deals only with the first of these. The reason for not dealing with the other two at present is that the work involved in tracing these cases is a heavy additional burden on the plague staff, and that if I have to wait for a full report on all three localities, much delay will occur.

I therefore forward this report which deals with the first locality only, and if after receipt of this you require reports on the other localities, I will do my best to get them for you.

I do not propose to make any remark upon the report, except that it tends to show the value of disinfection and this is, on the whole, the general experience in this epidemic, though there are, I understand, some puzzling exceptions.

Dated Calcutta, the 21st May 1900.

From—MAJOR H. E. DEANE, R.A.M.C., Special Health Officer,
To—The Chairman of the Corporation of Calcutta

I HAVE the honour to submit this report on certain addresses specially noted by His Honour the Lieutenant-Governor in Machua Bazar. I attach a report in original by Dr. Hossack to explain the delay in preparing this statement and the difficulties that had to be contended with in re-tracing the individual cases and the places of death.

The plans* have been prepared by Dr. Hossack, whose detailed report forms the basis of these remarks.

In the part of Machua Bazar referred to by His Honour, which also comprises 7 Halliday Street and part of Syed Salley's Lane as component parts, there were 220 cases of plague from 1st January to 30th April 1900. These were accounted for by 13 addresses. The plan* marked Appendix I* will show that this part of the street is practically one large basti, and the huts are very irregularly distributed between the numbers, as reference to Appendix II* will illustrate, giving the frontage of each number, the number of huts contained and approximate population.

The red dots on the plan* represent plague cases which are seen to run eastwards from No 1 Machua Bazar, which extends almost to Harrison Road, along Syed Salley's Lane, only slightly affecting Nos. 2-13 Machua Bazar on the north to 22 Machua Bazar across Halliday Street, only slightly again affecting a large basti at No. 18 Machua Bazar. Beyond No. 22 infection spread very little.

Reference to Appendix III* will show that the infection was later in appearance from west to east.

No. 1 Machua Bazar.—Dr. Hossack reports that "out of about 70 huts, no less than 41 were affected," and of these 27 had only one case, 6 two cases, 2 three cases, 4 four cases, 1 five cases and 1 nine cases.

Special disinfections were ordered in eight huts which were showing recurrence of cases and "were more or less completely carried out. Only two complete refusals and four partial refusals (including locked doors) are formally on record. Much more difficulty, however, has been met with than has been formally recorded, as in many cases so much preliminary objection was met with that the order for special disinfection was never issued, and the objection hence never formally put on record."

"In only two huts were there recurrences after special disinfection, and regarding these more must be said—

(1) "A large two-storied hut with 14 rooms below and 20 above arranged round a large courtyard—*see* Appendix IV.*

"There is a range of shops in front shut off from the hut; normal population of hut 100." There were nine deaths from plague between 24th February and 21st March.

"On 26th February 1900 six rooms were disinfected. So far as is known none of the subsequent cases occurred in rooms disinfected on that date. Moreover, on that date two people had already become infected with the disease. On 3rd March 1900 and on 5th March 1900 14 more rooms were done and three or four were left undone. Janki was found ill the first visit to the house, and on 5th March 1900 her room was disinfected, completing the whole house disinfection as was thought, except two rooms. Apparently, however, only 20 out of the 34 rooms were done, if the figures returned are correct. Subsequent to this last disinfection are three cases—Sakhee, Chengoo, and Mathura. Sakhee was infected at the time of disinfection, however, and his room was definitely one of the rooms locked and not disinfected (confirmed by re-investigation). Chengoo came ill from another house, and was only two days in this hut before he died. The room he occupied had been previously disinfected. He is clearly an imported case."

As regards Mathura, on her death, 21st March 1900, it was found she had been ill at the time of the whole house disinfection.

"A good many of the inhabitants left, but there was nothing like evacuation. There were never less than 30—40 people in the hut. After comparatively thorough disinfection (none of the basement was left undone) cases ceased, so that the house seems a good proof of the value of disinfection."

(2) "A fairly large hut with about 20 rooms"—see Appendix V.*

There were four deaths between 3rd March and 15th April. "The first two cases were husband and wife. She was concealed in some other room when, on 4th March 1900, I went to see the room where the husband died. Both were on the ground floor. On 6th March 1900, 12 rooms were disinfected and four left. Only one of the rooms not done was on the basement—a lying-in room. The room in which Boodha got ill a month later was at this time disinfected. Paglee's room was not, though the room in which she subsequently died was disinfected. This case of Boodha is the only one I have come across in this basti of plague occurring in a disinfected room after such an interval as to eliminate the chance of the infection having been already present in the person at the time of disinfection. There is some doubt as to whether Paglee's was a case of plague at all, as a history of three months fever was given."

No. 14 Machua Bazar.—A large basti of 57 huts, all single-storied, with a population of about 1,800. Out of 57 huts, 41 have been infected with 53 cases.

In Amiran Bibi's hut, with 21 rooms below and 6 above, cases were recurring up to the 6th March, when disinfection of all the rooms was ordered and completed on the 11th March, when the cases ceased.

No other huts in this number call for special remark.

No. 7 Halliday Street.—"43 huts show 21 cases."

The huts in which two or more cases occurred show no recurrence after the disinfection.

No. 18 Machua Bazar.—"Out of 22 huts, only 3 were infected. I can offer no reason for the comparative escape of this basti. One hut had three cases and two one each. The three cases are all reported on 1st April 1900, and occurred in three rooms. Special disinfection was at first objected to, but was eventually carried out on 11th April 1900. There was no recurrence."

No. 22 Machua Bazar.—Out of 108 huts, mostly one-story, 34 were affected, 2 showing three cases, 2 showing two cases. In none of the houses did the two cases occur in the same room. No special disinfection was done."

No. 25 Machua Bazar—"Shows three cases in two huts." There is nothing special to remark.

"Infected two-storied huts show a plague incidence of nearly double that found in one-storied huts; two per hut against 1·2. That this result is more than accidental is seen on comparing No. 1 Machua Bazar, a two-storied basti, with such one-storied bastis as Nos. 14 and 22. No. 1 shows a larger proportion of its houses infected, and a greater number of badly infected houses than either of the one-storied bastis. Moreover, it is striking that in No. 22, the few huts that are badly infected are the few two-storied huts that the basti possesses."

On the general subject of disinfection, Dr. Hossack writes: "Out of 149 infected houses, 131 showed no recurrence after ordinary disinfection. After special disinfection one house showed recurrence and eight showed none."

There is only case of apparently undoubted recurrence in a disinfected room, namely, the case of Boodha, referred to above at No. 1 Machua Bazar. I am dealing specially with the subject of the spread of plague and how to deal with it in my report now under preparation. I may mention here that the facts observed in Calcutta prove conclusively the uselessness of attempting isolation and segregation in preventing the spread of the disease and point strongly to extensive disinfection as the measure alone likely to be attended with a modicum of success.

APPENDIX II (WITH MAP).*

Details of contents of numbers.

Difficulties in defining numbers and in recognising cases and disinfection from the books:—

Address No.	Frontage in yards.	Contents.	Approximate population	REMARKS.
1	2	3	4	5
1	200	70 Huts, mostly two-story	2,400	Runs to Harrison Road.
2-13	120	10 Pucka houses and 6 huts.		
14	60	57 Large huts ...	1,800	Ditto ditto.
15-17	25	3 Huts and 1 pucka house		
18	53	22 Huts	500	
19	54	Musjid and shop.		
20	...	3 Pucka houses.		
21	...	2 Huts.		
22	70	104 Huts ...	2,500	Ditto ditto.
23	50	?	?	
25-28	133	36 Huts ...	...	The greater part of this area comes under Shambu Ch. Chatterjee's Street.
7 Halliday Street.	...	43 Huts + (28 excluded).		

The numbering is so very indefinite that it was with much difficulty that the above return was compiled after much hut-to-hut visiting.

There are three guides to the number of a hut—

(1) The number actually on the hut.

(2) The number on the large scale map.*

(3) The number on the householders, taxes, receipt, &c.

The first is hardly ever present, the second is often wanting, or where it is present has no boundaries given, and the third is a subdivisional compound number which is to be found rarely on either the hut or on the map.* Moreover, it may have no relation whatever to the street in which the hut is placed. Let us take as an example 7 Halliday Street. The first guide is wanting altogether. Not a single hut was found bearing a number. The second guide, namely, the large scale map,* is also absolutely deficient, as no No. 7 appears at all. The third guide gives rather astonishing results, for a tour of personal investigation reveals that the number is distributed in three isolated patches round the intersection of two wide thoroughfares—Halliday Street and Harrison Road; that is to say, it is only part of the No. 7 cases that enter into this report and what part that it can be settled only by hut-to-hut investigation of all the No. 7 cases.

Much the same thing is found in No. 22 Machua Bazar. No hut bears the number at all as far as found; the map* defines the boundaries of only a small portion of it, and the house-to-house investigation showed that people who thought they were living in No. 22 were really in No. 18. It spreads back from its frontage (*vide* map*) so as to occupy the area behind Nos. 18-21. A large portion of it is in Nilmadhub Sen's Lane, on the south side of Harrison Road. The cases belonging to this part have had to be eliminated in making up the report. Incidentally Nilmadhub Sen's Lane for its first 200 yards shows no houses belonging to it, on our side at least, and on the other side some at least of the houses go with Bhowanichurn Dutt's Lane. But even the difficulties of numbering by no means exhaust the difficulties of indentifying a case as recorded in the books. Thus according to the books in No. 14 Machua Bazar, Amiran Bibi's hut had three cases and Sheikh Jamon's had the same. But it turns out on investigation that only one hut is referred to with six cases. Again, in 22 Sheikh Bechoo's hut shows three cases, but investigation shows that one of these occurred in another hut, but altogether belonging to another Bechoo. Again, Sheikh Fazuli's hut shows two cases and Sheikh Faljaton's hut one case, but Sheikh Fazuli and Sheikh Faljaton turn out to be one and the same.

No. 311T.—P., dated Darjeeling, the 9th June 1900.

From—E. N. BAKER, Esq., C.S.I., Secy. to the Govt of Bengal, Municipal Dept.,
To—The Chairman of the Corporation of Calcutta.

I AM directed to acknowledge the receipt of your letter No. $\frac{P}{S}$ 28, dated 29th May 1900, enclosing a report on the results of disinfection in Machua Bazar Street and the course of plague in that locality.

2. In reply I am to request that the thanks of the Lieutenant-Governor may be conveyed to Major Denne and Dr. Hossack for their interesting and valuable report. The result of the special enquiries made by these officers illustrates in a very striking manner the great importance of thoroughly disinfecting, not merely the room in which a case has occurred, but all the rooms in the same house and, as far as possible, all houses and huts in the neighbourhood whose inmates are likely to have intercourse with those of the infected building. The Lieutenant-Governor desires that the results of the enquiry may be made known as widely as possible, and that every effort may be continued to widen the scope of disinfecting measures in and around centres of infection.

3. In this connection the Lieutenant-Governor's attention has been drawn to a recent article in the papers which describes the methods by which Mr. Laird, Manager of the Union Jute Mills and a Municipal Commissioner, has succeeded in carrying out general disinfection of the quarters of his work-people. This affords an excellent illustration of the way in which really valuable assistance can be rendered by private gentlemen of influence in furthering the official measures for disinfection.

NOTIFICATION.—No. 1267J.D.

The 26th June 1900.—In exercise of the powers conferred by sections 5 and 7 of the Indian Explosives Act (IV of 1884), and with the previous sanction of the Governor-General in Council, the Lieutenant-Governor is pleased to substitute the following rules (with the forms, schedule and table referred to therein) making certain amendments in rules 17 (1), (2) and (3) (*f*) of the rules for the manufacture, possession and sale of explosives, published with the notification of the Government of Bengal, No. 4971J., dated the 23rd October 1897:—

For rule 17 (1) substitute the following:—

17 (1).—The applicant shall submit to the District Magistrate, or, in a Presidency Town and its Suburbs, to the Commissioner of Police, on application on Form G, and shall comply with the conditions embodied therein.

Cancel rule 17 (2).

Alter the numbering of rule 17 (3) to 17 (2).

For rule 17 (3) (*f*) substitute the following:—

(*f*) On the completion of the inquiry, the District Magistrate or Commissioner of Police shall forward the application and draft license with his recommendation to the Local Government. The Local Government shall then refer the aforesaid documents for approval to the Chief Inspector of Explosives, who will forward to the applicant a form H, showing the distances which should, in his opinion, be kept clear round the magazine. The form shall then be returned with the third column duly filled in by the applicant to the Chief Inspector of Explosives, who will submit it to the Local Government with his recommendation, and, if he recommends that a license be granted, a draft license accompanied by a schedule A showing the distances which, after considering any representation made by the applicant in returning the form to him, he thinks should be kept clear round the magazine. The Local Government may thereupon grant the license applied for, either in accordance with the recommendations of the District Magistrate or Commissioner of Police or Chief Inspector of Explosives, or with the additions of any additional restrictions and precautions as may be deemed proper or may refuse such license. The table of distances which will ordinarily be followed is attached to these rules.

PUBLIC WORKS DEPARTMENT.

(Railway.)

FROM D. JOSCELYNE, ESQ.,
Secretary to the Government of Bengal,

TO THE PRESIDENT, CENTRAL RAILWAY COMMITTEE.

Dated Darjeeling, the 18th June 1900.

SIR,

I AM directed to acknowledge your letter No. 19C.S., dated 2nd May 1900, intimating that the revised proposals of the Syndicate, formed for the construction of a permanent bridge over the Hooghly at Howrah and a Central Railway between Howrah and Sealdah, together with the revised plans and estimates, have been laid before the Central Railway Committee and considered by them. Your letter and the copy of the proceedings of the 5th meeting of the Committee, dated 27th April 1900, show that "with the information at their disposal, the Committee finds that the Syndicate's revised scheme (No. 3) is not in sufficient detail to enable them to form a definite opinion on its financial merits." A very detailed and critical note by

Mr. Wynne, the Agent of the Bengal-Nagpur Railway, accompanies these proceedings. The alternative proposals regarding the Bankura-Howrah chord line, mentioned by the Government of India in their letter No. 6P.R., of 5th January 1900, a copy of which was sent to the Committee, were not considered.

2. A review of the case shows that the Syndicate submitted three proposals:—

I.—(*Dated 18th February 1898*).—For a bridge over the Hooghly at Howrah and for the Central Railway from Howrah to Sealdah, with a central station; estimated to cost £1,000,000, or in Rs. 1,50,00,000.

Then the Syndicate heard that the Port Commissioners were alarmed at the possible effect of the bridge they had designed upon the river and jetties, and Sir Bradford Leslie, from his experience of the Hooghly, probably realised the validity of those fears, for he promptly prepared a revised plan for another kind of bridge, and in the Syndicate's letter of 19th August 1898 a second or alternative project was submitted—

		Rs.
II.—Bridge, railway, and central station ...	...	1,96,50,000
Avenue (to be built by the Calcutta Corporation)	...	1,50,00,000
Grand Total	...	3,46,50,000

Lastly, the Syndicate heard that there was little, if any, prospect of the Corporation undertaking the street, so they offered to make the avenue themselves, and submitted a third project, dated 29th August 1899—

		Rs.
III.—Bridge, railway, and central station as in No. II	...	2,74,25,000
Avenue	...	1,38,25,000
Grand Total	...	4,12,50,000

This is practically the same as the second proposal, the difference being that the Syndicate offers to do that portion of the whole scheme which it originally hoped some one else would do for them, and have added 66 lakhs to their figures of cost.

3. Similarly, as to the estimates of revenue, they proposed to finance the first project—

(I) By levying a toll of 1½ pies per maund on all goods, except minerals, entering or leaving Calcutta (whether they use the bridge or not). No detail was given.

In their second project they gave as follows a detailed estimate of receipts:—

		Rs.
(II) The total of 1½ pies per maund on all goods as above mentioned, except minerals which did not use the bridge, was estimated at	...	9,30,884
Net rentals from the new avenue (9,21,635, less 85,812)	...	8,25,823
Grand Total	...	17,66,707

Before the third project was prepared it was pointed out to them that they had taken credit erroneously for 3¾ lakhs on coal. In their third project they revised the coal estimate and entered a new toll on passengers. Their estimates of income in this last project stand as follows:—

			Rs.
(III)	(i) Toll on goods at 1½ pies, exclusive of coal	...	6,30,855
	(ii) Toll on coal using the bridge and on parcels	...	1,50,000
	(iii) Toll on passengers	...	3,50,000
	(iv) Net rentals on houses in their new street and of godowns, etc.	...	8,25,000
	Grand Total	...	19,55,855

The estimate for rentals and goods is less than in their second project. Thus the net increase of one lakh is due to item (iii), toll on passengers.

4. The differences in the estimates of cost and income are not so large as they seem at first sight on comparison of the totals, and the broad issues to be decided regarding them are—

(a) Could a bridge, with its Central Railway and Central Station, including approaches and junctions, be constructed for 275 lakhs?
(b) Could a roadway or avenue, for the purposes of that railway, be made for 150 lakhs?
(c) Would a toll on goods at $1\frac{1}{2}$ pies per maund yield $6\frac{1}{4}$ lakhs?
(d) Would a toil on coal using the bridge and on parcels bring in $1\frac{1}{3}$ lakhs?
(e) Would the proposed toll on passengers yield $3\frac{1}{2}$ lakhs?
(f) Is the estimate of $8\frac{1}{4}$ lakhs for rentals of sorts supported by reasonable evidence?

5. The Committee declined to go into any of these points, because on some there was not sufficient detail. The Committee was, however, expressly made a broadly representative one in the hope that, in every direction of the enquiry, there might be some members qualified by special experience to give a fairly accurate opinion on the reasonableness and propriety of the estimates. For instance, the Committee includes a number of Railway Engineers with large experience of bridge building in India, who could surely find sufficient material in the plans to enable them to give some opinion as to the soundness of the estimate for the first item (a).

The second question, the cost of the acquisition of the roadway, has been always recognised as the most indefinite part of the scheme. The Committee properly asked for details from the Syndicate. These have not been furnished, but the Committee were expressly offered the services of two experts in land acquisition in Calcutta, who could probably have given them valuable opinions on this part of the proposals Similarly, on at least three of the four items of income in the third project there are ample statistics from which a fair opinion could be formed.

6. I am to say that Sir John Woodburn hoped that the large and representative Committee would have been able to submit these main issues to the consideration of expert members, who would form themselves into Sub-Committees to deal with them. Thus the Committee would have been able to form some fairly accurate and very useful conclusions on parts, at least, of the scheme. An examination of this kind might not enable the Committee to pronounce a final and definite conclusion on the financial soundness of the scheme, but it would at least show where the weak points, if any, of it lay, and enable the Committee to advise the Government whether the estimates were sufficiently approximate to justify it in making the guarantee, without which the Syndicate will not now proceed.

7. There are three cognate issues of cardinal importance on which the opinion of the Committee would be of the greatest service to the Government:—

(i) To begin with, it has been evident in the course of the proceedings that the Railway Companies are strongly opposed to the levy of any toll at all. Now the scheme falls to the ground, unless tolls are levied on all goods that enter or leave Calcutta, whether they use the bridge or not. This universal toll is defended by the Syndicate in each of its letters. The Committee, as a large and representative body, should be able to express the opinion of the Commercial Community of Calcutta as to whether the Syndicate or the Railway Companies are right. Is the toll legitimate, and would the advantages to part of the traffic to Calcutta justify the extra charge on the whole of it?
(ii) The tax on passengers is another principle the propriety of which should be similarly examined,

(iii) There is also a third point which must not be lost sight of in this matter. The design of the bridge was entirely altered to allay the anxieties of the Port Commissioners in regard to their jetties. Are they satisfied with the new design?

8. The congestion of trade at Howrah in the present and in the near future is also a serious question. The Naihati Bridge is probably not half utilised at present—see letter No. 3876, dated 13th March 1900 (copy attached), from Agent, East Indian Railway, to Government of Bengal, and will serve the needs of through traffic, from Upper India to the Docks, for many years to come, if the East Indian Railway be quadrupled between Sitarampur and Hooghly and the Eastern Bengal Railway between Naihati and the Docks. This is estimated to cost Rs. 219 lakhs,* and if that estimate is correct would be a simpler and less costly expedient than the Central Railway scheme. It will be remembered that both the East Indian Railway and Eastern Bengal Railway have direct communication with the Docks and east side of the Hooghly River already. The Bengal-Nagpur Railway has also provided for its own wants in this respect.

	Lakhs. Rs.

	Lakhs. Rs.
Sitarampur to Hooghly, 114 miles, at 1½ lakhs	171

Total ...	219

9. On the other hand, the Syndicate shows that both passenger and goods traffic with Calcutta has enormously increased. In their Appendix III they show that during the past 24 years the volume of traffic over the Floating Bridge at Howrah has more than doubled, and assert that passage over this bridge is now both inconvenient and tedious. In regard to railway traffic, the increase in passengers on the East Indian Railway during the past 27 or 30 years is shown to be nearly 300 per cent.; in goods traffic the increase is shown to be 415 per cent., and the coal traffic is said to have increased 1,328 per cent., and is rapidly increasing. The great increase in mileage of the East Indian Railway and in the construction and development of the Bengal-Nagpur Railway system during this period is given in figures which are impressive and easily checked. In view of all these facts, it is possible that the resources of the East Indian Railway, when fully developed as indicated, may in the near future be overtaxed, and Howrah may be so congested as to be practically unworkable as a terminus; that the Bengal-Nagpur Railway Ferry at Shalimar may shortly prove to be unsuitable and unequal to the demands of its system of railways; and that a new bridge across the Hooghly at Howrah may become a pressing necessity. If the arguments in favour of a second bridge prevail, the Committee should also consider whether, for all the purposes such a bridge would serve, the site most convenient and economical would be at Howrah or further up the river, possibly at Cossipore.

10. After the consideration of all of the above questions, it would be possible for the Committee to say, with some confidence—

(1) whether the Central Railway Scheme is really wanted at present or in the near future;

(2) whether the system of tolls proposed by the Syndicate is a legitimate method of financing the scheme;

(3) whether the Syndicate's figures are sufficiently approximate to make the scheme a practicable one;

(4) whether, on the basis of these figures, the three railways are willing to contribute to the entire scheme;

(5) whether the Committee recommend a Government guarantee being given.

It may not be possible to accurately estimate the cost of the Central Railway Scheme without the aid of costly surveys and designs in full detail, but the main issues are sufficiently clear, and the probable cost can be so far approximated, from existing data, that it will be possible for the Committee to arrive at a reasonable conclusion regarding the needs of Calcutta in the near future, and whether these needs justify the proposed methods and probable outlay. I am accordingly desired by the Lieutenant-Governor to request that you will again lay the matter before your experienced and representative Committee, with an earnest hope that they will be able to share amongst them the labour of investigating the various questions to be discussed, and aid Government by the invaluable expert knowledge which they specially and collectively possess.

11. Paragraph 2 of Government of India letter No. 6R.P., of 5th January 1900, refers to the suggestion made on page 4 of the "Histories of Railway Projects" to construct only the permanent bridge at present, the three railways interested (East Indian Railway, Bengal-Nagpur Railway, and Eastern Bengal Railway) taking up the project as a joint work. The proposal is to make this part of a project for a line from Howrah to Bankura (the southern portion of the so-called Grand Chord). Such a scheme would, it was suggested, "obviate the necessity for a new station at Howrah, and would relieve the congestion of traffic between Sitarampur and Howrah, and thus the necessity for the Burdwan-Howrah chord, or the quadrupling of the line between Sitarampur and Howrah would disappear." * * * "Improved accommodation might be provided at Howrah and Sealdah, and the provision of a large Central Station and the avenue might await further consideration." The Committee has, however, given no opinion upon this project; but it is an alternative so important, and the suggestion comes from such high authority, that the Lieutenant-Governor will be greatly obliged if the Committee, when they have come to conclusions on the last paragraph, will give him the benefit of their opinions on this further project for the relief of trade from the interior to Calcutta. To assist the Committee in this matter, the following summary of information at present available is here noted:—

(a) The Naihati (Jubilee) bridge is, as yet, far from being fully utilised, and all three railways have communication with both sides of the river already.

(b) This bridge will suffice, for many years to come, to carry the East Indian Railway coal and grain traffic to the Docks. It has hitherto been the continuous policy of Government, at the instance of the Commercial Community of Calcutta, to develop trade at the Docks.

(c) The proposed new bridge at Howrah would apparently be chiefly in the interests of suburban passenger traffic, and this alone probably will not justify the outlay.

(d) The new bridge by itself would be useless. The lines connecting it with Sealdah, the Port Commissioners' Railway, and the Docks appear to be essential. A central station of some kind would be necessary, if only for passenger traffic. As the bridge would be on a high level, the viaduct must also be built and much valuable land must be taken up.

(e) The cost of this project is estimated by the Government of India at 250 lakhs: it is estimated by Mr. Wynne at 437 lakhs.

(f) The proposed Bankura-Howrah line in connection with the new bridge appears to have many advantages, but the question of the cost of the line appears to require revision, when comparing it with the cost of quadrupling the East Indian Railway from Sitarampur *viâ* Hooghly to the Docks. Mr. Wynne's figures, if at all sound, show that the approximate cost of a *double* line will be Rs. 285 lakhs instead of the 100 lakhs indicated in the

"Histories" for a *single* line. The same considerations which urge the construction of a further double line from Sitarampur towards Howrah also indicate the necessity for a *double* line on the alternative route, Jherria to Bankura. This has yet to be estimated.

(*g*) The receipts from the proposed Bankura-Howrah line would, for some time to come at any rate, diminish those on the East Indian Railway, so that the net gain would probably only be on the new traffic due to the new country opened out. With the Jubilee Bridge available, and not worked up to half of its capacity at present, it is doubtful whether the prospective new traffic over the Bankura-Howrah line (apart from the cost of the new bridge and its connections, etc.) would of itself justify the cost of the line alone.

(*h*) The cost of the Bankura-Howrah double line *cum* bridge, etc., as compared with the duplication of the line from Sitarampur *viâ* Hooghly to the Docks may be shown as follows:—

	Lakhs. Rs.		Lakhs. Rs.
Bankura to Howrah (double) line	285		285
Howrah new bridge and approaches	437		250
Total ...	722		535
Duplication (two new lines) of the Sitarampur-Hooghly line and from Naihati Bridge to the Docks	219	or	219
Difference ...	503		316

(*i*) It has been ascertained (see letter from Agent, East Indian Railway, attached) that the congestion of the East Indian Railway is only on the length Burdwan to Howrah at present, and that relief along this portion gives relief above Burdwan. Thus it may not be needful to duplicate west of Burdwan for some time to come.

(*j*) Proposals are under consideration for giving this relief at an early date, by either duplicating this portion of the line, Burdwan *viâ* Hooghly to Howrah, or making a chord (double) line from Burdwan to Howrah.

(*k*) The existing traffic between Sitarampur and Hooghly is being facilitated by—

(i) increasing the number of trains passing stations;

(ii) increasing the station-yards of the larger stations, Sitarampur, Asansol, Ondal, and Burdwan;

(iii) introducing the English system of signalling with block instruments.

(*l*) The possibility of further congestion of traffic at Howrah itself, notwithstanding the relief which can be afforded by duplication *viâ* the Jubilee Bridge to the Docks.

(*m*) The inadequacy of the present Floating Bridge for future goods and passenger traffic.

12. I am directed to point out to the Committee that the proposed Bankura-Howrah line is a continuation of the Grand Chord line of the East Indian Railway system from Gaya to Katrasgurh and Bankura. The connection with Howrah affects the whole question of the double or alternative system of routes to Calcutta. On this important question the merchants of Calcutta should, in their own interests, be able to give valuable and conclusive information in reference to the trade and prosperity of the city in the present and future.

13. The consideration of the matters noted in paragraphs 11 and 12 above will enable the Committee to advise Government—

(1) whether they approve of the partial Central Railway scheme suggested by the Government of India in the "Histories" and its connected railway between Bankura and Howrah;

(2) whether the three railways would contribute to the partial Central Railway scheme.

I have the honour to be,

SIR,

Your most obedient servant,

D. JOSCELYNE,

Secretary.

Accompaniment:

COPY of letter No. 3876, dated 13th March 1900, from the Agent, East Indian Railway Company.

No. 3876, dated Calcutta, the 13th March 1900.

From—J. DOUGLAS, ESQ., Agent, East Indian Railway Company,

To—The Secretary to the Government of Bengal, Public Works Department.

I HAVE the honour to acknowledge the receipt of your letter No. 350R., of the 3rd instant, and to reply to your enquiries *seriatim* as follows:—

(*a*) It is on the length Burdwan to Howrah only that congestion has so far been experienced. Relieving this section at once gives relief to the section beyond, inasmuch as trains can then proceed and not be kept back at stations by the congestion on the section ahead. It has to be remembered that, in addition to all the traffic from and to above Burdwan, the Burdwan-Howrah section has to deal with the many suburban passenger trains which originate from Burdwan downwards.

(*b*) I have no reason to suppose that with the section from Burdwan downwards relieved by the separate chord line, the section Sitarampur to Burdwan will not be able to carry all the traffic that will arise for some years to come. Besides the relief that will be given to this section by the Burdwan-Howrah chord in the manner stated against (*a*) on the section itself, the number of trains passing stations have been largely increased, the larger stations, Sitarampur, Assansol, Ondal, and Burdwan, have had or are having their yards very considerably added to, which admits of trains being conveniently marshalled; also—and this is a most important point—admits of trains not being kept on the running lines more than is necessary. It has been a frequent occurrence that owing to a train not being able to get into one of these larger stations because of insufficient siding accommodation, following trains have been kept waiting at all stations for many stations back, thus completely blocking the remaining line. In addition, on this section as also the Burdwan-Howrah, the English system of signalling with block instruments is being introduced, and this alone will increase the capacity of the line materially. In my opinion we are a long way still from having attained anything like the full capacity of the present lines.

I need scarcely point out that it is to the interest of the trade and the country, as well as that of the railway, not to force forward expenditure prematurely.

(*c*) The remarks in reply to (*b*) regarding the Sitarampur-Burdwan section apply practically to the Burdwan Jubilee Bridge also. On this section Hooghly station is being greatly enlarged.

(*d*) Over such a short length as the Jubilee Bridge it would be possible to pass more trains than are ever likely to be required to pass over it.

(*e*) See reply against (*b*).

(*f*) There is no desire in building the Burdwan-Howrah chord to interfere in any way with the local lines in the area this chord would traverse. This line is proposed to be built for the specific object of giving relief to the present main line, not with the view of dealing with local traffic, though doubtless when built the public may press to be allowed to avail themselves of its superior facilities. In the case of the Tarkessur Railway it is believed there would be no difficulty in coming to a suitable settlement with that Company. The Magra Tramway would, in my opinion, not be affected prejudicially: rather the reverse. In the case of the Howrah-Sheakhala light railway which the proposed chord line would run practically parallel to, that line would doubtless be affected prejudicially if the chord line were to be available to carry the local traffic of the country through which the light railway runs, but the chord line is proposed to meet a different requirement.

(*g*) Except as regards item (2), the cost of which would be approximately Rs. 30 lakhs, the East Indian Railway has put no proposals forward. The other items named would involve very large outlay, and I think from what I have stated above, it will be seen that it would be little short of folly to think of incurring any such outlay even in view of the possible future conditions suggested. The cost of the different schemes may be put down roughly at the following amounts—(1) Rs. 176 lakhs, (3) Rs. 207 lakhs, (4) Rs. 104 lakhs.

(*h*) & (*i*) I cannot reply directly to these questions. I can only say that I consider Howrah a good terminus for railway traffic. It has been decided to spend a very large amount in providing a new passenger station there—also in improving and enlarging the goods accommodation there. If the present floating bridge should prove insufficient for the traffic, it could, I presume, be enlarged and at small expense compared with the cost of the projects for a railway bridge, etc., which are being talked about. If a railway bridge should become necessary or desirable, the railways concerned would doubtless consider the question of providing it.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in conditions of sale below, to the undermentioned estate situate in the district of Nadia will be put up to sale at the Nadia Collectorate on Wednesday, the 27th June 1900, corresponding with 13th Ashar 1307 B.S.

The purchaser will be subject to the following conditions of sale :—

Conditions of Sale.

1st.—The estate to be sold to the highest bidder above the upset price, which will be fixed by the Collector at the time of sale. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him subject to the revenue fixed in perpetuity.

2nd.—The sale to be subject to the existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or, if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

Particulars of Sangata and other reefs.

The British Admiralty has given notice (No. 283 of 1900) of the following particulars respecting Sangata, and other reefs in the vicinity, off the south-east coast of Borneo :—

1. Sangata reef, which is about 1¾ miles long and three-quarters of a mile broad, consists of two coral heads with depths of 6½ to 9 fathoms between them, and surrounded by depths of over 100 fathoms; the least depth on the Northern head is 1½ fathoms, the Southern head partially dries.

   Approximate position of Southern head, lat. 0° 19′ 35″ N., long. 117° 42′ 30″ E.

   Tide ripples and discoloured water mark this reef.

2. The following coral reefs have been discovered :—

   (a) A reef which dries, oval shaped, 500 yards long, N.E. and S.W., 300 yards broad, and surrounded by depths of 11 fathoms, in approximately lat. 0° 13′ 20″ S., long. 117° 29′ 20″ E.

   (b) A reef with a depth of 1 fathom over it, circular in shape, of about one cable in diameter, and surrounded by depths of 14 fathoms, in approximately lat. 0° 12′ 55″ S., long. 117° 31′ 10″ E.

   (c) A reef with a depth of 1 fathom over it, circular in shape, of about one cable in diameter, and surrounded by depths of 20 fathoms, in approximately lat. 0° 11′ 25″ S., long. 117° 33′ 55″ E.

   About 1,100 yards N. 41° W. of the above is a reef with a depth over it of 1 fathom.

   The above reefs are not easily distinguished.

(*d*) A reef which dries, about 500 yards long, North and South, and 300 yards broad, surrounded by depths of 13 fathoms, in approximately lat. 0° 1′ 0″ N., long. 117° 32′ 30″ E.

About 2⅓ miles N. 20° W. of the above is a reef with a depth of 1 fathom over it, 100 yards in extent, and surrounded by depths of 10 to 11 fathoms.

(*e*) A reef with a depth of 3 feet over it, 400 yards long, N.N.E. and S.S.W., 300 yards broad, and surrounded by depths of 15 to 20 fathoms in approximately lat. 0° 15′ 10″ N., long. 117° 37′ 20″ E.

Seven cables southward of the above is a reef with a depth of 9 fathoms over it.

(*f*) A reef which dries, about 500 yards long, East and West, 300 yards broad, and surrounded by depths of 14 to 16 fathoms, in approximately lat. 0° 17′ 55″ N., long. 117° 34′ 25″ E.

About 1,700 yards S. 80° W. from the above is a reef with a depth of 3 feet over it and about 200 yards in extent.

(*g*) A reef with a depth of 4 fathoms over it, about 300 yards in extent, in approximately lat. 0° 22′ 30″ N., long. 117° 40′ 40″ E.

(*h*) A coral reef with a depth of 3 feet over it, circular in form, with a diameter of about 200 yards, in approximately lat. 0° 29′ 50″ N., long. 117° 44′ 30″ E.

(*i*) A reef with a depth of 1¾ fathoms over it, circular in form, with a diameter of about 200 yards, in approximately lat. 0° 31′ 5″ N., long. 117° 45′ 0″ E.

(*j*) A reef with a depth of 3 feet over it, about 300 yards long, North and South, and 200 yards broad, in approximately lat. 0° 31′ 55″ N., long. 117° 46′ 20″ E.

(*k*) A reef with a depth of 3 feet over it, circular in form, with a diamete. of about 200 yards, in approximately lat. 0° 36′ 30″ N., long 117° 49′ 55″ E.

(*l*) A reef with a depth of 1 fathom over it, about 600 yards long, N.E. and S.W , and 200 yards broad, in approximately lat. 0° 42′ 25″ N., long. 117° 56′ 35″ E.

(*m*) A reef which dries in patches, about 2¾ miles long, East and West, one mile broad, and surrounded by depths of 17 to 28 fathoms.

Approximate position of South-Western corner, lat. 0° 44′ 40″ N., long. 117° 57′ 20″ E.

About 1,100 yards to the southward of the above position is a reef with the least depth of 6 fathoms over it.

The reefs mentioned from (*d*) to (*m*) are marked by discoloured water, though sometimes only so seen at a short distance.

The following reefs do not exist and have been erased from the Charts :—

Kurau, in approximately lat. 0° 47′ N., long. 117° 51¾ E.

A reef, in approximately lat. 0° 28′ N., long. 117° 40′ E.

Bungalen reef has been unsuccessfully searched for, and has therefore been marked E.D. on the Chart.

Approximate position, lat. 0° 33½′ N., long. 117° 57¼′ E.

The depths given are reduced to low-water spring tides.

Approach to Port Adelaide.

WITH reference to Notice to Mariners No. 177, dated 16th September 1899, issued by this office, the President, Marine Board, Port Adelaide, has given further notice (No. 2 of

1900) informing Masters of vessels and others that the erection of the new Lighthouse on Wonga Shoal, Port Adelaide, will be commenced at an early date, and that during the continuance of the work a temporary riding light will be exhibited between sunset and sunrise from the works in progress on that shoal. It is expected that the new Lighthouse will be completed about January 1901.

For a period of about one month before the new light is exhibited from Wonga Shoal, the existing Port Adelaide illuminating apparatus will be removed from its present position at the entrance to the River. During its transfer to the Wonga Shoal Tower a Light of the third order, revolving every thirty seconds (as at present), visible for about fifteen (15) miles, will be exhibited from a temporary tower erected on the position now occupied by the Port Adelaide Lighthouse.

Further notices as to the precise dates of exhibition of the Riding Light at Wonga Shoal, the removal of the existing Port Adelaide Light, the exhibition of the temporary light in lieu thereof, and the first exhibition of the permanent light on Wonga Shoal, will be given in due course.

NOTE.—*This affects Admiralty Plans Nos. 1750 and 1752.*

ADMINISTRATION REPORT OF THE BENGAL METEOROLOGICAL DEPARTMENT FOR 1899-1900.

THE following report is published for general information.

F. A. SLACKE,

The 21st June 1900. *Offg. Secretary to the Government of Bengal.*

I HAVE been in charge of the Bengal Meteorological Department during the whole of the past year.

2. On the 31st March 1900 the number of observatories under my direct control was 47, *i.e.*, one more than on the same date last year. The increase is due to the establishment of a third-class observatory at Purulia, the head-quarters station of the district of Manbhum.

3. There were thus 6 second-class observatories, recording observations at 8 A.M., 10 A.M., and 4 P.M.; 37 third-class observatories, recording one set of observations at 8 A.M., and 4 voluntary observatories, three of which record observations at 8 A.M. only, and one, viz., Shortt's Island, at 8 A.M., 10 A.M., and 4 P.M.

4. The following table gives the names and distribution of these 47 observatories:—

Second-class observatories.	Third-class observatories.		Voluntary observatories.
1	2		3
Chittagong.	Arrah.	Krishnagar.	Cooch Behar.
Darbhanga.	Balasore.	Malda.	Daltonganj.

	Dinajpur.	Ranchi.	
	Faridpur.	Raniganj.	
	Gaya.	Rangpur.	
	Jalpaiguri.	Sirajganj.	
	Jessore.		

5. As stated in previous administration reports, weather telegrams from certain stations in Assam, Madras, Burma, &c., named below were received by me throughout the year for publication in the weather report issued by me. In the case of the Assam stations, viz., Dhubri, Sibsagar, and Silchar, telegrams were received during the monsoon period only, viz., May to October, for inclusion in the weather report, and for the rest of the year on post-card form for publication in the Bengal monthly meteorological table:—

OBSERVATORIES SITUATED IN—

Assam.	Bengal.	Ceylon.	Burma.	Madras.

			Rangoon.	Nellore.
			Tavoy.	Negapatam.
				Madras.
				Vizagapatam.

6. *Inspection of Observatories.*—Eight observatories were inspected during the past year. The following table gives the names of the stations inspected, the date of inspection, &c.:—

Station.	Date of inspection.	Inspected by—
1	2	3
Bogra ...	25th and 26th November	Mr. C. Gaetane, an officer of the India Meteorological Office.
Cuttack ...	29th January ...	Meteorological Reporter to the Government of India.
Chaibassa ...	30th and 31st January ...	Mr. C. Gaetane.
Dinajpur ...	16th and 17th November	Ditto.
Jalpaiguri ...	22nd and 23rd November	Ditto.
Puri ...	31st January ...	Meteorological Reporter to the Government of India.
Purnea ...	19th and 20th November	Mr. C. Gaetane.
Rangpur ...	29th and 30th October ...	Ditto.

All the observers have been well spoken of, more especially those at Cuttack and Puri, who have been highly praised by Mr. Eliot.

7. *Second-class observatories.*—None of these were inspected during the past year; but judging from the observations submitted, all the observers did good work. Darjeeling requires special mention, as during the past year great improvement has taken place under Mr. Gardner, a Government pensioner and the steward of St. Paul's School, Darjeeling. The observations throughout the year were accurate, and the various returns were submitted with care and punctuality.

8. *Third class observatories.*—The observers at *Berhampore*, *Bhagalpur*, *Bogra*, *Burdwan*, *Cuttack*, *Dinajpur*, *Krishnagar*, *Malda*, *Narayanganj*, *Patna*, *Puri*, *Raniganj*, and *Ranchi* submitted accurate observations throughout the year. The observations received from *Barisal* have greatly improved. With the exception of *Faridpur*, *Rangpur*, *Purnea*, and *Motihari*, all other observers did good work. The most neglected observatory was *Purnea*, where the observer, who is a Civil Hospital Assistant, seems to be most careless in his work. This observatory was inspected on the 19th and 20th November 1899, and it is much to be regretted that the observer did not benefit by the inspection.

9. *Voluntary observatories.*—In my administration report for 1898-99 I remarked that the observations taken at *Shortt's Island* by Mr. W. D'Crutz were not so accurate as those of Mr. Tasker, who resigned in December 1898, and I expressed a hope that the accuracy would improve with practice. It gives me pleasure to note that the observations have considerably improved during the past year and the thanks of the Department are due to Mr. D'Crutz for the trouble he has taken in continuing the observations started by Mr. Tasker. Very accurate observations were received from *Cooch Behar* and *Daltonganj*.

The observatory at *Purulia* was started on the 1st August 1899. The thermometer shed is in front of the district jail; the barometer is in the office-room of the Superintendent of the jail, and the wind instruments have been fixed to the highest part of the parapet over the doorway leading to the jail. The exposure of the instruments is all that could be desired. During the first few months after its establishment, the observations submitted were untrustworthy, more especially those of the barometer and anemometer. This was chiefly due to the observer being new to the work. I endeavoured to have the

observatory inspected with a view to test the condition of the instruments and to train the observer, but the Meteorological Reporter to the Government of India refused to sanction the necessary travelling expenses of an inspecting officer. The observations have since improved, though not to the extent desirable.

10. A new thermometer shed was erected at Jalpaiguri on a site free from the influence of the newly-erected two-storied telegraph-office building, alluded to in paragraph 4 of my last administration report, and the thermometers were removed to the new shed on the 28th July 1899.

11. The position of the Malda observatory has never been satisfactory. It became even less so owing to the erection of a hut and to the planting of trees close to the shed, which is situated in the Malda hospital grounds. I have therefore arranged for the erection of a new thermometer shed in the circuit-house compound on a site selected by the local authorities (which is believed to be good) and not far from the old site.

12. The following observers were granted special awards by the Meteorological Reporter to the Government of India for storm observations, &c., taken during the past year :—

Station.	Amount.	Station.	Amount.
1	2	3	4
	Rs.		Rs.
Burdwan	3	Saugor Island	2-8
Puri	2	Shortt's „	60
Purnea	1	Pamban	21
Rampur Boalia ...	3-8		

13. *Work at and inspection of rain-gauge stations.*—The number of rain-gauge stations on the 31st March 1900 was 355, *i.e.*, 6 stations more than on the corresponding date in 1899. The increase is due to the establishment of the following stations :—

(1) Budge-Budge ...	...	24-Parganas district.
(2) Tala ...	...	Khulna „
(3) Deo ...	...	Gaya „
(4) Bano ...	...	Ranchi „
(5) Kurdeg ...	...	Ranchi „
(6) Hiranpur ...	...	Sonthal Parganas „

14. Considerable activity was shown by the local officers in certain districts in the inspection of rain-gauges during the past year. Two hundred and twelve visits of inspection were made, and it is satisfactory to note that on the whole the rain-gauges were found in good condition, the rainfall records properly kept, and the rain-registering officers well acquainted with their work.

15. The following table shows the distribution of the 355 rainfall-stations in the various districts in Bengal as it stood on 31st March

1900 and the number of stations inspected in each district during the past year:—

DISTRICT.	Number of rain-gauge stations.	Number of rain-gauge stations inspected.	DISTRICT.	Number of rain-gauge stations.	Number of rain-gauge stations inspected.

16. From the above table, it will be seen that no rain-gauges in the Burdwan, Murshidabad, Cooch Behar, Faridpur, Hill Tippera, Chittagong Hill Tracts, Shahabad, Saran, Darbhanga, and Balasore districts were inspected during the past year, while in the districts of Bankura, Midnapore, Khulna, Jalpaiguri, Darjeeling, Rangpur, Dacca, Backerganj, Chittagong, Gaya, Shahabad, Muzaffarpur, Bhagalpur, Malda, Sonthal Parganas, Cuttack, Puri, Ranchi, and Singhbhum nearly half or more than half of the number of stations were not visited.

17. Hitherto rain-gauges and measure glasses were supplied to the rain-registering officers by the Mathematical Instrument Office of the Survey of India Department on indents countersigned by the Collector of the district concerned and the Meteorological Reporter, Bengal. This practice was found to entail considerable delay at times in the supply of rain-gauges, etc. ; and to effect an improvement in this direction, an arrangement has been sanctioned by the Government of India, by which all rain-gauges, measure glasses and receiving bottles are now supplied by this office. A number of instruments of each kind are obtained on loan from the Mathematical Instrument Office, and whenever the breakage of a measure glass is reported, or when a rain-gauge is required to be replaced, new instruments are immediately supplied, and an indent signed by the District Officer is forwarded to the Superintendent, Mathematical Instrument Department, to enable him to raise the necessary debits against the District Officers for the realization of the cost of the instruments supplied in the usual way. This arrangement has worked satisfactorily during the year under review.

18. *Departmental reports.*—The short annual report on the meteorology of Bengal in the year 1898, with two maps illustrating the actual and percentage rainfall, was prepared and submitted to the Government of Bengal on the 28th July 1899 for incorporation in the Bengal Administration Report.

At the instance of the Inspector-General of Civil Hospitals, Bengal, the Government of Bengal ordered the preparation of this report (which had hitherto

been prepared in July or August) in March in future. The report for 1899 was therefore prepared in March, and an advance copy sent to the Inspector-General on the 13th March 1900. The report for 1899 was submitted to the Government of Bengal on the 30th March 1900.

The report on the meteorology of Bengal for the monsoon season of 1899 was prepared and submitted to Government with the usual number of illustrative charts prepared by hand. It was submitted to the Government of Bengal on the 2nd January 1900.

The monthly rainfall table of Bengal and the meteorological table of Bengal and Assam continued to be published in the *Calcutta Gazette.*

The charts showing the distribution of actual rainfall, the variation from the normal, and the percentage rainfall in Bengal were prepared by hand during the monsoon season, viz., May to October 1899, and submitted to the Government of Bengal and the Sanitary Commissioner for Bengal about the middle of every month.

The Bay of Bengal and Bengal daily weather report, dealing with the observations taken at 66 meteorological observatories, was published from 1st May to 31st October. It was then replaced by the Bay of Bengal report, dealing with observations taken at 28 stations, which report was published during the rest of the year. Both the reports were published daily, including Sundays and holidays, and were delivered to the subscribers in Calcutta between 11 and 2 o'clock in the afternoon.

19. The daily flag-signal message to Saugor Island and the daily weather telegram to the Port authorities at Madras, Akyab, Rangoon, Moulmein, Negapatam, Coconada, Portonovo, Cuddalore, and Colombo were continued throughout the year. This weather telegram was sent to the Port Officer, Chittagong, from 16th May to 15th November as usual.

20. The system of forwarding meteorological information from the pilot-brigs at the Sandheads by flag hoists and that of forwarding a telegraphic summary of the weather experienced by Commanders of the steamers of the British India Steam Navigation Company during their voyages from Madras to Rangoon, Calcutta to Rangoon, etc., have been continued.

21. The thanks of the Department are due to the tea and indigo-planters, to the Moravian Missionaries at Pedong, and to Mr. Montgomery of Yatung (in Tibet), who have kindly sent rainfall returns during the past year; also to the Surveyor-General, Ceylon, for sending meteorological observations taken at Colombo and Trincomalee for the daily weather report, and to Messrs. Mackinnon, Mackenzie and Company, the Agents of the British India Steam Navigation Company, for allowing the Commanders of their vessels to telegraph the summary of the weather experienced during their voyages.

22. Warnings of expected rainfall were sent to—

The Traffic Manager, East Coast Railway.
The Engineer-in-Chief, East Coast Railway.
The Superintending Engineer, Orissa Circle, Cuttack.
The Executive Engineer, Jajpur Division, Akhoyapada.
Ditto, Balasore Division, Balasore.
The Proof Officer, Balasore.
The Superintendent of Telegraphs, Bengal Division.

23. Information of the occurrence of heavy rainfall at certain stations in Bengal was sent by telegram to the District Engineer, Roopnarain district, Bengal-Nagpur Railway, at Kola, and to the Sub-Engineer, Dehri Workshops.

24. *Storm Signals.*—The revised scheme of storm signals for general use, except on the river Hooghly, which was brought into operation from 1st April 1898, and under which arrangement the ports at Puri, False Point, and Chittagong were provided with the larger set of signals, and those at Narayanganj, Balasore, and Chandbali with the smaller set of signals, worked satisfactorily.

25. The dates of the principal storms and barometric depressions occurring during the past year are given in the first of the two following tables, and

the action taken in the matter of issuing storm warnings and hoisting storm signals is indicated in the second of these tables:—

Table giving a brief statement of the storms which affected the Bay of Bengal Coasts during the year 1899-1900.

Number of storm.	Period of depression or storm.	Character of storm.	Coast affected.
1	2	3	4
1	May 1st to 4th ...	There were signs of disturbance in the Andaman Sea during the last days of April, and on the 1st of May the centre of a small cyclonic storm of some severity was near Diamond Island, moving northwards. The total area affected by the storm was small, but within that area the gradient was steep, and there were strong winds with rough sea.	Burma and Arakan coasts.
2	August 10th and 11th ...	Barometric depression, which formed over the north of the Bay about the beginning of the second week of August, and moved in an almost due westerly direction towards the Orissa coast, and before crossing the coast became fairly well defined with a rather steep gradient towards the south and east.	Orissa and Bengal coasts.
3	September 21st to 24th ...	Cyclonic storm of moderate severity, which began about the 18th, probably in the south of the Bay, and moving northwards crossed the coast into Bengal near Saugor Island. The most noteworthy feature of the disturbance was connected with the rainfall in its being unusually heavy in parts of the track of the central area.	Ditto.
4	October 14th to 16th ...	Barometric depression, which appeared off the coast of the Circars on the 14th, and moving almost parallel to the coast line was in the north-west angle of the Bay on the morning of the 15th, and in East Bengal on the 16th, after which it rapidly filled up.	Circars and Orissa coasts.
5	October 23rd to 27th ...	This depression began in the extreme south-west of the Bay on the 22nd. The main feature of the disturbance, while it was in the neighbourhood of the Madras coast, was the heavy rainfall, especially at Negapatam, which received about 25 inches; and it is possible that this remained the most important feature throughout its movement northwards. But the strong winds at Diamond Island between the 26th and 30th show that squally or stormy weather probably prevailed for some days in the south and south-east of the Bay. Only a shallow depression reached the north of the Bay, and crossed the coast between Saugor Island and Chittagong on the 27th.	Coromandel and Circars coasts.
6	November 12th ...	A cyclonic storm of small extent, but of great severity crossed the Madras Coast near Negapatam in the early part of the day. The part of the coast affected by the storm extended about ten miles on either side of that port; and the time during which hurricane winds lasted was about three hours.

RESOLUTION ON THE WORKING OF THE EDEN SANITARIUM AND HOSPITAL FOR THE YEAR 1899.

MUNICIPAL DEPARTMENT.—MEDICAL.

Darjeeling, the 21st June 1900.

RESOLUTION—No. 1030T.—M.

READ—

The report on the working of the Eden Sanitarium and Hospital for the year 1899.

Read also—

The report for the year 1898 and the Resolution recorded upon it.

The title of the Institution was during the year changed from Eden Sanitarium to Eden Sanitarium and Hospital—a name which shows more clearly the present object of the Institution. A hospital block is under construction, and a part of the present buildings has been set aside for hospital cases and is kept open all the year round. This alteration in character accounts for the increase in the death-rate from ·60 to 2·8. The number of operations was only 84, but when the new operating rooms are completed there will no doubt be an increase in the number of important cases sent here for operation.

Though the buildings escaped unhurt from the cyclone of September last, considerable damage was done to the grounds. The total admissions were larger than last year, and would no doubt have been still higher but for the interruption of communication and the feeling of insecurity caused by the storm.

The total number of admissions during the past ten years is shown in the following table:—

ADMISSIONS.	1890.	1891.	1892.	1893.	1894.	1895.	1896.	1897	1898.	1899.
1	2	3	4	5	6	7	8	9	10	11
Patients	316	356	370	328	314	347	362	356	376	352
Relatives and attendants ...	86	151	44	31	35	73	102	57	40	76
Total ...	402	507	414	359	349	420	464	413	416	428

The number of residents in each class during the past four years is shown in the statement below:—

CLASS.	1896.	1897.	1898.	1899.
First class ...	47	37	62	68
Intermediate class ...	82	95	72	56
Second class ...	152	146	163	145
Third class ...	183	135	119	159
Total ...	464	413	416	428

There were 296 adult persons treated and 58 children, or a decrease of 24 compared with the total number of the preceding year. The daily average number of patients was 38·64 against 42·62 in the previous year. Debility and malarial fever were the most common complaints, and accounted for 70 and 66 admissions respectively.

Seven free beds were maintained during the year, four of which were for the benefit of patients sent up from the Calcutta hospitals and were paid for by the Institution. The other three are supported by memorial funds and are specially reserved for children. In addition, the Superintendent has Rs. 500 placed at his disposal for this purpose. There is still, however, plenty of room for public charity to supplement and extend this most useful form of help.

The total income of the Institution amounted to Rs. 36,800 against Rs. 37,882 in 1898. The expenses decreased from Rs. 36,774 to Rs. 34,398, thus leaving a larger profit than last year. In spite of heavy expenditure necessitated by the landslip, the financial condition of the Institution is promising. The average daily cost per patient declined from Re. 1-8 to Re. 1-6, owing no doubt to the larger number of third class patients, for whose comfort many improvements have been made.

The Lieutenant-Governor is glad to learn that the superior establishment of the Institution performed their duties satisfactorily. His acknowledgments are due to the Superintendent and to the Committee of Management for the efficient working of the Sanitarium and Hospital during the year.

By order of the Lieutenant-Governor of Bengal,

E. N. BAKER,

Secy. to the Govt. of Bengal.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o, overcast; p, passing temporary showers; t, thunder; d, drizzling rain.
